SSR MINING REPORTS FIRST QUARTER 2021 RESULTS

ADJUSTED ATTRIBUTABLE EPS OF \$0.47 PER SHARE

DENVER, CO - SSR Mining Inc. (NASDAQ/TSX: SSRM, ASX:SSR) ("SSR Mining" or "the Company") reports consolidated financial results for first quarter ended March 31, 2021. In addition, the Board of Directors declared a quarterly cash dividend of US\$0.05 per common share, payable on June 14, 2021 to holders of record at the close of business on May 17, 2021. This dividend qualifies as an 'eligible dividend' for Canadian tax purposes.

Rod Antal, President and CEO said, "The first quarter of 2021 represented another strong operational and financial quarter for SSR Mining as we delivered production of 196,094 gold equivalent ounces at an AISC of \$1,004 per ounce and generated \$77 million of free cash flow.

The operational consistency of our four operating sites combined with our peer leading free cash flow generation has allowed us to come full circle with our 2021 capital allocation program and supplement our existing \$44 million per year base dividend with a sizeable share buyback program of up to \$150 million. The combination of the base dividend and our share buyback program will align our peer leading free cash flow yield with our capital returns yield.

From a growth perspective, we continue to invest in and advance our large brownfield organic portfolio across Turkey, the US and Canada. At Çöpler, the flotation plant construction is on-track for commissioning mid-year and will drive stronger operational performance in the 2nd half of the year. In addition, step-out and infill drilling at Ardich continues to support resource expansion and conversion as we continue to progress this sizeable, low capital intensity asset into production by 2023. Exploration updates detailing the positive progress across targets at Marigold, Çöpler, and Seabee are expected over the course of the year."

First Quarter 2021 Highlights:

(All figures are in U.S. dollars unless otherwise noted)

- **Robust quarterly operating performance across all four operations:** Delivered first quarter production of 196,094 gold equivalent ounces at AISC of \$1,004 per gold equivalent ounce, on track to meet full-year guidance ranges.

- **Capital allocation framework in place:** The Board declared the first quarterly cash dividend of \$0.05 per share on February 17, 2021. Subsequent to the quarter-end, the Company announced that it has received acceptance from the Toronto Stock Exchange, to initiate a Normal Course Issuer Bid permitting SSR Mining to purchase for cancellation up to 10,000,000 common shares of the Company, representing 4.5% of SSR Mining's total issued and outstanding common shares.
- **Released year-end 2020 Mineral Reserves and Resources:** Gold Mineral Reserves increased 5% to 8.0 million ounces (9.0 million gold-equivalent ounces), while gold Measured and Indicated Mineral Resources increased 14% to 15.0 million ounces (27.0 million gold-equivalent ounces).

- **Marigold had record material movement and the Mineral Resource grew:** Delivered gold production of 67,936 ounces for the first quarter as the mine moved a record 23.8 million tonnes of material. The record movement was achieved despite a 35 day scheduled maintenance shutdown of the largest shovel. Indicated Mineral Resources increased by 9% for a total of 5.4 million ounces of gold compared to 4.9 million ounces at year-end 2019. Mineral Resources increased at Mackay, Red Dot, New Millennium, Crossfire and Valmy.
