# Cautionary Notes

## Cautionary Note Regarding Forward-Looking Information and Statements

Except for statements of historical fact relating to us, certain statements contained in this presentation (including information incorporated by reference herein) constitute forward-looking information, future oriented financial information, or financial outlooks (collectively “forward-looking information”) within the meaning of Section 27A of the Securities Act of 1933, as amended (the “Securities Act”), and Section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), and are intended to be covered by the safe harbor provided for under these sections. Forward-looking information may be contained in this document and our other public filings. Forward-looking information relates to statements concerning our outlook and anticipated events or results and in some cases, can be identified by terminology such as “may”, “will”, “could”, “should”, “expect”, “plan”, “anticipate”, “believe”, “intend”, “estimate”, “projects”, “predict”, “potential”, “continue” or other similar expressions concerning matters that are not historical facts, as well as statements written in the future tense. When made, forward-looking statements are based on information known to management at such time and/or management’s good faith belief with respect to future events. Such statements are subject to risks and uncertainties that could cause actual performance or results to differ materially from those expressed in the Company’s forward-looking statements. Many of these factors are beyond the Company’s ability to control or predict. Given these uncertainties, readers are cautioned not to place undue reliance on forward-looking statements. Financial and operational figures presented in this presentation may not add due to rounding. Maps included within this presentation are provided for illustrative purposes only.

The key risks and uncertainties include, but are not limited to: local and global political and economic conditions; governmental and regulatory requirements and actions by governmental authorities, including changes in government policy, government ownership requirements, changes in environmental, tax and other laws or regulations and the interpretation thereof; developments with respect to global pandemics, including the duration, severity and scope of a pandemic and potential impacts on mining operations; risks and uncertainties resulting from the Incident at Çöpler, including if, when, and under what conditions we will be able to resume operations, if at all, and any impact of the incident on our operations in Türkiye, described in our most recent Annual Report on Form 10-K; and other risk factors detailed from time to time in the Company’s reports filed with the Securities and Exchange Commission (“SEC”) on EDGAR at [www.sec.gov](http://www.sec.gov) the Canadian securities regulatory authorities on SEDAR at [www.sedarplus.ca](http://www.sedarplus.ca) and on our website at [www.ssrmining.com](http://www.ssrmining.com).

Forward-looking information and statements in this presentation include any statements concerning, among other things: all information related to if, when, and under what conditions we will be authorized to resume the Company’s Çöpler operations, including timelines, outlook, preliminary costs and remediation plans, forecasts and outlook; preliminary cost reporting in this document; timing, production, operating, cost, and capital expenditure guidance; our operational and development targets and catalysts and the impact of any suspensions on operations; the results of any gold reconciliations; the ability to discover additional ore; the generation of free cash flow and payment of dividends; matters relating to proposed exploration; communications with local stakeholders; maintaining community and government relations; negotiations of joint ventures; negotiation and completion of transactions; commodity prices; Mineral Resources, Mineral Reserves, conversion of Mineral Resources, realization of Mineral Reserves, and the existence or realization of Mineral Resource estimates; the development approach; the timing and amount of future production; the timing of studies, announcements, and analysis; the timing of construction and development of proposed mines and process facilities; capital and operating expenditures; economic conditions; availability of sufficient financing; exploration plans; receipt of regulatory approvals; timing and impact surrounding suspension or interruption of operations as a result of regulatory requirements or actions by governmental authority; any and all forecasts and outlooks relating to the CC&V transaction, timing and realized value and benefits of the development of the CC&V property, including timing of exploration, construction and production, and available liquidity resulting from the CC&V transaction; other timing, exploration, development, operational, financial, budgetary, economic, legal, social, environmental, regulatory, and political matters that may influence or be influenced by future events or conditions.

Such forward-looking information and statements are based on a number of material factors and assumptions, including, but not limited in any manner to, those disclosed in any other of our filings on EDGAR and SEDAR, and include: the uncertainty related to and the assumptions made in respect of the Company’s Çöpler operations as a result of the incident and any impact of such incident on our operations in Türkiye as described above; the inherent speculative nature of exploration results; the ability to explore; communications with local stakeholders; maintaining community and governmental relations; status of negotiations of joint ventures; weather conditions at our operations; commodity prices; the ultimate determination of and realization of Mineral Reserves; existence or realization of Mineral Resources; the development approach; availability and receipt of required approvals, titles, licenses and permits; sufficient working capital to develop and operate the mines and implement development plans; access to adequate services and supplies; foreign currency exchange rates; interest rates; access to capital markets and associated cost of funds; availability of a qualified work force; ability to negotiate, finalize, and execute relevant agreements; lack of social opposition to our mines or facilities; lack of legal challenges with respect to our properties; the timing and amount of future production; the ability to meet production, cost, and capital expenditure targets; timing and ability to produce studies and analyses; capital and operating expenditures; economic conditions; availability of sufficient financing; the ultimate ability to mine, process, and sell mineral products on economically favorable terms; and any and all other timing, exploration, development, operational, financial, budgetary, economic, legal, social, geopolitical, regulatory and political factors that may influence future events or conditions. While we consider these factors and assumptions to be reasonable based on information currently available to us, they may prove to be incorrect.

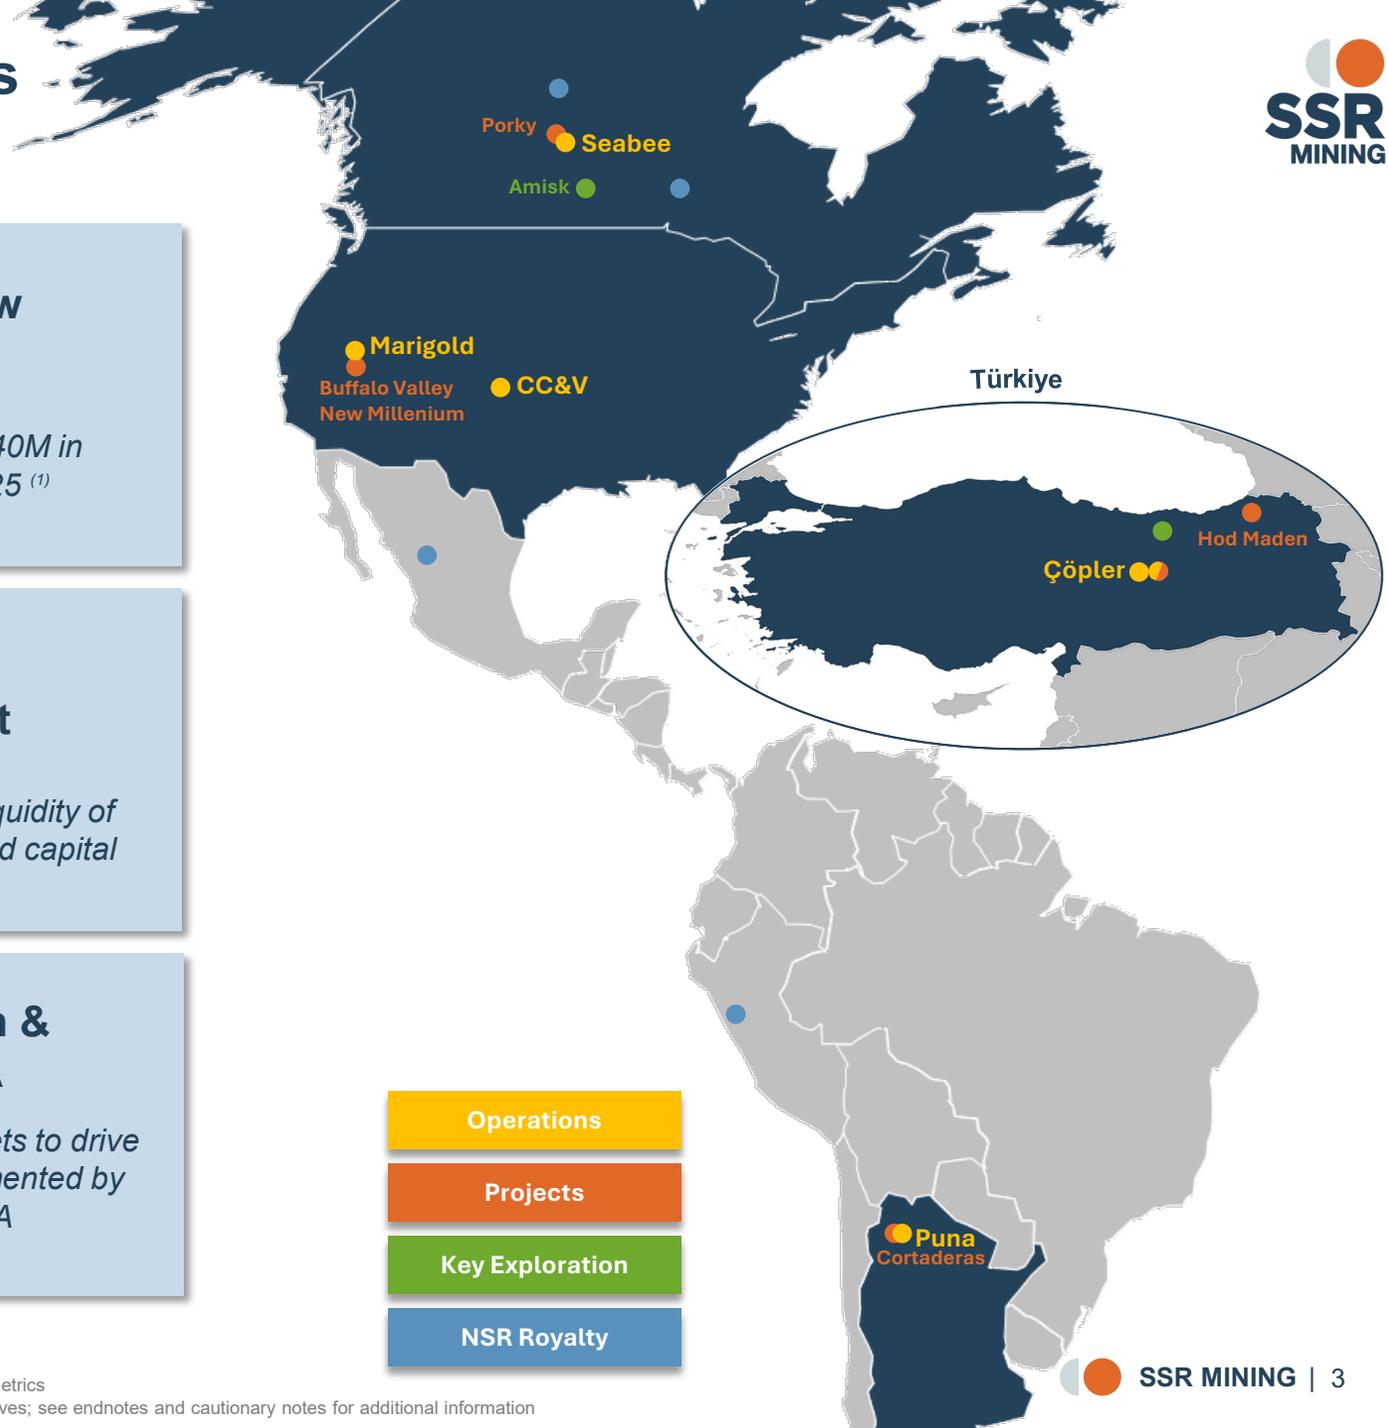

Such factors are not exhaustive of the factors that may affect any of the Company’s forward-looking statements and information, and such statements and information will not be updated to reflect events or circumstances arising after the date of such statements or to reflect the occurrence of anticipated or unanticipated events. Forward-looking information and statements are only predictions based on our current estimates and assumptions. Actual results may vary materially from such forward-looking information. Other than as required by law, the Company does not intend, and undertake no obligation to update any forward-looking information to reflect, among other things, new information or future events. The information contained on, or that may be accessed through, our website is not incorporated by reference into, and is not a part of this document. ## Cautionary Note Regarding Non-GAAP Financial Measures

This presentation includes certain non-GAAP financial measures to assist in understanding the Company’s financial results. The non-GAAP financial measures are employed by us to measure our operating and economic performance and to assist in decision-making, as well as to provide key performance information to senior management. We believe that, in addition to conventional measures prepared in accordance with GAAP, certain investors and other stakeholders will find this information useful to evaluate our operating and financial performance; however, these non-GAAP performance measures – including total cash, total debt, net cash (debt), cash costs, all-in sustaining costs (“AISC”) per ounce sold, adjusted net income (loss) attributable to shareholders, cash generated by (used in) operating activities before changes in working capital, free cash flow, free cash flow before changes in working capital, and mine site free cash flow – do not have any standardized meaning. These performance measures are intended to provide additional information and should not be considered in isolation or as a substitute for measures of performance prepared in accordance with GAAP. Our definition of our non-GAAP financial measures may not be comparable to similarly titled measures reported by other companies. These non-GAAP measures should be read in conjunction with our consolidated financial statements. Readers should also refer to the endnotes in this presentation for further information regarding how the Company calculates certain of these measures.

# 2025 Fourth Quarter Results

## Quarterly Operating Summary

- Q4/25 production of 120.3 k GEOs at cost of sales of \$1,613/oz and AISC of \$2,250/oz (\$2,002 ex. costs incurred at Çöpler)<sup>(1)</sup>
  - At Marigold, production was 42.8 koz gold at cost of sales of \$1,825/oz and AISC of \$2,089/oz
  - At CC&V, production was 39.4 koz gold at cost of sales of \$1,279/oz and AISC of \$1,596/oz
  - At Seabee, production was 8.9 koz gold at cost of sales of \$2,435/oz and AISC of \$3,433/oz
  - At Puna, production was 2.1 Moz silver at cost of sales of \$20.13/oz and AISC of \$18.39/oz
  - At Çöpler, reclamation & remediation spend totaled \$7.4 million and care & maintenance costs totaled \$41.0 million

## Liquidity and Balance Sheet as of December 31, 2025

- Cash and cash equivalent balance of \$534.8 million
- Total liquidity of \$1.0 billion includes undrawn \$400 million revolving credit facility and \$100 million accordion feature<sup>(1)</sup>
- Operating cash flow of \$172.1 million and free cash flow of \$106.4 million in the quarter<sup>(1)</sup>
- SSR Mining's Board of Directors approved share buyback program of up to \$300 million

## Exploration & Development Activities

- On November 10, 2025, published a Technical Report Summary ("TRS") for its CC&V mine with an \$824M NPV<sub>5%</sub> and 2.8 Moz of gold Mineral Reserves supporting initial 12-year mine plan; additional 4.8Moz M&I and 2.0Moz Inf. provide optionality for future growth<sup>(2)</sup>
- At Hod Maden, \$33.8 million spent during the quarter as engineering and initial site establishment efforts progressed
- In Q1 2026, published a TRS for the Hod Maden development project with a \$1.7B NPV<sub>5%</sub> and 39% IRR at consensus commodity prices<sup>(2)</sup>
- Continuing to advance key brownfield growth projects across the portfolio, including Buffalo Valley at Marigold, Cortaderas at Puna, and Porky at Seabee

**Strong Financial Position Supports Growth & Capital Commitments**

## Share Buyback Program

- SSR Mining's Board of Directors approved a share buyback program of up to \$300 million
- Given the Company's strong free cash flow projections and its portfolio of growth opportunities, the Company sees significant value to its shareholders in pursuing a share buyback program
- Share buybacks have historically been an important part of SSR Mining's capital return strategy
- Between 2021 and 2024, ~20 million shares repurchased at an average price of \$15.76/share

# 2025 Mineral Reserves & Mineral Resources

## Highlights

- 2025YE total attributable P+P Mineral Reserves of 11.0Moz gold equivalent, increased 38% YoY inclusive of mined depletion
- 2025YE M&I Mineral Resources, exclusive of Mineral Reserves, of 9.5Moz gold equivalent and Inferred Mineral Resources of 5.1Moz gold equivalent, increased 82% and 95% YoY, respectively
- Mineral Reserve commodity price assumptions remain conservative at \$1,700/oz Gold, \$20.50/oz Silver, \$0.90/lb Lead, \$1.15/lb Zinc and \$3.50/lb Copper
- Following the completion and issuance of Technical Report Summaries for CC&V and the Hod Maden development project, the Company is now able to incorporate these properties into its consolidated MRMR statements <sup>(2)</sup>
- SSR Mining has a pipeline of highly prospective brownfield growth projects across the regional properties in Canada, USA, Türkiye, and Argentina as it targets longer-term growth potential

# Third Largest Gold Producer in the USA

## Nearly 6Moz of Gold Mineral Reserves in the US

- CC&V hosts 2.7 Moz of gold Mineral Reserves, plus an additional 4.8 Moz of M&I Mineral Resources (exclusive of Reserves) and 2.0 Moz of Inferred Mineral Resources
- Combined with Marigold, SSRM's second US gold mine in Nevada, total Mineral Reserves in the USA is nearly 6 Moz Au across two core assets each with operating mine lives in excess of 10 years
  - Significant Mineral Resource endowment across both operations presents considerable potential for growth in the future
- SSRM continues to evaluate additional opportunities for future growth at CC&V, including additional resource development and exploration drilling across the property

## After-Tax NPV<sub>5%</sub> Sensitivity (\$M)

## Commentary

- After-tax NPV<sub>5%</sub> of \$824 million at consensus gold prices averaging \$3,240/oz over the LOM; increases to \$1.5B at a gold price of \$4,000/oz
- Average annual production of 141 koz Au over first three years, generating \$196 million and \$128 million in average annual operating cash flow and free cash flow, respectively, at consensus gold prices
  - At \$4,000/oz Au, average annual operating cash flow and free cash flow of \$235 million and \$168 million, respectively, over same three-year period
- Active mining continues to 2036, with 26 years of total gold production
- Based on \$100 million upfront cash payment, forthcoming contingent payments, realized mine-site free cash flow and TRS free cash flow projections, the acquisition of CC&V has an implied after-tax transaction IRR of +100%

<sup>(1)</sup> Total capital costs include sustaining capital, development capital, and reclamation. <sup>(2)</sup> The Company reports non-GAAP financial measures including FCF and AISC per ounce sold (a common measure in the mining industry), to manage and evaluate its operating performance at its mines; All cash flow figures are presented after tax. FCF is calculated as operating cash flow less capital costs. AISC include costs associated with non-cash inventory movements; please see endnotes and cautionary notes for a discussion on non-GAAP metrics: 2025 Production illustrated in the graph above represents the full-year guidance range of 90koz to 110koz Au attributable to SSR Mining as well as the 28 koz attributable to prior ownership for the period of January 1 to February 28, 2025

# Seabee: High-Grade Underground in Canada

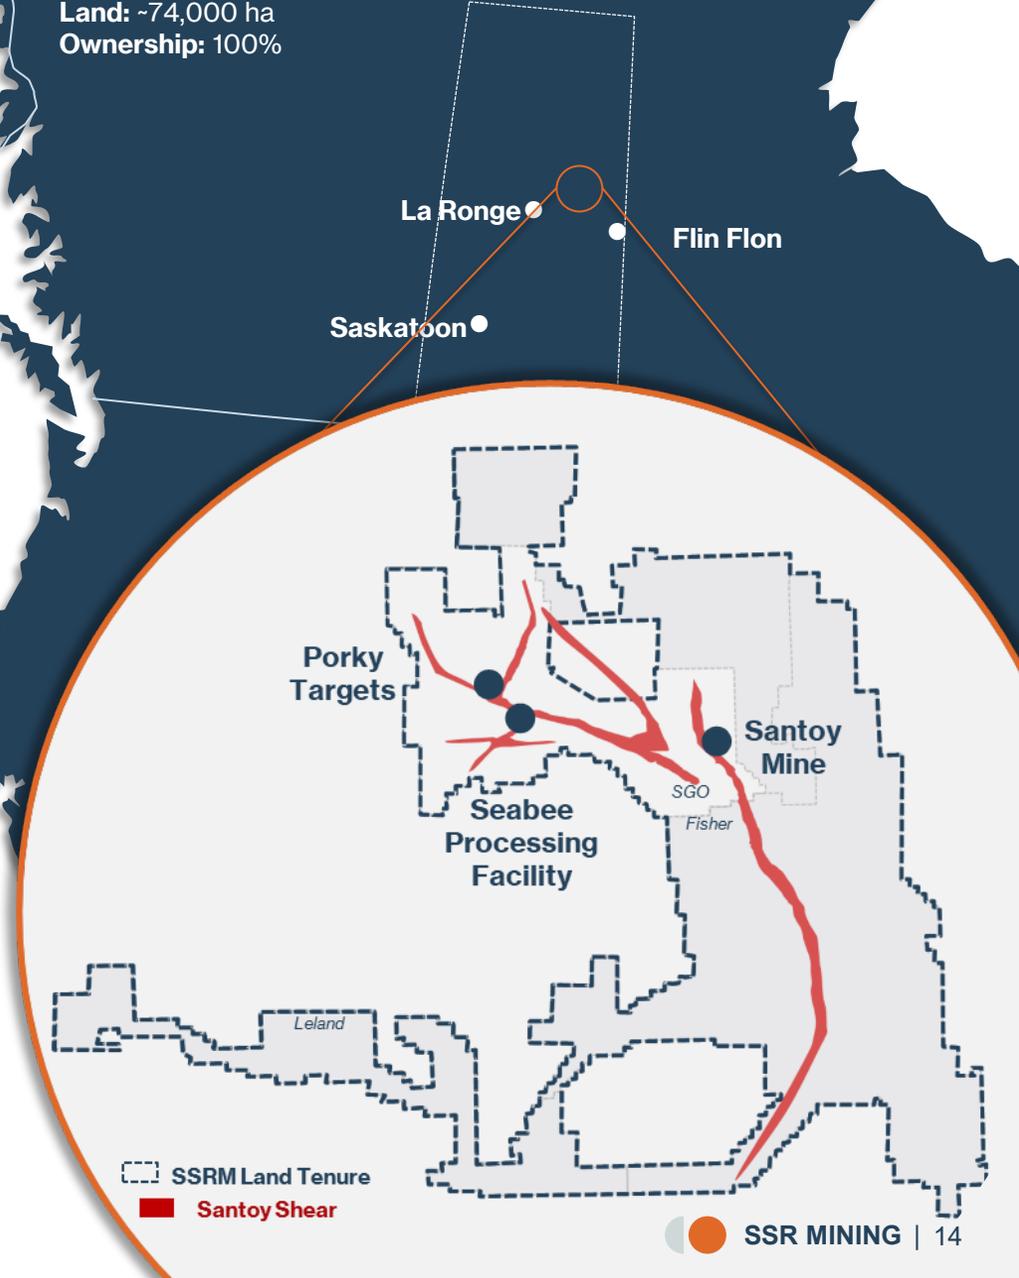

## Quarterly & Full-Year Commentary <sup>(1)</sup>

- Q4 2025 production of 8.9 koz gold at cost of sales of \$2,435/oz and AISC of \$3,433/oz
- FY2025 production of 55.0 koz gold at cost of sales of \$1,525/oz and AISC of \$2,231/oz
- Production from Seabee reflected the temporary suspension of operations in Q2 2025 due to the impacts of regional forest fires, as well as the previously guided effort to prioritize underground mine development in H2 2025
- Continuing to advance near-mine drilling exploration and resource development activity at Santoy and progress engineering at Porky ahead of potential development in 2027

# Puna: Argentina's Largest Producing Silver Mine

## Quarterly & Full-Year Commentary <sup>(1)</sup>

- Q4 2025 production of 2.1 Moz silver at cost of sales of \$20.13/oz and AISC of \$18.39/oz
- FY2025 production of 9.8 Moz silver exceeded production guidance for the third consecutive year; FY 2025 cost of sales of \$16.74/oz and AISC of \$14.24/oz
- Record throughputs in Q4 2025 and FY 2025 demonstrated delivery of continuous improvement initiatives and drove +\$250 million in FY mine site free cash flow
- Continue to evaluate numerous opportunities to extend Puna's mine life beyond 2028, including additional expansions at the Chinchillas open pit and advancement of the Cortaderas deposit for longer-term growth

# Hod Maden: World-Class Copper-Gold Project

## Quarterly Commentary

- In Q4 2025, \$33.8 million was spent as engineering and initial site establishment efforts continued to progress
- FY2025 spend of \$78.2 million in line with guidance of \$60 to \$100 million

## Project Overview

- On January 29, 2026, SSR Mining announced the completion of a Technical Report Summary for the Hod Maden project: <sup>(1)</sup>
  - Estimated after-tax NPV<sub>5%</sub> of \$1.7B and IRR of 39% at consensus commodity prices
  - Life of Mine production projected to total 1.6Moz gold and 209Mlb copper at estimated average cost of sales of \$1,120/oz payable gold and by-product AISC of \$590/oz payable gold
  - Projected annual after-tax operating cash flow of \$343 million and free cash flow of \$328 million at consensus metals prices during expected production period of 2028 to 2037
  - SSR Mining's remaining investment is expected to total ~\$469 million:
    - \$364 million for 40% of the attributable development capital costs
    - \$105 million in remaining earn-in and milestone payments
- In 2023, SSR Mining acquired an up to 40% ownership and immediate operational control in Hod Maden project through an earn-in structured transaction for total consideration of \$270 million <sup>(2)</sup>

<sup>(1)</sup> All project metrics sourced from the 2026 Hod Maden Technical Report Study and are shown on a 100% basis; SSR Mining currently owns 10% of Hod Maden. See endnotes and cautionary notes for a discussion on the 2026 Hod Maden TRS and associated MRMR

<sup>(2)</sup> For additional details on the Hod Maden transaction, please see endnotes and refer to the Company's news released on May 8, 2023, filed as a form 8-K on EDGAR at [www.sec.gov](http://www.sec.gov) or on the Company's website at [www.ssrmining.com](http://www.ssrmining.com).

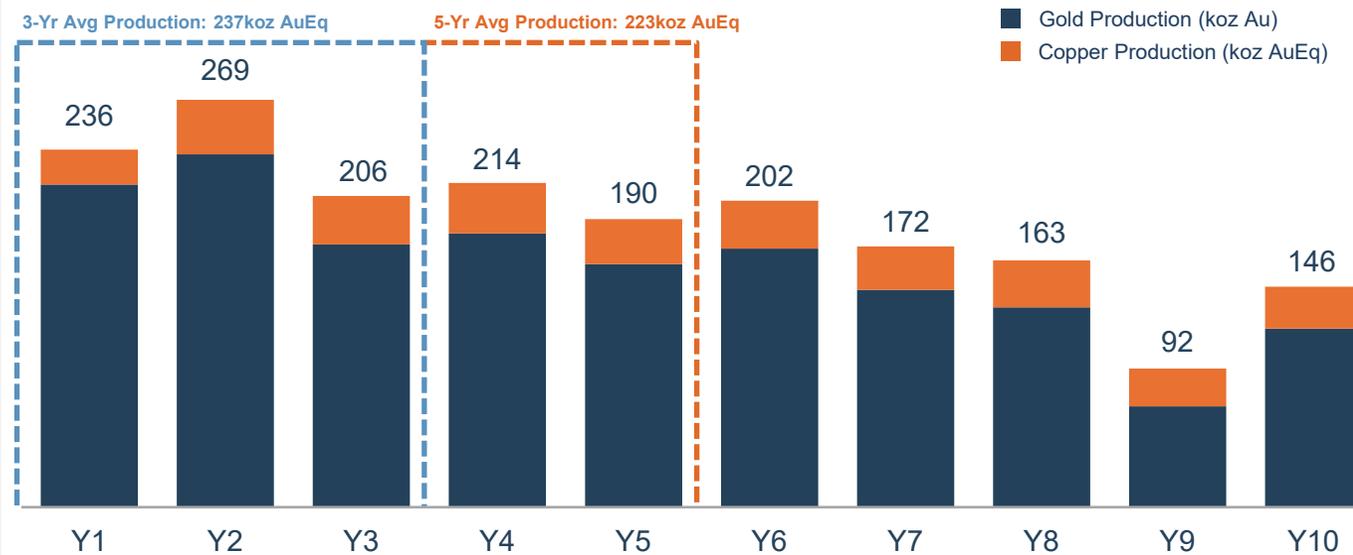

# Hod Maden: 2025 Technical Report Summary (TRS)

After-Tax NPV<sub>5%</sub> of \$1.7 Billion at Consensus Gold Prices; ~\$2.9 Billion at \$4,900/oz Gold Price

## Highlights

- After-tax NPV<sub>5%</sub> of \$1.7B at consensus gold prices averaging \$3,167/oz Au and \$4.52/lb Cu over the LOM; increases to \$2.9B at \$4,900/oz Au and \$5.75/lb Cu
- Life of mine production is projected to total 1.6 million ounces of gold and 209 million pounds of copper
- Projected average cost of sales of \$1,120/oz Au and by-product AISC of \$590/oz Au
- Project execution has been meaningfully de-risked through significant detailed engineering completed since SSR's initial investment
- Most major development contracts tendered or in place; key project development team members onboard
- Total remaining development capital spend estimated at \$910 million, supported by the high level of design definition in critical areas of project construction planning, including main access roads, earthworks and camp construction

<sup>(1)</sup> The Company reports non-GAAP financial measures including AISC per ounce of gold sold (a common measure in the mining industry), and Free Cash Flow to manage and evaluate its operating performance at its mines; please see endnotes and cautionary notes for a discussion on non-GAAP metrics <sup>(2)</sup> Average annual production and Free Cash Flow metrics are calculated over the period of 2028 to 2037. GEOs are calculated using the copper sold multiplied by the ratio of the copper price to the gold price, using the average closing commodity prices for the period stated in the TRS. GEOs sold may not re-calculate based on amounts presented in this table due to rounding.

## Disclosures & References

### Çöpler

Detailed disclosure related to the February 13, 2024 incident at the Çöpler mine (the “Çöpler Incident” or the “Incident”) was included in the Annual Report on Form 10-K for the year ended December 31, 2025 filed on February 17, 2026. As of April 1, 2024 the Çöpler remediation and containment work was estimated to cost between \$250.0 to \$300.0 million and take a total of 24 to 36 months to complete. During 2025, the Company spent \$21.7 million on reclamation and remediation at Çöpler, bringing total spending related to the Çöpler incident to \$149.3 million. At this time, we are not able to estimate or predict if, when, and under what conditions we will resume operations at Çöpler. Please refer to our website at [www.ssrmining.com](http://www.ssrmining.com), or our filings on SEDAR at [www.sedarplus.ca](http://www.sedarplus.ca), and on EDGAR at [www.sec.gov](http://www.sec.gov).

### Hod Maden Development Project

The information contained in this presentation should be read in conjunction with the 2026 Hod Maden TRS. The 2026 Hod Maden TRS has been prepared in accordance with Regulation S-K 1300 and is available as of January 29, 2026 on the Company’s website and on a Current Report on Form 8-K filed with the SEC on January 30, 2026. All Hod Maden project metrics referenced are shown on 100% basis unless otherwise noted and are extracted from, or based on, the 2025 Hod Maden TRS.

### CC&V

The information contained in this presentation should be read in conjunction with our press release titled “SSR Mining Announces Initial 12 Year Life of Mine Plan for CC&V With an NPV5% of \$824M and Potential For Further Mineral Reserve Conversion” dated November 10, 2025 as well as the 2025 CC&V TRS. The 2025 CC&V TRS, with an effective date of July 1, 2025, has been prepared in accordance with Regulation S-K 1300 and will be available by November 14, 2025 on the Company’s website and on a Current Report on Form 8-K to be filed with the U.S. SEC. For additional information regarding the CC&V Transaction, please see our press release titled “SSR Mining Announces the Acquisition of Cripple Creek & Victor Gold Mine From Newmont” dated December 6, 2024.

### SSR Mining Track Record of Value Creation

Acquisition Value for the SSR Mining / Alacer Merger and non-core asset sales are based on the analyst NAV at announcement; Acquisition Value for all other transactions include initially announced acquisition price, subsequent property acquisitions, earn-in milestone payments and the present value of contingent payments.

Current values are rounded and Analyst NAV are based on broker consensus research as of February 19, 2026; “Realized Cash” means revenue less cost of sales, exploration, evaluation, and reclamation expenditures, cash care and maintenance, capital expenditures and taxes; please see non-GAAP reconciliation for additional details.

SSR Mining’s historical capital returns program includes a base dividend and NCIB repurchases between January 1, 2021 and March 31, 2024; Following the Çöpler Incident, the Company suspended dividends and ceased all share repurchases under the 2023 NCIB. On February 17, 2026, the Company announced that the Board of Directors approved a share buyback program of up to \$300 million.

Realized proceeds from non-core asset sales include \$100 million for the sale of SSR Mining’s non-core royalty portfolio on July 29, 2021, \$127 million for the sale of the Pitarrilla project on January 13th, 2022, \$1.5 million for the sale of Sunrise Lake exploration property on October 17, 2023, \$57.5 million for the sale of the San Luis project on November 27, 2023, and approximately \$19 million in proceeds from the sale of non-core equity positions from April 1, 2021 to December 31, 2025.

## Mineral Reserves and Mineral Resources

The Mineral Reserves and Mineral Resources (“MRMR”) information should be read in conjunction with Item 2. Properties in the Company’s Annual Report on Form 10-K for the year ended December 31, 2025 filed on February 17, 2026, the Technical Report Summaries for each of our material properties included as exhibits to our Annual Report on Form 10-K as well as the press release titled “SSR Mining Reports Full-Year Results and 2026 Operating Guidance” dated February 17, 2026.

As per Subpart 1300 of Regulation S-K, the Company’s year-end 2025 MRMR are presented on an attributable basis, reflecting the Company’s ownership interest in each material property. As of December 31, 2025, SSR Mining owns 80% of the Çöpler district and 10% of the Hod Maden Project. Mineral Resources are presented exclusive of Mineral Reserves.

Metals prices used for preparation of the Mineral Reserves and Mineral Resources estimates were selected, in each case, by the Qualified Persons. Key assets are summarized in the tables below. Gold equivalent figures are based on the corporate commodity prices listed below.

1) CC&V data presented represents the period from February 28, 2025, the closing date of the CC&V acquisition, to December 31, 2025.

2) Excludes depreciation, depletion, and amortization.

3) Care and maintenance expense only includes direct costs not associated with environmental reclamation and remediation costs, as depreciation is not included in the calculation of AISC.

4) General and administrative expense for the year ended December 31, 2025 included \$42.2 million in share based compensation expense.

5) GEOs are calculated using the silver ounces sold multiplied by the ratio of the silver price to the gold price, using the average closing commodity prices for the period. The Company does not include copper, lead, or zinc as they are considered by-products. GEOs sold may not re-calculate based on amounts presented in this table due to rounding.

1) Amounts presented on 100% basis. Figures may not add due to rounding. As of December 31, 2025, SSR Mining owns 80% of Çöpler. The Company has not reflected any production, operating costs, or capital forecasts for Çöpler in its 2026 guidance. In 2026, in an effort to limit the impact of gold and silver price volatility, SSR Mining will fix its gold to silver ratio for the purposes of GEO calculations to 63:1, reflecting the 60-day average trading prices for each metal. See "Assumptions" section in the press release titled "SSR Mining Reports Full-Year Results and 2026 Operating Guidance" dated February 17, 2026 for additional information.

2) The Company reports non-GAAP financial measures including cash costs and AISC per ounce sold to manage and evaluate its operating performance at its mines. Cost of sales excludes depreciation, depletion, and amortization. Total AISC includes G&A costs and share-based compensation, but excludes care & maintenance costs expected to be incurred at Çöpler. Consolidated AISC reflects the cash component of care & maintenance costs incurred at Çöpler.

3) Refer to "2026 Capital Guidance" table within the press release titled "SSR Mining Reports Full-Year Results and 2026 Operating Guidance" dated February 17, 2026 for a breakdown of sustaining capital expenditures. No material capital expenditures are expected at Çöpler until the mine is restarted.

4) Share-based compensation guidance uses a reference price of approximately US\$32.50 per share.

5) Reflects the cash component of care & maintenance expenses of approximately \$20 - \$25 million per quarter that are projected to be incurred at Çöpler.

1) For the three months ended December 31, 2025 and 2024, represents transaction and integration costs of \$3.1 million and \$1.7 million, respectively. For the years ended December 31, 2025 and 2024, represents transaction and integration costs of \$22.2 million and \$1.7 million, respectively, related to the CC&V transaction.

2) For the three months ended December 31, 2025, the effects of the Çöpler Incident represent contingencies and expenses of \$0.6 million (presented net of pre-tax attributable non-controlling interest of \$0.1 million). For the year ended December 31, 2025, the effects of the Çöpler Incident represent (1) reclamation costs of \$7.5 million (presented net of pre-tax attributable non-controlling interest of \$1.9 million) and remediation costs of \$42.8 million (presented net of pre-tax attributable non-controlling interest of \$10.7 million) and (2) contingencies and expenses of \$5.6 million (presented net of pre-tax attributable non-controlling interest of \$1.4 million). For the year ended December 31, 2024, the effects of the Çöpler Incident represent (1) reclamation costs of \$9.0 million (presented net of pre-tax attributable non-controlling interest of \$2.2 million) and remediation costs of \$209.4 million (presented net of pre-tax attributable non-controlling interest of \$52.4 million); (2) impairment charges of \$91.4 million related to plans to permanently close the heap leach pad (amount is presented net of pre-tax attributable non-controlling interest of \$22.8 million); and (3) contingencies and expenses of \$11.3 million (amount is presented net of pre-tax attributable non-controlling interest of \$2.8 million).

3) For the year ended December 31, 2025, represents \$35.5 million (presented net of pre-tax attributable non-controlling interest of \$8.9 million) of business interruption insurance proceeds received associated with the Çöpler Incident.

4) Represents non-cash gains or losses recognized in earnings from the remeasurement of acquisition-related contingent consideration. The adjustment reflects a change in the expected timing of settlement associated with the Carlton Tunnel permit modification related to CC&V. For more information, see the Company's Annual Report, Note 23 to the consolidated financial statements.

5) Represents revisions in cost estimate assumptions associated with water management and tailings storage facilities at Puna that have no substantive future economic value.

6) For the year ended December 31, 2024, impairment of long lived and other assets are related to remote equipment damaged due to forest fires near Seabee.

7) Adjusted net income (loss) per diluted share attributable to SSR Mining shareholders is calculated using diluted common shares, which are calculated in accordance with GAAP. For the year ended December 31, 2024, \$5.0 million interest saving on 2019 Notes, net of tax, and potentially dilutive shares of approximately 12.9 million were excluded from the computation of diluted loss per common share attributable to SSR Mining shareholders in the Consolidated Statement of Operations as they were antidilutive. 0.3 million shares were included in the computation of adjusted net income (loss) per diluted share attributable to SSR Mining shareholders for the year ended December 31, 2024.
