CBRE Releases 2018 Corporate Responsibility Report

6/28/2019

LOS ANGELES--(BUSINESS WIRE)-- CBRE Group, Inc. has released its **2018 Corporate Responsibility Report**, which highlights the company's accomplishments as an industry leader in responsible business practices.

CBRE's achievements include:

- A commitment to environmental sustainability, including progress toward achieving **greenhouse gas reduction targets** set in 2016 and 2017, certifying more than 60% of the company's office space under internationally recognized green building standards and pledging to set a science-based greenhouse gas emissions reduction target.
- Registering and benchmarking a record 6,418 buildings, representing more than 420 million square feet, in the U.S. Department of Energy's ENERGY STAR program.
- Heightened focus on employee safety and well-being, as reflected in a 24% drop in Total Recordable Incident Rate from 2017 to 2018.
- Increased investment in diversity and inclusion programs, and an 11-person Board of Directors that now includes three women and three diverse men.

A key element of this year's report is an expanded discussion of issues related to sexual harassment in the workplace. The company affirmed its longstanding commitment to the prevention of sexual harassment and recently began working with **RAINN** (Rape Abuse and Incest National Network) to advance our goal of a harassment-free work environment.

"Responsible business practices are integral to our strategy and to the work we perform for clients. We are proud of our performance on key environmental, social and governance issues and are committed to a goal of creating outcomes for all our stakeholders that are the best available in the marketplace," said Bob Sulentic, CBRE's president and chief executive officer.

CBRE's Corporate Responsibility Report was produced in accordance with the Global Reporting Initiative (GRI) Standards: Core option and includes the company's progress toward implementing the Ten Principles of the United Nations Global Compact. The report also contains disclosures recommended in the Real Estate Services Sustainability Accounting Standard that was developed by the Sustainability Accounting Standards Board (SASB).

Earlier this year CBRE was ranked #15 on Corporate Responsibility Magazine's list of the 100 Best Corporate Citizens. CBRE was also recognized as one of the 100 Most Sustainable Companies in the U.S. by Barron's for the second consecutive year and was named one of the 2018 World's Most Ethical Companies® for the sixth year in a row.
