AMÉRICA MÓVIL'S FIRST QUARTER OF 2011 FINANCIAL AND OPERATING REPORT

Mexico City, May 2, 2011 - América Móvil, S.A.B. de C.V. ("América Móvil") [BMV: AMX] [NYSE: AMX] [NASDAQ: AMOV] [LATIBEX: XAMXL], announced today its financial and operating results for the first quarter of 2011.

- 6M wireless net adds in 1Q** • América Móvil added nearly 6 million wireless subscribers and 1.5 million fixed-line revenue generating units (RGUs) in the first quarter. At the end of March we had 231 million wireless subscribers, 13.6 million broadband accesses, 28.7 million landlines and 10.8 million PayTV clients, for a total of 284 million accesses, 12.1% more than a year before.
- 1.5M net adds in Mexico** • In Brazil we obtained 1.8 million new subs exceeding by 52.3% those obtained a year ago, whereas in Mexico we added 1.5 million wireless subs, 38.2% more than in the year-earlier quarter. In Colombia, the period's net additions, 750 thousand, were double those of the prior year.
- 51% share of the postpaid market in Mexico** • We have 212 million wireless subscribers in Latam, of which 16% are postpaid users. In Mexico, only 6.6 million clients—10% of our base—are postpaid, which represents a market share of 51% in that segment of the Mexican market.
- New RGUs +45% YoY** • The increase in fixed-line RGUs that took place in the first quarter was 45.3% higher than that seen a year before.
- Mobile Service Revenues +11% YoY** • At 156 billion Mexican pesos, our first quarter revenues were up 6.3% from the year-earlier quarter, with 63.5% originating in our wireless operations. Wireless service revenues were up 11.1% year-on-year and fixed-line revenues 1.8%.
- Wireless Data Revenues +38% YoY** • At constant exchange rates mobile data services increased by 37.8%, followed by fixed data services with 7.4% growth. Fixed voice revenues declined 4.3% as revenue reductions in Mexico, Central America and the Caribbean more than offset the 3.7% rise observed in South America.
- EBITDA of MxP 62Bn** • Our EBITDA of 62 billion pesos was almost flat relative to the year before, with the 10.3% reduction in Telmex' EBITDA countering the 8.8% EBITDA gains of our other operations. Operating profits totaled 38.8 billion pesos in the quarter.
- Net income +12% YoY** • Comprehensive financing costs of 1.9 billion pesos were half those of the year-earlier quarter even in spite of lower foreign exchange gains. The reduction in financing costs helped bring about an 12.1% increase in our net income, to 23.5 billion pesos.
- Capex of MxP 17Bn** • Our cash flow allowed us to fully cover 17.4 billion pesos in capital expenditures, acquire stock of Telint and Net Serviços worth 1.2 billion pesos, make distributions to our shareholders through buybacks and dividends in the amount of 12.4 billion pesos and reduce our net debt by 7.3 billion pesos in flow terms during the quarter.

AMX to acquire Digicel's operations in Central America

On March 10th, América Móvil entered into an agreement with Digicel Group Ltd. to acquire 100% of Digicel's operations in Honduras and El Salvador. As part of this transaction AMX is selling its operations in Jamaica to Digicel. The completion of the transaction is subject to governmental and regulatory approvals in Honduras, El Salvador and Jamaica and it is expected to occur during the second quarter of 2011.

CFC fines Telcel

On April 15, 2011, Cofeco notified Telcel a resolution imposing a fine of Ps. 11,989 million for alleged monopolistic practices. Cofeco states that the rates Telcel offers its own clients (on-net calls) are lower than the mobile termination rate Telcel charges other carriers, and consequently, prevents said carriers from being able to provide similar offers to their clients. Telcel disputes such fine, which we believe is illegal, arbitrary and opportunistic. As of the date of the accompanying financial statements, the Company and Telcel are evaluating the scope and legal grounds of said resolution and will exercise any and all legal actions and/or remedies to challenge it.

AMX to acquire 20% of StarOne

On April 19th, we announced that we had entered into a stock purchase agreement with GE Satellite Holdings LLC and its affiliates, to acquire 20% of the capital stock of StarOne S.A. StarOne is a Brazilian company that provides satellite services in Brazil. Our subsidiary Embratel, currently owns the remaining 80% of the shares of Star One. The completion of the transaction is subject to regulatory approvals in Brazil and expected to take place in the third quarter of 2011.

Syndicated facilities for USD 4Bn

In May we are closing two syndicated revolving-loan facilities in an aggregate amount of four billion dollars. One is dollar-denominated, with a maturity of 3.5 years whereas the second one is denominated in euros in the amount of two billion dollars-equivalent and has a maturity of 5 years.

Total Accesses

We finished the quarter with 284 million accesses, 12.1% more than in the first quarter of 2010. This figure comprises 231 million wireless subscribers, 28.7 million landlines, 13.6 million broadband accesses and 10.8 million PayTV clients. Excluding Mexico, the number of fixed lines was up 15.1% year-on-year and that of broadband accesses 25.0%. PayTV was the fastest growing division, with a 33.9% annual increase.

Wireless Subscribers

América Móvil added nearly 6 million wireless subscribers in the first quarter, 7.5% more than in the year-earlier period, taking our wireless subscriber base to 231 million at the end of March for an 11.8% year-on-year increase.

Mexico registered net additions of 1.5 million, 38.2% greater than those of the first quarter of 2010 with postpaid net adds of 271 thousand that were also higher than in the prior year. In Brazil we obtained 1.8 million new subscribers—52.3% more than last year—while in Colombia we added 750 thousand, almost twice as many as the year before. Tracfone, our subsidiary in the US obtained 780 thousand new subscribers in the period. In Central America we gained 349 thousand subscribers, 74.3% more than in the same period of 2010 while in Peru, Ecuador and Chile net subscriber additions totaled 312, 235 and 176 thousand, respectively.

At the end of March our subscriber base comprised 65.7 million subscribers in Mexico, 53.4 million in Brazil, 30 million in Colombia and 18.5 million in both Argentina and the U.S., with 17.5 million coming from Central America and the Caribbean.

América Móvil Consolidated Results

As economies continued to expand throughout the region we were able to undergo solid access growth, with fixed line accesses expanding 13.3% year-on-year—including a 33.9% jump in PayTV accesses—and our wireless subscriber base increasing 11.8%. At the end of March, we had a total of 284 million accesses, of which 231 million were wireless subscribers.

Our first quarter revenues totaled 156.2 billion Mexican pesos, exceeding by 6.3% those of the year-earlier quarter. 63.5% of our revenues originated in our wireless operations with wireless gross service revenues (before commissions to distributors) up 11.1% year-on-year. Fixed-line revenues advanced 1.8%.

Service Revenues

Highlights		
Relevant Events	Mobile Data Revenues up 27%	Mobile data was a major driver of growth, with revenues jumping by two thirds in Central America and the Caribbean and climbing by approximately 27% in the rest of Latin America. Fixed data revenues expanded by approximately 7.5% year-on-year in both Mexico and South America.
Subscribers	Wireless Voice Revenues +5% YoY	Overall our mobile voice revenues were up 4.3% while our fixed-line voice revenues declined 4.3%, as their expansion in South America was not enough to compensate for the reduction experienced in Mexico, Central America and the Caribbean. PayTV revenues soared by 66.0% year-on-year, making it our most dynamic product line. Our South American operations registered a 9.1% increase in gross service revenues, being the only region that exhibited growth in all product lines.

** Includes current portion of Long Term Debt.

**D&A at
14% of total
revenues**

Depreciation and amortization charges totaled 22.3 billion pesos, 8.6% more than a year before, and represented a similar share of total revenues (approximately 14%). With EBITDA roughly flat, the increase in these charges contributed to a 4.9% decline in the firm's operating profits.

**Financing
Costs of MxP
2Bn**

Our comprehensive financing costs, 1.9 billion pesos, were approximately half the ones registered in the first quarter of 2010 even though we had lower foreign exchange gains. The reduction in financing costs and in income and deferred taxes (from 13.4 to 12.2 billion pesos) helped bring about an 12.1% increase in the company's net profit, to 23.5 billion pesos.

**Distributions
of MxP 12Bn**

Our first quarter cash flow allowed us to fully cover our capital expenditures of 17.4 billion pesos, repurchase shares and pay dividends in the amount of 12.4 billion pesos, buy Telcel and Net Serviços stock in the amount of 1.2 billion pesos and reduce net debt by 7.3 billion pesos. At the end of March our net debt stood at 211 billion pesos.

Highlights	Mexico		
Relevant Events	1.5M net adds in 1Q	Telcel had a strong quarter in terms of net additions having gained 1.5 million subscribers, 38.2% more than in the same period of 2010. We continue to deliver solid figures in the postpaid segment, adding 271 thousand clients, 3.6% more than in the year-earlier quarter. Telcel remains a net receiver of ported numbers, gaining 147 thousand clients in the quarter. It goes to show that Telcel continues to lead in the preference of Mexican wireless clients given its superior networks and quality of service, amongst other things.	
Subscribers			
América Móvil Consolidated			
Mexican Operations	Telmex	At the end of March Telmex had 12.5 million lines, 0.9% less than in the same period of 2010. It also had 1.5 million lines in rural areas, which will be serviced by Telmex Social. All in, Telmex had a total of 15.6 million lines—including nearly 1.6 million public phones and prepaid lines—which is 1.6% lower than in the same period of the prior year.	
Mexico Telcel Telmex			
International Operations	Revenues +1.7% YoY	Revenues of our Mexican operations totaled 61.8 billion pesos, 1.7% more than in the precedent year, with wireless revenues rising 5.0% to 37 billion pesos and fixed-line revenues declining 4.9%. Net wireless service revenues were up 6.4% driven by the surge in the demand for data services, with data revenues expanding 26.4% year-on-year. Fixed line revenues, on the other hand, fell as the increase in revenues from data and corporate networks was not sufficient to make up for the loss of fixed-line voice revenues.	
Mercosur Claro Argentina Claro Paraguay Claro Uruguay Claro Chile			
Brazil Claro Embratel NET	EBITDA declined 1.2%	EBITDA for the quarter of 32.4 billion pesos was 1.2% lower than in the same period of 2010 mostly as a result of a 10.3% decline in Telmex's EBITDA. On the wireless front, it is worth mentioning that Telcel registered an EBITDA increase of 3.9% in spite of the strong subscriber growth of the period.	
Andeans Comcel Colombia Telmex Colombia Claro Panama Claro Ecuador Claro Peru	600M MxP compensation bonus	It must be noted that the quarter's wireless voice revenues reflect the impact of the airtime bonus of approximately 600 million pesos that Telcel willingly offered its subscribers as compensation for interference-related problems experienced in the Mexico City metropolitan area in December and January. We have fully reestablished the sound standards of service we have traditionally maintained.	
Central America Claro Guatemala Claro El Salvador Claro Nicaragua Claro Honduras		In the quarter Telcel used its marketing resources in radio, newspapers, magazines, PayTV channels, internet and digital media, billboards and movie theaters, targeting the A, B and C segments. At the same time, we seek to reach the D and E segments through the provision of universal access, offering cheaper devices that entail greater subsidies and airtime cards of lower denominations.

20M accesses

We finished March with 19.9 million accesses of which 19.7 million were wireless and 227 thousand were RGUs. These increased 26.9% from a year before, with broadband accesses rising 32.9% in the period.

Revenues +19% YoY

First quarter revenues rose 18.6% year-on-year to 2.7 billion Argentinean pesos. Wireless gross service revenues (before commissions to distributors) were up 17.5% buoyed by data revenues, that expanded 20.4% in the period. ARPU rose 8.6% from the prior year helped along by the adoption of smartphones and data intensive plans and by an increase in voice traffic. Fixed-line revenues climbed 21.6% driven by data revenues that increased 26.5% from the year before.

EBITDA +23% YoY

Our EBITDA of 1.1 billion Argentinean pesos exceeded that of the prior year by 22.7% and was equivalent to 41.3% of revenues, 1.4 percentage points more than a year before.

Highlights	New fiber optic network	This year we formally launched our fiber optic network for fixed-line services. We currently have over 200 thousand homes passed which we will continue to expand throughout the country.
Relevant Events		
Subscribers	Brazil	
América Móvil Consolidated	73M accesses	We ended the first quarter with 73 million accesses in Brazil, of which 53.4 million are wireless lines – 17.2% more than a year before – and 19.6 million are RGUs on the fixed-line platform – 29.3% more than a year before.
Mexican Operations	687K postpaid net adds, 41.5% share in 1Q	On the wireless platform, we added 1.8 million new clients, 52.3% more than in the same period of 2010, to finish March with 53.4 million subscribers, 17.2% more than than the precedent year. The quarter's net additions include 687 thousand post-paid subscribers, more than twice as many as obtained a year ago, helping our postpaid subscriber base grow 24.8% year-on-year. For the second consecutive quarter we were the market leaders in this segment with 41.5% share of net adds.
Mexico Telcel Telmex		
International Operations	982K RGUs	We also added 982 thousand RGUs on the fixed-line platform of which 203 thousand were broadband accesses and 556 thousand were PayTV clients. At the end of March we had a total of 19.6 million RGUs, 29.3% more than a year before.
Mercosur Claro Argentina Claro Paraguay Claro Uruguay Claro Chile	2.6M 3Play subscriptions	PayTV was the fastest growing segment with an annual growth rate of 42.2%. Demand for satellite TV services has surged and we now have more than 1.4 million subscriptions through our Via-Embratel offering compared to 440 thousand in March 2010.
Brazil Claro Embratel NET	Wireless Revenues +6% YoY	Our revenues totaled 5.5 billion reais, representing an annual increase of 5.7%. Our wireless revenues rose 5.5% to 3.0 billion reais with gross service revenues expanding 6.9% (4.8% in net terms, after commissions). Data was the most important catalyst of growth, with wireless data revenues climbing 27.8% year-on-year. ARPU figures were down 10.4% as a result of an 11.4% decline in the average price per minute of voice and the dilution effect linked to the rapid growth of our subscriber base.
Andeans Comcel Colombia Telmex Colombia Claro Panama Claro Ecuador Claro Peru	Wireline Revenues +7% YoY	Wire-line revenues for the period came in at 2.9 billion reais, exceeding by 7.2% those of 2010. Revenues coming from Pay TV services (excluding those of Net Servicios that are not being consolidated in our financial statements) nearly tripled relative to those of the prior year while those coming from broadband services expanded 28.4%.
Central America Claro Guatemala Claro El Salvador Claro Nicaragua Claro Honduras	EBITDA margin at 28.5%	The quarter's EBITDA declined 11.2% to 1.6 billion reais mostly on account of greater subscriber acquisition costs on wireless. The EBITDA margin for the period stood at 28.5% of revenues.

Net adds double to 788K

Wireless Data Revenues +43% YoY

EBITDA rose 12% YoY

Colombia-Panama

After adding 788 thousand wireless subscribers in the first quarter (twice as many as those gained in the same period of 2010) we ended March with 30.2 million wireless users, 7.2% more than a year before. Postpaid growth was somewhat higher at 8.1%. We also obtained 112 thousand new fixed-line accesses and ended March with 3.1 million RGUs, 10.7% more than in the year-earlier quarter. Altogether we reached 30.2 million accesses at the end of march.

First quarter revenues of 2.0 trillion Colombian pesos exceeded by 10.2% those of the prior year. Wireless data revenues shot up 42.6% in the period contributing to a 6.6% expansion in wireless gross service revenues. Fixed-line revenues were up 9.7% lead by fixed line voice.

First quarter EBITDA, 919 billion Colombian pesos, was 12.4% higher than that of the same period of 2010. Our margin climbed 90 basis points in the year to 45.5% of revenues even in the face of substantial subscriber growth.

Chile

Wireless subs, +34% YoY

After adding 176 thousand wireless subscribers in the quarter (a fourth of which were postpaid) we finished March with just over 5 million wireless clients, 33.9% more than a year before. Our fixed-line accesses totaled 916 thousand RGUs, having risen 31.1% over the year. In all, we finished the quarter with almost 6 million accesses.

Revenues up 28% YoY

Total revenues of 129.3 billion Chilean pesos were 27.9% higher than those of the first quarter of 2010, with roughly two thirds coming from our wireless operations. Our wireless gross service revenues rose 29.5% on the back of strong data revenue growth of 48.3%. ARPU was down as the 11.2% increase in minutes of use failed to compensate for the 16.5% decline in voice prices; it was also somewhat eroded by the fast pace of subscriber growth.

Fixed-line Revenues +37% YoY

On the fixed-line platform revenues grew at a rate of 37.2% to 45.2 billion Chilean pesos as broadband revenues more than doubled and PayTV revenues shot up 58.5% over the year.

EBITDA +86% YoY

The period's EBITDA came in at 15.2 billion Chilean pesos and was 85.6% greater than that of 2010 on the back of strong top line growth, good cost controls and the benefit of a greater operating scale. At 11.8% of revenues our EBITDA margin was 3.7 percentage points higher than a year before.

11M accesses

We ended March with 11 million accesses in Ecuador, nearly all of them wireless subscribers (10.9 million), having added 235 thousand subscribers in the first quarter. One fifth of our net adds were post-paid clients. On the fixed-line platform the number of accesses doubled over the year before

Wireless Data Revenues +28% YoY

Our revenues rose 14.9% to 334 million dollars. Wireless gross service revenues grew 14.8% annually, with data revenues climbing 27.5%. ARPUs were up 5.1% relative to the prior year led by data and a hefty increase in the minutes of use per subscriber as voice prices per minute declined. On the fixed-line front, we experienced a 48.4% increase in revenues but they still represent a small fraction of our revenues.

EBITDA at 7.3%

The quarter's EBITDA, 63 million dollars, was 17.7% below that of 2010 and equivalent to 7.3% of revenues. However, before subscriber acquisition costs EBITDA actually rose 14.5% from a year before. It is important to consider that the StraightTalk plans represent a higher volume, but lower margin business. Consequently it brings about a significant expansion of revenues but a lower margin — all things equal — than the one made on the other commercial offerings.

Glossary of Terms

ARPU – Average Revenue per User. The ratio of service revenues in a given period to the average number of wireless subscribers in the same period. It is presented on a monthly basis.

ARPM- Average Revenue per Minute. The ratio of service revenues to airtime traffic.

Capex – Capital Expenditure. Accrued capital expenditures related to the expansion of the telecommunications infrastructure.

Churn – Disconnection Rate. The ratio of wireless subscribers disconnected during a given period to the number of wireless subscribers at the beginning of that period.

EBIT – Earnings Before Interest and Taxes, also known as Operating Profit.

EBIT margin – The ratio of EBIT to total operating revenue.

EBITDA – Earnings Before Interest, Taxes, Depreciation, and Amortization.

EBITDA margin – The ratio of EBITDA to total operating revenue.

EDGE – Enhanced Data rates for GSM Evolution. A technology that gives GSM the capacity to handle data services for the third generation mobile telephony.

EPS (Mexican pesos) – Earnings per share. Total earnings in Mexican pesos divided by total shares.

Earnings per ADR (US\$) – Total earnings in U.S. dollars divided by total ADRs equivalent.

Equity subscribers – Subscribers weighted by the economic interest held in each company.

GSM – Global System for Mobile communications. It is the world's leading and fastest growing mobile standard.

GPRS – General Packet Radio Service. Enables GSM networks to offer higher capacity, Internet-based-content and packet-based data services. It is a second generation technology.

Gross additions – Total number of subscribers acquired during the period.

Licensed pops – Licensed population. Population covered by the licenses that each of the companies manage.

Market share – A company's subscriber base divided by the total number of subscribers in that country.

MOU – Minutes of Use per subscriber. The ratio of wireless traffic in a given period to the average number of wireless subscribers in that same period. It is presented on a monthly basis.

Net subscriber additions – The difference in the subscriber base from one period to another. It is the different between gross additions and disconnections.

Net debt – Total short and long term debt minus cash and marketable securities.

Net debt / EBITDA – The ratio of total short and long term debt minus cash and securities to trailing 12-month income before interest, taxes, depreciation and amortization.

Prepaid – Subscriber that may purchase airtime to recharge a cellular phone. The client does not hold a contract with the company for voice and data services.

Postpaid – Subscriber that has a contract for the use of airtime. The client has no need of activating airtime, it is done so immediately.

Push-to-talk – Enables compatible mobile phones to function like two-way radios.

SMS – Short Message Service.

SAC – Subscriber Acquisition Cost. The sum of handset subsidies, marketing expenses and commissions to distributors for handset activation. Handset subsidy is calculated as the difference between equipment cost and equipment revenues.

Wireless penetration – The ratio of total wireless subscribers in any given country divided by the total population in that country.

Legal Disclaimer

América Móvil, S.A.B. de C.V. (the "Company") quarterly reports and all other written materials may from time to time contain forward-looking statements that reflect the current views and/or expectations of the Company and its management with respect to its performance, business and future events. Forward looking statements include, without limitation, any statement that may predict, forecast, indicate or imply future results, performance, or achievements, and may contain words like "believe", "anticipate", "expect", "envisages", "will likely result", or any other words or phrases of similar meaning. Such statements are subject to a number of risks, uncertainties and assumptions. We caution you that a number of important factors could cause actual results to differ materially from the plans, objectives, expectations, estimates and intentions expressed in this report. In no event, neither the Company nor any of its subsidiaries, affiliates, directors, officers, agents or employees shall be liable before any third party (including investors) for any investment or business decision made or action taken in reliance on the information and statements contained in this document or for any consequential, special or similar damages.
