

## **BH Management and ADT Announce Partnership to Integrate Smart Technology in Multifamily Units**

*Innovative Automation Solutions to Provide Enhanced Tenant Services and Aid in Property Management*

**Boca Raton, Fla., June 24, 2019** – Today, [ADT Inc.](#) (NYSE: ADT), a leading provider of monitored security and interactive home and business automation solutions in the United States and Canada, announced a new partnership with [BH Management Services, LLC](#), a leading multifamily property management company, to offer smart technology integration and convenience services. Through the partnership with ADT, BH Management Services will outfit residences with ADT security, automated smart door locks, and smart thermostats.

“As leaders in property management, we know that our ability to bring innovation to the multifamily living experience and offer tenants access to the latest in smart technology and convenience from their fingertips is important,” said Joanna Zabriskie, President of BH Management. “The partnership with ADT also provides extensive efficiency on the management side to better manage and respond to maintenance requests quickly and regulate non-inhabited units to ensure they are well-kept and efficient.”

“The leadership team at BH Management Services is completely focused on their customers and how to bring smart technology to their industry,” said Jim DeVries, President and Chief Executive Officer of ADT. “Our partnership perfectly demonstrates how, through security and automated solutions, ADT offers both protection and convenience to tenants, as well as property managers.”

ADT’s smart technology is coupled with industry leading enterprise scale property automation software provided by Point Central. ADT monitoring services will be included as a portion of monthly rent charges. The ADT home automation systems are also voice assistant compatible, allowing tenants the opportunity to integrate additional smart home appliances into their rental units.
