

## Biographical Information

**Eric S. Musser**  
Executive Vice President  
Corning Technologies & International

Eric Musser is executive vice president of Corning Technologies and International and is responsible for leading the growth and expansion of Corning's Environmental Technologies, Life Sciences, and Pharmaceutical Technologies segments. In addition, he oversees Corning's international regions, and the Global Manufacturing, Supply Management, Quality, and Safety functions.

Previously, Musser served as president of Corning International (2012-2014) and general manager, Corning Greater China (2007-2012). In these roles, he helped expand Corning's business globally and capture strategic growth opportunities in China.

Musser joined Corning in 1986 and moved through a series of manufacturing and general management roles in Corning's optical communications businesses. In 2005, he was named vice president and general manager of Optical Fiber, where he helped restore stability and growth following the telecommunications industry downturn.

Musser holds a Bachelor of Science from the U.S. Military Academy at West Point where he graduated as a Distinguished Cadet, and a Master of Science in computer science from George Washington University. Prior to joining Corning, Musser served 5 years in the U.S. Army Corps of Engineers.
