"Our second quarter results include over 970,000 square feet of deals at cash rent spreads close to 50%, underscoring the strength of our leasing pipeline and our team's ability to execute," said Victor Coleman, Hudson Pacific Properties' Chairman and CEO. "Year-to-date we have leased an impressive 1.8 million square feet, with the preponderance of that activity, nearly 75%, in our Bay Area assets."

Coleman added, "We continue to take advantage of demand from well-qualified buyers for Bay Area assets. In the second quarter, we sold two additional former-Blackstone portfolio properties, One Bay Plaza and Patrick Henry Drive, both at premiums to our original purchase prices. We are focused on execution of lease-up and value creation within our existing portfolio, but will evaluate very select, strategic acquisition opportunities, primarily in the Los Angeles and Seattle markets. Our recent purchase of 11601 Wilshire Boulevard exemplifies this approach."

The Company reported net income attributable to common stockholders of \$0.8 million, or \$0.01 per diluted share, for the three months ended June 30, 2016, compared to net loss attributable to common stockholders of \$25.2 million, or \$(0.28) per diluted share, for the three months ended June 30, 2015.

Funds From Operations (FFO), excluding specified items, for the three months ended June 30, 2016 totaled \$62.9 million, or \$0.43 per diluted share, compared to FFO, excluding specified items, of \$68.4 million, or \$0.47 per share, a year ago. Specified items for the second quarter of 2016 consisted of acquisition-related expense of \$0.1 million, or \$0.0 per diluted share. Specified items for the second quarter of 2015 consisted of acquisition-related expense of \$37.5 million, or \$0.26 per diluted share.

FFO, including specified items, for the three months ended June 30, 2016 totaled \$62.9 million, or \$0.43 per diluted share, compared to \$30.9 million, or \$0.21 per diluted share, a year ago.

Combined Operating Results For The Three Months Ended June 30, 2016

Total revenue during the second quarter increased 1.6% to \$154.3 million from \$151.8 million for the same quarter a year ago. Total operating expenses decreased 0.9% to \$134.5 million from \$135.7 million for the same quarter a year

ago. As a result, income from operations increased 23.1% to \$19.8 million from \$16.1 million for the same quarter a year ago. The primary reasons for the changes in total revenue and operating expenses are discussed below in connection with the Company's segment operating results.

Interest expense during the second quarter increased 24.8% to \$17.6 million from \$14.1 million for the same quarter a year ago. The Company had \$2.3 billion and \$2.1 billion of notes payable, excluding net deferred financing costs and net loan premium, at June 30, 2016 and June 30, 2015, respectively.

The Company had \$0.4 million of unrealized loss on the ineffective portion of derivatives, with nothing comparable for the same quarter a year ago. The Company also had \$0.1 million of acquisition-related expense associated with the acquisition of 11601 Wilshire Boulevard completed during the third quarter of 2016 compared to \$37.5 million of acquisition-related expense associated with the acquisition of the EOP Northern California portfolio in the second quarter of 2015.

Segment Operating Results For The Three Months Ended June 30, 2016

Office Properties

Total revenue at the Company's office properties increased 0.6% to \$144.4 million from \$143.6 million for the same quarter a year ago. The increase was primarily the result of a \$3.5 million increase in tenant recoveries to \$21.3 million, partially offset by a decrease in rental revenue of \$2.0 million to \$118.0 million and in parking and other revenue of \$0.7 million to \$5.1 million. The increase in tenant recoveries largely resulted from a corresponding increase in operating expenses discussed below, partially offset by a loss of tenant recoveries stemming from the sales of Bay Park Plaza in third quarter of 2015, Bayhill Office Center in the first quarter of 2016 and One Bay Plaza in the second quarter of 2016. The decrease in rental, parking and other revenue was also primarily due to these asset sales, though higher rental revenue on improved rents and occupancy throughout the Company's in-service portfolio partially offset this decrease.

Office property operating expenses increased 5.1% to \$49.1 million from \$46.7 million for the same quarter a year ago. The expense increase primarily resulted from higher occupancy in our in-service office portfolio, partially offset by the sales of Bay Park Plaza, Bayhill Office Center and One Bay Plaza.

Net operating income with respect to the Company's 30 same-store office properties for the second quarter increased 6.6% on a GAAP basis and 15.5% on a cash basis.

At June 30, 2016, the Company's stabilized and in-service office portfolio was 96.5% and 91.1% leased, respectively. During the quarter, the Company executed 70 new and renewal leases totaling 970,770 square feet.

Media and Entertainment Properties

Total revenue at the Company's media and entertainment properties increased 20.1% to \$9.9 million from \$8.3 million for the same quarter a year ago largely due to a \$1.5 million increase in rental revenue to \$6.9 million. The increase in rental revenue stemmed from higher occupancy at Sunset Gower and Sunset Bronson. In addition, stage and office space at Sunset Bronson were taken off-line for improvements during the three months ended June 30, 2015, and were fully occupied over the three months ended June 30, 2016. Total media and entertainment operating expenses increased 24.2% to \$6.3 million from \$5.1 million for the same quarter a year ago, also largely due to higher occupancy at Sunset Gower and Sunset Bronson.

Media and entertainment net operating income in the second quarter increased by 13.6% on a GAAP basis and 26.2% on a cash basis.

As of June 30, 2016, the trailing 12-month occupancy for the Company's media and entertainment portfolio increased to 85.3% from 76.5% for the period ended June 30, 2015.

Balance Sheet

At June 30, 2016, the Company had total assets of \$6.3 billion, including unrestricted cash and cash equivalents of \$337.4 million. At June 30, 2016, the Company had \$400.0 million of total capacity under its unsecured revolving credit facility, of which \$250.0 million had been drawn.

2016 Outlook

Guidance Increased

The Company is increasing its full-year 2016 FFO guidance from its previously announced range of \$1.68 to \$1.76 per diluted share, excluding specified items, to a revised range of \$1.71 to \$1.77 per diluted share, excluding specified items. The guidance reflects the Company's FFO for the second quarter ended June 30, 2016 of \$0.43 per diluted share, excluding specified items, as well as the transactional activity referenced in this press release and in earlier announcements, including the sale of 12655 Jefferson Boulevard in the fourth quarter, and the anticipated funding of \$50.0 million of 3.66% senior guaranteed notes on or before September 15, 2016 to repay amounts outstanding under its unsecured revolving credit facility or for general corporate purposes. This guidance also reflects the elimination of the ineffective portion of the interest rate swaps relating to \$650.0 million of its five- and seven-year term loans due April of 2020 and 2022, respectively, through an increase in the underlying fixed rate by a weighted average of 12 basis points per annum. This guidance assumes full-year 2016 weighted average fully diluted common stock/units of 146,415,000. The full-year 2016 FFO estimate reflects management's view of current and future market conditions, including assumptions with respect to rental rates, occupancy levels and the earnings impact of events referenced in this press release, but otherwise excludes any impact from future unannounced or speculative acquisitions, dispositions, debt financings or repayments, recapitalizations, capital market activity or similar matters.

The Company does not provide a reconciliation for non-GAAP estimates on a forward-looking basis, including the information under "2016 Outlook" above, where it is unable to provide a meaningful or accurate calculation or estimation of reconciling items and the information is not available without unreasonable effort. This is due to the inherent difficulty of forecasting the timing and/or amount of various items that would impact net income attributable to common stockholders per diluted share, the most directly comparable forward-looking GAAP financial measure, including, for example, acquisition costs and other non-core items that have not yet occurred, are out of the Company's control and/or cannot be reasonably predicted. For the same reasons, the Company is unable to address the probable significance of the unavailable information. Forward-looking non-GAAP financial measures provided without the most directly comparable GAAP financial measures may vary materially from the corresponding GAAP financial measures.

Use of Non-GAAP Information

The Company calculates funds from operations before non-controlling interest (FFO) in accordance with the standards established by the National Association of Real Estate Investment Trusts (NAREIT). FFO represents net income (loss), computed in accordance with accounting principles generally accepted in the United States of America (GAAP), excluding gains (or losses) from sales of depreciable operating property, plus real estate depreciation and amortization (excluding amortization of above/below market lease intangible assets and liabilities and amortization of deferred financing costs and debt discounts/premium) and after adjustments for unconsolidated partnerships and joint ventures. The Company uses FFO as a supplemental performance measure because, in excluding real estate depreciation and amortization and gains and losses from property dispositions, it provides a performance measure that, when compared year over year, captures trends in occupancy rates, rental rates, and operating costs. The Company also believes that, as a widely recognized measure of the performance of REITs, FFO will be used by investors as a basis to compare its operating performance with that of other REITs. However, because FFO excludes depreciation and amortization and captures neither the changes in the value of the Company's properties that results from use or market conditions nor the level of capital expenditures and leasing commissions necessary to maintain the operating performance of its properties, all of which have real economic effect and could materially impact the Company's results from operations, the utility of FFO as a measure of the Company's performance is limited. Other equity REITs may not calculate FFO in accordance with the NAREIT definition and, accordingly, the Company's FFO may not be comparable to such other REITs' FFO. Accordingly, FFO should be considered only as a supplement to net income as a measure of the Company's performance. FFO should not be used as a measure of the Company's liquidity, nor is it indicative of funds available to fund the Company's cash needs, including the Company's ability to pay dividends. FFO should not be used as a supplement to or substitute for cash flow from operating activities computed in accordance with GAAP.
