

April 15, 2020

The health and safety of our Customers & Associates is AutoNation's top priority. We are closely monitoring the current situation with the coronavirus.

Our facilities and stores from coast to coast, are open for business based on the guidelines from local government and health officials. The stores are cleaned and sanitized daily. Over the last few weeks, we've added increased cleaning throughout our stores & centers, including sanitizing high touch areas such as keyboards, telephones and guest common areas. Our team has posted bulletins to remind Customers & Associates of the importance of handwashing and other recommended actions.

As America's Largest & Most Recognized Automotive Retailer, we continue to stay informed and provide information to our Customers and Associates. Transparency is key to our automotive retail operational success. And, we encourage you to be diligent and be informed, as well. We will continue to monitor the situation. Customers depend on us as many must continue to rely on their transportation for work and essential needs. Our teams are ready to serve you in-store or online at [AutoNation.com](https://www.AutoNation.com).

Thank you for your continued trust in AutoNation to keep you, your family and communities Driving Safe.
