PROXY STATEMENT

ANNUAL MEETING OF STOCKHOLDERS TITAN INTERNATIONAL, INC.

Meeting Date: June 12, 2019

GENERAL MATTERS

This Proxy Statement is being furnished to the stockholders of Titan International, Inc. (Titan or the Company) in connection with the solicitation of proxies by the Board of Directors of the Company (the Board of Directors) for use at the Annual Meeting of Stockholders (the Annual Meeting) to be held on June 12, 2019, at the time and place and for the purposes set forth in the accompanying Notice of Annual Meeting, and at any adjournment or postponement of that meeting. The Company is commencing mailing of the Notice of Internet Availability of Proxy Materials (the Notice), in lieu of a paper copy of this Proxy Statement, to its stockholders on or about April 26, 2019. In accordance with rules adopted by the Securities and Exchange Commission (the SEC), the Company may furnish proxy materials, including this Proxy Statement and its Annual Report, to its stockholders by providing access to such documents on the Internet instead of mailing printed copies. The Company has elected to provide its stockholders access to the Company's proxy materials over the Internet; accordingly, most stockholders will not receive printed copies of these proxy materials unless they request them. Instead, the Notice, which was previously mailed to the Company's stockholders, will instruct you as to how you may access and review all of the proxy materials on the Internet. The Notice also instructs you as to how you may submit your proxy, including by telephone or over the Internet. If you would like to receive a paper or email copy of our proxy materials, you should follow the instructions for requesting such materials in the Notice. Although the Company's Annual Report to Stockholders, including Form 10-K, for the year ended December 31, 2018, has been made available to Titan stockholders in connection with the solicitation of proxies by the Board of Directors, it is not incorporated by reference into this Proxy Statement and shall not be deemed to be proxy soliciting material. In this Proxy Statement, unless the context requires otherwise, references to "we," "our," or "us" refer to Titan.

VOTING PROCEDURES

Qualifications to Vote

Only holders of shares of common stock of the Company (Common Stock) at the close of business on April 15, 2019 (the Record Date) will be entitled to receive notice of, and vote at, the Annual Meeting or any adjournment or postponement thereof. Shares of Common Stock held on the Record Date include shares that are held directly in the name of a holder of Common Stock (the Common Stockholders) as the registered stockholder of record on the Record Date and those shares of which the Common Stockholder is the beneficial owner on the Record Date and which are held through a broker, bank, or other institution, as nominee, on the Common Stockholder's behalf (sometimes referred to as being held in "street name"), that is considered the stockholder of record of those shares.

Shares Entitled to Vote

On the Record Date, there were 60,000,370 shares of Common Stock outstanding, and there were no other outstanding classes of stock that will be entitled to vote at the Annual Meeting.

Votes per Share

Common Stockholders are entitled to one vote per share of Common Stock they held of record on the Record Date on each matter that may properly come before the Annual Meeting.

Proposals Requiring Vote; Board Recommendation

Common Stockholders are being asked to consider and vote upon the following matters:

Proposal #1: Election of Richard M. Cashin Jr., Gary L. Cowger, Albert J. Febbo, Peter B. McNitt, Mark H. Rachesky, MD, Paul G. Reitz, Anthony L. Soave, and Maurice M. Taylor Jr., as directors to serve for one-year terms and until their successors are elected and qualified;

Proposal #2: Ratification of the selection of Grant Thornton LLP by the Board of Directors as the independent registered public accounting firm to audit the Company's financial statements for the year ending December 31, 2018;

Proposal #3: Approval, in a non-binding advisory vote, of the compensation paid to the Company's named executive officers;

Proposal #4: Stockholder Proposal Regarding a Sale, Merger, or Other Disposition of the Company;

and such other business as may properly come before the Annual Meeting or any adjournments or postponements thereof. The Board of Directors unanimously recommends that you vote FOR each of Proposals #1, #2, and #3 and AGAINST Proposal #4.

Time and Place; Directions

The Annual Meeting of Stockholders of Titan will be held on Wednesday, June 12, 2019, at 10:00 a.m. Central Daylight Time, at Titan Tire Corporation, 2345 East Market Street, Des Moines, IA 50317. You may call Titan Tire Corporation at (515) 265-9404 for directions to the location of the Annual Meeting.

Attendance for Annual Meeting

Please note that if you are attending the Annual Meeting in person, proof of Common Stock ownership as of the Record Date must be presented, in addition to valid photo identification.

Voting by Stockholders of Record; Submitting Your Proxy

Common Stockholders are asked to vote their shares as promptly as possible. Common Stockholders of record on the Record Date are entitled to cast their votes in person at the Annual Meeting, by telephone or over the Internet, as described in the instructions in the Notice and these materials. If you requested to receive printed proxy materials by mail, you may also vote by completing, signing, dating and promptly returning your proxy card in the return envelope according to the instructions on the proxy card. If you submit your vote by telephone or Internet, you do not need to mail back a proxy card.

All shares of Common Stock represented at the Annual Meeting by properly executed proxies received prior to or at the Annual Meeting and not properly revoked will be voted at the Annual Meeting in accordance with the instructions indicated in the proxy. If no instructions are indicated, such proxies will be voted FOR each of Proposals #1, #2, and #3, AGAINST Proposal #4, and persons designated as proxies will vote with their best judgment on such other business as may properly come before the Annual Meeting. The Board of Directors does not know of any matters that will come before the Annual Meeting other than those described in the Notice of Annual Meeting attached to this Proxy Statement.

Voting by Beneficial Owners of Common Stock

If your shares are held in "street name," your broker or other institution serving as nominee will send you a request for directions for voting those shares. Many brokers, banks, and other institutions serving as nominees (but not all) participate in a program that offers internet voting options and may provide you with a Notice of Internet Availability of Proxy Materials. Follow the instructions on the Notice of Internet Availability of Proxy Materials to access our proxy materials online or to request a paper or email copy of our proxy materials. If you received these proxy materials in paper form, the materials included a voting instruction card so you can instruct your broker or other nominee how to vote your shares. Because you are not the stockholder of record, you may not vote your shares at the Annual Meeting unless you request and obtain a legal proxy from the organization that holds your shares giving you the right to vote your shares at the Annual Meeting.

For a discussion of rules regarding the voting of shares held by beneficial owners when you do not give voting instructions to your broker, please see "Broker Non-Votes" below.

Broker Non-Votes

Under the rules of the New York Stock Exchange (NYSE), member brokers that hold shares in "street name" for their customers that are the beneficial owners of those shares only have the authority to vote on certain "routine" items in the event that they have not received instructions from beneficial owners. Under NYSE rules, when a proposal is not a "routine" matter and a member broker has not received voting instructions from the beneficial owner of the shares with respect to that proposal, the brokerage firm may not vote the shares on that proposal because it does not have discretionary authority to vote those shares on that matter. A "broker non-vote" is submitted when a broker returns a proxy card and indicates that, with respect to particular matters, it is not voting a specified number of shares on those matters, as it has not received voting instructions with respect to those shares from the beneficial owner and does not have discretionary authority to vote those shares on such matters. The shares of Common Stock as to which "broker non-votes" are submitted are not entitled to vote at the Annual Meeting with respect to the matters to which the "broker non-votes" apply. However, such shares will be included for purposes of determining whether a quorum is present at the Annual Meeting.

Quorum for Annual Meeting

There must be a quorum for the Annual Meeting to be held. The presence, in person or by properly executed proxy, of Common Stockholders holding a majority of the Common Stock outstanding on the Record Date is necessary to constitute a quorum for the transaction of business at the Annual Meeting. Abstentions and "broker non-votes" are counted as present in determining whether or not there is a quorum. If a quorum is not present at the time the Annual Meeting is convened, Common Stockholders representing a majority of the shares of Common Stock present, in person or represented by properly executed proxy, may adjourn the Annual Meeting.

Vote Required to Approve Proposals

Proposal #1: Election of each of Mr. Cashin, Mr. Cowger, Mr. Febbo, Mr. McNitt, Dr. Rachesky, Mr. Reitz, Mr. Soave and Mr. Taylor as directors requires the affirmative vote of Common Stockholders holding a majority of the shares of Common Stock present in person or represented by proxy at the Annual Meeting.

Proposal #2: Ratification of the selection of the independent registered public accounting firm of Grant Thornton LLP requires the affirmative vote of the Common Stockholders holding a majority of the shares of Common Stock present in person or represented by proxy at the Annual Meeting.

Proposal #3: Approval of the non-binding advisory vote on executive compensation requires the affirmative vote of the Common Stockholders holding a majority of the shares of Common Stock present in person or represented by proxy at the Annual Meeting. Although the advisory vote on compensation paid to our named executive officers is non-binding, the Board of Directors will review the result of the vote and will take it into account in making a determination concerning executive compensation in the future.

Proposal #4: Approval of the non-binding advisory vote on the stockholder proposal regarding a sale, merger or other disposition of the Company requires the affirmative vote of the Common Stockholders holding a majority of the shares of Common Stock present in person or represented by proxy at the Annual Meeting. The shareholder proposal is required to be voted upon at the Annual Meeting only if properly presented at the Annual Meeting.

Abstentions are counted in the number of shares present in person or represented by proxy for purposes of determining whether a proposal has been approved and, as a result, are equivalent to votes against Proposal #2, Proposal #3, and Proposal #4. There will be no abstentions on Proposal #1. Brokers that do not receive instructions with respect to Proposal #1, Proposal #3, or Proposal #4 from their customers will not be entitled to vote on that proposal as each of such proposals is considered a “non-routine” matter; any such broker non-votes will not have any impact on the outcome of Proposal #1, Proposal #3 or Proposal #4. However, such shares representing the broker non-votes will be treated as shares present for purposes of determining whether a quorum is present. Because Proposal #2 is considered a “routine” matter, brokers have discretionary authority to vote on Proposal #2 in the absence of timely instructions from their customers. As a result, there will be no broker non-votes with respect to Proposal #2.

Revoking a Proxy

Any proxy given pursuant to this solicitation may be revoked at any time before it is voted. Common Stockholders may revoke a proxy at any time prior to its exercise by filing with the Secretary of the Company a duly executed revocation (which must be received before the start of the Annual Meeting), submitting a new proxy bearing a later date by following the instructions provided in the Notice or the proxy card (which must be received before the start of the Annual Meeting) or voting in person by written ballot at the Annual Meeting. Attendance at the Annual Meeting will not of itself constitute revocation of a proxy. Any written notice revoking a proxy should be sent to: Michael G. Troyanovich, Secretary and General Counsel of Titan International, Inc., 2701 Spruce Street, Quincy, Illinois 62301. If you are a beneficial owner, you may revoke your proxy and change your vote at any time before the Annual Meeting by: (i) submitting new voting instructions to your broker or other intermediary; or (ii) if you have obtained a legal proxy from your broker or other intermediary, by attending the Annual Meeting and voting in person by written ballot.

A representative from Grant Thornton LLP is expected to be present at the Annual Meeting and will have an opportunity to make a statement if such representative desires to do so and will be available to respond to appropriate questions of stockholders in attendance.

PROPOSAL #3 - Approval, in a Non-Binding Advisory Vote, of the Compensation Paid to the Named Executive Officers

As required by Section 14A of the Securities Exchange Act of 1934, the Company is providing stockholders with the opportunity to vote, on a non-binding advisory basis, on a resolution approving the compensation of our named executive officers as disclosed in this Proxy Statement in accordance with the rules of the SEC, included in the “Compensation Discussion and Analysis” section and the compensation tables and narrative discussion contained in the “Compensation of Executive Officers” section of this Proxy Statement.

As described in the "Compensation Discussion and Analysis" section, the objectives of the Company's compensation program are to attract and retain individuals with the necessary skills that are vital to the long-term success of Titan. The compensation program is designed to be fair and just to both the Company and the individual. The overall goal of the Company's compensation policy is to maximize stockholder value by attracting, retaining and motivating the executive officers that are critical to the long-term success of the Company. Stockholders are encouraged to review the “Compensation Discussion and Analysis” and “Compensation of Executive Officers” sections of this Proxy Statement for additional information regarding the Company's executive compensation.

The Board of Directors is requesting the support of Titan's stockholders for the executive compensation as disclosed in the “Compensation Discussion and Analysis” and “Compensation of Executive Officers” sections of this Proxy Statement. This proposal gives the Company's stockholders the opportunity to express their views on the executive officers' compensation. This vote is not intended to address any specific item of compensation, but rather the overall compensation of our executive officers and the overall compensation objectives and philosophy described in this Proxy Statement.

The Board of Directors recommends that stockholders vote FOR the approval, in a non-binding advisory vote, of the compensation paid to the named executive officers and the following resolution:

“RESOLVED, that the compensation of the Company's Named Executive Officers as described in the Company's definitive Proxy Statement for the Company's 2019 Annual Meeting of Stockholders pursuant to Item 402 of Regulation S-K, including the sections entitled 'Compensation Discussion and Analysis' and 'Compensation of Executive Officers,' is hereby APPROVED.”

The vote on the compensation of our executive officers, commonly referred to as "say-on-pay," is advisory and not binding on the Company, the Board of Directors, or the Compensation Committee of the Board of Directors (the Compensation Committee). The final decision on the compensation and benefits of our executive officers and on whether, and, if so, how, to address any stockholder approval or disapproval of executive compensation remains with the Board of Directors and the Compensation Committee. However, the Board of Directors and the Compensation Committee value the opinions of the Company's stockholders as expressed through their votes and other communications, and will consider the outcome of this vote, together with other relevant factors, when making future compensation decisions for the named executive officers.

The Board of Directors previously determined that the Company will hold an advisory vote on executive compensation annually.

PROPOSAL #4 - Stockholder Proposal Regarding a Sale, Merger, or Other Disposition of the Company

The Company received the following resolution, along with supporting statement, submitted by Peter Kross Trust UAD 11/25/1985, Peter Kross as Trustee, the beneficial owner of more than \$2,000 in market value of Titan common stock. The Company is including this stockholder proposal in this Proxy Statement in accordance with Rule 14a-8 under the Exchange Act, printed verbatim from its submission, and Titan and its Board of Directors (the "Board") accept no responsibility for the following resolutions or supporting statement.

Stockholder Proposal

RESOLVED, that the stockholders hereby inform the Board of Directors of Titan International, Inc. (the "Company"), that the stockholders recommend that the Board of Directors immediately take the necessary steps to achieve a sale, merger, or other disposition of the Company on terms that will maximize stockholder value as expeditiously as possible.

SUPPORTING STATEMENT

The pursuit of a sale, merger, or other disposition of the Company is warranted in light of Titan's persistent underperformance. For the one-year period ended November 30, 2018, the Company has declined by -45.5%, and for the two-year period ended November 30, 2018, the Company has declined by -43.4%, while the S&P 500 has appreciated by +6.2% for the one-year period ended November 30, 2018, and +30.5% for the two-year period ended November 30, 2018.

As a small capitalization company, with a market capitalization of less than \$350 million, with operations in many places in the world, management is not able to effectively manage the Company, as evidenced by the Company's lack of performance. Consequently, they should act to sell, merge, or dispose of the Company on terms that will maximize stockholder value.

TITAN STATEMENT IN OPPOSITION

The Board unanimously recommends that stockholders vote AGAINST this proposal.

The Board has carefully considered the proposal and, for the reasons described below, has concluded that its adoption would not be in the best interests of the Company or its stockholders and would instead be inconsistent with the proposal's stated goal of maximizing stockholder value.

The proponent's supporting statement focuses on the trading price for the Company's common stock over the two-year period ended November 30, 2018, as compared to the S&P 500 Index over the same period, as "evidence of the Company's "lack of performance". The Board believes that the trading price of a company's common stock, and in particular a comparison only to the S&P 500 Index, which involves averaging stock prices of companies that do not compete in the same industries as the Company, represents only one of many measures by which a company's performance can or should be evaluated. Stock prices for companies that engage in business in the industries in which the Company competes fluctuate based on a number of factors, many of which are outside of a company's control, including geographic factors, changes in government regulations and policies, domestic and worldwide economic conditions, currency exchange rates and commodity prices, and seasonality. Further, the Board believes that evaluating the Company's performance, and whether a sale, merger, or other disposition as expeditiously as possible would in fact maximize stockholder value, requires a more comprehensive review, beyond a limited comparison of the Company's stock price. For example, the Company believes it has made significant progress with respect to its financial performance. The Company has continued to focus on implementing operational improvements and making strategic investments over the past few years, which have contributed to growth in the Company's net sales and adjusted EBITDA in each of the past two years, with net sales increasing more than twenty-six percent and adjusted EBITDA increasing by more than two and one-half times, in each case when comparing full-year results for 2018 with those for 2016.

The Board and the Company's management are focused on strengthening the Company and positioning the Company to take advantage of opportunities that grow long-term stockholder value. Market value may at times diverge from a company's intrinsic or long-term value, requiring thorough consideration and careful selection and implementation of strategic alternatives, so as to avoid damaging stockholders' long-term interests. In this regard, the Board believes the best course of action is to continue to focus management's time and energy on operating the Company's business, addressing challenges and improving business opportunities. As such, the Board believes that publicly and actively seeking a buyer under current circumstances would be a distraction and shift focus away from its central goals. Recent market conditions have also not been conducive to mergers or sales within the industries in which the Company operates, and such transactions may result in stockholders receiving consideration well below actual share values. While no one can predict when market conditions and/or the Company's stock price will improve or the degree of such improvement, the Board believes the Company's long-term value is significantly greater than its current market price and that any merger, sale or other disruption as contemplated by this proposal, under current circumstances, would be unlikely to yield a fair price for the Company's stockholders.

Moreover, the Board believes that compelling the Company to "immediately take the necessary steps to achieve a sale, merger, or other disposition of the Company," as compared to the Board taking measured steps and using its discretion to evaluate and establish the terms, including timing, for a transaction, if any, that would be in the best interests of stockholders, could adversely affect the value of any such transaction by creating the impression that the Company is under pressure to sell and that the Board would accept a lower price as a result. Under such circumstances, potential purchasers may make lower offers than they otherwise would have if the Company was not forced to achieve a sale. Further, the Board believes that being forced to immediately seek a sale, merger, or other disposition, as contemplated by the proposal, would put the Board in the worst possible bargaining position and restrict its ability to rigorously examine other strategic alternatives that may ultimately prove to be in the best interests of stockholders.

The Board believes that the Company's operations and performance, and thus stockholder value, are also dependent on the Company's ability to build and maintain strong relationships with employees, customers and suppliers. Adoption of the proposal could create uncertainty regarding the Company's future and undermine those relationships. It may be difficult to motivate employees to develop new business or otherwise pursue the Company's growth initiatives if employees are faced with the possibility of losing their jobs, and it may be harder to retain high-quality employees, as uncertainty in their futures and the future of the Company could cause them to seek better job security. These unintended consequences may adversely impact the Company's ability to operate effectively, resulting in a decline in revenues and profits. It may also become harder for the Company to enter into arrangements with third parties and to attract new business from customers if the Company faces an uncertain future.

The Board regularly monitors the Company's business, including the industries in which the Company competes, and financial performance and reviews the Company's strategy for creating long-term value for all stockholders, which includes monitoring the market, from time to time, for advantageous opportunities for the Company to engage in strategic transactions. For example, as previously announced in the first quarter of 2019, the Company began evaluating strategic alternatives with respect to Italtractor ITM S.p.A., one of the Company's subsidiaries that designs and produces steel track and undercarriages for the construction, mining and agricultural markets. In that regard, the Company maintains relationships with recognized investment banking firms and the Board believes it is appropriately advised on, and capable of reaching decisions with respect to, strategic initiatives in the best interests of all stockholders of the Company. Accordingly, the Board believes it is in the best and most informed position to evaluate all of the options that may be available to the Company, including if, when, and under what terms and conditions a sale, merger, or other disposition of the Company should be considered.

For the reasons outlined above, the Board does not believe that the stockholder proposal is in the best interests of the Company or the stockholders and unanimously recommends that stockholders vote "AGAINST" this proposal.

OTHER BUSINESS

The Board of Directors does not intend to present at the Annual Meeting any business other than the items stated in the “Notice of Annual Meeting of Stockholders” and does not know of any matters to be brought before the Annual Meeting other than those referred to above. If, however, any other matters properly come before the Annual Meeting requiring a stockholder vote, the persons designated as proxies will vote on each such matter in accordance with their best judgment.

AUDIT COMMITTEE REPORT

In connection with the filing and preparation of the Company's Annual Report on Form 10-K for the year ended December 31, 2018, the Audit Committee reviewed and discussed the audited financial statements with the Company's management and its independent auditors, including meetings where the Company's management was not present.

The Audit Committee selected Grant Thornton LLP (GT) to serve as the independent registered public accounting firm for the Company for 2018 with stockholders' approval. The Audit Committee has discussed the issue of independence with GT and is satisfied that they have met the independence requirement including receipt of the written disclosures and the letter from GT as required by PCAOB Rule 3526 (Public Company Accounting Oversight Board Rule 3526, Communications with Audit Committees Concerning Independence). The Audit Committee has discussed with GT the matters required by Auditing Standard No. 1301, Communications with Audit Committees.

The Audit Committee meets independently with GT to discuss the accounting principles applied by management and to discuss the quality of the Company's internal audit function. GT reported to the Audit Committee that there were no unresolved matters with management to report. The Audit Committee has established procedures for the receipt, retention and treatment of complaints relating to the Company. The members of the Audit Committee are not professionally engaged in the practice of auditing or accounting and are not experts in those fields, but make every effort to test the veracity of facts and accounting principles applied by management.

Based on the review and discussions referred to above, the Audit Committee recommended to the Board of Directors that the Company's audited financial statements be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2018.

Members of the Audit Committee:

Albert J. Febbo, Chairman

Gary L. Cowger

Peter B. McNitt

COMPENSATION OF DIRECTORS

The Company can use the combination of cash and stock-based incentive compensation to attract and retain qualified directors to serve on the Board of Directors. In setting director compensation, the Company considers the amount of time and skill level required by the directors in fulfilling their duties to the Company.

Each non-employee director of the Company receives an annual director fee of \$100,000. In lieu of this annual director fee, under the Titan International, Inc. 2005 Equity Incentive Plan, each non-employee director of the Company may receive a non-discretionary grant of stock options for 20,000 shares of Common Stock at the conclusion of each Annual Meeting of Stockholders at which such director is elected or re-elected. Such options are immediately vested and exercisable upon the date of grant and expire ten years from the date of the grant.

The Audit Committee Chairman receives an additional \$22,500 annual cash payment while each Chairman of the Compensation Committee, the Corporate Governance Committee of the Board of Directors (the Corporate Governance Committee), and the Nominating Committee receives an additional \$15,000 annual cash payment for such person's service in those positions. The "audit committee financial expert" serving on the Audit Committee receives an additional \$7,500 annual cash payment for this role. The Company also pays each director a fee of \$500 for each Board of Directors or committee meeting attended. Titan also reimburses directors for out-of-pocket expenses related to their attendance at such meetings.

\$100,000	\$22,500	\$15,000	\$7,500	\$500

The Company does not have any consulting contracts or arrangements with any of its directors. At December 31, 2018, the directors beneficially owned, in the aggregate, approximately 17.8% of the outstanding shares of Common Stock.

Board of Directors

The Board of Directors approves nominees for election as directors. Each current director who served on the Board of Directors during 2018 attended 75% or more of (i) the aggregate number of meetings of the Board of Directors during the period in which such individual was a director and (ii) the aggregate number of meetings of committees on which such director served during 2018 with the exception of Mr. Cashin who attended seven of the 14 applicable Board of Directors meetings. The Board of Directors and committee meetings are presided over by the applicable Chairman. If the Chairman is unavailable, the directors present appoint a temporary Chairman to preside at the meeting.

Audit Committee

The Audit Committee was composed of three independent non-employee directors during 2018. The Board of Directors has determined that each of the members of the Audit Committee satisfies the requirements of the NYSE with respect to independence, accounting or financial-related expertise, and financial literacy. Mr. McNitt qualifies as an "audit committee financial expert" as defined in the SEC rules under the Sarbanes-Oxley Act of 2002.

The Audit Committee retains the independent registered public accounting firm to perform audit and non-audit services, reviews the scope and results of such services, consults with the internal audit staff, reviews with management and the independent registered public accounting firm any recommendations of the auditors regarding changes and improvements in the Company's accounting procedures and controls and management's response thereto, and reports to the Board of Directors. The Audit Committee meets quarterly with members of management, internal audit, and the independent registered public accounting firm, individually and together, to review and approve the financial press releases and periodic reports on Form 10-Q and Form 10-K prior to their filing and release. The Audit Committee operates under a written charter, which was amended and restated on June 2, 2016, and is available on the Company's website: www.titan-intl.com. In September 2016, Titan entered into an Audit Committee Observer Agreement (the Observer Agreement) with, among others, MHR Institutional Partners III LP, MHR Capital Partners Master Account LP, MHR Capital Partners (100) LP, MHR Institutional Advisors III LLC, MHR Advisors LLC, MHR LLC, MHR Fund Management LLC, MHR Holdings LLC, and Mark H. Rachesky (collectively, the MHR Entities) that permits the MHR Entities to designate an observer of the Audit Committee. Michael Sirignano served as the observer under the Observer Agreement through March 14, 2018. Mr. David Gutterman was designated to serve effective as of March 14, 2018, and as of the date of this Proxy Statement serves as the observer pursuant to the Observer Agreement.

Compensation Committee

The Compensation Committee provides oversight of all of Titan's executive compensation and benefit programs. The Compensation Committee reviews and approves and makes recommendations accordingly to the Board of Directors regarding, the salaries and all other forms of compensation of the Company's executive officers, including reviewing and approving corporate goals and objectives with respect to executive officer compensation. The Compensation Committee is responsible for the adoption of, the administration of, and making awards under, the Company's equity compensation plans, to the extent provided for by any such plan. The Compensation Committee is also primarily responsible for reviewing the non-employee director compensation program and recommending any changes to the program to the Board of Directors.

Nominating Committee

The Nominating Committee recommended to the Board of Directors that each of Richard M. Cashin Jr., Gary L. Cowger, Albert J. Febbo, Peter B. McNitt, Mark H. Rachesky, MD, Paul G. Reitz, Anthony L. Soave, and Maurice M. Taylor Jr. stand for re-election as directors based on approved criteria. See Proposal #1 for further information regarding these director nominees.

Pursuant to its charter, the Nominating Committee is responsible for the following: (i) identification of individuals qualified to become Directors of the Company; (ii) seeking to address vacancies on the Board of Directors by actively considering candidates that bring a diversity of background and opinion; (iii) considering director candidates on merit and considering the benefits of all aspects of diversity when recommending such candidates to serve as new directors; (iv) developing a process for annual evaluation of the Board of Directors and its committees; and (v) reviewing the Board of Directors' committee structure and composition to make annual recommendations to the Board of Directors regarding the appointment of directors to serve as members of each committee and as committee chairpersons.

Corporate Governance Committee

Pursuant to its charter, the Corporate Governance Committee is responsible for the following: (i) development and recommendation of a set of corporate governance guidelines; (ii) oversight of the Company's corporate governance practices and procedures; (iii) evaluation of the Corporate Governance Committee and its success in meeting the requirements of its charter; (iv) development and oversight of a Company orientation program for new directors and continuing education program for current directors; (v) review and discussion with management of disclosure of the Company's corporate governance practices; (vi) monitoring compliance with the Company's Code of Business Conduct; and (vii) reviewing transactions between the Company and any related persons.

BOARD LEADERSHIP STRUCTURE

The Company's Board of Directors is currently comprised of seven non-employee directors and Mr. Reitz, Titan's President and CEO, who was appointed to the Board of Directors in December 2017. Mr. Taylor, the Chairman of the Board, served as Chief Executive Officer until his retirement in 2016. Mr. Taylor has served as Chairman of the Board since 2005, and has been a member of the Board of Directors since 1993, when Titan first became a public company. The Company believes that the number of independent, experienced directors that make up the Board of Directors benefits Titan and its stockholders.

While the Board of Directors does not have a formal policy requiring the separation of the positions of Chairman of the Board and Chief Executive Officer, the roles of the Chairman of the Board and the Chief Executive Officer are currently separated. The Company believes that this structure is the best governance model for the Company at this time as the Chairman of the Board, Mr. Taylor, is able to focus on Board matters with the insight and experience gained from years of being the Company's Chief Executive Officer, allowing the current President and Chief Executive Officer, Mr. Reitz, to focus on the Company's operations. The Board of Directors believes Titan is well-served by the current leadership structure.

The Board of Directors conducts an annual evaluation in order to determine whether it and its committees are functioning effectively. As part of this annual self-evaluation, the Board of Directors evaluates whether the current leadership structure continues to be advantageous for Titan and its stockholders.

Risk Oversight

The Board of Directors is responsible for overseeing Titan's Enterprise Risk Management (ERM) process. The Board of Directors focuses on Titan's ERM strategy and the most significant risks facing Titan from strategic, financial, operational and legal perspectives considering impact, likelihood and velocity. The Board of Directors evaluates whether appropriate risk mitigation strategies are implemented by management and are effective. The Board of Directors is also apprised of particular risk management matters in connection with its general oversight and approval of corporate matters. The Board of Directors works with the Audit Committee in its oversight of Titan's ERM process. The Audit Committee Chairman reviews with management (i) policies with respect to risk assessment and management of risks that may be material to the Company, (ii) Titan's system of disclosure controls and system of internal controls over financial reporting, and (iii) Titan's compliance with legal and regulatory requirements. The Company's other Board committees also consider and address risk as they perform their respective committee responsibilities, including evaluation of risks relating to the Company's compensation programs and corporate governance standards. Each of the committees reports to the full Board of Directors as appropriate, including when a matter rises to the level of a material risk.

Titan's management is responsible for day-to-day risk management. The Company's Internal Audit team reports functionally to the Audit Committee and administratively to the Chief Financial Officer and serves as the primary monitoring and testing function for company-wide policies and procedures. The Chief Financial Officer and the Internal Audit team manage the day-to-day oversight of the ERM strategy for ongoing business described above.

The Board of Directors believes the risk management responsibilities detailed above are an effective approach for addressing the risks facing the Company at this time.

Risks Relating to Employee Compensation Policies and Practices

The Board of Directors believes that the risks relating to the Company's compensation policies and practices for Titan employees are not reasonably likely to have a material adverse effect on the Company at this time.

In examining risks relating to employee compensation policies and practices, the Company considered the following factors:

- The Company is an industrial manufacturer; in the Company's opinion, this business does not lend itself to or incentivize significant risk-taking by Company employees.
- The compensation practices for the Company's non-bargaining employees and management have been established over several decades; in the Company's opinion, these practices have not promoted significant risk-taking.
- The Company does not have a history of material changes in compensation that would have a material adverse effect on the Company related to risk management practices and risk-taking incentives.

DIRECTOR NOMINATION PROCESS

The Nominating Committee and other members of the Board of Directors identify candidates for consideration by the Nominating Committee for election to the Board of Directors. An executive search firm may also be utilized to identify qualified director candidates for consideration.

The Nominating Committee evaluates candidates from any reasonable source, including stockholder recommendations and recommendations from current directors and executive officers, based on the qualifications for a director described in its charter. These considerations include, among other things, merit, expected contributions to the Board of Directors, whether the candidate meets the independence standards of the SEC and the NYSE, and a diversity of background and opinion, with diversity being broadly considered by the Board of Directors to mean a variety of opinions, perspectives, personal and professional experiences and backgrounds, including gender, race and ethnicity differences, as well as other differentiating characteristics such as organizational experience, professional experience, education, cultural and other background, viewpoint, skills and other personal qualities. The Nominating Committee then presents qualified candidates to the full Board of Directors for consideration and selection.

The Nominating Committee will consider nominees for election to the Board of Directors that are recommended by stockholders, applying the same criteria for candidates as discussed above. Under Rule 14a-8 under the Exchange Act, any stockholder nominations for election as directors at the 2019 Annual Meeting must be delivered to the Nominating Committee, c/o Corporate Secretary, Titan International, Inc., 2701 Spruce Street, Quincy, Illinois, 62301, not later than December 28, 2019 to be eligible for inclusion in Titan's proxy statement and form of proxy related to the 2019 Annual Meeting of Stockholders.

Involvement in Legal Proceedings

The Company is not aware of any events with respect to any director or executive officer of the Company requiring disclosure under Item 401(f) of Regulation S-K that are material to an evaluation of the ability or integrity of any director or executive officer.

COMPENSATION DISCUSSION AND ANALYSIS

Overview

This Compensation Discussion and Analysis describes the compensation policies and determinations that apply to the Company's named executive officers. The Compensation Committee is empowered to review and approve the annual compensation package for the Company's named executive officers. The named executive officers for 2018 were as follows:

<u>Position</u>	<u>Name</u>
President and Chief Executive Officer	Paul G. Reitz
Current SVP and Chief Financial Officer (from June 14, 2018)	David A. Martin
Interim Chief Financial Officer (May 2 to June 14, 2018)	Amy S. Evans
Former Chief Financial Officer (until May 2, 2018)	James M. Froisland
Secretary & General Counsel	Michael G. Troyanovich

Objective

The objectives of the Company's compensation program are to attract and retain individuals with the necessary skills that are vital to the long-term success of the Company. To achieve these objectives, the compensation program is designed to be fair to both the Company and the individual. Consideration is given to the individual's overall responsibilities, qualifications, experience, and job performance.

Philosophy

The overall goal of the Company's compensation policy is to maximize stockholder value by attracting, retaining and motivating the executive officers that are critical to its long-term success. The Compensation Committee believes that executive compensation should be designed to promote the long-term economic goals of the Company. Accordingly, an important component of the Compensation Committee's compensation philosophy is to align the financial interests of the Company's executive officers with those of the Company's stockholders. The philosophy of the Compensation Committee as it relates to executive compensation is that the CEO and other executive officers should be compensated at competitive levels sufficient to attract, motivate, and retain talented executives who are capable of leading the Company in achieving its business objectives in an industry facing increasing competition and change. To that end, the Compensation Committee has determined that the compensation package for executive officers shall consist of the following components reflecting a mix of fixed and variable compensation, as well as cash and equity compensation, with the amount and mix of compensation for named executive officers established pursuant to the terms of applicable employment agreements and otherwise determined by the Compensation Committee, as described below:

- Base salaries to reflect responsibility, experience, tenure, and performance of executive officers;
- Cash bonus awards, when applicable, to reward performance for strategic business objectives and individual objectives;
- Long-term incentive compensation, when applicable, to emphasize business and individual objectives; and
- Other benefits as deemed appropriate to be competitive in the marketplace.

See "Employment Agreements" for a description of the employment agreements to which the named executive officers are party. In addition to reviewing the compensation of executive officers against competitive market data that is publicly available, the Compensation Committee also considers recommendations from the Company's CEO regarding the total compensation for the other named executive officers. The Compensation Committee also considered the historical compensation of each named executive officer, from both a base salary and total compensation package perspective, in setting the 2018 compensation for the executives.

Compensation Committee Charter

The Compensation Committee has a charter to assist in carrying out its responsibilities. The Compensation Committee reviews the charter and the guidelines contained therein on an annual basis and makes any modifications as it deems necessary. The Compensation Committee Charter is available on our website at www.titan-intl.com.

Executive Compensation Decision-Making

The Company's management provides the Compensation Committee with historical compensation information relating to the executive officers to assist the Compensation Committee in formulating the named executive officer's compensation. The Board of Directors has four members that have extensive manufacturing experience and two members that have extensive global financial market experience. The Compensation Committee consults with other members of the Board of Directors regarding what is occurring in their markets relating to compensation. The Compensation Committee considers competitors, markets, and individual performance, as well as the Company's performance when making salary adjustments and bonus awards. The information provided to the Compensation Committee includes items such as base salary, bonus, and equity-based awards. The Compensation Committee takes into account the historical trend of each element of compensation and the total compensation for each year in connection with its decision about proposed compensation amounts. The Compensation Committee sets all compensation with regard to the CEO of the Company. For the other named executive officers of the Company, the Compensation Committee receives recommendations from the CEO which it considers when setting compensation for these individuals. The Compensation Committee members communicate with others in their own marketplaces to compare salaries and compensation packages. They also review Company competitors to see what is being paid to other executives in like fields.

The Compensation Committee has the authority to engage compensation consultants to assist with designing compensation for the named executive officers. In 2018, the Compensation Committee utilized information obtained from Equilar, a software tool that compiles executive compensation information, which compared each named executive officer to a selected group for base salary and total compensation. Equilar obtains executive compensation information from public proxy data as a resource for referencing executive compensation to aid customers with their compensation programs. As the Company is a manufacturer in the off-highway industry, the selected group includes twenty public companies in the manufacturing and industrial business. The size of the company is also considered when selecting the benchmarking group. For 2018, the benchmarking group includes five new companies which were not in the previous year's group. Five replacements were made to more accurately match Titan's size and business. The companies chosen for comparison include the following:

Actuant Corporation	Chart Industries, Inc.	Graco Inc.	Park-Ohio Holdings
Alamo Group, Inc.	Commercial Vehicle Group, Inc.	ITT Inc.	Stoneridge, Inc.
Applied Industrial Technologies, Inc.	EnPro Industries, Inc.	Lindsay Corporation	Valmont Industries, Inc.
Barnes Group Inc.	Federal Signal Corporation	Materion Corporation	Wabash National Corporation
Briggs & Stratton Corporation	Global Brass and Copper Holdings, Inc.	Modine Manufacturing Company	Watts Water Technologies

The Compensation Committee recognizes other companies may use different types of calculations and matrices to decide what a compensation package should contain. However, the Compensation Committee believes any package that uses only such formulas and matrices may not be a complete representation of the Company's performance. The Compensation Committee's members use their extensive business experience and judgment, including reviewing competitive compensation information obtained from public information to evaluate and determine the Company's executive compensation packages in addition to performance metrics. While the Compensation Committee considers the executive compensation information for the group obtained through Equilar, the Compensation Committee does not focus on aligning the compensation for the Company's executives to any specified percentage or level of the executive compensation for companies in the group. The Compensation Committee's philosophy of evaluating the overall Company performance, not just using numeric measurement criteria, allows the Compensation Committee greater flexibility in carrying out its duties.

The Compensation Committee may grant performance awards as part of an executive officer's compensation package. Generally, performance awards require satisfaction of pre-established performance goals, consisting of one or more business criteria and a targeted performance level with respect to such criteria as a condition of awards being granted, becoming exercisable or settled, or as a condition to accelerating the timing of such events. Performance may be measured over a period of any length specified by the Compensation Committee. Additional detail regarding 2018 performance measures used by the Compensation Committee in connection with establishing named executive officer compensation for 2018 can be found under "Incentive Compensation" below.

In setting compensation packages, including performance-based incentives, the Compensation Committee considers the provisions of its incentive programs. The Compensation Committee takes into account whether or not stock-based compensation is given as part of the executives' compensation package. Equity awards were granted to certain executive officers in 2018. Additional detail regarding these equity award grants can be found in "Incentive Compensation - 2018 Equity Awards" below. The performance goals under the Company's incentive programs are designed using the Compensation Committee's business experience and judgment to best align executive compensation with the Company's actual performance.

The Company conducts a stockholder outreach program through which the Company interacts with stockholders on a number of matters throughout the year, including executive compensation. The compensation paid to the Company's named executive officers disclosed in the Company's 2018 Proxy Statement was approved by approximately 94% of the shares present in person or represented by proxy at the 2018 Annual Meeting of Stockholders, which reflects, in the view of the Compensation Committee, the benefit of that outreach. The Compensation Committee considered this favorable outcome and believes it conveyed stockholders' support of the Compensation Committee's decisions and the existing executive compensation program. The Committee believes that the existing compensation program continues to attract, retain and appropriately incent senior management.

Salary Level Considerations

Base salary levels for the named executive officers, other than Ms. Evans, are initially established by their respective employment agreements, and these salary levels are reviewed and may be adjusted annually by the Compensation Committee. In determining appropriate salaries, the Compensation Committee considers: (i) the CEO's recommendations as to compensation for all other executives; (ii) the responsibilities of the executive position held, the individual's past experience, current performance, and competitive marketplace conditions for executive talent; (iii) compensation levels of other executives based on, among other things, the Compensation Committee members' own business experience and judgment as well as annual salary surveys; and (iv) data from Equilar. Salary levels are typically considered on an annual basis and there are no set merit increases in any given year. Except to the extent provided for in the named executive officers' employment agreement, the Compensation Committee's analysis is a subjective process, which utilizes no specific weights or formulas in determining executives' base salaries but includes a discussion with management of various factors, as well as the other information discussed above.

Salary adjustments for each executive can be based in part on the CEO's recommendation to the Compensation Committee that the executive's job performance may warrant a salary adjustment. The CEO will discuss the executives' job performance with the Compensation Committee and answer any questions that the Compensation Committee may have regarding the recommendation. The Compensation Committee will consider the recommendation of the CEO.

Base Salary

Based on a discussion of the above items, the executive salaries were approved by the Compensation Committee for the years of 2017, 2018, and 2019, and are detailed below.

	<u>Year</u>	<u>P. Reitz</u>	<u>D. Martin (a)</u>	<u>J. Froisland (b)</u>	<u>M. Troyanovich</u>

Base Salary	2019	\$900,000	\$400,000	—	\$350,000

(a) Mr. Martin became Senior Vice President and Chief Financial Officer effective June 14, 2018.

(b) Mr. Froisland was Chief Financial Officer until his separation on May 2, 2018.

Messrs. Reitz, Martin, and Troyanovich have employment agreements with the Company that specify a base salary and permit the Board of Directors to increase base salary from time to time.

Based on public compensation information obtained by Equilar, and for comparison purposes only, regarding 2018 base salary, Mr. Reitz's base salary was approximately at the 75th percentile for the group, Mr. Martin's base salary was approximately at the 30th percentile for the group, and Mr. Troyanovich's base salary was approximately at the 40th percentile for the group.

Incentive Compensation

The Company sponsors the 2005 Equity Incentive Plan (as amended) (the “Incentive Plan”), pursuant to which the Company may grant various types of awards, both equity and cash, to incentivize executives and other key personnel in achieving various Company objectives. This plan permits the Committee discretion to develop performance incentive programs, with objectives that may vary from year to year.

2018 Annual Cash Bonus

For 2018, the Company utilized an annual cash-based performance incentive program to motivate and reward named executive officers and certain management for making decisions that improve performance at the Company and/or business unit level. For 2018, the Committee looked at Company-level, business unit-level, and individual performance to determine whether profitability (including sales) had increased at either a Company or business-unit level (and what role such individual or business unit played in such increase (if any)) after removing items such as capital expenditures and other costs. Following the Committee’s evaluation of performance under the program, the Committee had discretion to increase or decrease bonuses under the program by up to 50%. Additionally, for 2018, the Compensation Committee capped the total bonus payout to all participants under this program at 5% of Earnings Before Interest Tax Depreciation and Amortization (“EBITDA”) (and excluding foreign currency effects). Bonus targets were set by the Committee at 100% of base salary for Messrs. Reitz and Martin (further pro-rated for partial year participation in 2018) and 50% of base salary for Mr. Troyanovich. Based on the Committee’s review of performance at Company, business-unit and individual levels, the Company awarded discretionary cash bonuses to Messrs. Reitz, Martin and Troyanovich of \$975,000 (108% of target opportunity), \$275,000 (127% of target opportunity, considering partial year participation), and \$175,000 (100% of target opportunity), respectively.

2018 Equity Grants

On July 6, 2018, the Compensation Committee granted awards of restricted stock under the Incentive Plan to Mr. Reitz, Mr. Troyanovich and Ms. Evans of 70,000 shares, 30,000 shares, and 15,000 shares respectively, vesting 1/3 on each of the three anniversaries following the grant date. In connection with Mr. Martin’s hire, the Compensation Committee granted Mr. Martin 30,000 shares of restricted stock on June 14, 2018, vesting 1/3 on each of the three anniversaries following the grant date. Additional detail regarding these restricted stock grants is described below in the “Grants of Plan-Based Awards.”

Nonqualified Deferred Compensation

The Company does not have a nonqualified deferred compensation plan and the Compensation Committee currently does not anticipate establishing such a plan.

Comparison of Executive Total Compensation

Based on public compensation information obtained by Equilar, and for comparison purposes only, regarding total 2018 compensation, Mr. Reitz's total compensation was approximately at the 15th percentile of the group, Mr. Martin's total compensation was approximately at the 55th percentile of the group, and Mr. Troyanovich's total compensation was approximately at the 25th percentile of the group.

Employment Agreements

At December 31, 2018, the Company had outstanding employment agreements with each of the named executive officers of the Company. These agreements provide that the individuals will not receive any separation benefits if they voluntarily leave the Company. The agreements contain change in control provisions as detailed below.

Employment Agreements Providing Payments on a Change in Control

Mr. Reitz and Mr. Troyanovich signed employment agreements effective December 22, 2015. The agreements were originally effective for one year from their respective effective dates and each automatically renews for successive one-year renewal periods unless notice of nonrenewal is given in accordance with the provisions of the agreement. Mr. Reitz's agreement was amended December 7, 2016, to reflect his change in title to President and Chief Executive Officer, including an increase in base salary. Mr. Martin signed an employment agreement effective June 14, 2018. Mr. Martin's agreement is effective for two years from its effective date and automatically renews for successive one-year renewal periods unless notice of nonrenewal is given in accordance with the provisions of thereof. On April 16, 2018, the Company announced that the Company would not renew Mr. Froisland’s employment agreement upon the expiration of the initial term of the agreement. Mr. Froisland separated employment with the Company on May 2, 2018. Additional detail on payments made to Mr. Froisland in connection with his employment separation can be found below in “Potential Payments upon Termination or Change in Control.”

Pursuant to the employment agreements for Messrs. Reitz and Troyanovich, in the event of the executive's voluntary termination for good reason or involuntary termination without cause, subject to the executive's execution and non-revocation of a release of claims, the Company shall (i) pay and continue all employee benefit programs offered to the Company's executives (the "Standard Executive Benefits"); (ii) pay 100% of executive's base salary or adjusted base salary for both the balance of the calendar year in which the executive is terminated or leaves the Company's employ and also for the following calendar year; (iii) provide fully-paid medical and dental coverage for the remaining portion of executive's employment term; (iv) 100% vest any stock options and Company match under the Company's 401(k) plan; and (v) pay any bonus compensation and incentive compensation for both the balance of the calendar year in which the executive terminated employment and also for the following calendar year (collectively referred to as the "Termination Payments"). In the event of a change in control, if the executive's employment is terminated (whether voluntarily or involuntarily), the executive will be entitled to the Termination Payments. Additional detail on potential payments to Messrs. Reitz and Troyanovich can be found below in "Potential Payments upon Termination of Change in Control."

Pursuant to the employment agreement for Mr. Martin, in the event of executive's voluntary termination for good reason or involuntary termination without cause, subject to executive's execution and non-revocation of a release of claims, the Company shall (i) pay 100% of executive's base salary or adjusted base salary for 12 months following the separation date, (ii) a pro-rated bonus for the year of termination based on the achievement of applicable performance goals for the year and the number of days that executive was employed, (iii) fully-paid COBRA coverage for the greater of the number of months remaining in the employment period or 12 months, (iv) all outstanding stock options and restricted stock, if any, will be 100% vested. In the event of a change in control, if executive's employment is terminated by the executive for any reason within six months following the change in control, the executive will be entitled to the payments listed in the previous sentence. Additional detail on potential payments to Mr. Martin can be found below in "Potential Payments upon Termination of Change in Control."

For the purpose of each of the executive's employment agreements, a "change in control of the company" means:

- (i) any person or entity acquires direct or indirect beneficial ownership (as defined in the Securities Exchange Act of 1934, as amended, and the regulations promulgated thereunder (the Exchange Act)) of more than 50% of the outstanding voting securities of Titan; or
- (ii) the stockholders of Titan approve, or Titan otherwise effects, enters into, or approves, (A) a merger or consolidation of Titan with or into any other person or entity; (B) an agreement for the sale or disposition (in one transaction or a series of transactions) of all or substantially all of the assets of Titan; (C) a plan of complete liquidation of Titan; or (D) any transaction similar to any of the foregoing, other than, in the case of both (ii)(A) and (ii)(B) above, a merger, consolidation, or sale that would result in the voting securities of Titan outstanding immediately prior thereto controlling or continuing to represent, directly or indirectly, either by remaining outstanding or by being converted into equity securities of the surviving person or entity, at least 50% of the total outstanding voting securities of Titan or the surviving person or entity outstanding immediately after such transaction.

In the event of a termination due to the executive's death, the employment agreements provide that the Company will pay executive's beneficiary or estate an amount equal to all earned but unpaid base salary plus an additional six months of base salary. Additionally, for Messrs. Reitz and Troyanovich, the Company will pay an amount equal to 50% of the executive's base salary to the executive's beneficiaries or estate for the remainder of the employment term (or the extended term) and provide the Standard Executive Benefits for a period of six months to the executive's family. For Mr. Martin, the Company will pay 100% of his beneficiaries' COBRA premiums for a period ending on the later of the expiration of the employment period in which the executive's death occurred or a period of 12 months (provided that these beneficiaries otherwise remain eligible for COBRA coverage).

In the event of a termination due to a qualifying disability under the employment agreement, the Company will pay the executive (i) a lump sum equal to any accrued but unpaid base salary and (ii) his base salary in monthly installments for a period of 24 months following the termination; provided that such amount shall be reduced by any Company-provided disability insurance payments. Additionally, for Messrs. Reitz and Troyanovich, the Company will provide the Standard Executive Benefits for the 24-month period. For Mr. Martin, the Company will pay 100% of executive's COBRA premiums (provided executive remains eligible for COBRA coverage) for the applicable COBRA statutory period, but not more than 24 months following the termination due to disability.

In the event of a termination for cause, due to the executive's failure or refusal to perform the executive's duties under the employment agreement or as assigned to executive by the CEO (as applicable) or by the Board of Directors, the Company is required to pay Messrs. Reitz and Troyanovich 50% of the executive's base salary and continue the Standard Executive Benefits for a period of six months following termination. In the event that Mr. Martin's employment is terminated for cause, Mr. Martin will receive any accrued but unpaid base salary through the termination date.

2018 CEO Pay Ratio

As required by Section 953(b) of the Dodd-Frank Wall Street Reform and Consumer Protection Act, and Item 402(u) of Regulation S-K, the Company is providing the following information about the relationship of the annual total compensation of the median Titan employee and the annual total compensation of Mr. Paul G. Reitz, President and Chief Executive Officer, in each case, during 2018.

To identify the median employee, the Company used annual base salary of each of its active employees (other than the CEO) employed as of December 31, 2017, as a consistently applied compensation measure, annualizing the base salary for employees hired after January 1, 2017. The salaries of Titan's non-U.S. employees were converted into U.S. dollars at the applicable December 31, 2017, exchange rate. Although permitted, the Company did not use the 5% de minimis exemption to exclude or eliminate any of its non-US employees, nor were any material assumptions or estimates made, in the median employee determination. After identifying the median employee, the Company calculated the annual total compensation for that employee using the same methodology used for the CEO in the summary compensation table. There were no changes in the employee population or employee compensation arrangements during 2018 that the Company believes would significantly impact the pay ratio disclosure. Therefore, the median employee identified based on 2017 information will be used for 2018 as well. The median employee received annual total compensation of \$37,555. The identified median employee was an employee at the Company's United Kingdom operations. Titan's CEO, who is located in the U.S., received annual total compensation of \$2,659,393, which yields a 2018 pay ratio of approximately 71 to 1.

Because the rules for identifying the median employee and calculating the pay ratio allow companies to use different methodologies, to apply certain exemptions, and to make reasonable estimates and assumptions, the pay ratio calculated by the Company may not be comparable to the pay ratio reported by other companies.
