HealthSouth Reports Strong Revenue, Volume, and Adjusted EBITDA Growth in Both Segments for First Quarter 2016 and Raises Full-Year 2016 Guidance

BIRMINGHAM, Ala. - HealthSouth Corporation (NYSE: HLS), one of the nation's largest providers of post-acute healthcare services, offering both facility-based and home-based post-acute services, today reported its results of operations for the first quarter ended March 31, 2016.

“The first quarter was an excellent start to the year as both segments generated strong volume, revenue, and Adjusted EBITDA growth,” said Jay Grinney, President and Chief Executive Officer of HealthSouth. “Additionally, we produced \$129.5 million of adjusted free cash flow which we were able to invest in a variety of value-creating ways: expanding our portfolio of hospitals and home health agencies; reducing our long-term debt by \$55.3 million; repurchasing 314,532 shares of our common stock; and paying a \$0.23 per share cash dividend. As a result of these very strong results, we are increasing our guidance for full-year net operating revenues, Adjusted EBITDA, and adjusted earnings per share.”

Consolidated Results

	Q1 2016	Q1 2015	Growth	
			Dollars	Percent
	(In Millions, Except per Share Data)			
Net operating revenues	\$ 909.8	\$ 740.6	\$ 169.2	22.8%
Income from continuing operations attributable to HealthSouth per diluted share	0.61	0.44	0.17	38.6%
Adjusted earnings per share	0.61	0.51	0.10	19.6%
Cash flows provided by operating activities	159.7	102.0	57.7	56.6%
Adjusted EBITDA	192.1	156.1	36.0	23.1%
Adjusted free cash flow	129.5	79.4	50.1	63.1%

Revenue growth primarily resulted from strong volumes in both of the Company's operating segments and included the effect of the Company's acquisitions of Reliant Hospital Partners, LLC and affiliated entities (“Reliant”) on October 1, 2015 and CareSouth Health System, Inc. (“CareSouth”) on November 2, 2015.

The increase in adjusted earnings per share primarily resulted from increased Adjusted EBITDA. Adjusted earnings per share also included the impact of higher interest expense related to the financing of the Reliant and CareSouth acquisitions, higher depreciation and amortization related to acquisitions and capital investments, and a lower share count resulting from share repurchases in the fourth quarter of 2015 and first quarter of 2016.

Adjusted free cash flow increased primarily as a result of the Company's growth in Adjusted EBITDA. Adjusted free cash flow in the first quarter of 2016 included increased cash interest expense related to the acquisitions of Reliant and CareSouth and lower working capital primarily attributable to payroll-related liabilities.

See attached supplemental information for calculations of non-GAAP measures and reconciliations to their most comparable GAAP measure.

Inpatient Rehabilitation Segment Results

	Q1 2016	Q1 2015	Growth	
			Dollars	Percent
(In Millions)				
Net operating revenues:				
Inpatient	\$ 719.4	\$ 606.6	\$ 112.8	18.6%
Outpatient and other	29.8	23.7	6.1	25.7%
Total segment revenue	\$ 749.2	\$ 630.3	\$ 118.9	18.9%
(Actual Amounts)				
Discharges	41,098	35,116	5,982	17.0%
New-store discharge growth				14.2%
Same-store discharge growth				2.8%
Net patient revenue per discharge	\$ 17,505	\$ 17,274	\$ 231	1.3%
(In Millions)				
Adjusted EBITDA	\$ 196.9	\$ 164.4	\$ 32.5	19.8%

- *Revenue* - Revenue growth resulted primarily from strong same-store and new-store volume growth. Discharge growth from new stores resulted from the Company's acquisitions of Reliant (October 2015) and Cardinal Hill Rehabilitation Hospital (May 2015), the Company's joint ventures with Memorial Health in Savannah, Georgia (April 2015) and CHI St. Vincent in Hot Springs, Arkansas (February 2016), and the de novo opened in Franklin, Tennessee (December 2015).

Net patient revenue per discharge was impacted by the ramping up of new hospitals (Franklin, TN and Hot Springs, AR) which are required to treat a minimum of 30 patients for zero revenue as part of the Medicare certification process. In the first quarter of 2016, the Company also recorded a \$1.8 million revenue reserve related to post-payment claims reviews.

Outpatient revenues increased by \$6.1 million in the first quarter of 2016 compared to the first quarter of 2015 due to the acquisitions of Reliant and Cardinal Hill.

- *Adjusted EBITDA* - Inpatient rehabilitation segment Adjusted EBITDA increased by 19.8% driven primarily by revenue growth. Adjusted EBITDA for the segment was impacted by an increase in salaries and benefits as a percent of revenue. This increase primarily resulted from merit and benefit cost increases, as well as the ramping up of new stores. Hospital operating expenses (other operating expenses, supplies, and occupancy costs) improved as a percent of net operating revenues in the first quarter of 2016 compared to the first quarter of 2015 primarily due to increased revenue, continued supply chain initiatives, and the impact of an approximate \$4 million litigation charge recorded in the first quarter of 2015. This improvement in hospital operating expenses occurred in spite of an increase in occupancy costs as a percent of net operating revenues due to the acquisition of Reliant. Bad debt expense as a percent of net operating revenues increased from 1.7% in the first quarter of 2015 to 2.1% in the first quarter of 2016 due to administrative payment delays at the Company's largest Medicare Administrative Contractor and continued payment delays resulting from the implementation of ICD-10 by certain payors. Pre-payment claims denials increased year over year but were consistent with the level experienced in the second half of 2015.

Home Health and Hospice Segment Results

	Q1 2016	Q1 2015	Growth

Same-store episode growth				12.3 %

			(In Millions)	
Adjusted EBITDA	\$ 22.6	\$ 16.9	\$ 5.7	33.7 %

- *Revenue* - Revenue growth resulted from strong same-store and new-store volume growth. Growth from new stores resulted from the acquisition of CareSouth and Encompass' other acquisitions throughout 2015.

Revenue per episode was impacted by the Medicare home health reimbursement rate cuts that became effective January 1, 2016 and lower revenue per episode at CareSouth due to patient mix.

- *Adjusted EBITDA* - Growth in Adjusted EBITDA resulted primarily from revenue growth. Adjusted EBITDA for the segment was impacted by lower average revenue per episode, merit and benefit costs increases year over year, and expenses related to the integration of CareSouth.

Capital Structure Transactions

Repurchases of Common Stock

During the first quarter of 2016, the Company repurchased 314,532 shares of its common stock for approximately \$11 million in the open market. As of March 31, 2016, the Company had a remaining repurchase authorization of approximately \$149 million.

Redemption of Senior Notes

In March 2016, the Company redeemed \$50 million of the outstanding principal amount of its 7.75% Senior Notes due 2022 (the "2022 Notes"). Pursuant to the terms of the 2022 Notes, this optional redemption was made at a price of 103.875%, which resulted in a total cash outlay of approximately \$52 million. This redemption was funded using cash on hand and capacity under the Company's revolving credit facility. As a result of this redemption, the Company recorded a \$2.4 million loss on early extinguishment of debt in the first quarter of 2016.

In April 2016, the Company gave notice of its intent to redeem an additional \$50 million of the outstanding principal amount of the 2022 Notes. This optional redemption also will be made at a price of 103.875%. The Company plans to use cash on hand and capacity under its revolving credit facility to fund the redemption, which will close in May 2016. As a result of this redemption, the Company expects to record an approximate \$2 million loss on early extinguishment of debt in the second quarter of 2016.

"The continued strength and consistency of our free cash flow facilitated an approximate \$55 million reduction in our funded debt in the first quarter of 2016," said Doug Coltharp, Executive Vice President and Chief Financial Officer of HealthSouth. "Together with the growth in Adjusted EBITDA, this resulted in a 0.3x decrease in our leverage ratio from year-end 2015."
