Investor Fact Sheet

About Twitter (NYSE: TWTR)

Twitter is what’s happening in the world and what people are talking about right now. From breaking news and entertainment to sports, politics, and everyday interests. Available in more than 40 languages around the world, the service can be accessed via twitter.com, an array of mobile devices, and SMS.

Q2 2018 Highlights

Strong revenue growth of 24% year-over-year reflects continued momentum with advertisers driven by ongoing improvements to the service and improved advertiser ROI. We’re also maintaining profitability while investing in the business, with GAAP net income of $100 million, GAAP net margin of 14%, adjusted EBITDA of $265 million and adjusted EBITDA margin of 37%.

We launched a scalable new event infrastructure that makes it easier for people to follow events, topics and interests on Twitter, with the World Cup serving as its debut. Overall product improvements, organic growth and marketing continue to drive healthy DAU growth of 11% year-over-year.

We continue to invest in improving the health of the public conversation on Twitter, making the service better by integrating new behavioral signals to remove spammy and suspicious accounts and continuing to prioritize the long-term health of the platform over near-term metrics. We also acquired Smyte, a company that specializes in spam prevention, safety, and security.
