WILMCOTE HOLDINGS PLC

Unaudited Interim

Condensed Consolidated Financial Statements
for the six months ended 31 December 2019

MANAGEMENT REPORT

I present to shareholders the unaudited interim condensed consolidated financial statements of Wilmcote Holdings plc (the "**Company**") for the six months ended 31 December 2019 (the "**Consolidated Interim Financial Statements**"), consolidating the results of Wilmcote Holdings plc, WHJ Limited, Wilmcote Group Limited, WCH Group Limited, Arrow US Holdings Inc and Arrow Canadian Holdings Limited (collectively, the "**Group**" or "**Wilmcote**").

Strategy

Wilmcote was established and admitted to trading on AIM with the objective of creating value for its shareholders through the acquisition and subsequent development of target businesses, initially considering opportunities in the downstream and specialty chemicals sector.

Since listing on AIM in 2017, we have reviewed and engaged with a substantial number of potential acquisition opportunities in the specialty chemicals sector, including businesses with links to the construction, building products and broader industrial sectors. During this period, we progressed two potential acquisitions, under exclusivity, to within days of a successful completion. The financial consequences of these aborted transactions have been significant, and these have accounted for the vast majority of the Group's expenditure.

During the period of due diligence and negotiation with these two potential acquisitions in particular, we had significant ongoing dialogue with existing and potential investors (in both cases with more than 50 investors wall-crossed for material periods of time). While we were not able to subsequently conclude either of these acquisitions, each of them, remain in our view, high quality businesses in specialist segments.

While we recognise that there remains a risk of future losses arising from the pursuit of future transactions, a key priority for us will be to manage the Company's exposure to the financial costs of progressing and securing a successful acquisition. Alongside the existing risk procedures, we will further mitigate these risks by:

- reducing the target size of potential acquisitions to consider taking one or more controlling or non-controlling stakes, in businesses with an enterprise value generally expected to be up to £500 million;
- seeking appropriate risk-sharing measures with professional service providers and, to the extent possible, with vendors;
- continuing the model of early stage market sounding and consultation with potential investors throughout the transaction process; and
- maintaining a flexible attitude to which international capital markets/exchanges would provide the optimal environment for initial and future capital raising.

In December 2019, we secured additional equity funding of £6.5 million through an open offer to existing shareholders. This included support both from our cornerstone investor, Marwyn, as well as from other existing shareholders. These funds have secured a platform from which to respond quickly to opportunistic investment prospects which we continue to see in the specialty chemicals sector, as well as in the market in general, while also providing a listed vehicle to attract a new sector-leading management team in advance of an acquisition.

At the December 2019 AGM, shareholders also approved expanding the Company's investment policy to consider opportunities in adjacent sectors, reflecting the breadth of deal flow seen and a broader range of potential investment structures.

Revised Investment Policy

It is anticipated that the Company will acquire controlling or non-controlling stakes in one or more businesses or companies (quoted or private) on a long-term basis. The investments made may be in the form of equity or other types of capital investment. Subject to the structure of the transaction, the Company may need to raise additional funds for the acquisition in the form of equity and/or debt. Depending on the composition of the Company's share register at that time, it is possible that any equity fundraising for those purposes will, subject to the necessary shareholder approval, be carried out on a non-pre-emptive basis to allow for the diversification of the Company's shareholder register and to obtain sufficient equity funding.

The Company intends to focus on the industrials, manufacturing, engineering, construction, building products and support services sectors. We believe that opportunities exist to create value for shareholders through a properly executed, acquisition-led strategy in one of these sectors. We may either seek to recruit sector-leading executive management in advance of an acquisition, or alternatively may consider identifying acquisition opportunities with impressive incumbent management teams that require a catalyst to unlock growth.

Following the completion of an acquisition, the Directors intend to use their multiple years of experience alongside an executive management team to deliver value through the application of a strategy to achieve attractive, compounding returns for shareholders.

Since listing on AIM in August 2017, the Group has pursued its stated strategy to identify and analyse potential acquisition targets and consequently the Group has no reported revenue. Although the Company has not completed an acquisition to date, we are confident that the Company will be able to implement the revised investment policy in the medium term, with the proceeds from the open offer used to fund future operating expenses and due diligence to continue to pursue acquisition opportunities.

Results

The Group's loss after taxation for the six months to 31 December 2019 was £1,721,000 (six months to 31 December 2018: loss of £1,681,000). The Group held a cash balance at the period end of £6,450,000 (As at 30 June 2019: £7,525,000).

Dividend Policy

The Company has not yet acquired a trading operation and it is therefore inappropriate to make a forecast of the likelihood of any future dividends. The Directors intend to determine the Company's dividend policy following completion of a platform acquisition and, in any event, will only commence the payment of dividends when it becomes commercially prudent to do so.

Corporate Governance

In line with the London Stock Exchange's AIM Rules for Companies requiring all AIM-quoted companies to adopt a recognised corporate governance code, explain how the company complies with that code's requirements and identify and explain areas of non-compliance, the Board has adopted the Quoted Companies Alliance Corporate Governance Code (the "**QCA Code**"). There have been no significant changes to the Corporate Governance Report presented in the Group's Annual Report and Consolidated Financial Statements for the period ended 30 June 2019, which is available on the Company's website, www.wilmcoteplc.com. Additional information in respect of the Company's compliance with the QCA Code can also be found on the Company's website.

The Company intends to re-evaluate its corporate governance code framework upon the earlier of the completion of a platform acquisition, or on appointment of an executive management team.

Risks

The Directors have carried out a robust assessment of the principal risks facing the Group including those that would threaten its business model, future performance, solvency or liquidity. There have been no significant changes to the principal risks described on pages 47-53 of the Group's Annual Report and Consolidated Financial Statements for the period ended 30 June 2019. The Directors are of the opinion that the risks are applicable to the six month period to 31 December 2019, as well as the remaining six months of the current financial year.

Outlook

In the period since the recapitalisation, the Company has continued to receive inbound leads with regards to potential platform acquisitions as well as introductions to sector-leading management teams looking to deploy a buy-and-build strategy utilising a listed vehicle. While there is no certainty these discussions will lead to a new executive team being appointed, or a platform acquisition being completed, we look forward to updating shareholders with our progress in due course.

The directors believe that the recent market disruption, due primarily to the Coronavirus pandemic, will provide opportunities to deploy capital at more reasonable valuations, where the Company is able to provide an innovative solution to public or private businesses, unlocking growth potential and delivering exceptional shareholder value through a buy-and-build strategy.

3. CRITICAL ACCOUNTING JUDGEMENTS AND ESTIMATES

Estimates and judgements are continually evaluated and are based on historical experience and other factors including expectations of future events that are believed to be reasonable under the circumstances. Actual results may differ from these estimates.

For the period and at the period end, the Directors do not consider that they have made any significant estimates, judgements or assumptions which would affect the balances and results reported in these financial statements.

4. SEGMENT INFORMATION

Refer to Note 17 of the Group's Annual Report and Consolidated Financial Statements for the period ended 30 June 2019 for instruments that could potentially dilute basic EPS in the future.
