TONS/YEAR PLANT NUTRITION VOLUMES SOLD

GROSS SALES BY MARKET

- Deicing Salt
- Plant Nutrition (includes Chemical Solutions products)
- Consumer & Industrial Salt

WE OPERATE THREE KEY PRODUCT CATEGORIES:

SALT

We are a leading salt producer in North America and the U.K., and the leading producer of deicing products used in both highway deicing and consumer applications. Other key products include water care, animal nutrition and culinary salt.

PLANT NUTRITION

We are the largest producer in the Western Hemisphere of sulfate of potash (SOP), a premium, low-chloride potassium fertilizer. We also are a leading producer of micronutrients and other specialty plant nutrition blends.

CHEMICAL SOLUTIONS

We manufacture and market specialty chemicals in Brazil, primarily for the water treatment industry and for use in other industrial processes.

COMPASS MINERALS OPERATES A COMPETITIVE PORTFOLIO OF ADVANTAGED MINING AND MANUFACTURING ASSETS ACROSS THREE CONTINENTS:

UNITED STATES

Our solar evaporation facility located near Ogden, Utah, is both the largest SOP and the largest solar salt and magnesium chloride production site in the Western Hemisphere. We also operate an underground salt mine, a mechanical salt evaporation facility and several packaging plants in the U.S., along with our global headquarters and the North American Innovation Center.

6 SITES // 1051 EMPLOYEES

CANADA

We operate the largest underground salt mine in the world in Goderich, Ontario, and produce evaporated salt products at an additional three locations in Canada.

4 SITES // 780 EMPLOYEES

BRAZIL

Our South American Innovation Center is based in Brazil along with multiple facilities producing essential agricultural nutrients and specialty chemicals.

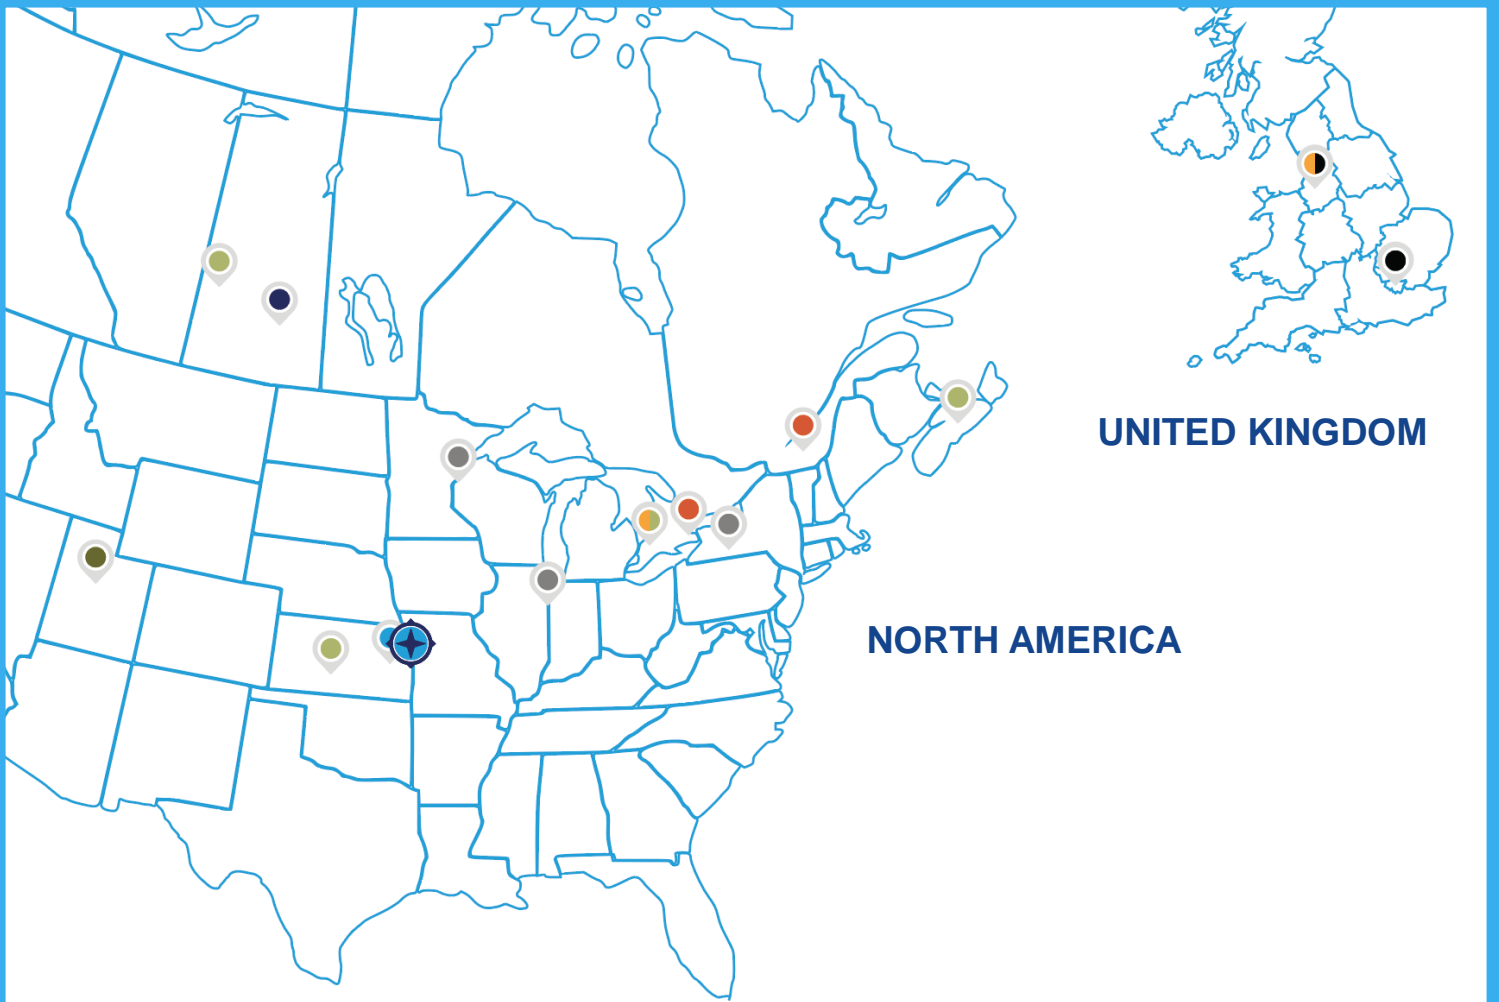

8 SITES // 1224 EMPLOYEES

UNITED KINGDOM

We operate the largest dedicated rock salt mine in the U.K. in Winsford, Cheshire, and two DeepStore secure storage locations.
