#### **<sup>(1)</sup>Use of Non-GAAP Financial Information**

In addition to the financial results presented in accordance with GAAP, SYNEX also uses adjusted selling, general and administrative expenses, non-GAAP operating income, non-GAAP operating margin, adjusted earnings before interest, taxes, depreciation and amortization (“Adjusted EBITDA”), non-GAAP net income, and non-GAAP diluted earnings per share, which are non-GAAP financial measures that exclude acquisition-related and integration expenses, restructuring costs, the amortization of intangible assets and the related tax effects thereon.

In fiscal year 2019, non-GAAP net income and non-GAAP diluted earnings per share also exclude a gain upon the settlement of contingent consideration related to the Westcon-Comstor Americas acquisition.

In fiscal year 2018, non-GAAP net income and non-GAAP diluted earnings per share also exclude the impact of an adjustment relating to the enactment of the Tax Cuts and Jobs Act of 2017. This adjustment includes a transition tax on accumulated overseas profits and the remeasurement of deferred tax assets and liabilities to the new U.S. tax rate.

Additionally, SYNEX refers to growth rates at constant currency or adjusting for the translation effect of foreign currencies so that certain financial results can be viewed without the impact of fluctuations in foreign currency exchange rates, thereby facilitating period-to-period comparisons of SYNEX’ business performance. Financial results adjusted for currency are calculated by translating current period activity in the transaction currency using the comparable prior year periods’ currency conversion rate. Generally, when the dollar either strengthens or weakens against other currencies, growth at constant currency rates or adjusting for currency will be higher or lower than growth reported at actual exchange rates.

Trailing fiscal four quarters ROIC is defined as the last four quarters’ tax effected operating income divided by the average of the last five quarterly balances of borrowings (excluding book overdraft) and equity, net of cash and cash equivalents in the United States. Adjusted ROIC is calculated by excluding the tax effected impact of acquisition-related and integration expenses, restructuring costs and the amortization of intangibles from operating income and equity and the impact of the contingent consideration gain and the U.S. tax reform adjustment on equity.

SYNEX management uses non-GAAP financial measures internally to understand, manage and evaluate the business, to establish operational goals, and in some cases for measuring performance for compensation purposes. These non-GAAP measures are intended to provide investors with an understanding of SYNEX’ operational results and trends that more readily enable investors to analyze SYNEX’ base financial and operating performance and to facilitate period-to-period comparisons and analysis of operational trends, as well as for planning and forecasting in future periods. Management believes these non-GAAP financial measures are useful to investors in allowing for greater transparency with respect to supplemental information used by management in its financial and operational decision-making. As these non-GAAP financial measures are not calculated in accordance with GAAP, they may not necessarily be comparable to similarly titled measures employed by other companies. These non-GAAP financial measures should not be considered in isolation or as a substitute for the comparable GAAP measures, and should be read only in conjunction with SYNEX’ consolidated financial statements prepared in accordance with GAAP. A reconciliation of SYNEX’ GAAP to non-GAAP financial information is set forth in the supplemental information section at the end of this press release.

<sup>(2)</sup>Fiscal 2018 second quarter and year-to-date financial statements have been adjusted to reflect the adoption of the new guidance on revenue recognition, on a full retrospective basis. Impact of adoption of the new guidance on the Consolidated Statement of Operations is presented in the supplementary information section at the end of this press release.
