-

Item 8.01 Other Events

On January 29, 2013, Starbucks Corporation ("Starbucks," the "Company," "we," "us" or "our") filed with the U.S. Securities and Exchange Commission (the "SEC") its Quarterly Report on Form 10-Q for the first quarter ended December 30, 2012 (the "Q1'13 10-Q"). Our Q1'13 10-Q reflects the realignment of certain costs to our reportable segments. The impact to each segment reflects the decentralization of certain functions and the resulting realignment of those costs to each segment.

As previously announced, effective at the beginning of fiscal 2012, we implemented a strategic realignment of our organizational structure designed to accelerate our global growth strategy. As part of this realignment, we shifted to the following four reportable operating segments: Americas, EMEA, CAP and Channel Development.

We continue to evolve our operating model to improve local relevancy and efficiency of decision making so that we are able to better optimize market opportunities. To better facilitate decision-making at a local level, effective at the beginning of fiscal 2013, we decentralized certain leadership functions in the areas of retail marketing and category management, global store development and partner resources, to support and align with the respective operating segment presidents. In conjunction with these moves, certain general and administrative and depreciation and amortization expenses associated with these functions, which were previously reported as unallocated corporate expenses within "Other," are now reported within the respective reportable operating segments to align with the regions that they support. In order to conform prior period classifications with the new alignment, the historical consolidated financial statements have been recast as reflected in the segment results below. This change did not have an impact to our historical consolidated results.

| | Americas | EMEA | CAP | Channel Development | Other | Total |
|-------------------------------|----------|------|-----|---------------------|--------|-------|
| <i>Fiscal 2012</i> | | | | | | |
| Depreciation and amortization | 0.1 | — | — | — | (0.1) | — |
| General and administrative | 53.9 | 3.6 | 0.9 | 8.1 | (66.5) | — |
| <i>Fiscal 2011</i> | | | | | | |
| Depreciation and amortization | 0.6 | — | — | — | (0.6) | — |
| General and administrative | 66.5 | 1.4 | 1.8 | 4.3 | (74.0) | — |
| <i>Fiscal 2010</i> | | | | | | |
| Depreciation and amortization | 1.3 | — | — | — | (1.3) | — |
| General and administrative | 76.0 | 2.7 | 3.6 | 2.3 | (84.6) | — |

Further, in June 2011, the FASB issued guidance that revises the manner in which entities present comprehensive income in their financial statements. The guidance requires entities to report the components of comprehensive income in either a single, continuous statement or two separate but consecutive statements. The guidance became effective for us at the beginning of our first quarter of fiscal 2013. In adopting this guidance, we added the consolidated statements of comprehensive income following our consolidated statements of earnings. To be consistent with our current presentation, we added the consolidated statements of comprehensive income following our consolidated statements of earnings for fiscal 2012, 2011 and 2010 as part of our recast of the fiscal 2012 10-K.

We are filing this Current Report on Form 8-K to recast operating results for all periods covered in our Annual Report on Form 10-K for the year ended September 30, 2012 (the "fiscal 2012 10-K"), filed on November 16, 2012, to reflect the aforementioned segment changes and to include the consolidated statements of comprehensive income. The recasting of previously issued financial information above and in the exhibits attached hereto does not affect our reported net income, earnings per share, total assets, or stockholders' equity for any of the previously reported periods.

The sections of the fiscal 2012 10-K most affected by the changes, as reflected in Exhibit 99.1 hereto, are as follows:

| Section | Page(s) |
|--|---------|

January 29, 2013

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations**General**

Our fiscal year ends on the Sunday closest to September 30. The fiscal year ended on October 3, 2010 included 53 weeks with the 53rd week falling in the fourth fiscal quarter. The fiscal years ended on October 2, 2011 and September 30, 2012 both included 52 weeks. Comparable store sales percentages for fiscal 2010 are calculated excluding the 53rd week. All references to store counts, including data for new store openings, are reported net of related store closures, unless otherwise noted.

Financial Highlights

- Total net revenues increased 14% to \$13.3 billion in fiscal 2012 compared to \$11.7 billion in fiscal 2011. The increase was due primarily to a 7% increase in global comparable store sales, 50% revenue growth in Channel Development, and 20% growth in licensed stores revenue. The comparable store sales growth in company-operated stores was comprised of a 6% increase in the number of transactions and a 1% increase in average ticket.
- Consolidated operating income was \$2.0 billion in fiscal 2012 compared to \$1.7 billion in fiscal 2011 and operating margin increased to 15.0% compared to 14.8% in fiscal 2011. The operating margin expansion was driven by increased sales leverage and the absence of charges in fiscal 2012 related to the Seattle's Best Coffee store closures in Border's bookstores, partially offset by higher commodity costs.
- EPS for fiscal 2012 was \$1.79, compared to EPS of \$1.62 reported in fiscal 2011, with the increase driven by the improved sales leverage, partially offset by the impact of higher commodity costs in fiscal 2012 and certain gains recorded in the fourth quarter of fiscal 2011, including a gain from a fair market value adjustment resulting from the acquisition of the remaining ownership interest in our joint venture in Switzerland and Austria as well as a gain on the sale of corporate real estate.
- Cash flow from operations was \$1.8 billion in fiscal 2012 compared to \$1.6 billion in fiscal 2011. Capital expenditures were approximately \$856 million in fiscal 2012 compared to \$532 million in fiscal 2011. Available operating cash flow after capital expenditures during fiscal 2012 was directed at returning approximately \$1.1 billion of cash to our shareholders via share repurchases and dividends.

Overview

Starbucks results for fiscal 2012 reflect the strength of our global business model. We continue to execute on our new regional operating model which we implemented at the beginning of fiscal 2012. We now have four reportable operating segments: Americas; Europe, Middle East, and Africa ("EMEA"); China / Asia Pacific ("CAP") and Channel Development. Each segment is managed by an operating segment president.

Total net revenues increased 14% to \$13.3 billion driven by global comparable store sales growth of 7% and a 50% increase in Channel Development revenue. This growth drove increased sales leverage and resulted in higher operating margin and net earnings compared to fiscal 2011. This helped mitigate the impact of higher commodity costs, mostly coffee, which negatively impacted operating income by approximately \$214 million for the year, equivalent to approximately 160 basis points of impact on operating margin.

Our Americas business continued its strong momentum and contributed 75% of total net revenues in fiscal 2012. The revenue growth for the year was driven by an 8% increase in comparable store sales, comprised of a 6% increase in traffic and a 2% increase in average ticket. This sales growth, combined with a continued focus on operational efficiencies, drove increased sales leverage that offset the impact of higher commodity costs. Looking forward, we expect to continue driving sales growth and profitability through continued store efficiency efforts, new store development, and expanding our pipeline of new product offerings to increase revenues throughout all dayparts.

EMEA segment results reflect both the investments we have begun making as part of our transformation plan for the region, as well as the macro-economic headwinds we, and others, face there. This resulted in flat comparable store sales and operating income of \$7 million for fiscal 2012, a decrease of \$32 million compared to fiscal 2011. We started the year by putting in place a new leadership team that is focused on increasing the Starbucks brand presence, health and relevancy across the region, improving the profitability of the existing store base through a focus on revenue growth and operating costs, and identifying opportunities for new store growth through licensing arrangements. We expect the investments we are making as part of this transformation effort will result in improved operating performance as we progress on our plan towards mid-teens operating margin; however, this turnaround will take time to gain traction.

CAP segment revenues increased 31%, driven by new store growth and comparable store sales of 15%. This segment continues to grow rapidly and is becoming a more meaningful contributor to overall company profitability. We expect continued growth will be from a mix of new store openings and comparable store sales growth. China continues to be a significant growth opportunity for us as we remain on track to reach our goal of 1,500 stores in 2015. In addition, other key markets such as Japan, Korea, Thailand, Singapore and Indonesia all continue to be profitable and provide a solid foundation for continued growth in the region.

Our Channel Development segment represents another important, profitable growth opportunity for us. Channel Development results were a solid contributor to overall revenue growth with a 50% increase in revenues primarily due to sales of Starbucks and Tazo branded K-Cup® portion packs which launched at the start of fiscal 2012 and our transition to a direct distribution model for packaged coffee, which occurred during the second quarter of fiscal 2011. High commodity costs continued to be a significant drag on operating margin; however, despite these higher costs, operating income increased \$57 million to \$340 million for fiscal 2012. We expect continued innovation and new product offerings such as the Verismo™ system by Starbucks and Starbucks Refreshers™ beverages will drive further growth and profitability within this segment over time.

Fiscal 2013 — The View Ahead

For fiscal year 2013, we expect moderate revenue growth driven by mid single-digit increased comparable store sales, new store openings and strong growth in the Channel Development business. Licensed stores will comprise between one-half and two-thirds of new store openings.

We expect continued robust consolidated operating margin and EPS improvement compared to fiscal 2012, reflecting the strength of our global business and the pipeline of profitable growth initiatives.

We expect increased capital expenditures in fiscal 2013 compared to fiscal 2012, reflecting additional investments in store renovations, new store growth and manufacturing capacity.

Operating Segment Overview

Starbucks has four reportable operating segments: Americas, Europe, Middle East, and Africa ("EMEA"), China and Asia Pacific ("CAP") and Channel Development. Seattle's Best Coffee is reported in "Other," along with Evolution Fresh, Digital Ventures and unallocated corporate expenses that pertain to corporate administrative functions that support our operating segments but are not specifically attributable to or managed by any segment and are not included in the reported financial results of the operating segments.

The Americas, EMEA and CAP segments include company-operated stores and licensed stores. Licensed stores generally have a higher operating margin than company-operated stores. Under the licensed model, Starbucks receives a reduced share of the total store revenues, but this is more than offset by the reduction in its share of costs as these are primarily incurred by the licensee. The EMEA and CAP segments have a higher relative share of licensed stores versus company-operated stores compared to the Americas segment; however, the Americas segment has been operating significantly longer than the other segments and has developed deeper awareness of, and attachment to, the Starbucks brand and stores among its customer base. As a result, the more mature Americas segment has significantly more stores and higher total revenues than the other segments. Average sales per store are also higher in the Americas due to various factors including length of time in market and local income levels.

Starbucks store base in EMEA and CAP continues to expand and we continue to focus on achieving sustainable growth from established international markets while at the same time investing in emerging markets, such as China. Occupancy costs and store operating expenses can be higher in certain international markets than in the Americas segment due to higher rents for prime store locations or costs of compliance with country-specific regulatory requirements. Because many of our international operations are in an early phase of development, operating expenses as a percentage of related revenues are often higher compared to the Americas segment. International markets in the early stages of development require a more extensive support organization, relative to the current levels of revenue and operating income, than the Americas.

The Channel Development segment includes packaged coffee and tea, a variety of ready-to-drink beverages, single-serve coffee and tea products and other branded product operations worldwide, as well as the US foodservice business. In prior years through the first several months of fiscal 2011, we sold a selection of Starbucks and Seattle's Best Coffee branded packaged coffees and Tazo® teas in grocery and warehouse club stores throughout the US and to grocery stores in Canada, the UK and other European countries through a distribution arrangement with Kraft Foods Global, Inc. Kraft managed the distribution, marketing, advertising and promotion of these products as a part of that arrangement. During fiscal 2011, we successfully transitioned these businesses including the marketing, advertising, and promotion of these products, from our previous distribution arrangement with Kraft and began selling these products directly to the grocery and warehouse club stores. Our Channel Development segment also includes ready-to-drink beverages, which are primarily manufactured and distributed through The North American Coffee Partnership, a joint venture with the Pepsi-Cola Company. The proportionate share of the results of the joint venture is included, on a net basis, in income from equity investees on the consolidated statements of earnings. The US foodservice business sells coffee and other related products to institutional foodservice companies with the majority of its sales through national broad-line distribution networks. The Channel Development segment reflects a modest cost structure and a resulting higher operating margin, compared to the other reporting segments, which consist primarily of retail stores.

Acquisitions

See Note 2 to the consolidated financial statements in this 10-K.

RESULTS OF OPERATIONS — FISCAL 2012 COMPARED TO FISCAL 2011

Consolidated results of operations (in millions):

Revenues

| Fiscal Year Ended | Sep 30, 2012 | Oct 2, 2011 | % Change | Sep 30, 2012 | Oct 2, 2011 |
|----------------------------|----------------------------|--------------------|--------------|-----------------|----------------|
| | % of Total Net Revenues | | | | |
| Net revenues: | | | | | |
| Company-operated stores | \$ 10,534.5 | \$ 9,632.4 | 9.4% | 79.2% | 82.3% |
| Licensed stores | 1,210.3 | 1,007.5 | 20.1% | 9.1% | 8.6% |
| CPG, foodservice and other | 1,554.7 | 1,060.5 | 46.6% | 11.7% | 9.1% |
| Total net revenues | \$ 13,299.5 | \$ 11,700.4 | 13.7% | 100.0% | 100.0% |

Consolidated net revenues were \$13.3 billion for fiscal 2012, an increase of 13.7%, or \$1.6 billion over fiscal 2011, primarily due to increased revenues from company-operated stores (contributing \$902 million), driven by an increase in comparable store sales (approximately 7%, or \$680 million). Also contributing to the increase were

incremental revenues from net new company-operated store openings over the past 12 months (approximately \$184 million).

Licensed store revenues contributed \$203 million to the increase in total net revenues in fiscal 2012, primarily due to higher product sales to and royalty revenues from our licensees, resulting from improved comparable store sales and the opening of 665 net new licensed stores over the past 12 months.

CPG, foodservice and other revenues increased \$494 million, primarily due to sales of Starbucks and Tazo branded K-Cup[®] portion packs launched in the CPG channel on November 1, 2011 (approximately \$232 million). The benefit of recognizing full revenue from packaged coffee and tea under the direct distribution model (approximately \$78 million) and an increase in foodservice revenues (approximately \$50 million) also contributed.

Operating Expenses

| Fiscal Year Ended | Sep 30, 2012 | Oct 2, 2011 | Sep 30, 2012 | Oct 2, 2011 |
|--|------------------------------------|------------------------|-------------------------|------------------------|
| | % of Total Net Revenues | | | |
| Cost of sales including occupancy costs | \$ 5,813.3 | \$ 4,915.5 | 43.7% | 42.0% |
| Store operating expenses | 3,918.1 | 3,594.9 | 29.5% | 30.7% |
| Other operating expenses | 429.9 | 392.8 | 3.2% | 3.4% |
| Depreciation and amortization expenses | 550.3 | 523.3 | 4.1% | 4.5% |
| General and administrative expenses | 801.2 | 749.3 | 6.0% | 6.4% |
| Total operating expenses | 11,512.8 | 10,175.8 | 86.6% | 87.0% |
| Gain on sale of properties | — | 30.2 | —% | 0.3% |
| Income from equity investees | 210.7 | 173.7 | 1.6% | 1.5% |
| Operating income | \$ 1,997.4 | \$ 1,728.5 | 15.0% | 14.8% |
| Supplemental ratios as a % of related revenues: | | | | |
| Store operating expenses | | | 37.2% | 37.3% |

Cost of sales including occupancy costs as a percentage of total net revenues increased 170 basis points, driven by increased commodity costs (approximately 160 basis points), primarily due to higher coffee costs.

Store operating expenses as a percentage of total net revenues decreased 120 basis points, due to increased Channel Development and licensed store revenues. Store operating expenses as a percent of company-operated store revenues decreased 10 basis points due to increased sales leverage.

Other operating expenses as a percentage of total net revenues decreased 20 basis points. As a percentage of net revenues excluding company-operated store revenues, other operating expenses decreased 350 basis points. This decrease was primarily driven by increased sales leverage (approximately 150 basis points), the absence of charges in fiscal 2012 related to the Seattle's Best Coffee store closures in Borders bookstores (approximately 80 basis points) and a shift in the timing of marketing spend (approximately 60 basis points).

Income from equity investees increased \$37.0 million, primarily due to an increase in income from our North American Coffee Partnership (approximately \$13 million), Japan (approximately \$11 million) and Shanghai (approximately \$10 million) joint venture operations.

The combination of these changes, along with increased sales leverage on depreciation and amortization (approximately 40 basis points) and general and administrative expenses (approximately 40 basis points), resulted in an increase in operating margin of 20 basis points over fiscal 2011.

Other Income and Expenses

| Fiscal Year Ended | Sep 30, 2012 | Oct 2, 2011 | Sep 30, 2012 | Oct 2, 2011 |
|--|----------------------------|-------------------|-----------------|----------------|
| | % of Total Net Revenues | | | |
| Operating income | \$ 1,997.4 | \$ 1,728.5 | 15.0 % | 14.8 % |
| Interest income and other, net | 94.4 | 115.9 | 0.7 % | 1.0 % |
| Interest expense | (32.7) | (33.3) | (0.2)% | (0.3)% |
| Earnings before income taxes | 2,059.1 | 1,811.1 | 15.5 % | 15.5 % |
| Income taxes | 674.4 | 563.1 | 5.1 % | 4.8 % |
| Net earnings including noncontrolling interests | 1,384.7 | 1,248.0 | 10.4 % | 10.7 % |
| Net earnings (loss) attributable to noncontrolling interests | 0.9 | 2.3 | — % | — % |
| Net earnings attributable to Starbucks | \$ 1,383.8 | \$ 1,245.7 | 10.4 % | 10.6 % |
| Effective tax rate including noncontrolling interests | | | 32.8 % | 31.1 % |

Net interest income and other decreased \$21 million over the prior year, primarily due to the absence of the gain recognized in the fourth quarter of fiscal 2011 resulting from the acquisition of the remaining interest in our previous joint venture operations in Switzerland and Austria (approximately \$55 million), partially offset by the recognition of additional income associated with unredeemed gifts cards in the second quarter of fiscal 2012 (approximately \$29 million), following a court ruling related to state unclaimed property laws.

Income taxes for the fiscal year ended 2012 resulted in an effective tax rate of 32.8% compared to 31.1% for fiscal year 2011. The rate increased in fiscal year 2012 primarily due to tax benefits recognized in fiscal 2011 from the Switzerland and Austria transaction and the release of foreign valuation allowances. The effective tax rate for fiscal 2013 is expected to be approximately 33%.

Segment Information

Segment information is prepared on the same basis that our management reviews financial information for operational decision-making purposes. The following tables summarize the results of operations by segment (*in millions*):

Americas

| <u>Fiscal Year Ended</u> | <u>Sep 30, 2012</u> | <u>Oct 2, 2011</u> | <u>Sep 30, 2012</u> | <u>Oct 2, 2011</u> |
|--|-------------------------|------------------------|--|------------------------|
| | | | As a % of Americas Total Net Revenues | |
| Total net revenues | \$ 9,936.0 | \$ 9,065.0 | 100.0% | 100.0% |
| Cost of sales including occupancy costs | 3,885.5 | 3,512.7 | 39.1% | 38.8% |
| Store operating expenses | 3,427.8 | 3,184.2 | 34.5% | 35.1% |
| Other operating expenses | 83.8 | 75.8 | 0.8% | 0.8% |

| Total operating expenses | 7,917.7 | 7,291.4 | 79.7% | 80.4% |
| Income from equity investees | 2.1 | 1.6 | —% | —% |
| Operating income | \$ 2,020.4 | \$ 1,775.2 | 20.3% | 19.6% |
| Supplemental ratios as a % of related revenues: | | | | |
| Store operating expenses | | | 37.8% | 38.1% |

Revenues

Americas total net revenues for fiscal 2012 increased 10%, or \$871 million, primarily due to increased revenues from company-operated stores (contributing \$712 million), driven by an increase in comparable store sales (approximately 8%, or \$626 million). Also contributing to the increase were incremental revenues from net new company-operated store openings over the past 12 months (approximately \$100 million).

Licensed store revenues also contributed to the increase in total net revenues with an increase of \$149 million in fiscal 2012 over the prior year period, primarily due to higher product sales to and royalty revenues from our licensees, resulting from improved comparable store sales and the opening of 270 net new licensed stores over the past 12 months.

Operating Expenses

Cost of sales including occupancy costs as a percentage of total net revenues increased 30 basis points, primarily driven by higher commodity costs (approximately 110 basis points), mainly coffee, partially offset by increased sales leverage on occupancy costs (approximately 70 basis points).

Store operating expenses as a percentage of total net revenues decreased 60 basis points. Increased licensed store revenues contributed approximately 30 basis points of the decrease. Store operating expenses as a percentage of company-operated store revenues decreased 30 basis points, primarily due to increased sales leverage (approximately 70 basis points), partially offset by higher debit card transaction fees (approximately 20 basis points).

Other operating expenses as a percentage of total net revenues was flat over prior year. As a percentage of net revenues excluding company-operated store revenues, other operating expenses decreased 100 basis points, primarily driven by increased sales leverage.

The combination of these changes, along with increased sales leverage on depreciation and amortization expense (approximately 40 basis points), resulted in an increase in operating margin of 70 basis points over fiscal 2011.

| Supplemental ratios as a % of related revenues: | | | | |
| Store operating expenses | | | 38.3% | 36.1% |

Revenues

EMEA total net revenues for fiscal 2012 increased 9%, or \$95 million, primarily driven by increased revenues from company-operated stores (contributing \$63 million), due to the acquisition of the remaining interest in our previous joint venture operations in Switzerland and Austria in the fourth quarter of fiscal 2011 (approximately \$80 million), partially offset by unfavorable foreign currency fluctuations (approximately \$33 million).

An increase in licensed store revenues of \$27 million also contributed to the increase in total net revenues, primarily due to higher product sales to and royalty revenues from our licensees, resulting from the opening of 101 net new licensed stores over the past 12 months.

Operating Expenses

Cost of sales including occupancy costs as a percentage of total net revenues increased 160 basis points, primarily driven by higher costs related to the transition to a consolidated food and dairy distribution model in the UK that began in the first quarter of fiscal 2012 (approximately 180 basis points). These costs are expected to decline over time as the full benefits of the transition are realized. Also contributing to the decrease were costs related to store portfolio optimization initiatives occurring in the fourth quarter of fiscal 2012 (approximately 60 basis points), partially offset by increased sales leverage on occupancy costs.

Store operating expenses as a percentage of total net revenues increased 120 basis points. Store operating expenses as a percentage of company-operated store revenues increased 220 basis points, primarily driven by asset impairments related to underperforming stores (approximately 140 basis points). Also contributing to the decrease were costs related to store portfolio optimization initiatives occurring in the fourth quarter of fiscal 2012 (approximately 40 basis points).

Other operating expenses as a percentage of total net revenues decreased 60 basis points. Excluding the impact of company-operated store revenues, other operating expenses decreased 640 basis points, primarily driven by operational efficiencies.

Income from equity investees declined to \$0.3 million in fiscal 2012, due to the acquisition of the remaining interest in our previous joint venture operations in Switzerland and Austria.

The above changes contributed to a decrease in operating margin of 310 basis points over the prior year.

| Store operating expenses | | | 24.4% | 23.1% |

Revenues

China / Asia Pacific total net revenues for fiscal 2012 increased 31%, or \$169 million, primarily driven by increased revenues from company-operated stores (contributing \$128 million). The increase in company-operated store revenues was primarily due to the opening of 154 net new stores over the past 12 months (approximately \$71 million) and an increase in comparable store sales (approximately 15%, or \$53 million).

Also contributing to the increase in revenues was an increase in licensed store revenues of \$41 million, due to increased royalty revenues from and product sales to licensees, primarily driven by 294 net new licensed store openings over the past 12 months.

Operating Expenses

Cost of sales including occupancy costs as a percentage of total net revenues decreased 80 basis points primarily driven by the accelerated growth of company-operated stores, which contribute a higher gross margin, in China (approximately 140 basis points), partially offset by increased commodity costs (approximately 120 basis points), mainly higher coffee costs.

Store operating expenses as a percentage of total net revenues increased 140 basis points. Store operating expenses as a percentage of company-operated store revenues increased 130 basis points, primarily driven by increased costs associated with the expansion efforts of company-operated stores in mainland China.

Income from equity investees increased \$30 million, primarily driven by an increase in income from our Japan (approximately \$11 million) and Shanghai (approximately \$10 million) joint venture operations.

The combination of these changes, along with increased sales leverage on depreciation and amortization (approximately 10 basis points) and general and administrative expenses (approximately 90 basis points), resulted in an increase in operating margin of 40 basis points over fiscal 2011.

Channel Development

| Fiscal Year Ended | Sep 30, 2012 | Oct 2, 2011 | Sep 30, 2012 | Oct 2, 2011 |
|--|---|-----------------|-----------------|----------------|
| | As a % of Channel Development Total Net Revenues | | | |
| Total net revenues | \$ 1,292.2 | \$ 860.5 | 100.0% | 100.0% |
| Cost of sales | 827.6 | 487.5 | 64.0% | 56.7% |
| Other operating expenses | 191.1 | 151.8 | 14.8% | 17.6% |
| Depreciation and amortization expenses | 1.3 | 2.4 | 0.1% | 0.3% |
| General and administrative expenses | 17.0 | 10.9 | 1.3% | 1.3% |

| Income from equity investees | 85.2 | 75.6 | 6.6% | 8.8% |
| Operating income | \$ 340.4 | \$ 283.5 | 26.3% | 32.9% |

Revenues

Channel Development total net revenues for fiscal 2012 increased 50%, or \$432 million, primarily due to sales of Starbucks and Tazo branded K-Cup[®] portion packs (approximately \$232 million). The benefit of recognizing full revenue from packaged coffee and tea sales under the direct distribution model through the second quarter of fiscal 2012 (approximately \$70 million) and increased foodservice revenues (approximately \$33 million) also contributed.

Operating Expenses

Cost of sales as a percentage of total net revenues increased 730 basis points, primarily due to increased commodity costs (approximately 570 basis points), mainly coffee, and a shift in our product mix driven by the introduction of Starbucks and Tazo branded K-Cup[®] portion packs (approximately 140 basis points).

Other operating expenses as a percentage of total net revenues decreased 280 basis points, primarily due to increased sales leverage.

Income from equity investees increased \$10 million over the prior year period, driven by increased income from our North American Coffee Partnership joint venture. Income from equity investees declined as a percentage of total net revenues (approximately 220 basis points) primarily due to the growth in segment revenues.

The combination of these changes resulted in a decrease in operating margin of 660 basis points over fiscal 2011.

Other

| <u>Fiscal Year Ended</u> | Sep 30, 2012 | Oct 2, 2011 | % Change |

Other includes operating results from Seattle's Best Coffee, Evolution Fresh, and Digital Ventures, as well as expenses pertaining to corporate administrative functions that support our operating segments but are not specifically attributable to, or managed by, any segment and are not included in the reported financial results of the operating segments.

Other total net revenues increased \$33 million, primarily due to incremental revenues from Evolution Fresh, which was acquired during the first quarter of fiscal 2012.

Total operating expenses increased \$68 million, primarily due to increased cost of sales resulting from higher commodity costs, primarily coffee, and higher general and administrative expenses to support the growth of the business.

RESULTS OF OPERATIONS — FISCAL 2011 COMPARED TO FISCAL 2010

Consolidated results of operations (in millions):

Revenues

| <u>Fiscal Year Ended</u> | Oct 2, 2011 | Oct 3, 2010 | % Change | Oct 2, 2011 | Oct 3, 2010 |
|----------------------------|----------------|----------------|-------------|----------------------------|----------------|
| | | | | % of Total Net Revenues | |
| Net revenues: | | | | | |
| Company-operated stores | \$ 9,632.4 | \$ 8,963.5 | 7.5% | 82.3% | 83.7% |
| Licensed stores | 1,007.5 | 875.2 | 15.1% | 8.6% | 8.2% |
| CPG, foodservice and other | 1,060.5 | 868.7 | 22.1% | 9.1% | 8.1% |
| Total net revenues | \$ 11,700.4 | \$ 10,707.4 | 9.3% | 100.0% | 100.0% |

Consolidated net revenues were \$11.7 billion for fiscal 2011, an increase of 9%, or \$993 million over fiscal 2010. The increase was primarily due to an increase in company-operated store revenues driven by an 8% increase in global comparable stores sales (contributing approximately \$672 million). The increase in comparable store sales was due to a 6% increase in number of transactions (contributing approximately \$499 million) and a 2% increase in average value per transaction (contributing approximately \$173 million). Also contributing to the increase in

total net revenues was favorable foreign currency translation (approximately \$126 million) resulting from a weakening of the US dollar relative to foreign currencies and an increase in licensed store revenues (approximately \$106 million). This increase was partially offset by the impact of the extra week in fiscal 2010 (approximately \$207 million).

Operating Expenses

| Fiscal Year Ended | Oct 2, 2011 | Oct 3, 2010 | Oct 2, 2011 | Oct 3, 2010 |
|---|----------------------------|-------------------|----------------|----------------|
| | % of Total Net Revenues | | | |
| Cost of sales including occupancy costs | \$ 4,915.5 | \$ 4,416.5 | 42.0% | 41.2% |
| Store operating expenses | 3,594.9 | 3,471.9 | 30.7% | 32.4% |
| Other operating expenses | 392.8 | 279.7 | 3.4% | 2.6% |
| Depreciation and amortization expenses | 523.3 | 510.4 | 4.5% | 4.8% |
| General and administrative expenses | 749.3 | 704.6 | 6.4% | 6.6% |
| Restructuring charges | — | 53.0 | —% | 0.5% |
| Total operating expenses | 10,175.8 | 9,436.1 | 87.0% | 88.1% |
| Gain on sale of properties | 30.2 | — | 0.3% | —% |
| Income from equity investees | 173.7 | 148.1 | 1.5% | 1.4% |
| Operating income | \$ 1,728.5 | \$ 1,419.4 | 14.8% | 13.3% |
| Supplemental ratios as a % of related revenues: | | | | |
| Store operating expenses | | | 37.3% | 38.7% |

Cost of sales including occupancy costs as a percentage of total net revenues increased 80 basis points. The increase was primarily due to higher commodity costs (approximately 220 basis points), mainly driven by increased coffee costs. Partially offsetting this increase was lower occupancy costs as a percentage of total net revenues (approximately 70 basis points), driven by increased sales leverage.

Store operating expenses as a percentage of total net revenues decreased 170 basis points primarily due to increased sales leverage.

Other operating expenses as a percentage of total net revenues increased 80 basis points primarily due to higher expenses to support the direct distribution model for packaged coffee and tea (approximately 40 basis points) and the impairment of certain assets in our Seattle's Best Coffee business associated with the Borders bankruptcy in April 2011 (approximately 20 basis points).

The above changes contributed to an overall increase in operating margin of 150 basis points for fiscal 2011. Considering the impact from all line items, the primary drivers for the increase in operating margin for fiscal 2011 were increased sales leverage (approximately 300 basis points), the absence of restructuring charges in the current year (approximately 50 basis points) and the gain on the sale of corporate real estate in fiscal 2011 (approximately 30 basis points). These increases were partially offset by higher commodity costs (approximately 220 basis points).

Other Income and Expenses

| Fiscal Year Ended | Oct 2, | Oct 3, | Oct 2, | Oct 3, |
|--|----------------------------|-----------------|---------------|--------------|
| | 2011 | 2010 | 2011 | 2010 |
| | % of Total Net Revenues | | | |
| Operating income | \$ 1,728.5 | \$ 1,419.4 | 14.8 % | 13.3 % |
| Interest income and other, net | 115.9 | 50.3 | 1.0 % | 0.5 % |
| Interest expense | (33.3) | (32.7) | (0.3)% | (0.3)% |
| Earnings before income taxes | 1,811.1 | 1,437.0 | 15.5 % | 13.4 % |
| Income taxes | 563.1 | 488.7 | 4.8 % | 4.6 % |
| Net earnings including noncontrolling interests | 1,248.0 | 948.3 | 10.7 % | 8.9 % |
| Net earnings (loss) attributable to noncontrolling interests | 2.3 | 2.7 | — % | — % |
| Net earnings attributable to Starbucks | \$ 1,245.7 | \$ 945.6 | 10.6 % | 8.8 % |
| Effective tax rate including noncontrolling interests | | | 31.1 % | 34.0 % |

Net interest income and other increased \$66 million over the prior year. The increase primarily resulted from the gain recorded in the fourth quarter of fiscal 2011 related to our acquisition of the remaining ownership interest in our joint venture operations in Switzerland and Austria (approximately \$55 million).

Income taxes for the fiscal year ended 2011 resulted in an effective tax rate of 31.1% compared to 34.0% for fiscal 2010. The lower rate in fiscal 2011 was primarily due to a benefit from the Switzerland and Austria transaction and to an increase in income in foreign jurisdictions having lower tax rates.

Segment Information

The following tables summarize our results of operations by segment for fiscal 2011 and 2010 (*in millions*).

Americas

| Fiscal Year Ended | Oct 2, | Oct 3, | Oct 2, | Oct 3, |
|---|--|-------------------|---------------|---------------|
| | 2011 | 2010 | 2011 | 2010 |

| Store operating expenses | | | 38.1% | 39.2% |

Revenues

Americas total net revenues for fiscal 2011 increased 7%, or \$577 million. The increase was primarily driven by an increase in comparable store sales in our company-operated stores of 8% (contributing approximately \$590 million), driven by a 5% increase in number of transactions and a 2% increase in average value per transaction. Also contributing to the increase was favorable foreign currency translation resulting from the weakening of the US dollar (approximately \$51 million), primarily in relation to the Canadian dollar, and an increase in product sales to and royalty revenues from licensees (approximately \$73 million), primarily due to improved comparable store sales and net new store openings. These increases were partially offset by the absence of the extra week in fiscal 2010 (approximately \$162 million).

Operating Expenses

Cost of sales including occupancy costs as a percentage of total net revenues increased 40 basis points over the prior year. The increase was primarily due to higher commodity costs (approximately 140 basis points), mainly coffee, partially offset by increased sales leverage on occupancy costs (approximately 60 basis points).

Store operating expenses as a percentage of total net revenues decreased 120 basis points primarily due to increased sales leverage.

Also contributing to the increase in operating margin was the absence of restructuring charges in fiscal 2011 (approximately 30 basis points) and increased sales leverage resulting in lower depreciation and amortization expenses as a percentage of total net revenues (contributing 30 basis points). The combination of these changes contributed to an overall increase in operating margin of 160 basis points for fiscal 2011.

| Store operating expenses | | | 36.1% | 38.4 % |

Revenues

EMEA total net revenues for fiscal 2011 increased 10%, or \$93 million. The increase was primarily driven by favorable foreign currency translation resulting from the weakening of the US dollar (approximately \$35 million), primarily in relation to the British pound, the acquisition of the remaining interest in our previous joint venture operations in Switzerland and Austria in the fourth quarter of fiscal 2011 (approximately \$28 million), and an

increase in comparable store sales in our company-operated stores of 3% (approximately \$24 million). An increase in royalty revenues from and product sales to licensees also contributed (approximately \$20 million), due to improved comparable store sales and net new store openings. These increases were partially offset by the absence of the extra week in fiscal 2010 (approximately \$18 million).

Operating Expenses

Cost of sales including occupancy costs as a percentage of total net revenues increased by 120 basis points compared to the prior year. The increase was primarily driven by higher higher commodity costs (approximately 160 basis points), mainly coffee, partially offset by increased sales leverage on occupancy costs (approximately 50 basis points).

Store operating expenses as a percentage of total net revenues decreased 270 basis points. Increased licensed stores revenues contributed approximately 40 basis points to the decrease. Store operating expenses as a percentage of company-operated store revenues decreased 230 basis points primarily due to fewer impairment charges in fiscal 2011 compared to fiscal 2010 (approximately 110 basis points), lower equipment maintenance costs (approximately 60 basis points) and increased sales leverage on salaries and benefits (approximately 40 basis points).

Also contributing to the increase in operating margin was the absence of restructuring charges in fiscal 2011 (approximately 260 basis points). The combination of these changes resulted in an overall increase in operating margin of 460 basis points for fiscal 2011.

China / Asia Pacific

| <u>Fiscal Year Ended</u> | Oct 2, 2011 | Oct 3, 2010 | Oct 2, 2011 | Oct 3, 2010 |

| Supplemental ratios as a % of related revenues: | | | | |
| Store operating expenses | | | 23.1% | 25.4% |

Revenues

China / Asia Pacific total net revenues for fiscal 2011 increased 36%, or \$145 million. The increase was primarily driven by an increase in comparable store sales in our company-operated stores of 22% (contributing approximately \$58 million), driven by a 20% increase in number of transactions and a 2% increase in average value per transaction. Also contributing to the increase in total net revenues was favorable foreign currency translation resulting from the weakening of the US dollar (approximately \$40 million), the opening of 73 net new company-operated stores in the past 12 months (approximately \$40 million), and an increase in royalty revenues

from and product sales to licensees (approximately \$17 million), due to improved comparable store sales and net new store openings. These increases were partially offset by the absence of the extra week in fiscal 2010 (approximately \$9 million).

Operating Expenses

Cost of sales including occupancy costs as a percentage of total net revenues decreased by 130 basis points compared to the prior year, primarily due to increased sales leverage on occupancy costs.

Store operating expenses as a percentage of total net revenues decreased 60 basis points. Excluding the impact of licensed store revenues, store operating expenses decreased 230 basis points as a percent of company-operated store revenues in fiscal 2011 compared to fiscal 2010, primarily driven by lower compensation costs (approximately 210 basis points) as a percentage of total net revenues.

Other operating expenses as a percentage of total net revenues decreased 90 basis points. Increased company-operated store revenues contributed approximately 30 basis points to the decrease. Other operating expenses as a percentage of licensed store revenues decreased 60 basis points, primarily driven by lower compensation related costs (approximately 140 basis points), partially offset by increasing costs related to our expansion efforts into key emerging markets, primarily China.

Income from equity investees increased \$20 million in fiscal 2011, driven by improved performance in our joint venture operations, primarily in Japan, Shanghai and Taiwan.

The changes in the above line items combined with increased sales leverage on general and administrative expenses (approximately 130 basis points) and depreciation and amortization (approximately 60 basis points) contributed to an overall increase in operating margin of 370 basis points in fiscal 2011.

Channel Development

| <u>Fiscal Year Ended</u> | Oct 2, 2011 | Oct 3, 2010 | Oct 2, 2011 | Oct 3, 2010 |
|---|---|------------------------|------------------------|------------------------|
| | As a % of Channel Development Total Net Revenues | | | |
| Total net revenues | \$ 860.5 | \$ 707.4 | 100.0% | 100.0% |
| Cost of sales including occupancy costs | 487.5 | 383.2 | 56.7% | 54.2% |
| Other operating expenses | 151.8 | 115.6 | 17.6% | 16.3% |
| Depreciation and amortization expenses | 2.4 | 3.7 | 0.3% | 0.5% |
| General and administrative expenses | 10.9 | 6.8 | 1.3% | 1.0% |
| Total operating expenses | 652.6 | 509.3 | 75.8% | 72.0% |
| Income from equity investees | 75.6 | 70.6 | 8.8% | 10.0% |
| Operating income | \$ 283.5 | \$ 268.7 | 32.9% | 38.0% |

Revenues

Total Channel Development net revenues for fiscal 2011 increased 22%, or \$153 million. The increase was primarily due to the benefit of recognizing full revenue from packaged coffee and tea sales under the direct distribution model for the majority of the year (approximately \$70 million). On March 1, 2011, we successfully transitioned to a direct distribution model from our previous distribution arrangement with Kraft for the sale of packaged Starbucks[®] and Seattle's Best Coffee[®] coffee products in grocery and warehouse club stores throughout the US, and to grocery stores in Canada, the UK and other European countries. We successfully transitioned the Tazo[®] tea business to a direct distribution model in January 2011. Also contributing to the increase were improved revenues from US foodservice (approximately \$26 million) and the expanded distribution of Starbucks VIA[®]

Ready Brew in fiscal 2011 (approximately \$24 million), partially offset by the extra week in fiscal 2010 (approximately \$16 million).

Operating Expenses

Operating margin decreased 510 basis points over the prior year primarily due to increased commodity costs (approximately 830 basis points), driven by higher coffee costs. Partially offsetting the increase in commodity costs was the benefit of price increases (approximately 200 basis points) and lower marketing expenses for Starbucks VIA® Ready Brew in 2011 (approximately 120 basis points).

Other

| <u>Fiscal Year Ended</u> | <u>Oct 2, 2011</u> | <u>Oct 3, 2010</u> | <u>% Change</u> |

| Operating loss | \$ (560.4) | \$ (496.6) | 12.8 % |

Substantially all net revenues in Other are generated from the Seattle's Best Coffee operating segment. The increase in revenues for Seattle's Best Coffee was primarily due to the recognition of a full year of sales to national accounts added in the latter part of fiscal 2010 as well as new accounts added during fiscal 2011 (approximately \$20 million). This was partially offset by the impact of the closure of the Seattle's Best Coffee locations in Borders Bookstores.

Total operating expenses in fiscal 2011 increased 19%, or \$120 million. This increase is the result of an increase of \$59 million in other operating expenses primarily due to the impairment of certain assets in our Seattle's Best Coffee business associated with the Borders bankruptcy in April 2011 and an increase in marketing expenses. Also contributing was a \$37 million increase in general and administrative expenses due to higher corporate expenses to support growth initiatives and higher donations to the Starbucks Foundation. These increases in operating expenses were partially offset by a gain on the sale of corporate real estate in fiscal 2011 (approximately \$30 million).

SUMMARIZED QUARTERLY FINANCIAL INFORMATION (unaudited; in millions, except EPS)

| | First | Second | Third | Fourth | Total |

FINANCIAL CONDITION, LIQUIDITY AND CAPITAL RESOURCES

Investment Overview

Starbucks cash and short-term investments were \$2.0 billion and \$2.1 billion as of September 30, 2012 and October 2, 2011, respectively. As of September 30, 2012, approximately \$703 million of cash was held in foreign subsidiaries. Of our cash held in foreign subsidiaries, \$343 million is denominated in the US dollar. We actively manage our cash and short-term investments in order to internally fund operating needs domestically and internationally, make scheduled interest and principal payments on our borrowings, and return cash to shareholders through common stock cash dividend payments and share repurchases. Our short-term investments consisted predominantly of US Treasury securities, commercial paper, corporate bonds, and US Agency securities. Also included in our short-term investment portfolio are certificates of deposit placed through an account registry service, with maturities ranging from 91 days to one year. The principal amounts of the individual certificates of deposit do not exceed the Federal Deposit Insurance Corporation limits. Our portfolio of long-term available for sale securities consists predominantly of high investment-grade corporate bonds, diversified among industries and individual issuers, as well as certificates of deposits with maturities greater than 1 year.

Borrowing capacity

In November 2010, we replaced our previous credit facility with a new \$500 million unsecured credit facility ("the credit facility") with various banks, of which \$100 million may be used for issuances of letters of credit. The credit facility is available for working capital, capital expenditures and other corporate purposes, including acquisitions and share repurchases and is currently set to mature in November 2014. Starbucks has the option, subject to negotiation and agreement with the related banks, to increase the maximum commitment amount by an additional \$500 million. The interest rate for any borrowings under the credit facility, based on Starbucks current ratings and fixed charge coverage ratio, is 0.85% over LIBOR. The specific spread over LIBOR will depend upon our long-term credit ratings assigned by Moody's and Standard & Poor's rating agencies and our fixed charge coverage ratio. The credit facility contains provisions requiring us to maintain compliance with certain covenants, including a minimum fixed charge coverage ratio, which measures our ability to cover financing expenses. As of September 30, 2012 and October 2, 2011, we were in compliance with each of these covenants.

Under our commercial paper program we may issue unsecured commercial paper notes, up to a maximum aggregate amount outstanding at any time of \$500 million, with individual maturities that may vary, but not

exceed 397 days from the date of issue. The program is backstopped by the credit facility and the combined borrowing limit is \$500 million for the commercial paper program and the credit facility. Starbucks may issue commercial paper from time to time, and the proceeds of the commercial paper financing may be used for working capital needs, capital expenditures and other corporate purposes, including acquisitions and share repurchases. During fiscal 2012 and fiscal 2011, there were no borrowings under the credit facility or commercial paper programs. As of September 30, 2012 and October 2, 2011, a total of \$18 million and \$17 million, respectively, in letters of credit were outstanding under the revolving credit facility.

The \$550 million of 10-year 6.25% Senior Notes also require us to maintain compliance with certain covenants, including limits on future liens and sale and leaseback transactions on certain material properties. As of September 30, 2012 and October 2, 2011, we were in compliance with each of these covenants.

Use of Cash

We expect to use our cash and short-term investments, including any potential future borrowings under the credit facility and commercial paper program, to invest in our core businesses, including new product innovations and related marketing support, as well as other new business opportunities related to our core businesses. We believe that future cash flows generated from operations and existing cash and short-term investments both domestically and internationally will be sufficient to finance capital requirements for our core businesses in those respective markets as well as shareholder distributions for the foreseeable future.

We consider the majority of undistributed earnings of our foreign subsidiaries and equity investees as of September 30, 2012 to be indefinitely reinvested and, accordingly, no US income and foreign withholding taxes have been provided on such earnings. We have not, nor do we anticipate the need to, repatriate funds to the US to satisfy domestic liquidity needs; however, in the event that we need to repatriate all or a portion of our foreign cash to the US we would be subject to additional US income taxes, which could be material. We do not believe it is practical to calculate the potential tax impact of repatriation, as there is a significant amount of uncertainty around the calculation, including the availability and amount of foreign tax credits at the time of repatriation, tax rates in effect, and other indirect tax consequences associated with repatriation.

We may use our available cash resources to make proportionate capital contributions to our equity method and cost method investees. We may also seek strategic acquisitions to leverage existing capabilities and further build our business in support of our growth agenda. Acquisitions may include increasing our ownership interests in our equity method and cost method investees. Any decisions to increase such ownership interests will be driven by valuation and fit with our ownership strategy. Significant new joint ventures, acquisitions and/or other new business opportunities may require additional outside funding.

As discussed further in Note 15, we are in arbitration with Kraft Foods Global, Inc. ("Kraft") for a commercial dispute relating to a distribution agreement we previously held with Kraft. As a part of those proceedings Kraft has claimed damages inclusive of a premium and interest for terminating the arrangement. We believe we have valid claims of material breach by Kraft under the Agreement. We also believe Kraft's claim is highly inflated and based upon faulty analysis. However, should the arbitration result in an unfavorable outcome, we believe we have adequate liquidity.

Other than normal operating expenses, cash requirements for fiscal 2013 are expected to consist primarily of capital expenditures for remodeling and refurbishment of, and equipment upgrades for, existing company-operated stores; systems and technology investments in the stores and in the support infrastructure; new company-operated stores; and additional investments in manufacturing capacity. Total capital expenditures for fiscal 2013 are expected to be approximately \$1.2 billion.

During the first three quarters of fiscal 2011, we declared and paid a cash dividend to shareholders of \$0.13 per share. In the fourth quarter of fiscal 2011 and the first three quarters of fiscal 2012 we declared and paid a cash dividend of \$0.17 per share. Cash dividends paid in fiscal 2012 and 2011 totaled \$513 million and \$390 million, respectively. In the fourth quarter, we declared a cash dividend of \$0.21 per share to be paid on November 30, 2012 with an expected payout of \$157 million.

During fiscal years 2012 and 2011, we repurchased 12 million and 16 million shares of common stock (\$593 million and \$556 million, respectively) under share repurchase authorizations. The number of remaining shares authorized for repurchase at September 30, 2012 totaled 12.1 million. On November 14, 2012, our Board of Directors authorized the repurchase of up to an additional 25 million shares under our share repurchase program.

Cash Flows

Cash provided by operating activities was \$1.8 billion for fiscal year 2012, compared to \$1.6 billion for fiscal year 2011. The slight increase was primarily attributable to an increase in net earnings in fiscal 2012. This was partially offset by a net increase in our working capital accounts, due primarily to increased payments on accounts payable.

Cash used by investing activities totaled \$1.0 billion for fiscal years 2012 and 2011. Net cash proceeds on investment maturities were offset by an increase in capital expenditures, primarily for remodeling and renovating existing company-operated stores and opening new retail stores, the absence of cash proceeds from the sale of corporate real estate in the prior year and cash paid to acquire Evolution Fresh and Bay Bread, LLC (doing business as La Boulange) in the first and fourth quarters of fiscal 2012, respectively.

Cash used by financing activities for fiscal year 2012 totaled \$746 million, compared to \$608 million for fiscal year 2011. The increase was primarily due to an increase in cash returned to shareholders through higher dividend payments in fiscal 2012.

The following table summarizes our contractual obligations and borrowings as of September 30, 2012, and the timing and effect that such commitments are expected to have on our liquidity and capital requirements in future periods (*in millions*):

| <u>Contractual Obligations</u> (1) | Payments Due by Period | | | | |
|------------------------------------|------------------------|-------------------|-------------------|-------------------|-------------------|
| | Total | Less than 1 Year | 1 - 3 Years | 3 - 5 Years | More than 5 Years |
| Operating lease obligations(2) | \$ 4,060.2 | \$ 787.9 | \$ 1,368.9 | \$ 934.9 | \$ 968.5 |
| Purchase obligations(3) | 911.0 | 727.9 | 170.0 | 13.1 | — |
| Debt obligations(4) | 722.0 | 34.4 | 68.8 | 618.8 | — |
| Other obligations(5) | 94.9 | 19.4 | 9.6 | 8.3 | 57.6 |
| Total | \$ 5,788.1 | \$ 1,569.6 | \$ 1,617.3 | \$ 1,575.1 | \$ 1,026.1 |

- (1) Income tax liabilities for uncertain tax positions were excluded as we are not able to make a reasonably reliable estimate of the amount and period of related future payments. As of September 30, 2012, we had \$78.4 million of gross unrecognized tax benefits for uncertain tax positions.
- (2) Amounts include the direct lease obligations, excluding any taxes, insurance and other related expenses.
- (3) Purchase obligations include agreements to purchase goods or services that are enforceable and legally binding on Starbucks and that specify all significant terms. Green coffee purchase commitments comprise 94% of total purchase obligations.
- (4) Debt amounts include principal maturities and scheduled interest payments on our long-term debt.
- (5) Other obligations include other long-term liabilities primarily consisting of asset retirement obligations, capital lease obligations and hedging instruments.

Starbucks currently expects to fund these commitments with operating cash flows generated in the normal course of business.

Off-Balance Sheet Arrangements

Off-balance sheet arrangements relate to operating lease and purchase commitments detailed in the footnotes to the consolidated financial statements in this 10-K.

COMMODITY PRICES, AVAILABILITY AND GENERAL RISK CONDITIONS

Commodity price risk represents Starbucks primary market risk, generated by our purchases of green coffee and dairy products, among other things. We purchase, roast and sell high-quality whole bean *arabica* coffee and related products and risk arises from the price volatility of green coffee. In addition to coffee, we also purchase significant amounts of dairy products to support the needs of our company-operated stores. The price and availability of these commodities directly impacts our results of operations and can be expected to impact our future results of operations. For additional details see Product Supply in Item 1, as well as Risk Factors in Item 1A of this 10-K.

FINANCIAL RISK MANAGEMENT

Market risk is defined as the risk of losses due to changes in commodity prices, foreign currency exchange rates, equity security prices, and interest rates. We manage our exposure to various market-based risks according to a market price risk management policy. Under this policy, market-based risks are quantified and evaluated for potential mitigation strategies, such as entering into hedging transactions. The market price risk management policy governs how hedging instruments may be used to mitigate risk. Risk limits are set annually and prohibit speculative trading activity. We also monitor and limit the amount of associated counterparty credit risk. In general, hedging instruments do not have maturities in excess of five years.

The sensitivity analyses disclosed below provide only a limited, point-in-time view of the market risk of the financial instruments discussed. The actual impact of the respective underlying rates and price changes on the financial instruments may differ significantly from those shown in the sensitivity analyses.

Commodity Price Risk

We purchase commodity inputs, including coffee, dairy products and diesel that are used in our operations and are subject to price fluctuations that impact our financial results. In addition to fixed-price and price-to-be-fixed contracts for coffee purchases, we have entered into commodity hedges to manage commodity price risk using financial derivative instruments.

The following table summarizes the potential impact as of September 30, 2012 to Starbucks future net earnings and other comprehensive income (“OCI”) from changes in commodity prices. The information provided below relates only to the hedging instruments and does not represent the corresponding changes in the underlying hedged items (*in millions*):

| | Increase/(Decrease) to Net Earnings | | Increase/(Decrease) to OCI | |
|------------------|-------------------------------------|---------------------------------|---------------------------------|---------------------------------|
| | 10% Increase in Underlying Rate | 10% Decrease in Underlying Rate | 10% Increase in Underlying Rate | 10% Decrease in Underlying Rate |
| Commodity hedges | \$ 10 | \$ (10) | \$ 13 | \$ (13) |

Foreign Currency Exchange Risk

The majority of our revenue, expense and capital purchasing activities are transacted in US dollars. However, because a portion of our operations consists of activities outside of the US, we have transactions in other currencies, primarily the Canadian dollar, British pound, euro, and Japanese yen. As a result, we may engage in

transactions involving various derivative instruments to hedge revenues, inventory purchases, assets, and liabilities denominated in foreign currencies.

As of September 30, 2012, we had forward foreign exchange contracts that hedge portions of anticipated international revenue streams and inventory purchases. In addition, we had forward foreign exchange contracts that qualify as accounting hedges of our net investment in Starbucks Japan to minimize foreign currency exposure.

Starbucks also had forward foreign exchange contracts that are not designated as hedging instruments for accounting purposes (free standing derivatives), but which largely offset the financial impact of translating certain foreign currency denominated payables and receivables. Increases or decreases in the fair value of these derivatives are generally offset by corresponding decreases or increases in the US dollar value of our foreign currency denominated payables and receivables (*i.e.* “hedged items”) that would occur within the period.

The following table summarizes the potential impact as of September 30, 2012 to Starbucks future net earnings and other comprehensive income (“OCI”) from changes in the fair value of these derivative financial instruments due in turn to a change in the value of the US dollar as compared to the level of foreign exchange rates. The information provided below relates only to the hedging instruments and does not represent the corresponding changes in the underlying hedged items (*in millions*):

| | Increase/(Decrease) to Net Earnings | | Increase/(Decrease) to OCI | |
|-------------------------|-------------------------------------|---------------------------------|---------------------------------|---------------------------------|
| | 10% Increase in Underlying Rate | 10% Decrease in Underlying Rate | 10% Increase in Underlying Rate | 10% Decrease in Underlying Rate |
| Foreign currency hedges | \$ 8 | \$ (8) | \$ 30 | \$ (30) |

Equity Security Price Risk

We have minimal exposure to price fluctuations on equity mutual funds and equity exchange-traded funds within our trading portfolio. The trading securities approximate a portion of our liability under the Management Deferred Compensation Plan (“MDCP”). A corresponding liability is included in accrued compensation and related costs on the consolidated balance sheets. These investments are recorded at fair value with unrealized gains and losses recognized in net interest income and other in the consolidated statements of earnings. The offsetting changes in the MDCP liability are recorded in general and administrative expenses. We performed a sensitivity analysis based on a 10% change in the underlying equity prices of our investments as of September 30, 2012 and determined that such a change would not have a significant impact on the fair value of these instruments.

Interest Rate Risk

We utilize short-term and long-term financing and may use interest rate hedges to manage the effect of interest rate changes on our existing debt as well as the anticipated issuance of new debt. As of September 30, 2012 and October 2, 2011, we did not have any interest rate hedge agreements outstanding.

The following table summarizes the impact of a change in interest rates as of September 30, 2012 on the fair value of Starbucks debt (*in millions*):

| | Fair Value | Change in Fair Value | |
|------|------------|---|---|
| | | 100 Basis Point Increase in Underlying Rate | 100 Basis Point Decrease in Underlying Rate |
| Debt | \$ 674 | \$ 29 | \$ (29) |

Our available-for-sale securities comprise a diversified portfolio consisting mainly of fixed income instruments. The primary objectives of these investments are to preserve capital and liquidity. Available-for-sale securities are recorded on the consolidated balance sheets at fair value with unrealized gains and losses reported as a component

of accumulated other comprehensive income. We do not hedge the interest rate exposure on our available-for-sale securities. We performed a sensitivity analysis based on a 100 basis point change in the underlying interest rate of our available-for-sale securities as of September 30, 2012, and determined that such a change would not have a significant impact on the fair value of these instruments.

APPLICATION OF CRITICAL ACCOUNTING POLICIES

Critical accounting policies are those that management believes are both most important to the portrayal of our financial condition and results and require the most difficult, subjective or complex judgments, often as a result of the need to make estimates about the effect of matters that are inherently uncertain. Judgments and uncertainties affecting the application of those policies may result in materially different amounts being reported under different conditions or using different assumptions.

We consider financial reporting and disclosure practices and accounting policies quarterly to ensure that they provide accurate and transparent information relative to the current economic and business environment. We believe that of our significant accounting policies, the following policies involve a higher degree of judgment and/or complexity:

Asset Impairment

When facts and circumstances indicate that the carrying values of long-lived assets may not be recoverable, we evaluate long-lived assets for impairment. We first compare the carrying value of the asset to the asset's estimated future undiscounted cash flows. If the estimated future cash flows are less than the carrying value of the asset, we measure an impairment loss based on the asset's estimated fair value. For retail assets, the impairment test is performed at the individual store asset group level. The fair value of a store's assets is estimated using a discounted cash flow model based on internal projections. Key assumptions used in this calculation include revenue growth, operating expenses and a discount rate that we believe a buyer would assume when determining a purchase price for the store. Estimates of revenue growth and operating expenses are based on internal projections and consider a store's historical performance, local market economics and the business environment impacting the store's performance. These estimates are subjective and can be significantly impacted by changes in the business or economic conditions. For non-retail assets, fair value is determined using an approach that is appropriate based on the relevant facts and circumstances, which may include discounted cash flows, comparable transactions, or comparable company analyses.

Our impairment loss calculations contain uncertainties because they require management to make assumptions and to apply judgment to estimate future cash flows and asset fair values, including forecasting asset useful lives. Further, our ability to realize undiscounted cash flows in excess of the carrying values of our assets is affected by factors such as the ongoing maintenance and improvement of the assets, changes in economic conditions, and changes in operating performance. During the past three fiscal years, we have not made any material changes in the accounting methodology that we use to assess long-lived asset impairment loss. For the foreseeable future, we do not believe there is a reasonable likelihood that there will be a material change in the estimates or assumptions that we use to calculate long-lived asset impairment losses. However, as we periodically reassess estimated future cash flows and asset fair values, changes in our estimates and assumptions may cause us to realize material impairment charges in the future.

Goodwill Impairment

We test goodwill for impairment on an annual basis during our third fiscal quarter, or more frequently if circumstances, such as material deterioration in performance or a significant number of store closures, indicate reporting unit carrying values may exceed their fair values. When evaluating goodwill for impairment, we first perform a qualitative assessment to determine if the fair value of the reporting unit is more likely than not greater than the carrying amount. If not, we calculate the implied estimated fair value of the reporting unit. If the carrying amount of goodwill exceeds the implied estimated fair value, an impairment charge is recorded to reduce the carrying value to the implied estimated fair value. The fair value of each of our reporting units is the price a

willing buyer would pay for the reporting unit and is typically calculated using a discounted cash flow model. Key assumptions used in this calculation include revenue growth, operating expenses and a discount rate that we believe a buyer would assume when determining a purchase price for the reporting unit. Estimates of revenue growth and operating expenses are based on internal projections considering a reporting unit's past performance and forecasted growth, local market economics and the local business environment impacting the reporting unit's performance. The discount rate is calculated using an estimated cost of capital for a retail operator to operate the reporting unit in the region. These estimates are highly subjective judgments and can be significantly impacted by changes in the business or economic conditions.

Our impairment loss calculations contain uncertainties because they require management to make assumptions in the qualitative assessment of the reporting unit and require management to apply judgment to estimate the fair value of our reporting units, including estimating future cash flows, and if necessary, the fair value of a reporting units' assets and liabilities. Further, our ability to realize the future cash flows used in our fair value calculations is affected by factors such as changes in economic conditions, changes in our operating performance, and changes in our business strategies.

As a part of our ongoing operations, we may close certain stores within a reporting unit containing goodwill due to underperformance of the store or inability to renew our lease, among other reasons. We abandon certain assets associated with a closed store including leasehold improvements and other non-transferable assets. Under GAAP, when a portion of a reporting unit that constitutes a business is to be disposed of, goodwill associated with the business is included in the carrying amount of the business in determining any loss on disposal. Our evaluation of whether the portion of a reporting unit being disposed of constitutes a business occurs on the date of abandonment. Although an operating store meets the accounting definition of a business prior to abandonment, it does not constitute a business on the closure date because the remaining assets on that date do not constitute an integrated set of assets that are capable of being conducted and managed for the purpose of providing a return to investors. As a result, when closing individual stores, we do not include goodwill in the calculation of any loss on disposal of the related assets. As noted above, if store closures are indicative of potential impairment of goodwill at the reporting unit level, we perform an evaluation of our reporting unit goodwill when such closures occur.

During the past three fiscal years, we have not made any material changes in the accounting methodology that we use to assess goodwill impairment loss. For fiscal 2012, we determined the fair value of our reporting units was substantially in excess of their carrying values. Accordingly, we did not recognize any goodwill impairments during the current fiscal year. We do not believe there is a reasonable likelihood that there will be a material change in the estimates or assumptions that we use to test for impairment losses on goodwill in the foreseeable future. However, as we periodically reassess our fair value calculations, including estimated future cash flows, changes in our estimates and assumptions may cause us to realize material impairment charges in the future.

Self Insurance Reserves

We use a combination of insurance and self-insurance mechanisms, including a wholly owned captive insurance entity and participation in a reinsurance treaty, to provide for the potential liabilities for certain risks, including workers' compensation, healthcare benefits, general liability, property insurance, and director and officers' liability insurance. Key assumptions used in the estimate of our self insurance reserves include the amount of claims incurred but not reported at the balance sheet date. These liabilities, which are associated with the risks that are retained by Starbucks are not discounted and are estimated, in part, by considering historical claims experience, demographic, exposure and severity factors, and other actuarial assumptions. The estimated accruals for these liabilities could be significantly affected if future occurrences and claims differ from these assumptions and historical trends.

Our self-insurance reserves contain uncertainties because management is required to make assumptions and to apply judgment to estimate the ultimate cost to settle reported claims and claims incurred but not reported at the balance sheet date. Periodically, we review our assumptions to determine the adequacy of our self-insurance reserves.

During the past three fiscal years, we have not made any material changes in the accounting methodology that we use to calculate our self-insurance reserves. We do not believe there is a reasonable likelihood that there will be a material change in the estimates or assumptions that we use to calculate our self-insurance reserves for the foreseeable future. However, if actual results are not consistent with our estimates or assumptions, we may be exposed to losses or gains that could be material.

A 10% change in our self-insurance reserves at September 30, 2012 would have affected net earnings by approximately \$10 million in fiscal 2012.

Income Taxes

We recognize deferred tax assets and liabilities based on the differences between the financial statement carrying amounts and the respective tax bases of our assets and liabilities. Deferred tax assets and liabilities are measured using current enacted tax rates expected to apply to taxable income in the years in which we expect the temporary differences to reverse. We routinely evaluate the likelihood of realizing the benefit of our deferred tax assets and may record a valuation allowance if, based on all available evidence, we determine that some portion of the tax benefit will not be realized.

In addition, our income tax returns are periodically audited by domestic and foreign tax authorities. These audits include questions regarding our tax filing positions, including the timing and amount of deductions taken and the allocation of income among various tax jurisdictions. We evaluate our exposures associated with our various tax filing positions; we recognize a tax benefit only if it is more likely than not that the tax position will be sustained on examination by the relevant taxing authorities, based on the technical merits of our position. For uncertain tax positions that do not meet this threshold, we record a related liability. We adjust our unrecognized tax benefits liability and income tax expense in the period in which the uncertain tax position is effectively settled, the statute of limitations expires for the relevant taxing authority to examine the tax position, or when new information becomes available.

Income generated in certain foreign jurisdictions has not been subject to US income taxes. We intend to reinvest these earnings for the foreseeable future. If these amounts were distributed to the US, in the form of dividends or otherwise, we would be subject to additional US income taxes, which could be material. Determination of the amount of unrecognized deferred income tax liabilities on these earnings is not practicable because such liability, if any, is dependent on circumstances existing if and when remittance occurs.

Deferred tax asset valuation allowances and our liability for unrecognized tax benefits require significant management judgment regarding applicable statutes and their related interpretation, the status of various income tax audits, and our particular facts and circumstances. Although we believe that the judgments and estimates discussed herein are reasonable, actual results could differ, and we may be exposed to losses or gains that could be material. To the extent we prevail in matters for which a liability has been established, or are required to pay amounts in excess of our established liability, our effective income tax rate in a given financial statement period could be materially affected.

Litigation Accruals

We are involved in various claims and legal actions that arise in the ordinary course of business. Legal and other contingency reserves and related disclosures are based on our assessment of the likelihood of a potential loss and our ability to estimate the loss or range of loss, which includes consultation with outside legal counsel and advisors. We record reserves related to legal matters when it is probable that a loss has been incurred and the range of such loss can be reasonably estimated. Such assessments are reviewed each period and revised, based on current facts and circumstances and historical experience with similar claims, as necessary.

Our disclosures of and accruals for litigation claims, if any, contain uncertainties because management is required to use judgment to estimate the probability of a loss and a range of possible losses related to each claim. Note 15 to the consolidated financial statements describes the Company's legal and other contingent liability matters.

As we periodically review our assessments of litigation accruals, we may change our assumptions with respect to loss probabilities and ranges of potential losses. Any changes in these assumptions could have a material impact on our future results of operations.

RECENT ACCOUNTING PRONOUNCEMENTS

See Note 1 to the consolidated financial statements in this 10-K for a detailed description of recent accounting pronouncements. We do not expect these recently issued accounting pronouncements to have a material impact on our results of operations, financial condition, or liquidity in future periods.

Item 8. *Financial Statements and Supplementary Data*

STARBUCKS CORPORATION
CONSOLIDATED STATEMENTS OF EARNINGS
(in millions, except per share data)

| Fiscal Year Ended | Sep 30, 2012 | Oct 2, 2011 | Oct 3, 2010 |

STARBUCKS CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
Fiscal Years ended September 30, 2012, October 2, 2011 and October 3, 2010

Note 1: Summary of Significant Accounting Policies

Description of Business

We purchase and roast high-quality coffees that we sell, along with handcrafted coffee and tea beverages and a variety of fresh food items, through our company-operated stores. We also sell a variety of coffee and tea products and license our trademarks through other channels such as licensed stores, grocery and national foodservice accounts.

In this 10-K, Starbucks Corporation (together with its subsidiaries) is referred to as “Starbucks,” the “Company,” “we,” “us” or “our.”

We have four reportable operating segments: Americas; Europe, Middle East, and Africa, collectively referred to as “EMEA;” China / Asia Pacific (“CAP”) and Channel Development. Our Seattle’s Best Coffee operating segment is reported in “Other” with Evolution Fresh, our Digital Ventures business and unallocated corporate expenses.

Additional details on the nature of our business and our reportable operating segments are in Item 1 of this 10-K.

Principles of Consolidation

The consolidated financial statements reflect the financial position and operating results of Starbucks, including wholly owned subsidiaries and investees that we control. Investments in entities that we do not control, but have the ability to exercise significant influence over operating and financial policies, are accounted for under the equity method. Investments in entities in which we do not have the ability to exercise significant influence are accounted for under the cost method. Intercompany transactions and balances have been eliminated.

Fiscal Year End

Our fiscal year ends on the Sunday closest to September 30. Fiscal years 2012 and 2011 included 52 weeks. Fiscal year 2010 included 53 weeks, with the 53rd week falling in the fourth fiscal quarter.

Estimates and Assumptions

Preparing financial statements in conformity with accounting principles generally accepted in the United States of America (“GAAP”) requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses. Examples include, but are not limited to, estimates for asset and goodwill impairments, stock-based compensation forfeiture rates, future asset retirement obligations, and inventory reserves; assumptions underlying self-insurance reserves and income from unredeemed stored value cards; and the potential outcome of future tax consequences of events that have been recognized in the financial statements. Actual results and outcomes may differ from these estimates and assumptions.

Cash and Cash Equivalents

We consider all highly liquid instruments with a maturity of three months or less at the time of purchase to be cash equivalents. Cash and cash equivalents are valued using active markets for identical assets. We maintain cash and cash equivalent balances with financial institutions that exceed federally insured limits. We have not experienced any losses related to these balances and we believe credit risk to be minimal.

Our cash management system provides for the funding of all major bank disbursement accounts on a daily basis as checks are presented for payment. Under this system, outstanding checks are in excess of the cash balances at

certain banks, which creates book overdrafts. Book overdrafts are presented as a current liability in accounts payable on the consolidated balance sheets.

Short-term and Long-term Investments

Our short-term and long-term investments consist primarily of investment grade debt securities, including some auction rate securities, all of which are classified as available-for-sale. Also included in our available-for-sale investment portfolio are certificates of deposit placed through an account registry service. Available-for-sale securities are recorded at fair value, and unrealized holding gains and losses are recorded, net of tax, as a component of accumulated other comprehensive income. Available-for-sale securities with remaining maturities of less than one year and those identified by management at the time of purchase to be used to fund operations within one year are classified as short term. All other available-for-sale securities, including all of our auction rate securities, are classified as long term. Unrealized losses are charged against net earnings when a decline in fair value is determined to be other than temporary. We review several factors to determine whether a loss is other than temporary, such as the length and extent of the fair value decline, the financial condition and near term prospects of the issuer, and whether we have the intent to sell or will likely be required to sell before the securities anticipated recovery, which may be at maturity. Realized gains and losses are accounted for using the specific identification method. Purchases and sales are recorded on a trade date basis.

We also have a trading securities portfolio, which is comprised of marketable equity mutual funds and equity exchange-traded funds. Trading securities are recorded at fair value with unrealized holding gains and losses included in net earnings.

Fair Value

Fair value is the price we would receive to sell an asset or pay to transfer a liability (exit price) in an orderly transaction between market participants. For financial instruments and investments that we record or disclose at fair value, we determine fair value based upon the quoted market price as of the last day of the fiscal period, if available. If a quoted market price is not available for identical assets, we determine fair value based upon the quoted market price of similar assets or using a variety of other valuation methodologies. We determine fair value of our auction rate securities using an internally developed valuation model, using inputs that include interest rate curves, credit and liquidity spreads, and effective maturity.

The carrying value of cash and cash equivalents approximates fair value because of the short-term nature of these instruments. The fair value of our long-term debt is estimated based on the quoted market prices for the same or similar issues or on the current rates offered to us for debt of the same remaining maturities.

We measure our equity and cost method investments at fair value on a nonrecurring basis when they are determined to be other-than temporarily impaired. Fair values are determined using available quoted market prices or discounted cash flows.

Derivative Instruments

We manage our exposure to various risks within the consolidated financial statements according to a market price risk management policy. Under this policy, we may engage in transactions involving various derivative instruments to hedge interest rates, commodity prices and foreign currency denominated revenues, purchases, assets and liabilities. We generally do not enter into derivative instruments with maturities longer than five years.

We enter into fixed-price and price-to-be-fixed coffee purchase commitments. Price-to-be-fixed contracts are purchase commitments whereby the quality, quantity, delivery period, and other negotiated terms are agreed upon, but the date, and therefore price, at which the base "C" coffee commodity price component will be fixed has not yet been established. For these types of contracts, either Starbucks or the seller has the option to "fix" the base "C" coffee commodity price prior to the delivery date. For both fixed-price and price-to-be-fixed purchase commitments, we expect to take delivery of and to utilize the coffee in a reasonable period of time and in the conduct of normal business. Accordingly, these purchase commitments qualify as normal purchases and are not recorded at fair value on our balance sheets.

We record all derivatives on the balance sheets at fair value. For a cash flow hedge, the effective portion of the derivative's gain or loss is initially reported as a component of other comprehensive income ("OCI") and subsequently reclassified into net earnings when the hedged exposure affects net earnings. For a net investment hedge, the effective portion of the derivative's gain or loss is reported as a component of OCI.

Cash flow hedges related to anticipated transactions are designated and documented at the inception of each hedge by matching the terms of the contract to the underlying transaction. We classify the cash flows from hedging transactions in the same categories as the cash flows from the respective hedged items. Once established, cash flow hedges are generally not removed until maturity unless an anticipated transaction is no longer likely to occur. For discontinued or dedesignated cash flow hedges, the related accumulated derivative gains or losses are recognized in net interest income and other on the consolidated statements of earnings.

Forward contract effectiveness for cash flow hedges is calculated by comparing the fair value of the contract to the change in value of the anticipated transaction using forward rates on a monthly basis. For net investment hedges, the spot-to-spot method is used to calculate effectiveness. Under this method, the change in fair value of the forward contract attributable to the changes in spot exchange rates (the effective portion) is reported as a component of OCI. The remaining change in fair value of the forward contract (the ineffective portion) is reclassified into net earnings. Any ineffectiveness is recognized immediately in net interest income and other on the consolidated statements of earnings.

Certain foreign currency forward contracts, commodity swap contracts, and futures contracts are not designated as hedging instruments for accounting purposes. These contracts are recorded at fair value, with the changes in fair value recognized in net interest income and other on the consolidated statements of earnings.

Allowance for Doubtful Accounts

Allowance for doubtful accounts is calculated based on historical experience, customer credit risk and application of the specific identification method. As of September 30, 2012, October 2, 2011, and October 3, 2010, the allowance for doubtful accounts was \$5.6 million, \$3.3 million, and \$3.3 million respectively.

Inventories

Inventories are stated at the lower of cost (primarily moving average cost) or market. We record inventory reserves for obsolete and slow-moving inventory and for estimated shrinkage between physical inventory counts. Inventory reserves are based on inventory obsolescence trends, historical experience and application of the specific identification method. As of September 30, 2012, October 2, 2011, and October 3, 2010, inventory reserves were \$22.6 million, \$19.5 million, and \$18.1 million, respectively.

Property, Plant and Equipment

Property, plant and equipment are carried at cost less accumulated depreciation. Depreciation of property, plant and equipment, which includes assets under capital leases, is provided on the straight-line method over estimated useful lives, generally ranging from 2 to 15 years for equipment and 30 to 40 years for buildings. Leasehold improvements are amortized over the shorter of their estimated useful lives or the related lease life, generally 10 years. For leases with renewal periods at our option, we generally use the original lease term, excluding renewal option periods, to determine estimated useful lives. If failure to exercise a renewal option imposes an economic penalty to us, we may determine at the inception of the lease that renewal is reasonably assured and include the renewal option period in the determination of the appropriate estimated useful lives. The portion of depreciation expense related to production and distribution facilities is included in cost of sales including occupancy costs on the consolidated statements of earnings. The costs of repairs and maintenance are expensed when incurred, while expenditures for refurbishments and improvements that significantly add to the productive capacity or extend the useful life of an asset are capitalized. When assets are retired or sold, the asset cost and related accumulated depreciation are eliminated with any remaining gain or loss recognized in net earnings.

Goodwill

We test goodwill for impairment on an annual basis during our third fiscal quarter, or more frequently if circumstances, such as material deterioration in performance or a significant number of store closures, indicate reporting unit carrying values may exceed their fair values. When evaluating goodwill for impairment, we first perform a qualitative assessment to determine if the fair value of the reporting unit is more likely than not greater than the carrying amount. If not, we calculate the implied estimated fair value of the reporting unit. If the carrying amount of goodwill exceeds the implied estimated fair value, an impairment charge to current operations is recorded to reduce the carrying value to the implied estimated fair value.

As a part of our ongoing operations, we may close certain stores within a reporting unit containing goodwill due to underperformance of the store or inability to renew our lease, among other reasons. We abandon certain assets associated with a closed store including leasehold improvements and other non-transferable assets. Under GAAP, when a portion of a reporting unit that constitutes a business is to be disposed of, goodwill associated with the business is included in the carrying amount of the business in determining any loss on disposal. Our evaluation of whether the portion of a reporting unit being disposed of constitutes a business occurs on the date of abandonment. Although an operating store meets the accounting definition of a business prior to abandonment, it does not constitute a business on the closure date because the remaining assets on that date do not constitute an integrated set of assets that are capable of being conducted and managed for the purpose of providing a return to investors. As a result, when closing individual stores, we do not include goodwill in the calculation of any loss on disposal of the related assets. As noted above, if store closures are indicative of potential impairment of goodwill at the reporting unit level, we perform an evaluation of our reporting unit goodwill when such closures occur. During Fiscal 2012 and fiscal 2011 we recorded no impairment charges and recorded \$1.6 million in fiscal 2010.

Other Intangible Assets

Other intangible assets consist primarily of trademarks with indefinite lives, which are tested for impairment annually or more frequently if events or changes in circumstances indicate that the asset might be impaired. Definite-lived intangible assets, which mainly consist of contract-based patents and copyrights, are amortized over their estimated useful lives, and are tested for impairment when facts and circumstances indicate that the carrying values may not be recoverable. Based on the impairment tests performed, there was no impairment of other intangible assets in fiscal 2012, 2011, and 2010.

Long-lived Assets

When facts and circumstances indicate that the carrying values of long-lived assets may not be recoverable, we evaluate long-lived assets for impairment. We first compare the carrying value of the asset to the asset's estimated future cash flows (undiscounted). If the estimated future cash flows are less than the carrying value of the asset, we calculate an impairment loss based on the asset's estimated fair value. The fair value of the assets is estimated using a discounted cash flow model based on forecasted future revenues and operating costs, using internal projections. Property, plant and equipment assets are grouped at the lowest level for which there are identifiable cash flows when assessing impairment. Cash flows for company-operated store assets are identified at the individual store level. Long-lived assets to be disposed of are reported at the lower of their carrying amount, or fair value less estimated costs to sell.

We recognized net impairment and disposition losses of \$31.7 million, \$36.2 million, and \$67.7 million in fiscal 2012, 2011, and 2010, respectively, primarily due to underperforming company-operated stores. Depending on the underlying asset that is impaired, these losses may be recorded in any one of the operating expense lines on the consolidated statements of earnings: for retail operations, the net impairment and disposition losses are recorded in store operating expenses and for all other operations, these losses are recorded in cost of sales including occupancy costs, other operating expenses, or general and administrative expenses.

Insurance Reserves

We use a combination of insurance and self-insurance mechanisms, including a wholly owned captive insurance entity and participation in a reinsurance treaty, to provide for the potential liabilities for certain risks, including workers' compensation, healthcare benefits, general liability, property insurance, and director and officers' liability insurance. Liabilities associated with the risks that are retained by us are not discounted and are estimated, in part, by considering historical claims experience, demographic, exposure and severity factors, and other actuarial assumptions.

Revenue Recognition

Consolidated revenues are presented net of intercompany eliminations for wholly owned subsidiaries and investees controlled by us and for licensees accounted for under the equity method, based on our percentage ownership. Additionally, consolidated revenues are recognized net of any discounts, returns, allowances and sales incentives, including coupon redemptions and rebates.

Company-operated Stores Revenues

Company-operated store revenues are recognized when payment is tendered at the point of sale. Retail store revenues are reported net of sales, use or other transaction taxes that are collected from customers and remitted to taxing authorities.

Licensed Stores Revenues

Licensed stores revenues consist of product sales to licensed stores, as well as royalties and other fees paid by licensees to use the Starbucks brand. Sales of coffee, tea and related products are generally recognized upon shipment to licensees, depending on contract terms. Shipping charges billed to licensees are also recognized as revenue, and the related shipping costs are included in cost of sales including occupancy costs on the consolidated statements of earnings.

Initial nonrefundable development fees for licensed stores are recognized upon substantial performance of services for new market business development activities, such as initial business, real estate and store development planning, as well as providing operational materials and functional training courses for opening new licensed retail markets. Additional store licensing fees are recognized when new licensed stores are opened. Royalty revenues based upon a percentage of reported sales and other continuing fees, such as marketing and service fees, are recognized on a monthly basis when earned.

CPG, Foodservice and Other Revenues

CPG, foodservice and other revenues primarily consist of domestic and international sales of packaged coffee and tea as well as a variety of ready-to-drink beverages and single-serve coffee and tea products to grocery, warehouse club and specialty retail stores, sales to our national foodservice accounts, and revenues from sales of products to and license revenues from manufacturers that produce and market Starbucks and Seattle's Best Coffee branded products through licensing agreements. Sales of coffee, tea, ready-to-drink beverages and related products to grocery and warehouse club stores are generally recognized when received by the customer or distributor, depending on contract terms. We maintain a sales return allowance to reduce packaged goods revenues for estimated future product returns based on historical patterns. Revenues are recorded net of sales discounts given to customers for trade promotions and payments to customers for product placement in our customers' stores.

Revenues from sales of products to manufacturers that produce and market Starbucks and Seattle's Best Coffee branded products through licensing agreements are generally recognized when the product is received by the manufacturer or distributor. License revenues from manufacturers are based on a percentage of sales and are recognized on a monthly basis when earned. National foodservice account revenues are recognized when the product is received by the customer or distributor.

Stored Value Cards

Revenues from our stored value cards, primarily Starbucks Cards, are recognized when redeemed or when the likelihood of redemption, based on historical experience, is deemed to be remote. Outstanding customer balances are included in deferred revenue on the consolidated balance sheets. There are no expiration dates on our stored value cards, and we do not charge any service fees that cause a decrement to customer balances. While we will continue to honor all stored value cards presented for payment, management may determine the likelihood of redemption to be remote for certain cards due to long periods of inactivity. In these circumstances, if management also determines there is no requirement for remitting balances to government agencies under unclaimed property laws, card balances may then be recognized in the consolidated statements of earnings, in net interest income and other. For the fiscal years ended September 30, 2012, October 2, 2011, and October 3, 2010, income recognized on unredeemed stored value card balances was \$65.8 million, \$46.9 million, and \$31.2 million, respectively. In fiscal 2012, we recognized additional income associated with unredeemed gift cards due to a recent court ruling relating to state unclaimed property laws.

Customers in the US, Canada, and the UK who register their Starbucks Card are automatically enrolled in the My Starbucks Reward program and earn points (“Stars”) with each purchase. Reward program members receive various benefits depending on the number of Stars earned in a 12-month period. The value of Stars earned by our program members towards free product is included in deferred revenue and recorded as a reduction in revenue at the time the Stars are earned, based on the value of Stars that are projected to be redeemed.

Marketing & Advertising

Our annual marketing expenses include many components, one of which is advertising costs. We expense most advertising costs as they are incurred, except for certain production costs that are expensed the first time the advertising campaign takes place.

Annual marketing expenses totaled \$277.9 million, \$244.0 million, and \$198.7 million in fiscal 2012, 2011, and 2010, respectively. Included in these costs were advertising expenses, which totaled \$182.4 million, \$141.4 million, and \$176.2 million in fiscal 2012, 2011, and 2010, respectively.

Store Preopening Expenses

Costs incurred in connection with the start-up and promotion of new store openings are expensed as incurred.

Operating Leases

We lease retail stores, roasting, distribution and warehouse facilities, and office space under operating leases. Most lease agreements contain tenant improvement allowances, rent holidays, lease premiums, rent escalation clauses and/or contingent rent provisions. For purposes of recognizing incentives, premiums and minimum rental expenses on a straight-line basis over the terms of the leases, we use the date of initial possession to begin amortization, which is generally when we enter the space and begin to make improvements in preparation of intended use.

For tenant improvement allowances and rent holidays, we record a deferred rent liability on the consolidated balance sheets and amortize the deferred rent over the terms of the leases as reductions to rent expense on the consolidated statements of earnings.

For premiums paid upfront to enter a lease agreement, we record a deferred rent asset on the consolidated balance sheets and then amortize the deferred rent over the terms of the leases as additional rent expense on the consolidated statements of earnings.

For scheduled rent escalation clauses during the lease terms or for rental payments commencing at a date other than the date of initial occupancy, we record minimum rental expenses on a straight-line basis over the terms of the leases on the consolidated statements of earnings.

Certain leases provide for contingent rents, which are determined as a percentage of gross sales in excess of specified levels. We record a contingent rent liability on the consolidated balance sheets and the corresponding rent expense when specified levels have been achieved or when we determine that achieving the specified levels during the fiscal year is probable.

When ceasing operations in company-operated stores under operating leases, in cases where the lease contract specifies a termination fee due to the landlord, we record such expense at the time written notice is given to the landlord. In cases where terms, including termination fees, are yet to be negotiated with the landlord, we will record the expense upon signing of an agreement with the landlord. In cases where the landlord does not allow us to prematurely exit the lease, but allows for subleasing, we estimate the fair value of any sublease income that can be generated from the location and expense the present value of the excess of remaining lease payments to the landlord over the projected sublease income at the cease-use date.

Asset Retirement Obligations

We recognize a liability for the fair value of required asset retirement obligations (“ARO”) when such obligations are incurred. Our AROs are primarily associated with leasehold improvements, which, at the end of a lease, we are contractually obligated to remove in order to comply with the lease agreement. At the inception of a lease with such conditions, we record an ARO liability and a corresponding capital asset in an amount equal to the estimated fair value of the obligation. The liability is estimated based on a number of assumptions requiring management’s judgment, including store closing costs, cost inflation rates and discount rates, and is accreted to its projected future value over time. The capitalized asset is depreciated using the same depreciation convention as leasehold improvement assets. Upon satisfaction of the ARO conditions, any difference between the recorded ARO liability and the actual retirement costs incurred is recognized as an operating gain or loss in the consolidated statements of earnings. As of September 30, 2012 and October 2, 2011, our net ARO asset included in property, plant and equipment was \$8.8 million and \$11.8 million, respectively, and our net ARO liability included in other long-term liabilities was \$42.6 million and \$50.1 million, respectively.

Stock-based Compensation

We maintain several equity incentive plans under which we may grant non-qualified stock options, incentive stock options, restricted stock, restricted stock units (“RSUs”) or stock appreciation rights to employees, non-employee directors and consultants. We also have employee stock purchase plans (“ESPP”). RSUs issued by us are equivalent to nonvested shares under the applicable accounting guidance. We record stock-based compensation expenses based on the fair value of stock awards at the grant date and recognize the expense over the related service period following a graded vesting expense schedule. For stock option awards we use the Black-Scholes-Merton option pricing model to measure fair value. For restricted stock units, fair value is calculated using the stock price at the date of grant.

Foreign Currency Translation

Our international operations generally use their local currency as their functional currency. Assets and liabilities are translated at exchange rates in effect at the balance sheet date. Income and expense accounts are translated at the average monthly exchange rates during the year. Resulting translation adjustments are recorded as a component of accumulated other comprehensive income on the consolidated balance sheets.

Income Taxes

We compute income taxes using the asset and liability method, under which deferred income taxes are provided for the temporary differences between the financial statement carrying amounts and the tax basis of our assets and liabilities. We routinely evaluate the likelihood of realizing the benefit of our deferred tax assets and may record a valuation allowance if, based on all available evidence, we determine that some portion of the tax benefit will not be realized. We recognize the tax benefit from an uncertain tax position only if it is more likely than not that the

tax position will be sustained on examination by the relevant taxing authorities, based on the technical merits of our position. The tax benefits recognized in the financial statements from such a position are measured based on the largest benefit that has a greater than 50% likelihood of being realized upon ultimate settlement. Starbucks recognizes interest and penalties related to income tax matters in income tax expense.

Earnings per Share

Basic earnings per share is computed based on the weighted average number of shares of common stock outstanding during the period. Diluted earnings per share is computed based on the weighted average number of shares of common stock and the effect of dilutive potential common shares outstanding during the period, calculated using the treasury stock method. Dilutive potential common shares include outstanding stock options and RSUs. Performance-based RSUs are considered dilutive when the related performance criterion has been met.

Common Stock Share Repurchases

We may repurchase shares of Starbucks common stock under a program authorized by our Board of Directors, including pursuant to a contract, instruction or written plan meeting the requirements of Rule 10b5-1(c)(1) of the Securities Exchange Act of 1934. Under applicable Washington State law, shares repurchased are retired and not displayed separately as treasury stock on the financial statements. Instead, the par value of repurchased shares is deducted from common stock and the excess repurchase price over par value is deducted from additional paid-in capital and from retained earnings, once additional paid-in capital is depleted.

Recent Accounting Pronouncements

In July 2012, the FASB issued guidance that revises the requirements around how entities test indefinite-lived intangible assets, other than goodwill, for impairment. The guidance allows companies to perform a qualitative assessment before calculating the fair value of the reporting unit. If entities determine, on the basis of qualitative factors, that the fair value of the indefinite-lived intangible asset is more likely than not greater than the carrying amount, a quantitative calculation would not be needed. The guidance will become effective for us at the beginning of our first quarter of fiscal 2013. The adoption of this guidance will not have a material impact on our financial statements.

In September 2011, the FASB issued guidance that revises the requirements around how entities test goodwill for impairment. The guidance allows companies to perform a qualitative assessment before calculating the fair value of the reporting unit. If entities determine, on the basis of qualitative factors, that the fair value of the reporting unit is more likely than not greater than the carrying amount, a quantitative calculation would not be needed. We early-adopted this guidance effective for our fiscal 2012 annual goodwill impairment test, which we performed during the third fiscal quarter. The adoption of this guidance will result in a change in how we perform our goodwill impairment assessment; however, it will not have a material impact on our financial statements.

In June 2011, the FASB issued guidance that revises the manner in which entities present comprehensive income in their financial statements. The guidance requires entities to report the components of comprehensive income in either a single, continuous statement or two separate but consecutive statements. The guidance became effective for us at the beginning of our first quarter of fiscal 2013. In adopting this guidance, we added the consolidated statements of comprehensive income following our consolidated statements of earnings.

In May 2011, the FASB issued guidance to amend the fair value measurement and disclosure requirements. The guidance requires the disclosure of quantitative information about unobservable inputs used, a description of the valuation processes used, and a qualitative discussion around the sensitivity of the measurements. This guidance became effective for us at the beginning of our second quarter of fiscal 2012. The adoption of this new guidance did not have a material impact on our financial statements.

Reclassifications

Change in shared service allocations

Effective at the beginning of fiscal 2012, we implemented the previously announced strategic realignment of our organizational structure designed to accelerate our global growth strategy. A president for each region, reporting directly to our chief executive officer, now oversees the company-operated retail business working closely with both the licensed and joint-venture business partners in each market. The regional presidents also work closely with our Channel Development team to continue building out our brands and channels in each region.

In connection with the changes to our organizational structure and reporting, we have changed the accountability for, and reporting of, certain indirect overhead costs. Certain indirect merchandising, manufacturing costs and back-office shared service costs, which were previously allocated to segment level costs of sales and operating expenses, are now managed at a corporate level and are reported within unallocated corporate expenses. These expenses have therefore been removed from the segment level financial results. In order to conform prior period classifications with the new alignment, the historical consolidated financial statements have been recast with the following adjustments to previously reported amounts (in millions):

| | Year Ended October 2, 2011 | | |
|---|----------------------------|---------|-------------|
| | As Filed | Reclass | As Adjusted |
| Total net revenues | \$ 11,700.4 | \$ — | \$ 11,700.4 |
| Cost of sales including occupancy costs | 4,949.3 | (33.8) | 4,915.5 |
| Store operating expenses | 3,665.1 | (70.2) | 3,594.9 |
| Other operating expenses | 402.0 | (9.2) | 392.8 |
| Depreciation and amortization expenses | 523.3 | — | 523.3 |
| General and administrative expenses | 636.1 | 113.2 | 749.3 |
| Total operating expenses | 10,175.8 | — | 10,175.8 |
| Gain on sale of properties | 30.2 | — | 30.2 |
| Income from equity investees | 173.7 | — | 173.7 |
| Operating income | \$ 1,728.5 | \$ — | \$ 1,728.5 |

| | Year Ended October 3, 2010 | | |
|---|----------------------------|---------|-------------|
| | As Filed | Reclass | As Adjusted |
| Total net revenues | \$ 10,707.4 | \$ — | \$ 10,707.4 |
| Cost of sales including occupancy costs | 4,458.6 | (42.1) | 4,416.5 |
| Store operating expenses | 3,551.4 | (79.5) | 3,471.9 |
| Other operating expenses | 293.2 | (13.5) | 279.7 |
| Depreciation and amortization expenses | 510.4 | — | 510.4 |
| General and administrative expenses | 569.5 | 135.1 | 704.6 |
| Restructuring charges | 53.0 | — | 53.0 |
| Total operating expenses | 9,436.1 | — | 9,436.1 |
| Income from equity investees | 148.1 | — | 148.1 |
| Operating income | \$ 1,419.4 | \$ — | \$ 1,419.4 |

There was no impact on consolidated net revenues, total operating expenses, operating income, or net earnings as a result of this change. Additional discussion regarding the change in our organizational structure and segment results is included at Note 17.

Change in revenue presentation

In the second quarter of fiscal 2011, concurrent with the change in our distribution method for packaged coffee and tea in the US, we revised the presentation of revenues. Non-retail licensing revenues were reclassified on the consolidated financial statements to the renamed "CPG, foodservice and other" revenue line, which includes revenues from our direct sale of packaged coffee and tea as well as licensing revenues received under the previous distribution arrangement. The previous "Licensing" revenue line now includes only licensed store revenue and therefore has been renamed "Licensed stores." For fiscal 2010, \$465.7 million was reclassified from the previously named Licensing revenue to CPG, foodservice and other revenue. There was no impact to consolidated or segment total net revenues from this change in presentation.

Note 2: Acquisitions

On July 3, 2012, we acquired 100% ownership interest in Bay Bread, LLC and its La Boulange bakery brand (collectively “La Boulange”), to elevate our core food offerings and build a premium, artisanal bakery brand. We acquired La Boulange for a purchase price of approximately \$100 million in cash. The following table summarizes the allocation of the purchase price to the fair values of the assets acquired and liabilities assumed on the closing date (in millions):

| | Fair Value at July 3, 2012 |
|-------------------------------------|-------------------------------|
| Property, plant and equipment | \$ 18.1 |
| Intangible assets | 24.3 |
| Goodwill | 58.7 |
| Other current and noncurrent assets | 5.1 |
| Current liabilities | (6.4) |
| Total cash paid | <u>\$ 99.8</u> |

The assets acquired and liabilities assumed are included in our Americas operating segment. Other current assets acquired primarily include cash, trade receivables, and inventory. In addition, we assumed various current liabilities primarily consisting of accounts payable and accrued payroll related liabilities. The intangible assets acquired as part of the transaction include the La Boulange trade name and proprietary recipes and processes. The La Boulange trade name was valued at \$9.7 million and determined to have an indefinite life while the intangible asset relating to the proprietary recipes and processes was valued at \$14.6 million and will be amortized over a period of 10 years. The \$58.7 million of goodwill is deductible for income tax purposes and was allocated to our Americas operating segment.

On November 10, 2011, we acquired the outstanding shares of Evolution Fresh, Inc., a super-premium juice company, to expand our portfolio of product offerings and enter into the super-premium juice market. We acquired Evolution Fresh for a purchase price of \$30 million in cash. The fair value of the net assets acquired on the acquisition date included \$18 million of goodwill. Evolution Fresh is its own operating segment and is reported in “Other” along with our Seattle’s Best Coffee operating segment, our Digital Ventures business, and unallocated corporate expenses.

In the fourth quarter of fiscal 2011, we acquired the 50% ownership interest in Switzerland and Austria from our joint venture partner, Marinopoulos Holdings S.A.R.L, converting these markets to 100% owned company-operated markets, for a purchase price of \$65.5 million. As a result of this acquisition, we adjusted the carrying value of our previous equity investment to fair value, resulting in a gain of approximately \$55 million which was included in net interest income and other on our consolidated statements of earnings. The fair value of 100% of the net assets of these markets on the acquisition date was \$131.0 million and was recorded on our consolidated

balance sheets. Included in these net assets were \$63.8 million of goodwill and \$35.1 million in definite-lived intangible assets.

In the third quarter of fiscal 2011, we acquired the remaining 30% ownership of our business in the southern portion of China from our noncontrolling partner, Maxim's Caterers Limited (Maxim's). We simultaneously sold our 5% ownership interest in the Hong Kong market to Maxim's.

In the first quarter of fiscal 2010, we acquired 100% ownership of our business in France, converting it from a 50% joint venture with Sigla S.A. (Grupo Vips) of Spain to a company-operated market. We simultaneously sold our 50% ownership interests in the Spain and Portugal markets to Grupo Vips, converting them to licensed markets.

In the fourth quarter of fiscal 2010, we acquired 100% ownership of our business in Brazil, converting it from a 49% joint venture with Cafés Sereia do Brasil Participações S.A of Brazil to a company-operated market.

In the fourth quarter of fiscal 2010, we acquired 100% ownership of a previously consolidated 50% joint venture in the US with Johnson Coffee Corporation, Urban Coffee Opportunities ("UCO").

The following table shows the effects of the change in Starbucks ownership interest in UCO and our business in South China on Starbucks equity:

| Fiscal Year Ended | September 30, 2012 | October 2, 2011 | October 3, 2010 |
|---|---------------------------|------------------------|------------------------|
| Net earnings attributable to Starbucks | \$ 1,383.8 | \$ 1,245.7 | \$ 945.6 |
| Transfers (to) from the noncontrolling interest: | | | |
| Decrease in additional paid-in capital for purchase of interest in subsidiary | — | (28.0) | (26.8) |
| Change from net earnings attributable to Starbucks and transfers to noncontrolling interest | \$ 1,383.8 | \$ 1,217.7 | \$ 918.8 |

Note 3: Derivative Financial Instruments

Foreign Currency

We enter into forward and swap contracts to hedge portions of cash flows of anticipated revenue streams and inventory purchases in currencies other than the entity's functional currency. Net derivative losses from cash flow hedges of \$2.9 million and \$11.1 million, net of taxes, were included in accumulated other comprehensive income as of September 30, 2012 and October 2, 2011, respectively. Of the net derivative losses accumulated as of September 30, 2012, \$2.9 million pertains to derivative instruments that will be dedesignated as cash flow hedges within 12 months and will also continue to experience fair value changes before affecting earnings. Outstanding contracts will expire within 12 months.

We also enter into net investment derivative instruments to hedge our equity method investment in Starbucks Coffee Japan, Ltd., to minimize foreign currency exposure. Net derivative losses from net investment hedges of \$33.6 million and \$34.2 million, net of taxes, were included in accumulated other comprehensive income as of September 30, 2012 and October 2, 2011, respectively. Outstanding contracts will expire within 29 months.

In addition to the hedging instruments above, to mitigate the translation risk of certain balance sheet items, we enter into certain foreign currency swap contracts that are not designated as hedging instruments. These contracts are recorded at fair value, with the changes in fair value recognized in net interest income and other on the consolidated statements of earnings. Gains and losses from these instruments are largely offset by the financial impact of translating foreign currency denominated payables and receivables, which is also recognized in net interest income and other.

Coffee

Depending on market conditions, we also enter into futures contracts to hedge a portion of anticipated cash flows under our price-to-be-fixed green coffee contracts, which are described further in Note 1. Net derivative losses of \$32.9 million, net of taxes, were included in accumulated other comprehensive income as of September 30, 2012 related to coffee hedges. Of the net derivative losses accumulated as of September 30, 2012, \$26.9 million pertains to derivative instruments that will be de-designated as cash flow hedges within 12 months and will also continue to experience fair value changes before affecting earnings. Outstanding contracts will expire within 15 months. There was insignificant coffee hedge activity in fiscal 2011.

Dairy

To mitigate the price uncertainty of a portion of our future purchases of dairy products, we enter into certain futures contracts that are not designated as hedging instruments. These contracts are recorded at fair value, with the changes in fair value recognized in net interest income and other. Gains and losses from these instruments are largely offset by price fluctuations on our dairy purchases which are included in cost of sales.

Diesel Fuel

To mitigate the price uncertainty of a portion of our future purchases of diesel fuel, we enter into certain swap contracts that are not designated as hedging instruments. These contracts are recorded at fair value, with the changes in fair value recognized in net interest income and other. Gains and losses from these instruments are largely offset by the financial impact of diesel fuel fluctuations on our shipping costs which are included in operating expenses.

The following table presents the pretax effect of derivative contracts designated as hedging instruments on earnings and other comprehensive income ("OCI") for fiscal years ending (*in millions*):

| | Foreign Currency | | Coffee | |
|------------------------------------|------------------|-------------|--------------|-------------|
| | Sep 30, 2012 | Oct 2, 2011 | Sep 30, 2012 | Oct 2, 2011 |
| Cash Flow Hedges: | | | | |
| Gain/(Loss) recognized in earnings | \$ (11.5) | \$ (15.9) | \$ (3.4) | \$ — |
| Gain/(Loss) recognized in OCI | \$ (2.5) | \$ (12.1) | \$ (39.8) | \$ — |
| Net Investment Hedges: | | | | |
| Gain/(Loss) recognized in earnings | \$ — | \$ — | | |
| Gain/(Loss) recognized in OCI | \$ 1.1 | \$ (12.0) | | |

The amounts shown in the above table as recognized in earnings for foreign currency and coffee hedges represent the realized gains/(losses) reclassified from OCI to net earnings during the year. The amounts shown as recognized in OCI are prior to these reclassifications.

The following table presents the pretax effect of derivative contracts not designated as hedging instruments on earnings for fiscal years ending (*in millions*):

| | Foreign Currency | | Coffee | | Dairy | | Diesel Fuel | |
|------------------------------------|------------------|-------------|--------------|-------------|--------------|-------------|--------------|-------------|
| | Sep 30, 2012 | Oct 2, 2011 | Sep 30, 2012 | Oct 2, 2011 | Sep 30, 2012 | Oct 2, 2011 | Sep 30, 2012 | Oct 2, 2011 |
| Gain/(Loss) recognized in earnings | \$ (2.2) | \$ 0.7 | \$ — | \$ (0.9) | \$ 7.8 | \$ 5.7 | \$ 3.1 | \$ 1.1 |

Notional amounts of outstanding derivative contracts (*in millions*):

| | Sep 30, 2012 | Oct 2, 2011 |
|------------------|--------------|-------------|
| Foreign currency | \$ 383 | \$ 499 |
| Coffee | 125 | 66 |
| Dairy | 72 | 10 |
| Diesel fuel | \$ 24 | \$ — |

Note 4: Fair Value Measurements

Assets and Liabilities Measured at Fair Value on a Recurring Basis (in millions):

| | Balance at September 30, 2012 | Fair Value Measurements at Reporting Date Using | | |
|-------------------------------------|----------------------------------|--|--|---|
| | | Quoted Prices in Active Markets for Identical Assets (Level 1) | Significant Other Observable Inputs (Level 2) | Significant Unobservable Inputs (Level 3) |

| Total | \$ 2,157.7 | \$ 1,801.7 | \$ 328.0 | \$ 28.0 |
| Liabilities: | | | | |
| Short-term derivatives: | | | | |
| Foreign Currency | \$ 20.1 | \$ — | \$ 20.1 | \$ — |
| Coffee | 1.2 | — | 1.2 | — |
| Total short-term derivatives | 21.3 | — | 21.3 | — |
| Long-term derivatives: | | | | |
| Foreign Currency | 9.9 | — | 9.9 | — |
| Total long-term derivatives | 9.9 | — | 9.9 | — |
| Total | \$ 31.2 | \$ — | \$ 31.2 | \$ — |

Short-term and long-term derivatives are included in other accrued liabilities and other long-term liabilities, respectively.

Gross unrealized holding gains and losses on investments were not material as of September 30, 2012 and October 2, 2011.

Available-for-sale Securities

Available-for-sale securities include government treasury securities, corporate and agency bonds, commercial paper, certificates of deposit placed through an account registry service and auction rate securities (“ARS”).

Level 1: For government treasury securities, we use quoted prices in active markets for identical assets to determine fair value.

Level 2: For corporate and agency bonds, for which a quoted market price is not available for identical assets, we determine fair value based upon the quoted market price of similar assets or the present value of expected future cash flows, calculated by applying revenue multiples to estimate future operating results and using discount rates appropriate for the duration and the risks involved. Fair values for commercial paper are estimated using a discounted cash flow calculation that applies current imputed interest rates of similar securities. Fair values for certificates of deposit are estimated using a discounted cash flow calculation that applies current interest rates to aggregate expected maturities.

Level 3: We determine fair value of our ARS using an internally developed valuation model, using inputs that include interest rate curves, credit and liquidity spreads, and effective maturity.

Proceeds from sales of available-for-sale securities were \$5.0 million, \$0.0 million, and \$1.1 million in fiscal years 2012, 2011, and 2010, respectively. For fiscal years 2012, 2011, and 2010 realized gains and losses on sales and maturities were not material.

Certificates of deposit have maturity dates ranging from approximately one month to 2 years and principal amounts, that when aggregated with interest that will accrue over the investment term, will not exceed Federal Deposit Insurance Corporation limits. Certificates of deposit with original maturities of 90 days or less are included in cash and cash equivalents. The amounts invested in certificate of deposits that were included in cash and cash equivalents were \$0.2 million and \$4.2 million as of September 30, 2012 and October 2, 2011, respectively.

Long-term investments (except for ARS) generally mature within 3 years. ARS have long-dated maturities but provide liquidity through a Dutch auction process that resets the applicable interest rate at pre-determined calendar intervals. Our ARS are collateralized by portfolios of student loans, substantially all of which are guaranteed by the United States Department of Education. Due to the auction failures that began in 2008, these securities became illiquid and were classified as long-term investments. The investment principal associated with the failed auctions will not be accessible until:

- successful auctions resume;
- an active secondary market for these securities develops;
- the issuers replace these securities with another form of financing; or
- final payments are made according to the contractual maturities of the debt issues which range from 18 to 32 years.

We do not intend to sell the ARS, nor is it likely we will be required to sell the ARS before their anticipated recovery, which may be at maturity.

Trading Securities

Trading securities include equity mutual funds and exchange-traded funds. For these securities, we use quoted prices in active markets for identical assets to determine fair value, thus these securities are considered Level 1 instruments. Our trading securities portfolio approximates a portion of the liability under the Management Deferred Compensation Plan ("MDCP"), a defined contribution plan. The corresponding deferred compensation liability of \$94.8 million and \$84.7 million as of September 30, 2012 and October 2, 2011, respectively, is included in accrued compensation and related costs on the consolidated balance sheets. The changes in net unrealized holding gains/losses in the trading portfolio included in earnings for fiscal years 2012, 2011 and 2010 were a net gain of \$10.9 million, a net loss of \$2.1 million, and a net gain of \$4.1 million, respectively.

Derivative Assets and Liabilities

Derivative assets and liabilities include foreign currency forward contracts, commodity swaps and futures contracts. Where applicable, we use quoted prices in active markets for identical derivative assets and liabilities that are traded on exchanges. Derivative assets and liabilities included in Level 2 are over-the-counter currency forward contracts and commodity swaps whose fair values are estimated using industry-standard valuation models. Such models project future cash flows and discount the future amounts to a present value using market-

based observable inputs, including interest rate curves and forward and spot prices for currencies and commodities.

Changes in Level 3 Instruments Measured at Fair Value on a Recurring Basis

Financial instruments measured using Level 3 inputs described above are comprised entirely of our ARS. Changes in this balance related primarily to calls of certain of our ARS. In fiscal 2012 and 2011, \$10.7 million and \$15.8 million, respectively, of our ARS were called at par.

Assets and Liabilities Measured at Fair Value on a Nonrecurring Basis

Assets and liabilities recognized or disclosed at fair value on a nonrecurring basis include items such as property, plant and equipment, goodwill and other intangible assets, equity and cost method investments, and other assets. These assets are measured at fair value if determined to be impaired.

During fiscal 2012 and 2011, we recognized fair market value adjustments with a charge to earnings for these assets as follows:

| | Year Ended September 30, 2012 | | |
|--|----------------------------------|-----------------------|---------------------------------|
| | Carrying Value before adjustment | Fair value adjustment | Carrying value after adjustment |
| Property, plant and equipment ⁽¹⁾ | \$ 21.5 | \$ (14.4) | \$ 7.1 |

| | Year Ended October 2, 2011 | | |
|---|----------------------------------|-----------------------|---------------------------------|
| | Carrying Value before adjustment | Fair value adjustment | Carrying value after adjustment |
| Property, plant, and equipment ⁽¹⁾ | \$ 8.8 | \$ (5.9) | \$ 2.9 |
| Other assets ⁽²⁾ | \$ 22.1 | \$ (22.1) | \$ — |

(1) These assets primarily consist of leasehold improvements in underperforming stores. The fair value was determined using a discounted cash flow model based on expected future store revenues and operating costs, using internal projections. The resulting impairment charge was included in store operating expenses.

(2) The fair value was determined using valuation techniques, including discounted cash flows, comparable transactions, and/or comparable company analyses. The resulting impairment charge was included in other operating expenses.

Fair Value of Other Financial Instruments

The estimated fair value of the \$550 million of 6.25% Senior Notes based on the quoted market price (Level 2) was approximately \$674 million and \$648 million as of September 30, 2012 and October 2, 2011, respectively.

Note 5: Inventories (in millions)

| | September 30, 2012 | October 2, 2011 |
|---------------------------------|--------------------|-----------------|
| Coffee: | | |
| Unroasted | \$ 711.3 | \$ 431.3 |
| Roasted | 222.2 | 246.5 |
| Other merchandise held for sale | 181.6 | 150.8 |
| Packaging and other supplies | 126.4 | 137.2 |
| Total | <u>\$ 1,241.5</u> | <u>\$ 965.8</u> |

Other merchandise held for sale includes, among other items, serveware and tea. Inventory levels vary due to seasonality, commodity market supply and price fluctuations.

As of September 30, 2012, we had committed to purchasing green coffee totaling \$557 million under fixed-price contracts and an estimated \$297 million under price-to-be-fixed contracts. As of September 30, 2012, approximately \$125 million of our price-to-be-fixed contracts were effectively fixed through the use of futures contracts. Until prices are fixed, we estimate the total cost of these purchase commitments. We believe, based on relationships established with our suppliers in the past, the risk of non-delivery on such purchase commitments is remote.

Note 6: Equity and Cost Investments (in millions)

| | September 30, 2012 | October 2, 2011 |
|---------------------------|--------------------|-----------------|
| Equity method investments | \$ 393.9 | \$ 334.4 |
| Cost method investments | 66.0 | 37.9 |
| Total | <u>\$ 459.9</u> | <u>\$ 372.3</u> |

Equity Method Investments

As of September 30, 2012, we had a 50 percent ownership interest in each of the following international equity investees: Starbucks Coffee Korea Co., Ltd.; President Starbucks Coffee Taiwan Ltd.; Shanghai President Coffee Co.; Berjaya Starbucks Coffee Company Sdn. Bhd. (Malaysia); and Tata Starbucks Limited (India). In addition, we had a 39.6 percent ownership interest in Starbucks Coffee Japan, Ltd. These international entities operate licensed Starbucks retail stores. We also have licensed the rights to produce and distribute Starbucks branded products to The North American Coffee Partnership with the Pepsi-Cola Company. We have a 50 percent ownership interest in The North American Coffee Partnership, which develops and distributes bottled Frappuccino® beverages, Starbucks DoubleShot® espresso drinks, Seattle's Best Coffee® ready-to-drink espresso beverages and Starbucks Refreshers™ beverages.

Our share of income and losses from our equity method investments is included in income from equity investees on the consolidated statements of earnings. Also included in this line item is our proportionate share of gross margin resulting from coffee and other product sales to, and royalty and license fee revenues generated from, equity investees. Revenues generated from these related parties, net of eliminations, were \$190.3 million, \$151.6 million, and \$125.7 million in fiscal years 2012, 2011, and 2010, respectively. Related costs of sales, net of eliminations, were \$111.0 million, \$83.2 million, and \$65.3 million in fiscal years 2012, 2011, and 2010, respectively. As of September 30, 2012 and October 2, 2011, there were \$33.0 million and \$31.9 million of accounts receivable from equity investees, respectively, on our consolidated balance sheets, primarily related to product sales and royalty revenues.

As of September 30, 2012, the aggregate market value of our investment in Starbucks Japan was approximately \$400 million, determined based on its available quoted market price, which exceeds its carrying value of \$201 million.

Summarized combined financial information of our equity method investees, which represent 100% of the investees' financial information (*in millions*):

| <u>Financial Position as of</u> | September 30, 2012 | October 2, 2011 |
|---------------------------------|--------------------|-----------------|
| Current assets | \$ 603.1 | \$ 476.9 |
| Noncurrent assets | 735.3 | 651.4 |
| Current liabilities | 411.2 | 340.1 |
| Noncurrent liabilities | 119.7 | 80.2 |

| <u>Results of Operations for Fiscal Year Ended</u> | September 30, 2012 | October 2, 2011 | October 3, 2010 |
|--|--------------------|-----------------|-----------------|
| Net revenues | \$ 2,796.7 | \$ 2,395.1 | \$ 2,128.0 |
| Operating income | 353.5 | 277.0 | 245.3 |
| Net earnings | 286.7 | 231.1 | 205.1 |

Cost Method Investments

As of September 30, 2012, we had a \$41 million investment of equity interests in entities that develop and operate Starbucks licensed retail stores in several global markets. We have the ability to acquire additional interests in some of these cost method investees at certain intervals. Depending on our total percentage of ownership interest and our ability to exercise significant influence over financial and operating policies, additional investments may require a retroactive application of the equity method of accounting.

During the fourth quarter of fiscal 2012, we made a \$25 million investment in the preferred stock of Square, Inc. In addition, in conjunction with a commercial agreement with Square, we also received warrants to purchase common stock of Square that are subject to certain vesting conditions.

Note 7: Supplemental Balance Sheet Information (*in millions*)

| <u>Property, Plant and Equipment, net</u> | Sep 30, 2012 | Oct 2, 2011 |
|---|--------------|-------------|
| Land | \$ 46.2 | \$ 44.8 |
| Buildings | 225.2 | 218.5 |
| Leasehold improvements | 3,957.6 | 3,617.7 |
| Store equipment | 1,251.0 | 1,101.8 |
| Roasting equipment | 322.8 | 295.1 |
| Furniture, fixtures and other | 836.2 | 757.8 |
| Work in progress | 264.1 | 127.4 |
| Property, plant and equipment, gross | 6,903.1 | 6,163.1 |
| Less accumulated depreciation | (4,244.2) | (3,808.1) |
| Property, plant and equipment, net | \$ 2,658.9 | \$ 2,355.0 |

On August 8, 2011, we completed the sale of two office buildings for gross consideration of \$125 million. As a result of this sale, we recognized a \$30.2 million gain within operating income on the consolidated statements of earnings in fiscal 2011.

| Other Assets | Sep 30, 2012 | Oct 2, 2011 |
|------------------------------|---------------------|--------------------|
| Long-term deferred tax asset | \$ 97.3 | \$ 156.3 |
| Other intangible assets | 143.7 | 111.9 |
| Other | 144.7 | 141.4 |
| Total other assets | \$ 385.7 | \$ 409.6 |

| Accrued Liabilities | Sep 30, 2012 | Oct 2, 2011 |
|--|---------------------|--------------------|
| Accrued compensation and related costs | \$ 381.6 | \$ 364.4 |
| Accrued occupancy costs | 126.9 | 148.3 |
| Accrued taxes | 138.3 | 109.2 |
| Accrued dividend payable | 157.4 | 126.6 |
| Other | 329.6 | 192.4 |
| Total accrued liabilities | \$ 1,133.8 | \$ 940.9 |

| Other Long-Term Liabilities | Sep 30, 2012 | Oct 2, 2011 |
|--|---------------------|--------------------|
| Deferred rent | \$ 201.9 | \$ 215.2 |
| Unrecognized tax benefits | 78.4 | 56.7 |
| Asset retirement obligations | 42.6 | 50.1 |
| Other | 22.4 | 25.8 |
| Total other long-term liabilities | \$ 345.3 | \$ 347.8 |

Note 8: Other Intangible Assets and Goodwill

Other intangible assets (*in millions*):

| | Sep 30, 2012 | Oct 2, 2011 |
|--|---------------------|--------------------|
| Indefinite-lived intangibles | \$ 87.7 | \$ 68.6 |
| Definite-lived intangibles | 72.3 | 54.2 |
| Accumulated amortization | (16.3) | (10.9) |
| Definite-lived intangibles, net | 56.0 | 43.3 |
| Total other intangible assets | \$ 143.7 | \$ 111.9 |
| Definite-lived intangibles approximate remaining weighted average useful life in years | 10 | 11 |

Amortization expense for definite-lived intangibles was \$4.5 million, \$2.2 million, and \$1.2 million during fiscal 2012, 2011, and 2010, respectively. Amortization expense is estimated to be approximately \$6 million each year from fiscal 2013 through fiscal 2017, and a total of approximately \$26 million thereafter.

Changes in the carrying amount of goodwill by reportable operating segment *(in millions)*:

| | Americas | EMEA | China / Asia Pacific | Channel Development | Other | Total |
|--|----------|---------|-------------------------|------------------------|---------|----------|
| Balance at October 3, 2010⁽¹⁾ | | | | | | |
| Goodwill prior to impairment | \$ 163.6 | \$ 3.1 | \$ 74.8 | \$ 23.8 | \$ 5.7 | \$ 271.0 |
| Accumulated impairment charges | (8.6) | — | — | — | — | (8.6) |
| Goodwill | \$ 155.0 | \$ 3.1 | \$ 74.8 | \$ 23.8 | \$ 5.7 | \$ 262.4 |
| Acquisitions | — | 63.8 | — | — | — | 63.8 |
| Purchase price adjustment of previous acquisitions | — | — | — | — | — | — |
| Impairment | — | — | — | — | — | — |
| Other ⁽²⁾ | (0.7) | (3.9) | — | — | — | (4.6) |
| Balance at October 2, 2011⁽¹⁾ | | | | | | |
| Goodwill prior to impairment | \$ 162.9 | \$ 63.0 | \$ 74.8 | \$ 23.8 | \$ 5.7 | \$ 330.2 |
| Accumulated impairment charges | (8.6) | — | — | — | — | (8.6) |
| Goodwill | \$ 154.3 | \$ 63.0 | \$ 74.8 | \$ 23.8 | \$ 5.7 | \$ 321.6 |
| Acquisitions | 70.5 | — | — | — | 7.0 | 77.5 |
| Purchase price adjustment of previous acquisitions | — | — | — | — | — | — |
| Impairment | — | — | — | — | — | — |
| Other ⁽²⁾ | 2.5 | (3.0) | 0.5 | — | — | — |
| Balance at September 30, 2012 | | | | | | |
| Goodwill prior to impairment | \$ 235.9 | \$ 60.0 | \$ 75.3 | \$ 23.8 | \$ 12.7 | \$ 407.7 |
| Accumulated impairment charges | (8.6) | — | — | — | — | (8.6) |
| Goodwill | \$ 227.3 | \$ 60.0 | \$ 75.3 | \$ 23.8 | \$ 12.7 | \$ 399.1 |

(1) In conjunction with the change in reportable operating segments, we reclassified goodwill by segment as of October 2, 2011 and October 3, 2010.

(2) Other is primarily comprised of changes in the goodwill balance as a result of foreign exchange fluctuations.

Note 9: Debt

Revolving Credit Facility and Commercial Paper Program

In November 2010, we replaced our previous credit facility with a new \$500 million unsecured credit facility ("the credit facility") with various banks, of which \$100 million may be used for issuances of letters of credit. The credit facility is available for working capital, capital expenditures and other corporate purposes, including acquisitions and share repurchases and is currently set to mature in November 2014. Starbucks has the option, subject to negotiation and agreement with the related banks, to increase the maximum commitment amount by an additional \$500 million. No borrowings were outstanding under the credit facility at the end of fiscal 2012 or fiscal 2011. The interest rate for any borrowings under the credit facility, based on Starbucks current ratings and fixed charge coverage ratio, is 0.85% over LIBOR. The specific spread over LIBOR will depend upon our long-term credit ratings assigned by Moody's and Standard & Poor's rating agencies and our fixed charge coverage.

ratio. The credit facility contains provisions requiring us to maintain compliance with certain covenants, including a minimum fixed charge coverage ratio, which measures our ability to cover financing expenses.

Under our commercial paper program we may issue unsecured commercial paper notes, up to a maximum aggregate amount outstanding at any time of \$500 million, with individual maturities that may vary, but not exceed 397 days from the date of issue. The program is backstopped by the credit facility and the combined borrowing limit is \$500 million for the commercial paper program and the credit facility. We may issue commercial paper from time to time and the proceeds of the commercial paper financing may be used for working capital needs, capital expenditures and other corporate purposes, including acquisitions and share repurchases. No borrowings were outstanding under the commercial paper program at the end of fiscal 2012 or fiscal 2011.

As of September 30, 2012 and October 2, 2011, a total of \$18 million and \$17 million, respectively, in letters of credit were outstanding under the respective revolving credit facility.

Long-term Debt

In August 2007, we issued \$550 million of 6.25% Senior Notes (“the notes”) due in August 2017, in an underwritten registered public offering. Interest is payable semi-annually on February 15 and August 15 of each year. The notes require us to maintain compliance with certain covenants, which limit future liens and sale and leaseback transactions on certain material properties. As of September 30, 2012 and October 2, 2011, we were in compliance with each of these covenants. As of September 30, 2012 and October 2, 2011, the carrying value of the notes, recorded on the consolidated balance sheets, was \$549.6 million and \$549.5 million, respectively.

Interest Expense

Interest expense, net of interest capitalized, was \$32.7 million, \$33.3 million, and \$32.7 million in fiscal 2012, 2011 and 2010, respectively. In fiscal 2012, 2011, and 2010, \$3.2 million, \$4.4 million, and \$4.9 million, respectively, of interest was capitalized for asset construction projects.

Note 10: Leases

Rental expense under operating lease agreements (*in millions*):

| Fiscal Year Ended | Sep 30, 2012 | Oct 2, 2011 | Oct 3, 2010 |
|--------------------------|---------------------|--------------------|--------------------|
| Minimum rentals | \$ 759.0 | \$ 715.6 | \$ 688.5 |
| Contingent rentals | 44.7 | 34.3 | 26.1 |
| Total | \$ 803.7 | \$ 749.9 | \$ 714.6 |

Minimum future rental payments under non-cancelable operating leases as of September 30, 2012 (*in millions*):

| Fiscal Year Ending | |
|-------------------------------------|-------------------|
| 2013 | \$ 787.9 |
| 2014 | 728.5 |
| 2015 | 640.4 |
| 2016 | 531.5 |
| 2017 | 403.4 |
| Thereafter | 968.5 |
| Total minimum lease payments | \$ 4,060.2 |

We have subleases related to certain of our operating leases. During fiscal 2012, 2011, and 2010, we recognized sublease income of \$10.0 million, \$13.7 million, and \$10.9 million, respectively.

Note 11: Shareholders' Equity

In addition to 1.2 billion shares of authorized common stock with \$0.001 par value per share, we have authorized 7.5 million shares of preferred stock, none of which was outstanding at September 30, 2012.

Included in additional paid-in capital in our consolidated statements of equity as of September 30, 2012 and October 2, 2011 is \$39.4 million related to the increase in value of our share of the net assets of Starbucks Japan at the time of its initial public stock offering in fiscal 2002.

Share repurchase activity (*in millions, except for average price data*):

| Fiscal Year Ended | Sep 30, 2012 | Oct 2, 2011 |
|--|---------------------|--------------------|
| Number of shares acquired | 12.3 | 15.6 |
| Average price per share of acquired shares | \$ 48.15 | \$ 35.53 |
| Total cost of acquired shares | \$ 593.2 | \$ 555.9 |

As of September 30, 2012, 12.1 million shares remained available for repurchase under the current authorization. On November 14, 2012, our Board of Directors authorized the repurchase of up to an additional 25 million shares under our share repurchase program.

During fiscal years 2012 and 2011, our Board of Directors declared the following dividends (*in millions, except per share amounts*):

| | Dividend Per Share | Record date | Total Amount | Payment Date |
|--------------------------|---------------------------|--------------------|---------------------|---------------------|
| Fiscal Year 2012: | | | | |
| First quarter | \$0.17 | February 8, 2012 | \$128.2 | February 24, 2012 |
| Second quarter | \$0.17 | May 9, 2012 | \$129.0 | May 25, 2012 |
| Third quarter | \$0.17 | August 8, 2012 | \$129.1 | August 24, 2012 |
| Fourth quarter | \$0.21 | November 15, 2012 | \$157.4 | November 30, 2012 |
| Fiscal Year 2011: | | | | |
| First quarter | \$0.13 | February 9, 2011 | \$97.4 | February 25, 2011 |
| Second quarter | \$0.13 | May 11, 2011 | \$97.8 | May 27, 2011 |
| Third quarter | \$0.13 | August 10, 2011 | \$97.4 | August 26, 2011 |
| Fourth quarter | \$0.17 | November 17, 2011 | \$126.6 | December 2, 2011 |

Comprehensive Income

Comprehensive income includes all changes in equity during the period, except those resulting from transactions with our shareholders. Comprehensive income is comprised of net earnings and other comprehensive income. Accumulated other comprehensive income reported on our consolidated balance sheets consists of foreign currency translation adjustments and the unrealized gains and losses, net of applicable taxes, on available-for-sale securities and on derivative instruments designated and qualifying as cash flow and net investment hedges.

Components of accumulated other comprehensive income, net of tax (*in millions*):

| Fiscal Year Ended | Sep 30, 2012 | Oct 2, 2011 |
|--|---------------------|--------------------|
| Net unrealized gains/(losses) on available-for-sale securities | \$ (0.1) | \$ (0.5) |
| Net unrealized gains/(losses) on hedging instruments | (72.1) | (45.3) |
| Translation adjustment | 94.9 | 92.1 |
| Accumulated other comprehensive income | \$ 22.7 | \$ 46.3 |

As of September 30, 2012 and October 2, 2011, the translation adjustment was net of tax provisions of \$6.6 million and \$3.3 million, respectively.

Note 12: Employee Stock and Benefit Plans

We maintain several equity incentive plans under which we may grant non-qualified stock options, incentive stock options, restricted stock, restricted stock units ("RSUs"), or stock appreciation rights to employees, non-employee directors and consultants. We issue new shares of common stock upon exercise of stock options and the vesting of RSUs. We also have an employee stock purchase plan ("ESPP").

As of September 30, 2012, there were 24.6 million shares of common stock available for issuance pursuant to future equity-based compensation awards and 8.1 million shares available for issuance under our ESPP.

Stock based compensation expense recognized in the consolidated financial statements (*in millions*):

| <u>Fiscal Year Ended</u> | <u>Sep 30, 2012</u> | <u>Oct 2, 2011</u> | <u>Oct 3, 2010</u> |
|---|---------------------|--------------------|--------------------|
| Options | \$ 46.2 | \$ 60.4 | \$ 76.8 |
| Restricted Stock Units ("RSUs") | 107.4 | 84.8 | 36.8 |
| Total stock-based compensation expense recognized in the consolidated statement of earnings | \$ 153.6 | \$ 145.2 | \$ 113.6 |
| Total related tax benefit | 54.2 | 51.2 | 40.6 |
| Total capitalized stock-based compensation included in net property, plant and equipment and inventories on the consolidated balance sheets | 2.0 | 2.1 | 1.9 |

Stock Option Plans

Stock options to purchase our common stock are granted at the fair market value of the stock on the date of grant. The majority of options become exercisable in four equal installments beginning a year from the date of grant and generally expire 10 years from the date of grant. Options granted to non-employee directors generally vest over one to three years. Nearly all outstanding stock options are non-qualified stock options.

The fair value of each stock option granted is estimated on the grant date using the Black-Scholes-Merton ("BSM") option valuation model. The assumptions used to calculate the fair value of options granted are evaluated and revised, as necessary, to reflect market conditions and our experience. Options granted are valued using the multiple option valuation approach, and the resulting expense is recognized over the requisite service period for each separately vesting portion of the award. Compensation expense is recognized only for those options expected to vest, with forfeitures estimated at the date of grant based on our historical experience and future expectations.

The fair value of stock option awards was estimated at the grant date with the following weighted average assumptions for fiscal years 2012, 2011, and 2010:

| <u>Fiscal Year Ended</u> | <u>Employee Stock Options Granted During the Period</u> | | |
|---|---|-------------|-------------|
| | <u>2012</u> | <u>2011</u> | <u>2010</u> |
| Expected term (in years) | 4.8 | 5.0 | 4.7 |
| Expected stock price volatility | 38.2% | 39.0% | 43.0% |
| Risk-free interest rate | 1.0% | 1.6% | 2.1% |
| Expected dividend yield | 1.5% | 1.7% | 0.1% |
| Weighted average grant price | \$ 44.26 | \$ 31.46 | \$ 22.28 |
| Estimated fair value per option granted | \$ 12.79 | \$ 9.58 | \$ 8.50 |

The expected term of the options represents the estimated period of time until exercise, and is based on historical experience of similar awards, giving consideration to the contractual terms, vesting schedules and expectations of future employee behavior. Expected stock price volatility is based on a combination of historical volatility of our stock and the one-year implied volatility of Starbucks traded options, for the related vesting periods. The risk-free interest rate is based on the implied yield available on US Treasury zero-coupon issues with an equivalent remaining term. The dividend yield assumption is based on the anticipated cash dividend payouts. The amounts shown above for the estimated fair value per option granted are before the estimated effect of forfeitures, which reduce the amount of expense recorded on the consolidated statements of earnings.

The BSM option valuation model was developed for use in estimating the fair value of traded options, which have no vesting restrictions and are fully transferable. Our employee stock options have characteristics significantly different from those of traded options, and changes in the subjective input assumptions can materially affect the fair value estimate. Because our stock options do not trade on a secondary exchange, employees do not derive a benefit from holding stock options unless there is an increase, above the grant price, in the market price of our stock. Such an increase in stock price would benefit all shareholders commensurately.

Stock option transactions from September 27, 2009 through September 30, 2012 (in millions, except per share and contractual life amounts) :

| | Shares Subject to Options | Weighted Average Exercise Price per Share | Weighted Average Remaining Contractual Life (Years) | Aggregate Intrinsic Value |
|---|---------------------------|---|---|---------------------------|
| Outstanding, September 27, 2009 | 63.6 | \$ 14.75 | 6.7 | \$ 442 |
| Granted | 14.9 | 22.28 | | |
| Exercised | (9.6) | 11.94 | | |
| Expired/forfeited | (8.2) | 18.73 | | |
| Outstanding, October 3, 2010 | 60.7 | 16.52 | 6.6 | 611 |
| Granted | 4.3 | 31.46 | | |
| Exercised | (16.1) | 14.40 | | |
| Expired/forfeited | (3.6) | 18.06 | | |
| Outstanding, October 2, 2011 | 45.3 | 18.57 | 6.4 | 848 |
| Granted | 3.4 | 44.26 | | |
| Exercised | (13.6) | 15.99 | | |
| Expired/forfeited | (2.0) | 20.67 | | |
| Outstanding, September 30, 2012 | 33.1 | 22.19 | 6.1 | 945 |
| Exercisable, September 30, 2012 | 18.4 | 19.96 | 5.0 | 567 |
| Vested and expected to vest, September 30, 2012 | 32.0 | 21.92 | 6.0 | 923 |

The aggregate intrinsic value in the table above is the amount by which the market value of the underlying stock exceeded the exercise price of outstanding options, is before applicable income taxes and represents the amount optionees would have realized if all in-the-money options had been exercised on the last business day of the period indicated.

The following is a summary of stock options outstanding at the end of fiscal 2012 (shares in millions):

| Range of Prices | Options Outstanding | | | Options Exercisable | |
|-------------------|---------------------|---|---------------------------------|---------------------|---------------------------------|
| | Number of Options | Weighted Average Remaining Contractual Life | Weighted Average Exercise Price | Number of Options | Weighted Average Exercise Price |
| Under \$10.00 | 9.0 | 6.0 | \$ 8.65 | 5.0 | \$ 8.65 |
| \$10.01 - \$20.00 | 3.6 | 3.7 | 15.14 | 3.3 | 15.22 |
| \$20.01 - \$30.00 | 10.8 | 6.0 | 23.14 | 6.5 | 23.91 |
| Over \$30.00 | 9.7 | 7.1 | 36.36 | 3.6 | 32.89 |
| | 33.1 | 6.1 | \$ 22.19 | 18.4 | \$ 19.96 |

As of September 30, 2012, total unrecognized stock-based compensation expense, net of estimated forfeitures, related to nonvested stock options was approximately \$35 million, before income taxes, and is expected to be recognized over a weighted average period of approximately 2.3 years. The total intrinsic value of stock options exercised was \$440 million, \$323 million, and \$118 million during fiscal years 2012, 2011, and 2010, respectively. The total fair value of options vested was \$59 million, \$126 million, and \$108 million during fiscal years 2012, 2011, and 2010, respectively.

RSUs

We have both time-vested and performance-based RSUs. Time-vested RSUs are awarded to eligible employees and entitle the grantee to receive shares of common stock at the end of a vesting period, subject solely to the employee's continuing employment. Our performance-based RSUs are awarded to eligible employees and entitle the grantee to receive shares of common stock if we achieve specified performance goals for the full fiscal year in the year of award and the grantee remains employed during the subsequent vesting period. The fair value of RSUs is based on the closing price of Starbucks common stock on the award date. Expense for performance-based RSUs is recognized when it is probable the performance goal will be achieved.

RSU transactions from September 27, 2009 through September 30, 2012 (in millions, except per share and contractual life amounts):

| | Number of Shares | Weighted Average Grant Date Fair Value per Share | Weighted Average Remaining Contractual Life (Years) | Aggregate Intrinsic Value |
|-------------------------------|------------------|--|---|---------------------------|
| Nonvested, September 27, 2009 | 4.4 | \$ 11.55 | 1.6 | \$ 88 |
| Granted | 2.3 | 22.27 | | |
| Vested | (0.7) | 16.35 | | |
| Forfeited/cancelled | (0.6) | 12.27 | | |
| Nonvested, October 3, 2010 | 5.4 | 13.55 | 1.1 | 141 |
| Granted | 5.4 | 31.06 | | |
| Vested | (1.7) | 9.40 | | |
| Forfeited/cancelled | (0.8) | 25.68 | | |
| Nonvested, October 2, 2011 | 8.3 | 23.11 | 0.8 | 309 |
| Granted | 4.1 | 44.05 | | |
| Vested | (4.2) | 18.93 | | |
| Forfeited/cancelled | (0.9) | 35.56 | | |
| Nonvested, September 30, 2012 | 7.3 | 34.68 | 0.9 | 366 |

As of September 30, 2012, total unrecognized stock-based compensation expense related to nonvested RSUs, net of estimated forfeitures, was approximately \$80 million, before income taxes, and is expected to be recognized over a weighted average period of approximately 2.0 years.

ESPP

Our ESPP allows eligible employees to contribute up to 10% of their base earnings toward the quarterly purchase of our common stock, subject to an annual maximum dollar amount. The purchase price is 95% of the fair market value of the stock on the last business day of the quarterly offering period. The number of shares issued under our ESPP was 0.4 million in fiscal 2012.

Deferred Stock Plan

We have a deferred stock plan for certain key-employees that enables participants in the plan to defer receipt of ownership of common shares from the exercise of nonqualified stock options. The minimum deferral period is 5 years. As of September 30, 2012 and October 2, 2011, 3.4 million shares were deferred under the terms of this plan. The rights to receive these shares, represented by common stock units, are included in the calculation of basic and diluted earnings per share as common stock equivalents. No new initial deferrals are permitted under this plan; the plan permits re-deferrals of previously deferred shares.

Defined Contribution Plans

We maintain voluntary defined contribution plans, both qualified and non-qualified, covering eligible employees as defined in the plan documents. Participating employees may elect to defer and contribute a portion of their eligible compensation to the plans up to limits stated in the plan documents, not to exceed the dollar amounts set by applicable laws.

Our matching contributions to all US and non-US plans were \$59.8 million, \$45.5 million, and \$23.5 million in fiscal years 2012, 2011, and 2010, respectively.

Note 13: Income Taxes

The components of earnings before income taxes were as follows *(in millions)*:

| Fiscal Year Ended | Sep 30, 2012 | Oct 2, 2011 | Oct 3, 2010 |
|------------------------------------|---------------------|--------------------|--------------------|
| United States | \$ 1,679.6 | \$ 1,523.4 | \$ 1,308.9 |
| Foreign | 379.5 | 287.7 | 128.1 |
| Total earnings before income taxes | \$ 2,059.1 | \$ 1,811.1 | \$ 1,437.0 |

Provision for income taxes *(in millions)*:

| Fiscal Year Ended | Sep 30, 2012 | Oct 2, 2011 | Oct 3, 2010 |
|----------------------------------|---------------------|--------------------|--------------------|
| Current taxes: | | | |
| Federal | \$ 466.0 | \$ 344.7 | \$ 457.5 |
| State | 79.9 | 61.2 | 79.6 |
| Foreign | 76.8 | 37.3 | 38.3 |
| Total current taxes | 622.7 | 443.2 | 575.4 |
| Deferred taxes: | | | |
| Federal | 49.2 | 111.6 | (76.0) |
| State | (0.7) | 8.3 | (9.3) |
| Foreign | 3.2 | — | (1.4) |
| Total deferred taxes | 51.7 | 119.9 | (86.7) |
| Total provision for income taxes | \$ 674.4 | \$ 563.1 | \$ 488.7 |

Reconciliation of the statutory US federal income tax rate with our effective income tax rate:

| Fiscal Year Ended | Sep 30, 2012 | Oct 2, 2011 | Oct 3, 2010 |
|---|---------------------|--------------------|--------------------|
| Statutory rate | 35.0 % | 35.0 % | 35.0 % |
| State income taxes, net of federal income tax benefit | 2.5 % | 2.5 % | 2.5 % |
| Benefits and taxes related to foreign operations | (3.3)% | (3.1)% | (2.5)% |
| Domestic production activity deduction | (0.7)% | (0.8)% | (0.9)% |
| Other, net ⁽¹⁾ | (0.7)% | (2.5)% | (0.1)% |
| Effective tax rate | <u>32.8 %</u> | <u>31.1 %</u> | <u>34.0 %</u> |

(1) Fiscal 2011 includes a benefit of 0.9% related to the acquisition of the remaining ownership interest in Switzerland and Austria.

US income and foreign withholding taxes have not been provided on approximately \$1.5 billion of cumulative undistributed earnings of foreign subsidiaries and equity investees. We intend to reinvest these earnings for the foreseeable future. If these amounts were distributed to the US, in the form of dividends or otherwise, we would be subject to additional US income taxes, which could be material. Determination of the amount of unrecognized deferred income tax liabilities on these earnings is not practicable because of the complexities with its hypothetical calculation, and the amount of liability, if any, is dependent on circumstances existing if and when remittance occurs.

Tax effect of temporary differences and carryforwards that comprise significant portions of deferred tax assets and liabilities *(in millions)*:

| | Sep 30, 2012 | Oct 2, 2011 |
|---|-----------------|-----------------|
| Deferred tax assets: | | |
| Property, plant and equipment | \$ 62.7 | \$ 46.4 |
| Accrued occupancy costs | 72.0 | 55.9 |
| Accrued compensation and related costs | 66.9 | 69.6 |
| Other accrued liabilities | 15.7 | 27.8 |
| Asset retirement obligation asset | 20.1 | 19.0 |
| Deferred revenue | 43.7 | 47.8 |
| Asset impairments | 38.5 | 60.0 |
| Tax credits | 14.6 | 23.0 |
| Stock based compensation | 131.8 | 128.8 |
| Net operating losses | 99.2 | 85.5 |
| Other | 80.9 | 58.6 |
| Total | \$ 646.1 | \$ 622.4 |
| Valuation allowance | (154.2) | (137.4) |
| Total deferred tax asset, net of valuation allowance | \$ 491.9 | \$ 485.0 |
| Deferred tax liabilities: | | |
| Property, plant and equipment | (89.0) | (66.4) |
| Intangible assets and goodwill | (34.0) | (25.2) |
| Other | (44.8) | (18.1) |
| Total | (167.8) | (109.7) |
| Net deferred tax asset | \$ 324.1 | \$ 375.3 |
| Reported as: | | |
| Current deferred income tax assets | \$ 238.7 | \$ 230.4 |
| Long-term deferred income tax assets (included in Other assets) | 97.3 | 156.3 |
| Current deferred income tax liabilities (included in Accrued liabilities) | (1.3) | (4.9) |
| Long-term deferred income tax liabilities (included in Other long-term liabilities) | (10.6) | (6.5) |
| Net deferred tax asset | \$ 324.1 | \$ 375.3 |

We will establish a valuation allowance if either it is more likely than not that the deferred tax asset will expire before we are able to realize the benefit, or the future deductibility is uncertain. Periodically, the valuation allowance is reviewed and adjusted based on our assessments of the likelihood of realizing the benefit of our deferred tax assets. The valuation allowance as of September 30, 2012 and October 2, 2011 is primarily related to net operating losses and other deferred tax assets of consolidated foreign subsidiaries. The net change in the total valuation allowance for the years ended September 30, 2012 and October 2, 2011, was an increase of \$16.8 million and \$49.3 million, respectively. During fiscal 2011, we recognized approximately \$32 million of previously unrecognized deferred tax assets in certain foreign jurisdictions, with a corresponding increase to the valuation allowance due to the uncertainty of their realization.

As of September 30, 2012, Starbucks has utilized all of its foreign tax credits and no longer has a foreign tax credit carryforward. Starbucks has a capital loss carryforward of \$7.1 million, with an expiration date of 2015, and foreign net operating losses of \$318 million, with the predominant amount having no expiration date.

Taxes currently payable of \$50.8 million and \$30.1 million are included in accrued liabilities on the consolidated balance sheets as of September 30, 2012 and October 2, 2011, respectively.

Uncertain Tax Positions

As of September 30, 2012, we had \$75.3 million of gross unrecognized tax benefits of which \$39.7 million, if recognized, would affect our effective tax rate. We recognize interest and penalties related to income tax matters in income tax expense. As of September 30, 2012 and October 2, 2011, we had accrued interest and penalties of \$5.5 million and \$6.2 million, respectively, before the benefit of the federal tax deduction, recorded on our consolidated balance sheets.

The following table summarizes the activity related to our unrecognized tax benefits (*in millions*):

| | Sep 30, 2012 | Oct 2, 2011 | Oct 3, 2010 |
|--|--------------|-------------|-------------|
| Beginning balance | 52.9 | 68.4 | 49.1 |
| Increase related to prior year tax positions | 8.8 | 4.4 | 35.0 |
| Decrease related to prior year tax positions | — | (32.3) | (21.4) |
| Increase related to current year tax positions | 20.0 | 26.0 | 14.1 |
| Decrease related to current year tax positions | (1.1) | (0.8) | (8.1) |
| Decreases related to settlements with taxing authorities | (0.5) | (5.0) | — |
| Decreases related to lapsing of statute of limitations | (4.8) | (7.8) | (0.3) |
| Ending balance | 75.3 | 52.9 | 68.4 |

We are currently under routine audit by various jurisdictions outside the US as well as US state taxing jurisdictions for fiscal years 2006 through 2011. We are no longer subject to US federal or state examination for years prior to fiscal year 2009, with the exception of seven states. We are subject to income tax in many jurisdictions outside the US. We are no longer subject to examination in any material international markets prior to 2006.

There is a reasonable possibility that the unrecognized tax benefits will change within 12 months, but we do not expect this change to be material to the consolidated financial statements.

Note 14: Earnings per Share

Calculation of net earnings per common share (“EPS”) — basic and diluted (*in millions, except EPS*):

| Fiscal Year Ended | Sep 30, 2012 | Oct 2, 2011 | Oct 3, 2010 |
|--|--------------|-------------|-------------|
| Net earnings attributable to Starbucks | \$ 1,383.8 | \$ 1,245.7 | \$ 945.6 |
| Weighted average common shares and common stock units outstanding (for basic calculation) | 754.4 | 748.3 | 744.4 |
| Dilutive effect of outstanding common stock options and RSUs | 18.6 | 21.4 | 19.8 |
| Weighted average common and common equivalent shares outstanding (for diluted calculation) | 773.0 | 769.7 | 764.2 |
| EPS — basic | \$ 1.83 | \$ 1.66 | \$ 1.27 |
| EPS — diluted | \$ 1.79 | \$ 1.62 | \$ 1.24 |

Potential dilutive shares consist of the incremental common shares issuable upon the exercise of outstanding stock options (both vested and non-vested) and unvested RSUs, calculated using the treasury stock method. The calculation of dilutive shares outstanding excludes out-of-the-money stock options (i.e., such options' exercise prices were greater than the average market price of our common shares for the period) because their inclusion would have been antidilutive. Out-of-the-money stock options totaled 0.2 million, 0.1 million, and 7.9 million as of September 30, 2012, October 2, 2011, and October 3, 2010, respectively.

Note 15: Commitments and Contingencies

Legal Proceedings

In the first quarter of fiscal 2011, Starbucks notified Kraft Foods Global, Inc. ("Kraft") that we were discontinuing our distribution arrangement with Kraft on March 1, 2011 due to material breaches by Kraft of its obligations under the Supply and License Agreement between the Company and Kraft, dated March 29, 2004 (the "Agreement"), which defined the main distribution arrangement between the parties. Through our arrangement with Kraft, Starbucks sold a selection of Starbucks and Seattle's Best Coffee branded packaged coffees in grocery and warehouse club stores throughout the US, and to grocery stores in Canada, the UK and other European countries. Kraft managed the distribution, marketing, advertising and promotion of these products.

Kraft denies it has materially breached the Agreement. On November 29, 2010, Starbucks received a notice of arbitration from Kraft putting the commercial dispute between the parties into binding arbitration pursuant to the terms of the Agreement. In addition to denying it materially breached the Agreement, Kraft further alleges that if Starbucks wished to terminate the Agreement it must compensate Kraft as provided in the Agreement in an amount equal to the fair value of the Agreement, with an additional premium of up to 35% under certain circumstances.

On December 6, 2010, Kraft commenced a federal court action against Starbucks, entitled *Kraft Foods Global, Inc. v. Starbucks Corporation*, in the U.S. District Court for the Southern District of New York (the "District Court") seeking injunctive relief to prevent Starbucks from terminating the distribution arrangement until the parties' dispute is resolved through the arbitration proceeding. On January 28, 2011, the District Court denied Kraft's request for injunctive relief. Kraft appealed the District Court's decision to the Second Circuit Court of Appeals. On February 25, 2011, the Second Circuit Court of Appeals affirmed the District Court's decision. As a result, Starbucks is in full control of our packaged coffee business as of March 1, 2011.

While Starbucks believes we have valid claims of material breach by Kraft under the Agreement that allowed us to terminate the Agreement and certain other relationships with Kraft without compensation to Kraft, there exists the possibility of material adverse outcomes to Starbucks in the arbitration or to resolve the matter. Although Kraft disclosed to the press and in federal court filings a \$750 million offer Starbucks made to Kraft in August 2010 to avoid litigation and ensure a smooth transition of the business, the figure is not a proper basis upon which to estimate a possible outcome of the arbitration but was based upon facts and circumstances at the time. Kraft rejected the offer immediately and did not provide a counter-offer, effectively ending the discussions between the parties with regard to any payment. Moreover, the offer was made prior to our investigation of Kraft's breaches and without consideration of Kraft's continuing failure to comply with material terms of the agreements.

On April 2, 2012, Starbucks and Kraft exchanged expert reports regarding alleged damages on their affirmative claims. Starbucks claimed damages of up to \$62.9 million from the loss of sales resulting from Kraft's failure to use commercially reasonable efforts to market Starbucks® coffee, plus attorney fees. Kraft's expert opined that the fair market value of the Agreement was \$1.9 billion. After applying a 35% premium and 9% interest, Kraft claimed damages of up to \$2.9 billion, plus attorney fees. The arbitration hearing commenced on July 11, 2012 and was completed on August 3. Starbucks presented evidence of material breaches on Kraft's part and sought nominal damages from Kraft for those breaches. Kraft presented evidence denying it had breached the parties' Agreement and sought damages of \$2.9 billion plus attorney fees. We expect a decision from the Arbitrator in the first half of fiscal 2013.

At this time, Starbucks believes an unfavorable outcome with respect to the arbitration is not probable, but as noted above is reasonably possible. As also noted above, Starbucks believes we have valid claims of material breach by Kraft under the Agreement that allowed us to terminate the Agreement without compensation to Kraft. In addition, Starbucks believes Kraft's damage estimates are highly inflated and based upon faulty analysis. As a result, we cannot reasonably estimate the possible loss. Accordingly, no loss contingency has been recorded for this matter.

Starbucks is party to various other legal proceedings arising in the ordinary course of business, including certain employment litigation cases that have been certified as class or collective actions, but, except as noted above, is not currently a party to any legal proceeding that management believes could have a material adverse effect on our consolidated financial position, results of operations or cash flows.

Note 16: Restructuring Charges

The restructuring efforts we began in fiscal 2008 to rationalize our store portfolio and the non-retail support organization were completed in fiscal 2010. On a cumulative basis we closed 918 stores on a global basis as part of this effort.

Restructuring charges by type of cost for fiscal 2010 were as follows (*in millions*):

| | By Type of Cost | | | |
|---|-----------------|------------------------------------|-------------------|----------------------------|
| | Total | Lease Exit and Other Related Costs | Asset Impairments | Employee Termination Costs |
| Costs incurred and charged to expense in fiscal 2010 | \$ 53.0 | \$ 53.0 | \$ 0.2 | \$ (0.2) |
| Accrued liability as of October 3, 2010 ⁽¹⁾ | \$ 89.2 | \$ 89.2 | \$ — | \$ — |
| Cash payments | (27.1) | (27.1) | — | — |
| Other | 0.5 | 0.5 | — | — |
| Accrued liability as of October 2, 2011 ⁽¹⁾ | \$ 62.6 | \$ 62.6 | \$ — | \$ — |
| Cash payments | (18.7) | (18.7) | — | — |
| Other | (5.3) | (5.3) | — | — |
| Accrued liability as of September 30, 2012 ⁽¹⁾ | \$ 38.6 | \$ 38.6 | \$ — | \$ — |

(1) The remaining liability relates to lease obligations for stores that were previously closed where Starbucks has been unable to terminate the lease or find subtenants for the unused space.

For fiscal 2010, \$28.4 million, \$24.5 million and \$0.1 million of restructuring charges were recorded to the Americas, EMEA, and CAP segments, respectively.

Note 17: Segment Reporting

Segment information is prepared on the same basis that our management reviews financial information for operational decision-making purposes. Beginning with the first quarter of fiscal 2012, we redefined our reportable operating segments to align with the three-region leadership and organizational structure of our retail business that took effect at the beginning of fiscal 2012.

The three-region structure includes: 1) Americas, inclusive of the US, Canada, and Latin America; 2) Europe, Middle East, and Africa, collectively referred to as the "EMEA" region; and 3) China / Asia Pacific ("CAP"). Our chief executive officer, who is our chief operating decision maker manages these businesses, evaluates financial results, and makes key operating decisions based on the new organizational structure. Accordingly, beginning with the first quarter of fiscal 2012, we revised our reportable operating segments from 1) US, 2) International, and 3) Global Consumer Products Group to the following four reportable segments: 1) Americas, 2) CAP, 3)

EMEA, and 4) Global Consumer Products Group. In the second quarter of fiscal 2012, we renamed our Global Consumer Products Group segment "Channel Development." Segment revenues as a percentage of total net revenues for the year ended 2012 were as follows: Americas (75%), EMEA (9%), China / Asia Pacific (5%), and Channel Development (10%).

Effective at the beginning of fiscal 2013, we decentralized certain leadership functions in the areas of retail marketing and category management, global store development and partner resources, to support and align with the respective operating segment presidents. In conjunction with these moves, certain general and administrative and depreciation and amortization expenses associated with these functions, which were previously reported as unallocated corporate expenses within "Other," are now reported within the respective reportable operating segments to align with the regions that they support.

Concurrent with the change in reportable operating segments and realignment of certain operating expenses noted above, we revised our prior period financial information to reflect comparable financial information for the new segment structure and reporting changes. Historical financial information presented herein reflects these changes. There was no impact on consolidated net revenues, total operating expenses, operating income, or net earnings as a result of these changes.

Americas

Americas operations sell coffee and other beverages, complementary food, packaged coffees, single serve coffee products and a focused selection of merchandise through company-operated stores and licensed stores. The Americas segment is our most mature business and has achieved significant scale.

Europe, Middle East, and Africa

EMEA operations sell coffee and other beverages, complementary food, packaged coffees, single serve coffee products and a focused selection of merchandise through company-operated stores and licensed stores. Certain markets within EMEA operations are in the early stages of development and require a more extensive support organization, relative to the current levels of revenue and operating income, than Americas.

China / Asia Pacific

China / Asia Pacific operations sell coffee and other beverages, complementary food, packaged coffees, single serve coffee products and a focused selection of merchandise through company-operated stores and licensed stores. Certain markets within China / Asia Pacific operations are in the early stages of development and require a more extensive support organization, relative to the current levels of revenue and operating income, than Americas.

Channel Development

Channel Development operations sell a selection of packaged coffees as well as a selection of premium Tazo[®] teas globally. Channel Development operations also produce and sell a variety of ready-to-drink beverages, Starbucks VIA[®] Ready Brew, Starbucks[®] coffee and Tazo[®] tea K-Cup[®] portion packs, Starbucks[®] ice creams, and Starbucks Refreshers[™] beverages. The US foodservice business, which is included in the Channel Development segment, sells coffee and other related products to institutional foodservice companies.

Other

Other includes Seattle's Best Coffee, Evolution Fresh, Digital Ventures, and unallocated corporate expenses that pertain to corporate administrative functions that support the operating segments but are not specifically attributable to or managed by any segment, and are not included in the reported financial results of the operating segments.

Revenue mix by product type *(in millions)*:

| Fiscal Year Ended | Sep 30, 2012 | | Oct 2, 2011 | | Oct 3, 2010 | |
|-----------------------------------|---------------------|-------------|--------------------|-------------|--------------------|-------------|
| Beverage | \$ 7,838.8 | 59% | \$ 7,217.0 | 62% | \$ 6,750.3 | 63% |
| Food | 2,092.8 | 16% | 2,008.0 | 17% | 1,878.7 | 18% |
| Packaged and single serve coffees | 2,001.1 | 15% | 1,451.0 | 12% | 1,131.3 | 10% |
| Other ⁽¹⁾ | 1,366.8 | 10% | 1,024.4 | 9% | 947.1 | 9% |
| Total | \$ 13,299.5 | 100% | \$ 11,700.4 | 100% | \$ 10,707.4 | 100% |

(1) Other includes royalty and licensing revenues, beverage-related ingredients, packaging and other merchandise.

Information by geographic area *(in millions)*:

| Fiscal Year Ended | Sep 30, 2012 | Oct 2, 2011 | Oct 3, 2010 |
|---------------------------------------|---------------------|--------------------|--------------------|
| Net revenues from external customers: | | | |
| United States | \$ 10,177.5 | \$ 8,966.9 | \$ 8,335.4 |
| Other countries | 3,122.0 | 2,733.5 | 2,372.0 |
| Total | \$ 13,299.5 | \$ 11,700.4 | \$ 10,707.4 |

No customer accounts for 10% or more of our revenues. Revenues are shown based on the geographic location of our customers. Revenues from countries other than the US consist primarily of revenues from Canada, UK, and China, which together account for approximately 64% of net revenues from other countries for fiscal 2012.

| Fiscal Year Ended | Sep 30, 2012 | Oct 2, 2011 | Oct 3, 2010 |
|--------------------------|---------------------|--------------------|--------------------|
| Long-lived assets: | | | |
| United States | \$ 2,767.1 | \$ 2,587.1 | \$ 2,807.9 |
| Other countries | 1,252.5 | 978.4 | 821.6 |
| Total | \$ 4,019.6 | \$ 3,565.5 | \$ 3,629.5 |

Management evaluates the performance of its operating segments based on net revenues and operating income. The accounting policies of the operating segments are the same as those described in the summary of significant accounting policies in Note 1. Operating income represents earnings before net interest income and other and income taxes. Management does not evaluate the performance of its operating segments using asset measures. The identifiable assets by segment disclosed in this note are those assets specifically identifiable within each segment and include net property, plant and equipment, equity and cost investments, goodwill, and other intangible assets. Corporate assets are primarily comprised of cash and investments, assets of the corporate headquarters and roasting facilities, and inventory.

The tables below presents financial information for our reportable operating segments and Other for the years ended September 30, 2012, October 2, 2011, and October 3, 2010 including the reclassifications discussed in Note 1 (*in millions*):

| | Americas | EMEA | China / Asia Pacific | Channel Development | Other | Total |
|--|------------|------------|-------------------------|------------------------|----------|-------------|
| <i>Fiscal 2012</i> | | | | | | |
| Total net revenues | \$ 9,936.0 | \$ 1,141.3 | \$ 721.4 | \$ 1,292.2 | \$ 208.6 | \$ 13,299.5 |
| Depreciation and amortization expenses | 392.4 | 57.1 | 23.2 | 1.3 | 76.3 | 550.3 |
| Income (loss) from equity investees | 2.1 | 0.3 | 122.4 | 85.2 | 0.7 | 210.7 |
| Operating income/(loss) | 2,020.4 | 6.8 | 252.6 | 340.4 | (622.8) | 1,997.4 |
| Total assets | 2,199.0 | 467.4 | 656.6 | 88.8 | 4,807.4 | 8,219.2 |
| <i>Fiscal 2011</i> | | | | | | |
| Total net revenues | \$ 9,065.0 | \$ 1,046.8 | \$ 552.3 | \$ 860.5 | \$ 175.8 | \$ 11,700.4 |
| Depreciation and amortization expenses | 391.4 | 53.4 | 18.1 | 2.4 | 58.0 | 523.3 |
| Income (loss) from equity investees | 1.6 | 6.0 | 92.9 | 75.6 | (2.4) | 173.7 |
| Operating income/(loss) | 1,775.2 | 38.9 | 191.3 | 283.5 | (560.4) | 1,728.5 |
| Total assets | 1,841.9 | 398.2 | 540.0 | 54.7 | 4,525.6 | 7,360.4 |
| <i>Fiscal 2010</i> | | | | | | |
| Total net revenues | \$ 8,488.5 | \$ 953.4 | \$ 407.3 | \$ 707.4 | \$ 150.8 | \$ 10,707.4 |
| Depreciation and amortization expenses | 394.2 | 50.6 | 15.8 | 3.7 | 46.1 | 510.4 |
| Income (loss) from equity investees | 0.9 | 6.8 | 73.1 | 70.6 | (3.3) | 148.1 |
| Operating income/(loss) | 1,529.5 | (8.2) | 126.0 | 268.7 | (496.6) | 1,419.4 |
| Total assets | 1,837.9 | 475.8 | 442.0 | 54.1 | 3,576.1 | 6,385.9 |

The following table reconciles the total of operating income in the table above to consolidated earnings before income taxes (*in millions*):

| <u>Fiscal Year Ended</u> | Sep 30, 2012 | Oct 2, 2011 | Oct 3, 2010 |
|--------------------------------|--------------|-------------|-------------|
| Operating income | \$ 1,997.4 | \$ 1,728.5 | \$ 1,419.4 |
| Interest income and other, net | 94.4 | 115.9 | 50.3 |
| Interest expense | (32.7) | (33.3) | (32.7) |
| Earnings before income taxes | \$ 2,059.1 | \$ 1,811.1 | \$ 1,437.0 |

Note 18: Subsequent Event

In the first quarter of fiscal 2013, we signed an agreement to acquire 100% of the outstanding shares of Teavana Holdings, Inc., a specialty retailer of premium loose-leaf teas, authentic artisanal teawares and other tea-related merchandise, for approximately \$620 million in cash. The acquisition is expected to close by December 31, 2012, subject to regulatory approval and customary closing conditions.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders of Starbucks Corporation
Seattle, Washington

We have audited the accompanying consolidated balance sheets of Starbucks Corporation and subsidiaries (the "Company") as of September 30, 2012 and October 2, 2011, and the related consolidated statements of earnings, comprehensive income, equity, and cash flows for each of the three years in the period ended September 30, 2012. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such consolidated financial statements present fairly, in all material respects, the financial position of Starbucks Corporation and subsidiaries as of September 30, 2012 and October 2, 2011, and the results of their operations and their cash flows for each of the three years in the period ended September 30, 2012, in conformity with accounting principles generally accepted in the United States of America.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the Company's internal control over financial reporting as of September 30, 2012, based on criteria established in *Internal Control - Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report (not presented herein) dated November 16, 2012 expressed an unqualified opinion on the Company's internal control over financial reporting.

/s/ Deloitte & Touche LLP

Seattle, Washington

November 16, 2012

(January 29, 2013, as to the effects of i) the recasting of segment data presented in Note 17 and ii) the inclusion of the statements of comprehensive income, as required by the application of ASU 2011-05)

Item 15. Exhibits, Financial Statement Schedules

(a) The following documents are filed as a part of this 10-K:

1. Financial Statements

The following financial statements are included in Part II, Item 8 of this 10-K:

- Consolidated Statements of Earnings for the fiscal years ended September 30, 2012, October 2, 2011, and October 3, 2010;
- Consolidated Statements of Comprehensive Income for the years ended September 30, 2012, October 2, 2011, and October 3, 2010;
- Consolidated Balance Sheets as of September 30, 2012 and October 2, 2011;
- Consolidated Statements of Cash Flows for the fiscal years ended September 30, 2012, October 2, 2011, and October 3, 2010;
- Consolidated Statements of Equity for the fiscal years ended September 30, 2012, October 2, 2011, and October 3, 2010;
- Notes to Consolidated Financial Statements; and
- Reports of Independent Registered Public Accounting Firm

2. Financial Statement Schedules

Financial statement schedules are omitted because they are not required or are not applicable, or the required information is provided in the consolidated financial statements or notes described in Item 15(a)(1) above.

3. Exhibits

The Exhibits listed in the Index to Exhibits, which appears immediately following the signature page and is incorporated herein by reference, are filed as part of this 10-K.
