## Non-GAAP Disclosure

In addition to the GAAP results provided in this release, the company provides certain non-GAAP financial measures that are not in accordance with, or alternatives for, generally accepted accounting principles in the United States. Our non-GAAP financial measures of non-GAAP general and administrative expenses (G\&A), non-GAAP operating income, non-GAAP operating income growth, non-GAAP operating margin, non-GAAP effective tax rate and non-GAAP earnings per share exclude the below-listed items and their related tax impacts, as they do not contribute to a meaningful evaluation of the company's future operating performance or comparisons to the company's past operating performance. The GAAP measures most directly comparable to nonGAAP G\&A, non-GAAP operating income, non-GAAP operating income growth, non-GAAP operating margin, non-GAAP effective tax rate and non-GAAP earnings per share are general and administrative expenses, operating income, operating income growth, operating margin, effective tax rate and diluted net earnings per share, respectively.

Non-GAAP Exclusion
Restructuring and impairment costs
Transaction and integrationrelated costs

## Rationale

Management excludes restructuring and impairment costs for reasons discussed above. These expenses are anticipated to be completed within a finite period of time.
Management excludes transaction and integration costs, primarily amortization, of the acquired intangible assets for reasons discussed above. Additionally, the majority of these costs will be recognized over a finite period of time.

Non-GAAP G\&A, non-GAAP operating income, non-GAAP operating income growth, non-GAAP operating margin, non-GAAP effective tax rate and non-GAAP earnings per share may have limitations as analytical tools. These measures should not be considered in isolation or as a substitute for analysis of the company's results as reported under GAAP. Other companies may calculate these non-GAAP financial measures differently than the company does, limiting the usefulness of those measures for comparative purposes.
