PROXY STATEMENT
For the Annual Meeting of Stockholders
To Be Held on May 18, 2006

April 14, 2006

Proxies in the form enclosed with this Proxy Statement are solicited by the Board of Directors of Citrix Systems, Inc., a Delaware corporation (the "Company"), for use at the Annual Meeting of Stockholders to be held on Thursday, May 18, 2006, at 5:00 p.m., local time, at our San Jose offices where the Company's Application Networking Group is based, located at 180 Baytech Drive, San Jose, CA 95134, or at any adjournments or postponements thereof (the "Annual Meeting"). An Annual Report to Stockholders, containing financial statements for the fiscal year ended December 31, 2005, is being mailed together with this Proxy Statement to all stockholders entitled to vote at the Annual Meeting. This Proxy Statement and the form of proxy were first mailed to stockholders on or about April 14, 2006.

The purposes of the Annual Meeting are to elect two Class II directors for three-year terms, approve an amendment to the Company's 2005 Equity Incentive Plan, and ratify the appointment of the Company's independent registered public accountants. Only stockholders of record at the close of business on March 20, 2005 (the "Record Date") will be entitled to receive notice of and to vote at the Annual Meeting. As of that date, 179,912,817 shares of common stock, \$.001 par value per share, of the Company (the "Common Stock") were issued and outstanding. The holders of Common Stock are entitled to one vote per share on any proposal presented at the Annual Meeting. You may vote in one of the following three ways whether or not you plan to attend the Annual Meeting: (1) by completing, signing and dating the accompanying proxy card and returning it in the postage-prepaid envelope enclosed for that purpose, (2) by completing your proxy using the toll-free telephone number listed on the proxy card, or (3) by completing your proxy on the Internet at the address listed on the proxy card. If you attend the Annual Meeting, you may vote in person even if you have previously returned your proxy card or voted by phone or on the Internet. Any proxy given pursuant to this solicitation may be revoked by the person giving it at any time before it is voted. Proxies may be revoked by (a) filing with the Secretary of the Company, before the taking of the vote at the Annual Meeting, a written notice of revocation bearing a later date than the proxy, (b) duly completing a later-dated proxy relating to the same shares and delivering it to the Secretary of the Company before the taking of the vote at the Annual Meeting, or (c) attending the Annual Meeting and voting in person (although attendance at the Annual Meeting will not in and of itself constitute a revocation of a proxy). Any written notice of revocation or subsequent proxy should be sent so as to be delivered to Citrix Systems, Inc., 851 West Cypress Creek Road, Fort Lauderdale, Florida 33309, Attention: Secretary, before the taking of the vote at the Annual Meeting.

The representation in person or by proxy of at least a majority of the outstanding shares of Common Stock entitled to vote at the Annual Meeting is necessary to constitute a quorum for the transaction of business. Votes withheld from any nominee, abstentions and broker "non-votes" are counted as present or represented for purposes of determining the presence or absence of a quorum for the Annual Meeting. A "non-vote" occurs when a nominee holding shares for a beneficial owner votes on one proposal but does not vote on another proposal because, with respect to such other proposal, the nominee does not have discretionary voting power and has not received instructions from the beneficial owner.

For Proposal 1, the election of Class II directors, the nominees receiving the highest number of affirmative votes of the shares present or represented and entitled to vote at the Annual Meeting shall be elected as directors. For each of Proposal 2, the approval of an amendment to the Company's 2005 Equity Incentive Plan, and Proposal 3, the ratification of the appointment of Ernst & Young LLP as the Company's independent registered public accountants for the current year, an affirmative vote of a majority of the shares present, in person or represented by proxy, and voting on each such matter is required for approval. An automated system administered by the Company's transfer agent tabulates the votes. The vote on each matter submitted to stockholders is tabulated

separately. Abstentions are included in the number of shares present or represented and voting on each matter. Broker “non-votes” are not considered voted for the particular matter and have the effect of reducing the number of affirmative votes required to achieve a majority for such matter by reducing the total number of shares from which the majority is calculated.

The persons named as attorneys-in-fact in the proxies, Mark B. Templeton and David J. Henshall, were selected by the Board of Directors and are officers of the Company. All properly executed proxies returned in time to be counted at the Annual Meeting will be voted by such persons at the Annual Meeting. Where a choice has been specified on the proxy with respect to the foregoing matters, the shares represented by the proxy will be voted in accordance with the specifications. If no such specifications are indicated, such proxies will be voted FOR election of the director nominees, FOR approval of the amendment to the Company’s 2005 Equity Incentive Plan, and FOR ratification of the appointment of the independent registered public accountants.

Aside from the election of directors, approval of the amendment to the Company’s 2005 Equity Incentive Plan, and ratification of the appointment of the independent registered public accountants, the Board of Directors knows of no other matters to be presented at the Annual Meeting. If any other matter should be presented at the Annual Meeting upon which a vote properly may be taken, shares represented by all proxies received by the Board of Directors will be voted with respect thereto in accordance with the judgment of the persons named as attorneys-in-fact in the proxies.

- Such other factors as determined by the Nominating and Corporate Governance Committee from time to time.

The Board of Directors is responsible for selecting its own members. The Board of Directors delegates the selection and nomination process to the Nominating and Corporate Governance Committee, with the expectation that other members of the Board of Directors, and of management, will be requested to take part in the process as appropriate.

Generally, the Nominating and Corporate Governance Committee identifies candidates for director nominees in consultation with management, through the use of search firms or other advisors, through the recommendations submitted by stockholders or through such other methods as the Nominating and Corporate Governance Committee deems to be helpful to identify candidates. Once candidates have been identified, the Nominating and Corporate Governance Committee confirms that the candidates meet all of the minimum qualifications for director nominees established by the Nominating and Corporate Governance Committee. The Nominating and Corporate Governance Committee may gather information about the candidates through interviews, detailed questionnaires, comprehensive background checks or any other means that the Nominating and Corporate Governance Committee deems to be helpful in the evaluation process. The Nominating and Corporate Governance Committee then meets as a group to discuss and evaluate the qualities and skills of each candidate, both on an individual basis and taking into account the overall composition and needs of the Board of Directors. Based on the results of the evaluation process, the Nominating and Corporate Governance Committee recommends candidates for the Board of Directors' approval as director nominees for election to the Board of Directors. The Nominating and Corporate Governance Committee also recommends candidates to the Board of Directors for appointment to the committees of the Board of Directors.

Procedures for Recommendation of Director Nominees by Stockholders

The Nominating and Corporate Governance Committee will consider director nominee candidates who are recommended by stockholders of the Company. Stockholders, in submitting recommendations to the Nominating and Corporate Governance Committee for director nominee candidates, shall follow the following procedures:

The Nominating and Corporate Governance Committee must receive any such recommendation for nomination not later than the close of business on the 120th day nor earlier than the close of business on the 150th day prior to the first anniversary of the date of the proxy statement delivered to stockholders in connection with the preceding year's annual meeting.

All recommendations for nomination must be in writing and include the following:

- Name and address of the stockholder making the recommendation, as they appear on the Company's books and records, and of such record holder's beneficial owner;
- Number of shares of capital stock of the Company that are owned beneficially and held of record by such stockholder and such beneficial owner;
- Name of the individual recommended for consideration as a director nominee;
- All other information relating to the recommended candidate that would be required to be disclosed in solicitations of proxies for the election of directors or is otherwise required, in each case pursuant to Regulation 14A under the Exchange Act, including the recommended candidate's written consent to being named in the proxy statement as a nominee and to serving as a director if approved by the Board of Directors and elected; and
- A written statement from the stockholder making the recommendation stating why such recommended candidate meets the Company's criteria and would be able to fulfill the duties of a director.

Nominations must be sent to the attention of the Secretary of the Company by one of the two methods listed below:

By U.S. mail (including courier or expedited delivery service) to:

Citrix Systems, Inc.
851 West Cypress Creek Road
Fort Lauderdale, FL 33309
Attn: Secretary of Citrix Systems, Inc.

By facsimile to: (954) 267-2862
Attn: Secretary of Citrix Systems, Inc.

The Secretary of the Company will promptly forward any such nominations to the Nominating and Corporate Governance Committee. As a requirement to being considered for nomination to the Company's Board of Directors, a candidate will need to comply with the following minimum procedural requirements:

- A candidate must undergo a comprehensive private investigation background check by a qualified company of the Company's choosing; and
- A candidate must complete a detailed questionnaire regarding his or her experience, background and independence.

Once the Nominating and Corporate Governance Committee receives the nomination of a candidate and the candidate has complied with the minimum procedural requirements above, such candidacy will be evaluated and a recommendation with respect to such candidate will be delivered to the Board of Directors.

Report of the Audit Committee of the Board of Directors

This report is submitted by the Audit Committee of the Board of Directors. The Audit Committee currently consists of Messrs. Demo, Dow and Morin. Mr. Demo joined the Audit Committee in February 2005, replacing Tyrone Pike. Messrs. Dow and Morin served on the Audit Committee throughout 2005. Each of Messrs. Demo and Morin qualifies as an "audit committee financial expert" under the rules of the SEC. The Board of Directors has determined that each member of the Audit Committee meets the independence requirements promulgated by Nasdaq and the SEC, including Rule 10A-3(b)(1) under the Exchange Act. In February 2006, the Audit Committee met and reviewed the adequacy of its charter. In accordance with the Sarbanes-Oxley Act, the Audit Committee has ultimate authority and responsibility to select, compensate, evaluate and, when appropriate, replace the Company's independent registered public accountants. The Audit Committee has the authority to engage its own outside advisors, including experts in particular areas of accounting, as it determines appropriate, apart from counsel or advisors hired by management.

During the fiscal year 2005, the Company's independent registered public accountants were Ernst & Young LLP ("Ernst & Young"). Ernst & Young is responsible for performing an independent audit of the consolidated financial statements, and an independent audit of the effectiveness of the Company's internal control over financial reporting, as well as attesting to management's assessment of the effectiveness of the Company's internal control over financial reporting, each in accordance with the standards of the Public Company Accounting Oversight Board ("PCAOB"). Ernst & Young also performed audit-related services, tax services and other permissible non-audit services for the Company during 2005, as described more fully below. PricewaterhouseCoopers LLP ("PwC") served as the Company's outsourced internal audit provider during 2005.

The Audit Committee oversees the accounting and financial reporting processes of the Company and the audits of the consolidated financial statements of the Company on behalf of the Board of Directors. Management has the primary responsibility for the consolidated financial statements and the reporting process, including the Company's systems of internal controls. In fulfilling its oversight responsibilities, the Audit Committee reviewed the audited consolidated financial statements in the Annual Report with management, and discussed with management the quality, not just the acceptability, of the accounting principles, the reasonableness of significant estimates and judgments, critical accounting policies and accounting estimates resulting from the application of these policies, and the substance and clarity of disclosures in the financial statements, and reviewed the Company's disclosure control process and internal control over financial reporting. The Audit Committee reviewed with Ernst & Young, who are responsible for expressing an opinion on the fairness of the Company's consolidated financial statements in conformity with accounting principles generally acceptable in the United States, Ernst & Young's judgments as to the quality, not just the acceptability, of the Company's accounting principles and such other matters as independent registered public accountants are required to discuss with the Audit Committee under auditing standards of the PCAOB. In addition, the Audit Committee has reviewed the services provided by Ernst & Young and discussed with the independent registered public accountants from Ernst & Young their independence from management and the Company, including the matters in the written disclosures required by the Independence Standards Board, and considered the compatibility of non-audit services with the registered public accountants' independence.

The Audit Committee discussed with Ernst & Young the overall scope and plan for their annual audit for 2005. The Audit Committee meets separately with Ernst & Young in their capacity as the Company's independent registered public accountants for the Company, with and without management present, to discuss the results of their procedures (examinations and reviews), their evaluations of the Company's internal control over financial reporting, and the overall quality of the Company's financial reporting, as applicable.

In addition, the Audit Committee discussed with PwC the overall scope and plan for their internal audit activities for 2005. The Audit Committee meets with PwC in their capacity as the internal audit outsourcing provider for the Company to discuss the results of their procedures and their evaluations of the Company's internal control over financial reporting.

The Audit Committee has reviewed the audited consolidated financial statements of the Company at December 31, 2005 and 2004 and for each of the years in the three-year period ended December 31, 2005 and has discussed them with both management and Ernst & Young. In connection with the Company's Form 10-K for the year ended December 31, 2005, the Audit Committee discussed with management the results of the Company's certification process relating to the certification of financial statements under Sections 302 and 906 of the Sarbanes-Oxley Act. The Audit Committee has also discussed with Ernst & Young the matters required to be discussed by Statement on Auditing Standards No. 61, as amended by Statement on Auditing Standards Nos. 89 and 90 (Audit Adjustments and Communications with Audit Committees, respectively), as currently in effect. This discussion included, among other things, a review with management of the quality of the Company's accounting principles, the reasonableness of significant estimates and judgments, and the clarity of disclosure in the Company's financial statements, including the disclosures related to critical accounting policies and practices used by the Company. The Audit Committee has received the written disclosures and the letter from Ernst & Young required by Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees), as currently in effect, and has discussed with Ernst & Young the firm's independence. Based on its review of the financial statements and these discussions, the Audit Committee concluded that it would be reasonable to recommend, and on that basis did recommend, to the Board of Directors that the audited consolidated financial statements be included in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2005.

The Audit Committee also reviewed the Company's quarterly financial statements during 2005 and discussed them with both the management of the Company and Ernst & Young prior to including such interim financial statements in the Company's quarterly reports on Form 10-Q. In connection with the Company's quarterly reports on Form 10-Q for its first, second and third fiscal quarters of 2005, the Audit Committee discussed with management the results of the Company's certification process relating to the certification of financial statements under Sections 302 and 906 of the Sarbanes-Oxley Act.

During the course of the fiscal year ended December 31, 2005, management completed the documentation, testing and evaluation of Citrix's system of internal control over financial reporting in response to the requirements set forth in Section 404 of the Sarbanes-Oxley Act and related regulations.

The Audit Committee was kept apprised of the progress of the evaluation and provided oversight and advice to management during the process. In connection with this oversight, the Audit Committee received periodic updates provided by management and Ernst & Young at Audit Committee meetings held throughout the year. At the conclusion of the process, management provided the Audit Committee with and the Audit Committee reviewed a report on the effectiveness of the Company's internal control over financial reporting. The Audit Committee also reviewed the report of management contained in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2005 filed with the SEC, as well as Ernst & Young's Reports of Independent Registered Public Accounting Firm included in the Company's Annual Report on Form 10-K related to its audits of (i) the consolidated financial statements and financial statement schedule, (ii) management's assessment of the effectiveness of internal control over financial reporting and (iii) the effectiveness of internal control over financial reporting. The Audit Committee continues to oversee the Company's efforts related to its internal control over financial reporting and management's preparations for the evaluation in the fiscal year ending December 31, 2006.

The Audit Committee monitors the activity and performance of Ernst & Young. All services provided by Ernst & Young have been pre-approved by the Audit Committee. The Audit Committee's evaluation of the performance of Ernst & Young included, among other things, the amount of fees paid to Ernst & Young for audit and permissible non-audit services in 2005. Information about Ernst & Young's fees for 2005 is discussed below in this Proxy Statement under "Ratification of Appointment of Independent Registered Public Accountants." Based on its evaluation, the Audit Committee has retained Ernst & Young to serve as the Company's independent registered public accounting firm for the fiscal year ending December 31, 2006.

No portion of this Audit Committee Report shall be deemed to be incorporated by reference into any filing under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended, through any general statement incorporating by reference in its entirety the Proxy Statement in which this report appears, except to the extent that the Company specifically incorporates this report or a portion of it by reference. In addition, this report shall not be deemed filed under either the Securities Act or the Exchange Act.

Respectfully submitted by the Audit Committee,

Gary E. Morin (Chair)
Murray J. Demo
Stephen M. Dow

Equity Compensation Plans

As of December 31, 2005, the Company had two equity compensation plans under which it was granting stock options and shares of non-vested stock. The Company is currently granting stock-based awards from its 2005 Plan and 2005 ESPP. Both the 2005 Plan and the 2005 ESPP are administered by the Compensation Committee of the Board of Directors.

The 2005 Plan was originally adopted by the Board of Directors on March 24, 2005 and approved by the Company's stockholders on May 5, 2005. Under the terms of the 2005 Plan, the Company is authorized to issue stock options, restricted stock, restricted stock units, stock appreciation rights, performance units and to make stock awards to its non-employee directors, as well as to employees and consultants of the Company. The 2005 Plan currently provides for the issuance of a maximum of 10,100,000 (adjusted for stock splits) shares of Common Stock. These shares are reserved for awards to all participants in the 2005 Plan, including non-employee directors. Typically, under the 2005 Plan the Company grants 5 year options that vest over three years at a rate of 33.3% of the shares underlying the option one year from date of grant and at a rate of 2.78% monthly thereafter.

Plans Assumed in 2005 Acquisitions

In connection with the Company's acquisitions of NetScaler Inc. in August 2005 and Teros, Inc. in November 2005, the Company assumed the NetScaler Plan and the Teros Plan, both of which were previously adopted and approved by the respective boards of directors and stockholders of NetScaler and Teros. Under the terms of the NetScaler Plan, NetScaler was authorized to grant incentive and non-qualified stock options and to make restricted stock awards to its employees, directors, officers and consultants. The NetScaler Plan provided for the issuance of a maximum of 6,692,000 (as adjusted for stock splits) shares of NetScaler common stock. Incentive and non-qualified stock options issued under this plan generally vested over five years, at a rate of 20% per year, and expire five or ten years from the original grant date depending on the applicable option agreement. All options are exercisable upon vesting and all restrictions on restricted stock awards lapse upon vesting. Under the terms of the Teros Plan, Teros was authorized to grant restricted stock units to its employees, directors, officers and consultants of Teros. The Teros Plan provided for the issuance of a maximum of 1,120 (as adjusted for stock splits) restricted stock units. The unvested stock units vest 33.33% six, twelve and eighteen

months from the date of grant. All restrictions on the restricted stock units lapse upon vesting. The Company's Board of Directors has resolved to make no further awards under the NetScaler Plan and the Teros Plan.

Change in Control Agreements

On August 4, 2005, the Company entered into change in control agreements with Mr. Templeton and Messrs. Friedman, Henshall and Burris (the "Senior Executives"). Under the terms of these agreements, Mr. Templeton and the Senior Executives are entitled to receive certain compensation and benefits in the event of a "change-in-control" of the Company.

In the event the Company terminates Mr. Templeton without cause or if Mr. Templeton resigns his position for any reason in the 12-month period following a change in control, he is entitled to receive a lump sum payment equal to two times his annual base salary plus his target bonus, both determined as of the date his employment is terminated or, if higher, as of immediately prior to the change-in-control. Additionally, Mr. Templeton will receive, at the Company's expense, certain benefits, including health, dental and life insurance, for two years following the date of termination.

In the event that, during the 12-month period following a change in control, the Company terminates any of the Senior Executives, other than for cause, or any of the Senior Executives terminates his employment for "good reason," such Senior Executive is entitled to receive a lump sum payment equal to one times his annual base salary plus his target bonus, both determined as of the date such Senior Executive's employment is terminated or, if higher, as of immediately prior to the change in control. Additionally, the Senior Executives will receive, at the Company's expense, certain benefits, including health, dental and life insurance, for 18 months following the date of termination.

Upon a change in control, all stock options and other stock-based awards granted to each of Messrs. Templeton and the Senior Executives will immediately accelerate and become fully exercisable as of the effective date of the change-in-control. Mr. Templeton and the Senior Executives are also entitled to a "gross-up payment" that, on an after-tax basis, is equal to the taxes imposed on the severance payments under the change-in-control agreements in the event any payment or benefit to the executive is considered an "excess parachute payment" and subject to an excise tax under the Internal Revenue Code.

Report of the Compensation Committee of the Board of Directors on Executive Compensation

This report is submitted by the Compensation Committee of the Board of Directors, which administered the Company's executive compensation program during the fiscal year ended December 31, 2005. The Compensation Committee currently consists of Messrs. Bogan, Sullivan and White. Mr. Sullivan joined the Compensation Committee in February 2005, replacing Kevin Compton. Messrs. Bogan and White served on the Compensation Committee throughout 2005. The Board of Directors has determined that each member of the Compensation Committee meets the independence requirements promulgated by Nasdaq and the SEC. Pursuant to authority delegated by the Board of Directors, the Compensation Committee is responsible for determining and making recommendations with respect to all forms of compensation to be granted to executive officers of the Company and producing an annual report on executive compensation for inclusion in the Company's proxy statement for its Annual Meeting of Stockholders in accordance with applicable rules and regulations. The Compensation Committee also:

- reviews and makes recommendations to the management of the Company on Company-wide compensation programs and practices,
- approves the salary, bonus, equity and other compensation arrangements of the Company's senior executive officers reporting directly to the Chief Executive Officer,
- recommends, subject to approval by the entire Board of Directors, the salary, bonus, equity and other compensation arrangements of the Company's Chief Executive Officer,
- reviews and approves the fees and retention terms of any independent experts and consultants, and
- recommends, subject to approval by the entire Board of Directors, any stock-based plans and any material amendments thereto.

The Compensation Committee reports on its actions and recommendations at Board meetings.

Overview and Philosophy. The Company's compensation programs are designed to achieve the following objectives:

- to provide competitive compensation that attracts, motivates and retains the best talent and the highest caliber executives to serve the Company and help it to achieve its strategic objectives;
- to align management's interest with the success of the Company;
- to connect a significant portion of the total potential cash compensation paid to executives to the annual financial performance of the Company or the division, region or segment of the Company's business for which an executive has management responsibility by basing cash incentive compensation to corresponding financial targets;
- to align management's interest with the interests of stockholders through long-term equity incentives; and
- to provide management with performance goals that are directly linked to the Company's annual plan for growth and profit.

Compensation Evaluation Processes and Criteria. The Compensation Committee reviews the compensation packages for its executive officers, including an analysis of all elements of compensation separately and in the aggregate. In establishing compensation levels for each of the Company's executive officers, the Compensation Committee has the authority to engage the services of outside experts to assist it. In addition, the Company's legal, finance and human resources departments support the Compensation Committee in its work and act in accordance with the direction given to them to fulfill various functions in administering the Company's compensation programs.

To identify compensation practices among other technology companies, the Compensation Committee surveys the executive compensation practices of the Company's peer group and of the software industry overall.

To assist with this process, the Compensation Committee reviewed the work of an independent compensation consultant, who reported directly to the Compensation Committee for purposes of advising the Compensation Committee on compensation matters. The Compensation Committee annually conducts a competitive analysis of the compensation paid to the executive officers of the Company. As in prior years, the analysis for fiscal 2005 measured the Company's compensation targets and actual results against information from three sources: two independent, commercially available surveys on executive compensation within the software industry, tailored to reflect the Company's relative market capitalization and revenue, and an internal benchmark using commercially available survey data and information from publicly filed reports from a group of 16 peer technology companies specifically identified by the Company in consultation with the Compensation Committee. This comparison group was limited to technology companies that are competitors of the Company and those that are close comparisons in terms of sales, industry and/or market capitalization and may therefore compete with the Company for executive talent. The three benchmarks were used for the purpose of evaluating appropriate compensation ranges for base salary, cash incentive compensation and long-term incentives. The Compensation Committee used the data from all three benchmarks in various combinations in an effort to obtain comparative compensation information that reflected the Company's particular facts and circumstances. In 2005, the data from the benchmarks generally suggested that, in the aggregate with respect to cash compensation, the compensation paid to the Company's executive officers, other than the Company's Chief Executive Officer, compared reasonably to the cash compensation paid to the executives whose companies were included in the benchmarks, as such cash compensation was generally between the median and the 75th percentile of the benchmarks. On the other hand, the data from the benchmarks generally suggested that the cash compensation paid to the Company's Chief Executive Officer was below the market median salary for chief executive officers whose companies were included in the selected benchmarks. The Compensation Committee anticipates that it will continue to conduct similar annual reviews of the Company's executive compensation practices and that it will use the services of independent outside consultants for similar services in the future.

The Compensation Committee reviews the compensation of the President and Chief Executive Officer and the other executive officers in a series of meetings each year. Throughout February 2005, the Compensation Committee met with members of management and the Company's human resources department to review the Company's compensation philosophy and the initial recommendations for compensation adjustments for the executive officers of the Company. The Compensation Committee's preliminary conclusions were discussed in those meetings but a decision on compensation packages was deferred so that the independent compensation consultant could conduct additional analyses based on specific feedback from the committee. At its meetings in March 2005, the Compensation Committee further reviewed the recommendations proposed by management and the results of the independent compensation consultant's analyses and made adjustments for certain executive officers. The independent compensation consultant participated in a number of these meetings of the Compensation Committee in order to provide advice regarding executive compensation programs generally and trends in compensation, including long-term incentive awards. The final executive compensation program for 2005 was approved by the Compensation Committee on March 23, 2005 and became effective on April 1, 2005.

In determining the amount and mix of compensation elements, the Compensation Committee relies upon its judgment about each individual executive officer – and not on rigid formulas or short-term changes in business performance. In setting compensation levels for executives in 2005, the Compensation Committee considered many factors, including, but not limited to:

- the scope and strategic impact of the executive officer's responsibilities,
- the Company's past business and segment performance and future expectations,
- the Company's long-term goals and strategies,
- the performance and experience of each individual;
- past salary levels of each individual and of the executives as a group,
- relative levels of pay among the officers,

-
- the amount of base salary in the context of the executive officer's total compensation and other benefits,
 - for each executive officer, other than the Chief Executive Officer, the evaluations and recommendations of the President and Chief Executive Officer, and
 - the competitiveness of the compensation packages relative to the selected benchmarks as highlighted by the independent compensation consultant's analysis.

Components of Compensation. Compensation under the executive compensation program is composed of cash compensation in the form of base salary and cash incentive bonuses and long-term incentive awards in the form of stock-based awards pursuant to the Company's 2005 Plan. In addition, the compensation program includes various benefits, such as medical and insurance plans, the Company's 401(k) Plan and the 2005 ESPP.

Base Salary. Salary levels for each of the Company's executive officers are generally targeted at the 50th percentile of salaries that the Compensation Committee believes are paid to executive officers with comparable qualifications, experience and responsibilities at the benchmarked companies and within the overall software industry. Each year the Compensation Committee reviews variances between the salary levels for each of the Company's executive officers and those of the companies included in the selected benchmarks and determines, in its discretion, individual salary adjustments after considering the factors described above, although no relative weights or rankings are assigned to these factors.

Cash Incentive Compensation. Cash incentives are generally targeted at the 50th percentile of similar cash incentives provided to officers in similar positions at companies included in the selected benchmarks. To provide cash incentive compensation, the Compensation Committee adopted the 2005 Executive Bonus Plan (the "Bonus Plan") for the benefit of the executives covered by the Bonus Plan. Participants in the Bonus Plan, other than those specifically described below, received cash incentive bonuses in fiscal 2005 based upon the achievement of specific financial goals, which included targets based on reported revenue, product revenue and corporate earnings per share. Except as discussed below, each executive's bonus was determined by weighting the financial components as follows: 50% for achieving reported revenue targets; 20% for achieving product revenue targets; and 30% for achieving earnings per share targets. The target bonuses for executives under the Bonus Plan ranged from 100% of base salary for the Company's President and Chief Executive Officer, to 60% of base salary for the Company's Senior Vice President and Chief Financial Officer, to 55% of base salary for certain other executives participating in the Bonus Plan. The Bonus Plan also provided for a premium or penalty, to be applied in the event of over or under achievement of the weighted factors as the case may be.

The Company's Vice President, EMEA Sales and General Manager, Stefan Sjostrom, earned his bonus under the Bonus Plan based on different criteria than those used for other executive officers participating in the Bonus Plan. The financial component, which comprised 70% of this executive's cash incentive bonus, was based on total bookings and product bookings in EMEA, as well as earnings per share. These financial factors were weighted 50% for achieving EMEA total bookings targets, 20% for achieving EMEA product bookings targets and 30% for achieving earnings per share targets. In addition to the financial component, 30% of the cash incentive bonus paid to the Company's Vice President, EMEA Sales and General Manager was based on individual goals determined by the Company's President and Chief Executive Officer. The target bonus for the Vice President, EMEA Sales and General Manager was 65% of his base salary. Both the financial and individual components of this executive's cash incentive bonus were paid on a quarterly basis.

The table below sets forth the relative weightings for the components of each executive's target bonus and the range of target bonuses as a percentage of base salary.

Structure of 2005 Cash Incentive Compensation for the Named Executive Officers

Executive		Financial Goals			Individual Goals
		Reported Revenue	Product Revenue	Earnings Per Share	
Each Named Executive Officer (other than the Vice President, EMEA Sales and General Manager)	Overall Weighting	50%	20%	30%	0%
	Target Bonus (as a % of Base Salary)	55% to 100%			
Vice President, EMEA Sales and General Manager	Overall Weighting	Financial Goals 70%			Individual Goals 30%
	Weighting of Financial Goals	EMEA Total Bookings	EMEA Product Bookings	Earnings Per Share	
		50%	20%	30%	
	Target Bonus (as a % of Base Salary)	65%			

The Compensation Committee adopted the Bonus Plan and determined target bonuses for 2005 in the first quarter of 2005. The financial targets that underlie the Bonus Plan were based on the Company's operating plan for 2005 as approved by its Board of Directors. In the first quarter of 2006, the Compensation Committee determined that target bonuses in 2005 generally were exceeded by the Company's President and Chief Executive Officer and each of the Company's named executive officers. Specifically, the Company's earnings per share and reported revenue targets and, in the case of the Vice President, EMEA Sales and General Manager, the EMEA total bookings targets were in excess of the Bonus Plan's financial targets. As a result, cash incentive compensation in 2005 increased from 2004 with respect to each executive. Each participant received his 2005 bonus in the first quarter of 2006, except for the Senior Vice President, Corporate Sales and Services and the Vice President, EMEA Sales and General Manager, each of whom received his target bonus in four quarterly installments.

Long Term Incentives. When establishing stock option grant levels for executive officers, the Compensation Committee considers the existing levels of stock ownership among such executive officers relative to each other and to the employees of the Company as a whole, previous grants of stock options to such executive officers, the Company's stock option overhang and targeted stock-option "burn" rates and vesting schedules of previously granted options in addition to the factors described above. Options granted in fiscal 2005 to the Company's executives were granted at an exercise price per share equal to the market value of the Common Stock on the date of each grant.

In 2005, the Compensation Committee evaluated the Company's long-term incentive compensation practices in light of recent industry trends and new accounting and tax rules. Based on this evaluation and

benchmarking of compensation practices, the Compensation Committee has decided to grant executive officers a mix of options and restricted stock awards beginning in 2006 and, in determining awards, will consider the same factors it evaluates in granting stock options. Vesting of restricted stock grants will be both time-based and performance-based, with performance measured by reference to the Company's results of operations.

For additional information regarding the grant of stock options to executives, see "Compensation and Other Information Concerning Directors and Officers—Option Grants in Last Fiscal Year."

Change of Control Agreements. The Compensation Committee considers that it is in the best interests of the Company's stockholders to promote and preserve the continuous employment of key executives. In order to mitigate the adverse impact that a change of control scenario would likely have on the Company's ability to retain and continue to motivate its key executives, in August 2005 the Board of Directors, upon the recommendation of the Compensation Committee, approved "change of control" agreements for certain of the Company's executive officers including, the Company's President and Chief Executive Officer, Senior Vice President and Chief Financial Officer, Senior Vice President, Corporate Sales and Services and Corporate Vice-President, General Counsel and Secretary. These agreements provide for certain benefits in the event that the executive's employment is terminated following a change in control of the Company, including severance payments, benefit continuation and acceleration of vesting on outstanding stock-based awards. See "Compensation and Other Information Concerning Directors and Officers—Change in Control Agreements."

Other Benefits. The Company also has various broad-based employee benefit plans. Executive officers participate in these plans on the same terms as eligible, non-executive employees, subject to any legal limits on the amounts that may be contributed or paid to executive officers under these plans. The Company offers a stock purchase plan, under which employees may purchase the Company's Common Stock at a 15% discount from the fair market value of the Company's Common Stock on the last business day of the purchase period (determined by reference to the closing price of the Common Stock on such date), and a 401(k) plan, which allows employees to invest in a wide array of funds on a pre-tax basis. The Company also maintains insurance and other benefit plans for its employees. Executive officers receive higher life, accidental death and dismemberment and disability insurance benefits than other employees. In addition, one executive officer receives a housing allowance.

Chief Executive Officer Compensation.

The Compensation Committee determines compensation for the Company's President and Chief Executive Officer using the same factors it uses for other executives, placing relatively less emphasis on base salary, and instead, creating greater performance based opportunities through long term and cash incentive compensation. In assessing the compensation paid to the Company's President and Chief Executive Officer, the Compensation Committee relies on both information from the Company's selected benchmarks and its judgment with respect to the factors described above.

In addition, the Compensation Committee uses a formal evaluation process, which includes meetings held in executive session, to help assess the performance of the President and Chief Executive Officer. This process consists of the President and Chief Executive Officer's annual self-evaluation, submitted to the Chairman of the Compensation Committee and the Chairman of the Nominating and Corporate Governance Committee after the conclusion of each fiscal year; annual evaluations conducted by each member of the Board of Directors of the Company; and annual reviews of the President and Chief Executive Officer submitted by each of the senior executive officers of the Company who report directly to him, in each case measured against the personal performance objectives and targets established at the beginning of the year by the President and Chief Executive Officer and the Compensation Committee. Following an assessment of the President and Chief Executive Officer's performance, the Compensation Committee reviews the President and Chief Executive Officer's total compensation package, including base salary, cash incentive compensation and stock-based compensation, as

described below. The Board of Directors actively participates in the process of assessing the President and Chief Executive Officer's performance and in setting his compensation based on those assessments.

Base Salary.

Fiscal year 2005 was a year of continued progress and accomplishments across a number of areas important to strengthening the foundation for the Company's future growth and long-term success. Under Mark B. Templeton's leadership, the Company improved its results of operations. Effective April 1, 2005, Mr. Templeton's annual base salary was increased from \$465,000 to \$500,000. As a result, in 2005, Mr. Templeton received salary compensation of \$491,250. The increase in Mr. Templeton's annual base salary was based on the Compensation Committee's consideration of the factors described above. Additionally, the decision to increase Mr. Templeton's base salary was based on the Compensation Committee's assessment that Mr. Templeton's 2004 salary was below the market median salary for chief executive officers whose companies were included in the selected benchmarks and that it would be appropriate to more closely align Mr. Templeton's salary with the 50th percentile of such benchmarks.

Cash Incentive Compensation.

For fiscal 2005, Mr. Templeton was awarded a cash bonus of \$597,550, an increase from his 2004 bonus of \$422,592. Mr. Templeton's 2005 bonus was determined and awarded in accordance with the criteria outlined in the Bonus Plan, which calculates the actual bonus paid by adjusting the target bonus up or down based on the achievement of certain financial targets. Pursuant to the Bonus Plan, Mr. Templeton's target bonus for 2005 was set at 100% of his base salary and was based 50% on achievement of reported revenue targets, 20% on achievement of product revenue targets and 30% on achievement of earnings per share targets. Both Mr. Templeton's base salary and the percentage of base salary used to compute his target bonus increased in 2005, resulting in an increase of his 2005 target bonus as compared to 2004. Based on the factors identified above, namely the Company's reported revenue, product revenue and earnings per share for the fiscal year, Mr. Templeton achieved 119.5% of his 2005 target bonus as outlined in the Bonus Plan.

Stock Options.

In addition, in April and July of 2005 Mr. Templeton was granted options to purchase 100,000 and 100,000 shares, respectively, of Common Stock subject to the Company's standard vesting schedule. The grants of options were determined in accordance with the factors discussed above. See "Compensation and Other Information Concerning Directors and Officers—Option Grants in Last Fiscal Year."

In 2005, Mr. Burris received salary compensation of \$333,748. The increase of Mr. Burris' annual salary from \$313,325 in 2004 to \$333,748 was based on the factors identified above.

Cash Incentive Compensation.

Based on the factors identified above, namely the Company's reported revenue, product revenue and earnings per share for the fiscal year, Mr. Burris achieved 119.5% of his 2005 target bonus as outlined in the Bonus Plan. David R. Friedman's Compensation.

Base Salary.

In 2005, Mr. Friedman received salary compensation of \$307,204. The increase of Mr. Friedman's annual salary from \$292,575 in 2004 to \$307,204 was based on the factors identified above.

Cash Incentive Compensation.

Mr. Friedman was awarded a cash bonus of \$204,360. Based on the factors identified above, namely the Company's reported revenue, product revenue and earnings per share for the fiscal year, Mr. Friedman achieved 119.5% of his 2005 target bonus as outlined in the Bonus Plan.

Stock Options.

In addition, in April and August of 2004, Mr. Friedman was granted stock options to purchase 20,000 and 20,000 shares, respectively, of Common Stock pursuant to the Company's standard vesting schedule. See "Compensation and Other Information Concerning Directors and Officers—Option Grants in Last Fiscal Year."

Base Salary.

In 2005, Mr. Henshall received salary compensation of \$299,578. The increase of Mr. Henshall's annual salary from \$285,312 in 2004 to \$299,578 was based on the factors identified above.

Based on the factors identified above, namely the Company's reported revenue, product revenue and earnings per share for the fiscal year, Mr. Henshall achieved 119.5% of his 2005 target bonus as outlined in the Bonus Plan. Additionally, Mr. Henshall was awarded a one-time cash bonus of \$25,000 in November 2005 in recognition of his high level of performance in leading the Company's hurricane preparedness and operational continuity initiatives.

Stock Options.

In addition, in April, July and November of 2005, Mr. Henshall was granted stock options to purchase 30,000, 30,000 and 15,000 shares, respectively, of Common Stock pursuant to the Company's standard vesting schedule. See "Compensation and Other Information Concerning Directors and Officers—Option Grants in Last Fiscal Year."

Stefan Sjostrom's Compensation.

Base Salary.

In 2005, Mr. Sjostrom received salary compensation of \$347,779. Mr. Sjostrom's annual salary decreased from \$357,572 to \$347,779 due to the strengthening of the U.S. dollar against the local currency. When measured in Mr. Sjostrom's local currency his annual salary increased by 7.6%.

Cash Incentive Compensation.

Mr. Sjoström was awarded a cash bonus of \$263,597. Based on the factors identified above, namely the Company's bookings objectives for the EMEA region, new products bookings objectives in the EMEA region, earnings per share for the fiscal year and individual performance objectives, Mr. Sjoström achieved 121% of his 2005 target bonus as outlined in the Bonus Plan.

Stock Options.

In addition, in April and July of 2005, Mr. Sjostrom was granted stock options to purchase 17,500 and 17,500 shares, respectively, of Common Stock pursuant to the Company's standard vesting schedule. See "Compensation and Other Information Concerning Directors and Officers—Option Grants in Last Fiscal Year."

Tax Deductibility of Executive Compensation. In general, under Section 162(m) of the Internal Revenue Code of 1986, as amended (the "Code"), the Company cannot deduct, for federal income tax purposes, compensation in excess of \$1,000,000 paid to certain executive officers. This deduction limitation does not apply, however, to compensation that constitutes "qualified performance-based compensation" within the meaning of Section 162(m) of the Code and the regulations promulgated thereunder. The Company has considered the limitations on deductions imposed by Section 162(m) of the Code and it is the Company's present intention, for so long as it is consistent with its overall compensation objective, to structure executive compensation to minimize application of the deduction limitations of Section 162(m) of the Code. In appropriate circumstances, the Company may pay compensation that is not deductible by virtue of Section 162(m).

Compensation Committee Interlocks and Insider Participation

During 2005, Messrs. Bogan, Sullivan and White served as members of the Compensation Committee. No member of the Compensation Committee was an employee or former employee of the Company or any of its subsidiaries, or had any relationship with the Company requiring disclosure herein.

During the last year, no executive officer of the Company served as: (i) a member of the compensation committee (or other committee of the board of directors performing equivalent functions or, in the absence of any such committee, the entire board of directors) of another entity, one of whose executive officers served on the Compensation Committee of the Company; (ii) a director of another entity, one of whose executive officers served on the Compensation Committee of the Company; or (iii) a member of the compensation committee (or other committee of the board of directors performing equivalent functions or, in the absence of any such committee, the entire board of directors) of another entity, one of whose executive officers served as a director of the Company.

Compensation of Directors

Employee-directors do not receive cash compensation for their service as members of the Board of Directors. During 2005, non-employee directors received a fee of \$1,800 for each meeting of the Board of Directors that they attended in person, \$500 for each meeting of the Board of Directors that they participated in

via telephone, \$800 for each meeting of the Finance Committee, the Compensation Committee and the Nominating and Corporate Governance Committee that they attended regardless of whether such meeting was in person, and \$1,500 for each meeting of the Audit Committee that they attended regardless of whether such Audit Committee meeting was in person. In addition, during 2005, directors received an annual fee of \$5,000 for serving as Chair of the Audit Committee and \$2,500 for serving as a chair of any other committee of the Board of Directors, except for the Finance Committee Chair if the Finance Committee Chair was also Chair of the Audit Committee. Non-employee directors were reimbursed for their reasonable out-of-pocket expenses incurred in attending meetings of the Board of Directors or any of its committees that were conducted in person.

In December 2005, the Board of Directors, pursuant to the recommendation of the Compensation Committee, approved changes to the compensation of non-employee directors that became effective on January 1, 2006. Beginning in 2006, non-employee members of the Board of Directors will receive annual retainer fees, which will be paid in cash in bi-annual installments. Each non-employee director will receive a retainer of \$40,000 for his participation as a director of the Company. Directors who are members of the Audit Committee (but not the Chairperson of such committee) will receive an additional \$7,500 and directors who are members of the Compensation Committee (but not the Chairperson of such committee) will receive an additional \$3,750. The Chairperson of the Board of Directors and the Chair of the Audit Committee will each receive \$15,000 and the Chair of each other committee of the Board of Directors, other than the Finance Committee, will receive \$7,500. Because the current Chair of the Finance Committee is also the Chair of the Audit Committee, he receives no additional retainer for his position on the Finance Committee. Non-employee directors will be reimbursed for their reasonable out-of-pocket expenses incurred in attending meetings of the Board of Directors or any of its committees that are conducted in person.

Non-employee directors have historically been eligible for participation in certain of the Company's equity incentive plans. Since May 5, 2005, option grants to non-employee directors have been made under the 2005 Plan.

Prior to January 2006, each non-employee director was eligible to receive an initial grant of an option to purchase 60,000 shares of Common Stock upon election to the Board of Directors and an annual grant of an option to purchase 20,000 shares of Common Stock on the first business day of the month following the Annual Meeting of Stockholders, provided that no annual grant could be granted to any non-employee director in the same calendar year that such person received his or her initial grant. The initial grant vested 33.3% after the conclusion of the first year and 2.7% per month over the remaining two years. The annual grant vested in equal monthly increments over a period of one year. Prior to May 5, 2005, option grants to non-employee directors were made under the Company's Amended and Restated 1995 Non-Employee Director Stock Option Plan (the "1995 Director Option Plan"), which was originally adopted by the Board of Directors on September 28, 1995 and approved by the Company's stockholders in October 1995. The exercise price per share for all options granted under the 1995 Director Option Plan was equal to 100% of the fair market value per share of the Common Stock as of the date of grant (determined by reference to the closing price per share of Common Stock on such date). Since May 5, 2005, all grants to non-employee directors have been made under the 2005 Plan and no awards have been made under the 1995 Director Option Plan. No additional awards will be granted under the 1995 Director Option Plan, however, awards previously granted under the 1995 Director Option Plan and still outstanding typically expire ten years from the date of grant and will continue to be subject to all the terms and conditions of the 1995 Director Option Plan.

As of the Record Date, 821,822 options held by non-employee directors were issued and outstanding pursuant to the 2005 Plan and the 1995 Director Option Plan, of which options for approximately 725,156 shares were then exercisable.

Under the new director compensation scheme, non-employee directors will continue to be eligible to receive stock-based compensation under the Company's 2005 Plan. Annually, beginning in 2006, each non-employee director will be eligible to receive an option to purchase 10,000 shares of the Company's Common Stock and a

restricted stock award of 3,333 shares of the Company's Common Stock. These grants will be made on the first business day of the month following the Company's annual meeting of stockholders and vest in equal monthly installments over a one year period. New non-employee directors will be entitled to receive an option to purchase up to 60,000 shares of the Company's Common Stock upon their election to the Board of Directors, which will vest in accordance with the Company's standard 3-year vesting schedule.

In the interest of good corporate governance and to further align the interests of members of the Board of Directors with the Company's stockholders, the Nominating and Corporate Governance Committee of the Board of Directors has adopted stock ownership guidelines for directors. Pursuant to these guidelines, each director of the Company is expected to hold at least 3,000 shares of the Company's Common Stock for so long as he is a director or, in the case of certain shares acquired upon the exercise of a stock option, for nine months after termination of his service on the Board of Directors. If a director exercises a stock option, in accordance with the guidelines it is expected that such director would, from such option exercise, maintain ownership of at least a number of shares equal to twenty percent (20%) of the net value of the shares acquired (after deducting the exercise price and taxes). Directors are expected to meet the standards set forth in the guidelines within three years after the date of his or her election to the Board of Directors.

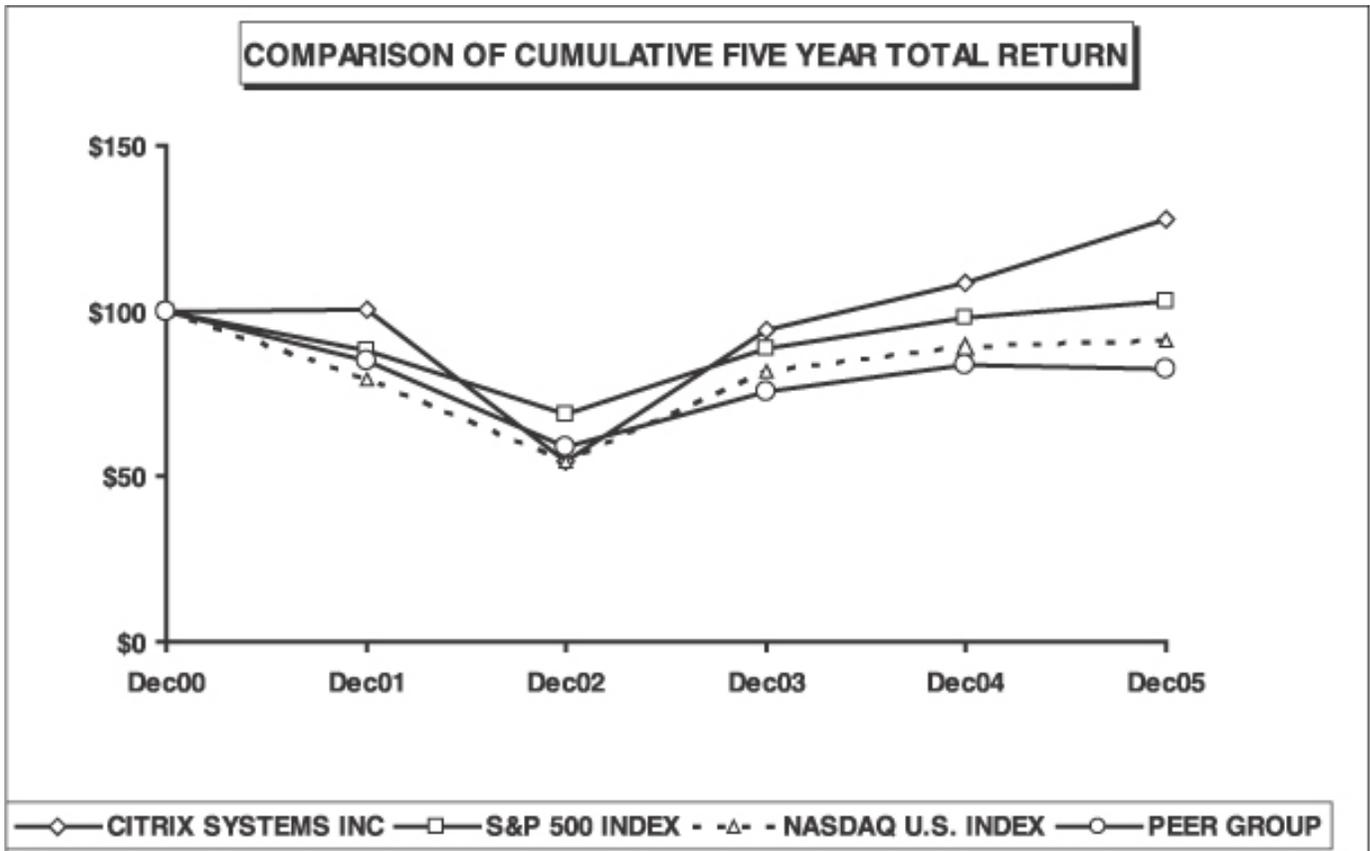

Certain Business Relationships and Related Transactions

In August 2004, Brett M. Caine succeeded Andreas von Blottnitz as President of the Company's Citrix Online Services division (formerly Expertcity.com, Inc. which the Company acquired in February 2004) and since then, Mr. Caine has served as the Company's Group Vice President and General Manager, Online Group. The acquisition agreement between the Company and Expertcity provided for additional purchase price consideration of up to approximately 0.6 million shares of the Company's Common Stock to be issued to the Expertcity stockholders, including Mr. Caine, in the event certain revenue and other financial milestones were achieved by the Expertcity business in 2004. For purposes of calculating the number of shares of the Company's Common Stock issued to the Expertcity stockholders, the acquisition agreement provides that shares of the Company's Common Stock issued as initial consideration and additional purchase price consideration be valued based on the average closing price of the Company's Common Stock for the ten trading days ended two trading days prior to the closing of the acquisition, or \$20.12 per share. Pursuant to these provisions, Mr. Caine received an additional 2,640 shares of the Company's Common Stock on March 8, 2005.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Exchange Act requires the Company's directors, executive officers and holders of more than 10% of the Company's Common Stock (collectively, "Reporting Persons") to file with the SEC initial reports of ownership and reports of changes in ownership of Common Stock of the Company. Such persons are required by regulations of the SEC to furnish the Company with copies of all such filings. Based on its review of the copies of such filings received by it with respect to the fiscal year ended December 31, 2005, the Company believes that all Section 16(a) filing requirements were complied with during the fiscal year ended December 31, 2005, except that each of David Henshall and Stefan Sjostrom did not file a Form 4 on a timely basis in October 2005, due to delays caused by Hurricane Wilma. These Forms 4 were subsequently filed with the SEC in November 2005.

PROPOSAL 2
APPROVAL OF THE AMENDMENT TO THE
2005 EQUITY INCENTIVE PLAN

The Board of Directors approved the adoption of the Company's 2005 Plan in March 2005 and the Company's stockholders approved the 2005 Plan at the Annual Meeting of Stockholders in May 2005. On February 14, 2006, subject to stockholder approval, the Board of Directors approved an amendment to the 2005 Plan (the "Plan Amendment") to (i) increase the aggregate number of shares of Common Stock authorized for issuance under the 2005 Plan by 5.4 million shares and (ii) increase the aggregate number of shares of Common Stock issuable pursuant to restricted stock, restricted stock units, performance units or stock grants by 500,000 shares of Common Stock. We are requesting that the stockholders vote to approve the Plan Amendment to increase the number of shares reserved for issuance under the 2005 Plan by 5.4 million shares and to increase the number of shares issuable pursuant to restricted stock, restricted stock units, performance units or stock grants by 500,000 shares.

Currently, there are 10,100,000 shares of Common Stock reserved for issuance under the 2005 Plan. As of the Record Date, an aggregate of 7,029,072 shares of Common Stock remained available for future grants under the 2005 Plan. The Board of Directors believes it important to the continued success of the Company that Citrix have an adequate reserve of shares available for issuance under the 2005 Plan for use in attracting, motivating and retaining qualified employees, officers, consultants and directors. The Plan Amendment does not modify, alter or revise any other term or provision of the 2005 Plan as approved by the Company's stockholders in May 2005.

Purpose of the 2005 Plan and Plan Amendment

The 2005 Plan allows Citrix, under the direction of the Compensation Committee, to make broad-based grants of stock options, restricted stock, restricted stock units and stock appreciation rights, any of which may or may not require the satisfaction of performance objectives, to employees and to non-employee directors through March 24, 2015. The purpose of these stock awards is to attract and retain talented employees, further align employee and stockholder interests, continue to closely link employee compensation with Company performance, and maintain a culture of ownership. The 2005 Plan provides an essential component of the total compensation package offered to employees, reflecting the importance that Citrix places on motivating and rewarding superior results with long-term, performance-based incentives. The Plan Amendment will allow the Company to continue to provide performance based incentives to its eligible employees and non-employee directors.

Approval of the amendment to the 2005 Plan is intended to enable Citrix to achieve the following objectives:

1. **The continued ability to offer stock-based incentive compensation to substantially all of Citrix's eligible employees and non-employee directors.** Citrix intends to continue to use stock options and evaluate other equity-based compensation vehicles, such as restricted stock, restricted stock units and stock appreciation rights, as the Company's primary means of providing equity compensation to the Company's employees. Citrix maintains a broad-based option plan. In fact, options granted to the Company's five most highly compensated executives accounted for just 0.23%, 0.16% and 0.24% of the Company's total outstanding shares for 2003, 2004 and 2005, respectively. In 2006, the Compensation Committee intends to grant awards of restricted stock units to certain of the Company's senior executive officers. Such restricted stock units will be granted at a 3:1 ratio of options to restricted stock and will be subject to both performance-based and time-based vesting requirements. In order to continue to offer stock options and begin to offer other equity-based compensation vehicles, such as restricted stock, restricted stock units and stock appreciation rights to the Company's employees, Citrix will need additional shares in the 2005 Plan and an increase in the cap on equity-based compensation vehicles.

2. **The proactive reduction of Citrix's total stock dilution.** For the past few years, the Company has actively reduced its dilution by the following actions: (1) reducing the number of options given to the Company's employees; and (2) reducing the life of options granted from 10 to 5 years. As a result, the Company's gross burn rate (including acquisitions) was reduced to 3.5% of the Company's total outstanding shares in 2003, 3.4% in 2004 and 3.28% in 2005. Including forfeitures, the Company's net burn rate was 1.0%, 1.9% and 2.1% for the same periods. Excluding options assumed and granted to companies acquired in 2005, the Company's gross and net burn rates in 2005 were 2.68% and 1.44%, respectively.
3. **Continuation of responsible compensation and governance best practices.** The 2005 Plan prohibits stock option repricing, as well as the use of discounted stock options and reload option grants without stockholder approval, and contains no evergreen features (which provide for automatic replenishment of authorized shares available under the plan). In the interest of good corporate governance, the Company has not conducted an exchange program for underwater stock options. Had the Company done so, this would have also significantly reduced its overhang.

The Company's total overhang has also been impacted by an active stock repurchase program, which was initiated in July 2000. During the six-year period ending December 31, 2005, the Company has repurchased 49.9 million shares under this program. The Company believes that its stock repurchase program represents a valuable use of cash that has improved shareholder value. Overhang is calculated as total options outstanding divided by the total shares outstanding. Because overhang increases as total shares outstanding decrease, the effect of the Company's stock repurchase program has been to increase the Company's overhang by more than 25%. Specifically, if the Company had not repurchased 49.9 million shares under the program to date, overhang as of December 31, 2005 would have been 15.14% instead of 19.42%.

Background on Stock Compensation at Citrix

The use of stock options has long been a vital component of Citrix's overall compensation philosophy, which is premised on the principle that any long-term pay-for-performance incentive compensation should be closely aligned with stockholders' interests. Over the years, we believe that the Company has been very successful in achieving this objective through the use of fixed-price stock options for the majority of its employees. Fixed-price stock options align employees' interests directly with those of other stockholders, because an increase in stock price after the date of award is necessary for employees to realize any value, thus rewarding employees only upon improved stock price performance.

We believe that stock options, the core of Citrix's long-term employee incentive and retention program, have been effective in enabling the Company to attract and retain the talent critical for an innovative and growth-focused company. Citrix's compensation programs include base salary, cash incentive compensation tied to Company financial and personal goals as well as stock-based compensation. Citrix has a long history of linking employee compensation to the Company's long-term stock performance. For more than 10 years, the Company has been granting stock options to employees. As a result, under the Company's current stock option program, all general full-time and part-time employees are eligible for stock option grants upon hire with Citrix. Annual grants are made to a subset of all eligible employees in connection with a focused evaluation of strategic value and in cases of extraordinary performance. We believe that stock-based compensation should not be limited to senior management and that employees should have a stake in the future of the Company. Over the last five years, only 5.5% of all option grants were made to the Company's five most highly compensated executive officers. We believe that the Company's focus on pay-for-performance, as well as broad-based employee participation as stockholders, have been key contributing factors in enabling Citrix's growth. Please read the "Report of the Compensation Committee of the Board of Directors on Executive Compensation" included in this Proxy Statement for additional information on the Company's compensation programs.

Citrix intends to continue to use stock options and evaluate other equity-based compensation vehicles, such as restricted stock, restricted stock units and stock appreciation rights, as the Company's primary means of providing equity compensation to the Company's employees. In 2006, the Compensation Committee intends to grant awards of restricted stock units to certain of the Company's senior executive officers. Such restricted stock units will be granted at a 3:1 ratio of options to restricted stock and will be subject to both performance-based and time-based vesting requirements. Please read the "Report of the Compensation Committee of the Board of Directors on Executive Compensation" included in this Proxy Statement for additional information on the Company's restricted stock practices.

We strongly believe that the Company's equity compensation programs and emphasis on employee stock ownership have been integral to the Company's success in the past and will be important to the Company's ability to achieve consistent performance in the years ahead. We believe that consistent performance is achieved through the ability to attract, retain and motivate the employee talent critical to attaining long-term improved Company performance and stockholder returns. Therefore, we consider approval of the amendment to the 2005 Plan vital to Citrix's future success.

Summary of the 2005 Plan

The following is a summary of certain major features of the 2005 Plan. This summary is subject to the specific provisions contained in the full text of the 2005 Plan set forth as Exhibit A to the Company's proxy statement mailed to its stockholders on April 1, 2005 and the Plan Amendment in Exhibit A hereto.

Eligibility

Only employees of Citrix and its subsidiaries and affiliates, consultants and non-employee directors of Citrix, are eligible to receive awards under the 2005 Plan. The Compensation Committee determines which employees will participate in the 2005 Plan. As of the Record Date, there were approximately 3,236 employees and 6 non-employee directors who were eligible to participate in the 2005 Plan.

Awards

The 2005 Plan allows the Compensation Committee to grant stock options, stock appreciation rights, restricted stock, performance units, stock awards or restricted stock units, any or all of which may be made contingent upon the achievement of performance criteria. Subject to plan limits, the Compensation Committee has the discretionary authority to determine the size of an award. The addition of performance-based requirements will be considered in light of the Company's total compensation program and the significant level of pay-for-performance requirements already incorporated into its compensation practices. As of the Record Date, under the 2005 Plan, there were (i) 7,029,072 shares of Common Stock authorized but unissued, (ii) 2,974,486 shares of Common Stock issuable upon exercise of outstanding but unexercised options and (iii) 82,579 shares of non-vested stock issued.

Shares Authorized for Restricted Stock, Restricted Stock Units, Performance Units or Stock Grants

Currently, the 2005 Plan provides that the number of shares of Common Stock issued pursuant to restricted stock, restricted stock units, performance units or stock grants cannot exceed 500,000 shares of Common Stock (subject to certain provisions of the 2005 Plan). The Plan Amendment would increase the aggregate number of shares of Common Stock issuable pursuant to restricted stock, restricted stock units, performance units or stock grants by 500,000 shares of Common Stock to a maximum of 1,000,000 shares of Common Stock.

Vesting and Exercise of Stock Options

The exercise price of stock options granted under the 2005 Plan may not be less than the market value of the Common Stock on the date of grant (fair market value is the closing price for the Common Stock as reported on

the Nasdaq National Market, or on any national securities exchange on which the Common Stock is then listed, for that date or, if no closing price is reported for that date, the closing price on the next preceding date for which a closing price was reported). The closing sales price of Citrix Common Stock on March 20, 2006 was \$35.81 per share. The option term may not be longer than ten years, however, the Company's recent practice has been to grant options with only a five-year term. The Compensation Committee determines at the time of grant when each stock option becomes exercisable, including the establishment of required performance vesting criteria, if any. Citrix may require, prior to issuing Common Stock under the 2005 Plan, that the participant remit an amount in cash or Common Stock sufficient to satisfy tax withholding requirements.

Vesting of Restricted Stock and Stock Unit Awards

The Compensation Committee may make the grant, issuance, retention and/or vesting of restricted stock and stock unit awards contingent upon continued employment with Citrix, the passage of time, or such performance criteria and the level of achievement versus such criteria as it deems appropriate. In 2006, the Compensation Committee intends to grant awards of restricted stock units to certain of its senior executive officers. Such restricted stock units will be granted at a 3:1 ratio of options to restricted stock and will be subject to both performance-based and time-based vesting requirements. Please read the "Report of the Compensation Committee of the Board of Directors on Executive Compensation" included in this Proxy Statement for additional information on the Company's restricted stock practices.

Eligibility Under Section 162(m)

Awards may, but need not, include performance criteria that satisfy Section 162(m) of the Tax Code. To the extent that awards are intended to qualify as "performance-based compensation" under Section 162(m), the performance criteria may include one of the following criteria, either individually, alternatively or in any combination, applied to either the Company as a whole or to a business unit or subsidiary, either individually, alternatively, or in any combination, and measured either annually or cumulatively over a period of years, on an absolute basis or relative to a pre-established target, to previous years' results or to a designated comparison group, in each case as specified by the Compensation Committee in the award. Among other things,

1. Operating margin, gross margin or profit margin
2. Performance relative to peers
3. EPS or pro forma EPS
4. Divisional or operating segment financial and operating performance
5. Revenue or bookings
6. Total return on shares of Common Stock relative to increase in appropriate stock index selected by Compensation Committee
7. Expenses or operating expenses
8. Other financial measures determined by the Compensation Committee
9. Attainment of strategic and operational objectives
10. Customer satisfaction indicators
11. Completion of number of years of service with Citrix
12. Cash flow
13. Net income, operating income or pre-tax income
14. Stock price increase
15. Growth or growth rates with respect to any of the foregoing measures
16. Other performance measures determined by the Compensation Committee
17. Any combination of the foregoing

To the extent that an award under the 2005 Plan is designated as a “performance award,” but is not intended to qualify as performance-based compensation under Section 162(m), the performance criteria can include the achievement of strategic objectives as determined by the Board of Directors.

The Compensation Committee may appropriately adjust any evaluation of performance under the performance criteria to exclude any of the following events that occur during a performance period:

- Asset write-downs or impairment;
- Litigation or claim judgments or settlements;
- The effect of changes in tax law, accounting principles or other such laws or provisions affecting reported results;
- Accruals for reorganization and restructuring programs;
- Any extraordinary non-recurring items including those described in Accounting Principles Board Opinion No. 30 and/or in management’s discussion and analysis of financial condition and results of operations appearing in the Company’s annual report to stockholders for the applicable year; and
- Any other extraordinary items adjusted from the Company’s U.S. GAAP results in the Compensation Committee’s discretion.

Notwithstanding satisfaction or completion of any performance criteria described above, to the extent specified at the time of grant of an award, the number of shares of Common Stock, stock options or other benefits granted, issued, retainable and/or vested under an award on account of satisfaction of performance criteria may be reduced by the Compensation Committee on the basis of such further considerations as the Compensation Committee, in its sole discretion, determines.

Transferability

Unless otherwise determined by the Compensation Committee, awards granted under the 2005 Plan are not transferable except by will or the laws of descent and distribution. The Compensation Committee will have sole discretion to permit the transfer of an award.

Administration

The Compensation Committee, which is made up entirely of independent directors, administers the 2005 Plan. The Compensation Committee determines who receives awards, determines the number of shares covered thereby, and, subject to the terms and limitations expressly set forth in the 2005 Plan, establishes the terms, conditions and other provisions of the grants. The Compensation Committee may interpret the 2005 Plan and establish, amend and rescind any rules relating to the 2005 Plan. The Compensation Committee may delegate to an executive officer or officers the authority to grant awards under the 2005 Plan to employees who are not officers, and to consultants or advisors, in accordance with such guidelines as the Compensation Committee shall set forth at any time or from time to time

Amendments

The Board of Directors may at any time terminate the 2005 Plan or make such modifications of the 2005 Plan as it shall deem advisable; provided that the Board of Directors will not modify or amend the 2005 Plan without stockholder approval to the extent required by the Tax Code or the rules of Nasdaq or the SEC. In addition, the Board of Directors will not amend the provisions prohibiting repricing or reload grants without shareholder approval. Unless the Board otherwise expressly provides at the time of grant, no amendment of the 2005 Plan shall affect the terms of any Award outstanding on the date of such amendment.

On February 14, 2006, the Board of Directors approved the Plan Amendment to increase (i) the aggregate number of shares we are authorized to issue under the 2005 Plan by 5.4 million shares and (ii) the aggregate number of shares of Common Stock issuable pursuant to restricted stock, restricted stock units, performance units or stock grants by 500,000 shares of Common Stock. We are now requesting that the stockholders vote to approve the Plan Amendment to increase the number of shares reserved for issuance under the 2005 Plan by 5.4 million shares and to increase the number of shares issuable pursuant to restricted stock, restricted stock units, performance units or stock grants by 500,000 shares.

Adjustments

In the event of a stock dividend, recapitalization, stock split, combination of shares, extraordinary dividend of cash or assets, reorganization, or exchange of Citrix's Common Stock or any similar event affecting Citrix's Common Stock, the Compensation Committee shall adjust the number and kind of shares available for grant under the 2005 Plan, and subject to the various limitations set forth in the 2005 Plan, the number and kind of shares subject to outstanding awards under the 2005 Plan, and the exercise or settlement price of outstanding stock options and of other awards.

Acquisitions

Effective upon the consummation of an Acquisition (as defined below), the Compensation Committee or the board of directors of the surviving or acquiring entity, shall, as to outstanding awards (on the same basis or on different bases as the Compensation Committee shall specify), make appropriate provision for the continuation of such awards by the Company or the assumption of such awards by the surviving or acquiring entity and by substituting on an equitable basis for the shares then subject to such awards either (i) the consideration payable with respect to the outstanding shares of Citrix's Common Stock in connection with the Acquisition (net of any exercise price of such awards), (ii) shares of stock of the surviving or acquiring entity or (iii) such other securities or other consideration as the Compensation Committee deems appropriate, the fair market value of which shall not materially differ from the fair market value of the shares of Common Stock subject to such awards immediately preceding the Acquisition. In the event such surviving or acquiring entity (if any) does not assume or substitute awards, such awards shall become exercisable in full prior to the consummation of the Acquisition at such time and on such conditions as the Compensation Committee determines, and if such awards are not exercised prior to the consummation of the Acquisition, they shall terminate at such time as determined by the Compensation Committee.

In addition to or in lieu of the foregoing, with respect to outstanding options, the Compensation Committee may, upon written notice to the affected optionees, provide that one or more options then outstanding must be exercised, in whole or in part, within a specified number of days of the date of such notice, at the end of which period such options shall terminate, or provide that one or more options then outstanding, in whole or in part, shall be terminated in exchange for a cash payment equal to the excess of the fair market value for the shares subject to such options over the exercise price thereof. Unless otherwise determined by the Compensation Committee, and assuming there is no acceleration of vesting as provided above, any repurchase rights or other rights of the Company that relate to an option or other award shall continue to apply to consideration, including cash, that has been substituted, assumed or amended for an option or other award. The Company may hold in escrow all or any portion of any such consideration in order to effectuate any continuing restrictions.

Notwithstanding anything to the contrary in the 2005 Plan, the Compensation Committee may provide that the vesting of any or all awards shall accelerate upon an Acquisition. In such case, such awards shall become exercisable in full prior to the consummation of the Acquisition at such time and on such conditions as the Compensation Committee determines, and if such awards are not exercised prior to the consummation of the Acquisition, they shall terminate at such time as determined by the Compensation Committee.

Notwithstanding anything to the contrary in the 2005 Plan, in the event of an involuntary termination of services for any reason other than death, disability or Cause (as defined in the 2005 Plan) within 6 months following the consummation of an Acquisition, any awards assumed or substituted in an Acquisition which are subject to vesting conditions and/or a right of repurchase in favor of the Company or a successor entity, shall accelerate in full. All such accelerated awards shall be exercisable for a period of one year following termination, but in no event after expiration date of such award.

In the event of an Acquisition while a participant is a non-employee director, the vesting of any and all awards held by such participant shall become exercisable in full prior to the consummation of the Acquisition at such time and on such conditions as the Compensation Committee determines, and if such awards are not exercised prior to the consummation of the Acquisition, they shall terminate at such time as determined by the Compensation Committee.

Under the 2005 Plan, an "Acquisition" is defined as a (i) merger or consolidation of the Company into another person (*i.e.*, which merger or consolidation the Company does not survive), (ii) the sale, transfer, or other disposition of all or substantially all of the Company's assets to one or more other persons in a single transaction or series of related transactions (other than in a spin-off or similar transaction), unless, in the case of foregoing clauses (i) and (ii), securities possessing more than 50% of the total combined voting power of the survivor's or acquiror's outstanding securities (or the securities of any parent thereof) are held by a person or persons who held securities possessing more than 50% of the total combined voting power of the Company's outstanding securities immediately prior to that transaction, (iii) any person or group directly or indirectly acquires beneficial ownership of securities possessing more than 30% of the total combined voting power of the Company's outstanding securities pursuant to a tender or exchange offer made directly to the Company's stockholders that the Board does not recommend the stockholders accept, or (iv) any other acquisition of the business of the Company in which a majority of the Board votes in favor of a decision that an Acquisition has occurred.

U.S. Tax Consequences

Stock option grants under the 2005 Plan may be incentive stock options designed to qualify under Section 422 of the Tax Code or may be non-qualified stock options governed by Section 83 of the Tax Code. Generally, no federal income tax is payable by a participant upon the grant of a stock option and no deduction is taken by the Company. Under current tax laws, if a participant exercises a non-qualified stock option, he or she will have taxable income equal to the difference between the market price of the Common Stock on the exercise date and the stock option grant price. Citrix will be entitled to a corresponding deduction on its income tax return. A participant will have no taxable income upon exercising an incentive stock option after the applicable holding periods have been satisfied (except that alternative minimum tax may apply), and Citrix will receive no deduction when an incentive stock option is exercised. The treatment for a participant of a disposition of shares acquired through the exercise of an option depends on how long the shares were held and on whether the shares were acquired by exercising an incentive stock option or a non-qualified stock option. Citrix may be entitled to a deduction in the case of a disposition of shares acquired under an incentive stock option before the applicable holding periods have been satisfied.

Restricted stock and restricted stock units are also governed by Section 83 of the Tax Code. Generally, no taxes are due when the award is initially made, but the award becomes taxable when it is no longer subject to a "substantial risk of forfeiture" (*i.e.*, becomes vested or transferable). Income tax is paid on the value of the stock at ordinary income rates when the restrictions lapse, and then at capital gain rates when the shares are sold. Units are not taxable until they are settled in stock. Income tax is paid on the value of the stock at ordinary income rates when the stock is issued to the participant.

As described above, awards granted under the 2005 Plan may qualify as "performance-based compensation" under Section 162(m) in order to preserve federal income tax deductions by Citrix with respect to annual compensation required to be taken into account under Section 162(m) that is in excess of \$1,000,000 and paid to

one of Citrix's five most highly compensated executive officers. To so qualify, options and other awards must be granted under the 2005 Plan by a committee consisting solely of two or more "outside directors" (as defined under Section 162 regulations) must be granted at fair market value and must satisfy the 2005 Plan's limit on the total number of shares that may be awarded to any one participant during any calendar year. In addition, for awards other than options to qualify, the grant, issuance, vesting or retention of the award must be contingent upon satisfying one or more of the performance criteria described above, as established and certified by a committee consisting solely of two or more "outside directors."

For a discussion of Citrix's executive compensation philosophy, see "Report of the Compensation Committee of the Board of Directors on Executive Compensation."

Recommendation of the Board

**THE BOARD OF DIRECTORS RECOMMENDS THAT YOU VOTE "FOR"
THE AMENDMENT TO THE CITRIX SYSTEMS, INC.
2005 EQUITY INCENTIVE PLAN.**

PROPOSAL 3
RATIFICATION OF APPOINTMENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTANTS

The Audit Committee of the Board of Directors has retained the firm of Ernst & Young, independent registered public accountants, to serve as independent registered public accountants for the fiscal year ending December 31, 2006. Ernst & Young has served as the Company's independent registered public accounting firm since 1989. The Audit Committee reviewed and discussed its selection of, and the performance of, Ernst & Young for the fiscal year ending December 31, 2005. As a matter of good corporate governance, the Audit Committee has determined to submit its selection to stockholders for ratification. If the selection of registered public accountants is ratified, the Audit Committee in its discretion may select a different independent registered public accounting firm at any time during the year if it determines that such a change would be in the best interests of the Company and its stockholders.

The Audit Committee of the Board of Directors has implemented procedures under the Company's Audit Committee Pre-Approval Policy for Audit and Non-Audit Services (the "Pre-Approval Policy") to ensure that all audit and permitted non-audit services to be provided to the Company have been pre-approved by the Audit Committee. Specifically, the Audit Committee pre-approves the use of Ernst & Young for specific audit and non-audit services, within approved monetary limits. If a proposed service has not been pre-approved pursuant to the Pre-Approval Policy, then it must be specifically pre-approved by the Audit Committee before it may be provided by Ernst & Young. Any pre-approved services exceeding the pre-approved monetary limits require specific approval by the Audit Committee. All of the audit-related, tax and all other services provided by Ernst & Young to the Company in 2005 and 2004 were approved by the Audit Committee by means of specific pre-approvals or pursuant to the procedures contained in the Pre-Approval Policy. All non-audit services provided in 2005 and 2004 were reviewed with the Audit Committee, which concluded that the provision of such services by Ernst & Young was compatible with the maintenance of that firm's independence in the conduct of its auditing functions. For additional information concerning the Audit Committee and its activities with Ernst & Young, see "The Board of Directors and its Committees" and "Report of the Audit Committee of the Board of Directors."

Representatives of Ernst & Young attended all in-person meetings of the Audit Committee in 2005. We expect that a representative of Ernst & Young will attend the Annual Meeting, and the representative will have an opportunity to make a statement if he or she so desires. The representative will also be available to respond to appropriate questions from stockholders.

Recommendation of the Board

THE BOARD OF DIRECTORS RECOMMENDS THAT YOU VOTE "FOR" THE RATIFICATION OF ERNST & YOUNG AS CITRIX'S INDEPENDENT REGISTERED PUBLIC ACCOUNTANTS FOR 2006.

OTHER MATTERS

The Board of Directors knows of no other matters to be brought before the Annual Meeting. If any other matters are properly brought before the Annual Meeting, the persons appointed in the accompanying proxy intend to vote the shares represented thereby in accordance with their best judgment on such matters, under applicable laws.

STOCKHOLDER PROPOSALS

Proposals of stockholders intended for inclusion in the Proxy Statement to be furnished to all stockholders entitled to vote at the 2007 Annual Meeting of Stockholders of the Company, pursuant to Rule 14a-8 promulgated under the Exchange Act by the SEC, must be received at the Company's principal executive offices not later than December 15, 2006. Under the Company's By-Laws, stockholders who wish to make a proposal at the 2007 Annual Meeting—other than one that will be included in the Company's Proxy Statement—must notify the Company between November 15, 2006 and December 15, 2006. If a stockholder who wishes to present a proposal fails to notify the Company by December 15, 2006 and such proposal is brought before the 2007 Annual Meeting, then under the SEC's proxy rules, the proxies solicited by management with respect to the 2007 Annual Meeting will confer discretionary voting authority with respect to the stockholder's proposal on the persons selected by management to vote the proxies. If a stockholder makes a timely notification, the proxies may still exercise discretionary voting authority under circumstances consistent with the SEC's proxy rules. In order to curtail controversy as to the date on which a proposal was received by the Company, it is suggested that proponents submit their proposals by Certified Mail, Return Receipt Requested, to Citrix Systems, Inc., 851 West Cypress Creek Road, Fort Lauderdale, FL 33309, Attention: Secretary.

EXPENSES AND SOLICITATION

The cost of solicitation of proxies will be borne by the Company and, in addition to soliciting stockholders by mail through its regular employees, the Company may request banks, brokers and other custodians, nominees and fiduciaries to solicit their customers who have stock of the Company registered in the names of a nominee and, if so, will reimburse such banks, brokers and other custodians, nominees and fiduciaries for their reasonable out-of-pocket costs. Solicitation by officers and employees of the Company may also be made of some stockholders in person or by mail, telephone, e-mail or telegraph following the original solicitation. The Company has retained The Altman Group, a proxy solicitation firm, to assist in the solicitation of proxies for a fee of approximately \$8,500, plus reimbursement of expenses.
