Forward-looking Statements

This presentation contains forward-looking statements within the meaning of the federal securities laws. Forward-looking statements include statements relating to our financial guidance for the first quarter of 2022 and key drivers thereof; our opportunity; the impact of our “Right to Win” and other growth strategies, including our strategies for integrating our “House of Brands” marketplaces, marketing and product initiatives, and investments and other levers of growth on our business and operating results, including future GMS and revenue growth; our ability to attract, engage, and retain buyers and sellers; our plans for newly announced transaction fee increase and plans for marketplace investments; strategic investments or acquisitions and the potential benefits thereof; our intended environmental and social impacts; the uncertain macroeconomic environment and impacts that the COVID-19 pandemic may have on our business, strategy, operating results, key metrics, financial condition, profitability, and cash flows; changes in overall levels of consumer spending and e-commerce generally; and volatility in the global economy. Forward-looking statements include all statements that are not historical facts. In some cases, forward-looking statements can be identified by terms such as “aim,” “anticipate,” “believe,” “could,” “enable,” “estimate,” “expect,” “goal,” “intend,” “may,” “outlook,” “plan,” “potential,” “target,” “will,” or similar expressions and derivative forms and/or the negatives of those words.

Forward-looking statements involve substantial risks and uncertainties that may cause actual results to differ materially from those that we expect. These risks and uncertainties include: (1) our ability to continue our rapid growth; (2) risks related to the ongoing COVID-19 pandemic, which continues to impact our business and results of operations in numerous volatile and unpredictable ways, as well as risks of reversal of the shift to e-commerce when the pandemic abates; (3) the fluctuation of our quarterly operating results; (4) our failure to meet our publicly announced guidance or other expectations; (5) our ability to successfully execute on our business strategy or if our strategy proves to be ineffective; (6) our ability to attract and retain active and engaged communities of sellers and buyers; (7) macroeconomic events that are outside of our control; (8) our ability to recruit and retain employees; (9) the importance to our success of the trustworthiness of our marketplaces and the connections within our communities; (10) our ability to enhance our current offerings and develop new offerings to respond to the changing needs of sellers and buyers; (11) the effectiveness of our marketing efforts; (12) the effectiveness of our mobile solutions for sellers and buyers; (13) our ability to expand our business in our core geographic markets; (14) regulation in the area of privacy and protection of user data; (15) our dependence on third-party payment providers; (16) our ability to successfully integrate the Depop and Elo7 acquisitions and execute on our “House of Brands” strategy; (17) acquisitions that may prove unsuccessful or divert management attention; and (18) the potential misuse or disclosure of sensitive information about members of our communities and the potential for cyber-attacks. These risks and uncertainties are more fully described in our filings with the Securities and Exchange Commission, including in the section entitled “Risk Factors” in our Annual Report on Form 10-K for the year ended December 31, 2021 and subsequent reports that we file with the Securities and Exchange Commission. Moreover, we operate in a very competitive and rapidly changing environment. New risks emerge from time to time. It is not possible for our management to predict all risks, nor can we assess the impact of all factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements we may make. In light of these risks, uncertainties and assumptions, we cannot guarantee future results, levels of activity, performance, achievements, or events and circumstances reflected in the forward-looking statements will occur.

Forward-looking statements represent our beliefs and assumptions only as of the date hereof. We disclaim any obligation to update forward-looking statements.
We operate four values-aligned, non-commoditized and loved ecommerce brands that connect millions of passionate and creative buyers and sellers around the world.

Since 2019, our core Etsy marketplace has been transformed: becoming a ‘household’ name in core regions and >2.5X 2019 size; with a Right to Win strategy focused on gaining share of a very large and growing TAM.

Our goal is that all four marketplaces will benefit from shared expertise in product, marketing, technology, and customer support, so that the sum of the whole, over time, will equal more than its individual parts.

Our capital light business model allows for investments that we believe can enable long-term growth while also delivering strong profitability and operating cash flow.

Etsy’s leadership team is focused on delivering positive results for our business AND impact to our communities.
We operate four values-aligned, non-commoditized and loved ecommerce brands that connect millions of passionate and creative buyers and sellers around the world.
Etsy Inc.’s four marketplaces form a ‘House of Brands’ which stands for creativity, community and ‘special’

Our goal is that all four marketplaces will benefit from shared expertise in product, marketing, technology, and customer support, so that the sum of the whole, over time, will equal more than its individual parts.
Our brands are peer-to-peer marketplaces that connect millions of buyers and sellers.
Unique two-sided marketplace founded in 2013 on the principle that buying and selling musical instruments should be easy.

Reverb connects buyers and sellers of new, used, and vintage musical gear from all over the world, uniting music makers with the gear that inspires them.

- 847 thousand active buyers
- 210 thousand active sellers
- Over 65% of Reverb’s active sellers also bought on Reverb, and those that bought and sold gear spent 2X those that bought gear on Reverb but did not sell on Reverb
- 1.6 million listings
Dedicated to building the world’s most diverse and progressive home of fashion.

Depop is a place for anyone to discover and celebrate their style on their own terms and to feel good about their fashion choices by extending the lives of millions of garments

- Leading resale market position with the “Generation Z” consumer demographic
- Strong brand awareness in its core markets (United Kingdom and United States)
- ~26 million registered users
- ~3.7 million active buyers
- ~2.0 million active sellers
- ~60% of Depop sellers who made a sale in 2021 also made at least one purchase in 2021 which we believe shows the strong engagement of Depop’s user base
- ~16.6 million listings; ~90% of Depop’s GMS is in the apparel category

*Partial Year 2021 GMS contribution for Depop from July 12, 2021 (the date of acquisition).
Data as of year-end 2021
Known as the “Etsy of Brazil,” Elo7 specializes in custom and made-to-order merchandise

- ~55 thousand active sellers
- ~1.8 million active buyers
- ~9.9 million items for sale
- ~70% of Elo7’s GMS is from repeat buyers
- Over 40 retail categories, with a significant amount of GMS from "special event and life moment" categories

In 2021, Elo7’s top categories were paper and party supplies, housewares and home furnishings, baby and kids, apparel, weddings, and craft supplies

Elo7 is ranked as a top 10 e-commerce site in Brazil (according to Conversion Ecommerce Report in Brazil, April 2021), providing us with a strong local brand in the largest Latin American e-commerce region

*Partial Year 2021 GMS contribution for Elo7 from July 2, 2021 (the date of acquisition).
Data as of year-end 2021
We believe our marketplaces can all benefit from key elements such as...

- Analytical frameworks, product experiment and measurement approaches, and operating rhythms that prioritize resource allocation towards the most impactful outcomes, sophisticated search and discovery technology
- Compelling on-site customer experiences
- Efficient payment platforms
- Value-added seller services, such as advertising platforms and effective shipping options, strong brand and performance marketing capabilities and a commitment to investments that protect the marketplace
Our capital light business model allows for investments that we believe can enable long-term growth while also delivering strong profitability and operating cash flow
All Etsy marketplace brands share our capital light business model

- No planning future styles/trends
- No inventory management
- No manufacturing facilities
- No fulfillment centers
- Sellers share in marketing / promotion
- Loyal & engaged customer cohorts

- Prioritizing people
- Diversity, equity & inclusion
- Social innovation

Governance
Fostering a culture of ethics and accountability

- Responsible marketplace practices
- Thoughtful corporate governance
- Integrated ESG reporting
- Risk oversight & management
Etsy Inc. 2021 Environmental Impact Highlights

- We procured 100% renewable electricity for our operations.

- We ran a carbon neutral business, by investing in over 549,250 verified emissions reductions that protect forests, sponsor wind and solar farms, and help develop greener methods for producing auto parts.

- We have an ambitious Net Zero goal based on near- and long-term carbon reduction targets that are aligned with the science of climate change.

- We helped our U.S. sellers access and buy packaging made from certified responsibly sourced and 100% recycled materials that buyers can immediately recycle at home.
Etsy Inc. 2021 Social Impact Highlights

- Etsy continued to attract and retain world-class talent in 2021, with a keen focus on diversity. In 2021, Etsy, including Reverb, grew our leadership level employee population who identify as a member of an underrepresented community (Black, Latinx, or Native American; collectively, “URC”) by 41.7%, and from 8.6% to 9.4% of our overall leadership level employee population. Hires from URCs constituted 16.7% of U.S. Etsy.com hires in 2021. The percentage of U.S. Etsy.com employees who are from URCs has increased from 8.6% in 2018 to 12.9% in 2021.

- Balancing this growth in the diversity of our workforce with a renewed focus on inclusion has helped our values-driven company culture continue to thrive. This year we continued to make investments in our employee resource group program and launched a company-wide inclusion training program. We also helped creative entrepreneurs from economically disenfranchised communities benefit from the growth of digital commerce.
Etsy Inc. 2021 Governance Impact Highlights

- We believe that effective governance does not call for a one-size-fits all approach. We carefully consider our governance practices and tailor them to our business to promote the long-term interest of Etsy’s stockholders.

- In 2021, we expanded and refreshed our Board of Directors by appointing two new directors. We also updated certain Board of Directors’ practices to enhance oversight of cyber related risks.

- In addition, the trustworthiness of our marketplaces and the connections among our buyer and seller communities continue to be the cornerstones of Etsy’s business.
Appendix
In the above tables, each new buyer cohort includes the aggregate GMS from all buyers that made their first purchase on Etsy.com in the designated year. The GMS retention rate reflects the GMS purchased by each cohort as a percentage of the GMS purchased by that cohort in their initial year. Each buyer’s GMS is calculated from the date of their first purchase such that “Year 1” represents the GMS purchased by a buyer within 365 days of their first purchase. As a result, we do not yet have a full “Year 2” data set for the 2020 new buyer cohort, as buyers who bought later in 2020 have not had two years to age.

* Data represents a correction to an immaterial error in New Buyer Year 1 GMS data on page 13 of Etsy’s 2021 Annual Report on Form 10-K filed February 25, 2022.
Key factors impacting our Q1 22 Guidance

We anticipate that the key factors impacting Q1 GMS and revenue growth will be:

- Headwinds and tailwinds, including but not limited to the following macro factors including the shift between offline and online, economic environment, competitive dynamics, retail store closures and reopenings, government stimulus, inflationary factors, employment figures, weather events, and global supply chain and logistics challenges; and Etsy-specific factors including frequency and retention of buyer cohorts, and the year-over-year comparisons from a significant acceleration of growth in Q1 2021. Additional external factors that may offset some growth include: changes to sales taxes and VAT, regulatory changes, currency fluctuations, and the potential for geopolitical events and uncertainty that impact trade and mindshare, including, among other things, the ongoing COVID-19 pandemic and its impact on consumer behavior.
- Continued visit growth and conversion rate improvements driven by global product launches enhancing the buying experience.
- Incremental GMS, brand awareness and conversion rate improvements from marketing investments.
- Contribution of our recent acquisitions of Depop and Elo7, which aren’t reflected in the prior year and are expected to add incremental GMS and Revenue.

We anticipate that the key factors impacting our Q1 Adjusted EBITDA margin will be:

- Planned investments in product development, employees, technology infrastructure, and marketing, including investments in channels with more speculative and/or long-term returns.
- Our recent acquisitions of Depop and Elo7, which are both dilutive to Etsy, Inc.’s consolidated margin.

*These and other risks and uncertainties are more fully described in our filings with the SEC.
