## **WEC Energy Group reports second-quarter results**

MILWAUKEE – WEC Energy Group (NYSE: WEC) today reported net income of \$245.4 million, or 76 cents per share, for the second quarter of 2025 — up from \$211.3 million, or 67 cents per share, in last year's second quarter.

For the first six months of 2025, the company recorded net income of \$969.6 million, or \$3.02 per share — up from \$833.6 million, or \$2.64 per share, in the corresponding period a year ago.

Consolidated revenues totaled \$5.2 billion, up \$706.8 million from the first half of 2024.

“A warm start to the summer, steady execution of our capital plan and a continued focus on operating efficiency were major factors that shaped a strong quarter,” said Scott Lauber, president and CEO.

Retail deliveries of electricity – excluding the iron ore mine in Michigan’s Upper Peninsula — were up by 1.0 percent in the second quarter of 2025, compared to the second quarter last year.

Electricity consumption by small commercial and industrial customers was 0.6 percent higher. Electricity use by large commercial and industrial customers — excluding the iron ore mine — increased by 0.8 percent.

Residential electricity use rose by 1.6 percent.

On a weather-normal basis, retail deliveries of electricity during the second quarter of this year — excluding the iron ore mine — increased by 1.1 percent.

The company is reaffirming its 2025 earnings guidance of \$5.17 to \$5.27 per share. This assumes normal weather for the remainder of the year.

Earnings per share listed in this news release are on a fully diluted basis.
