Cautionary Statement Regarding Forward-Looking Information

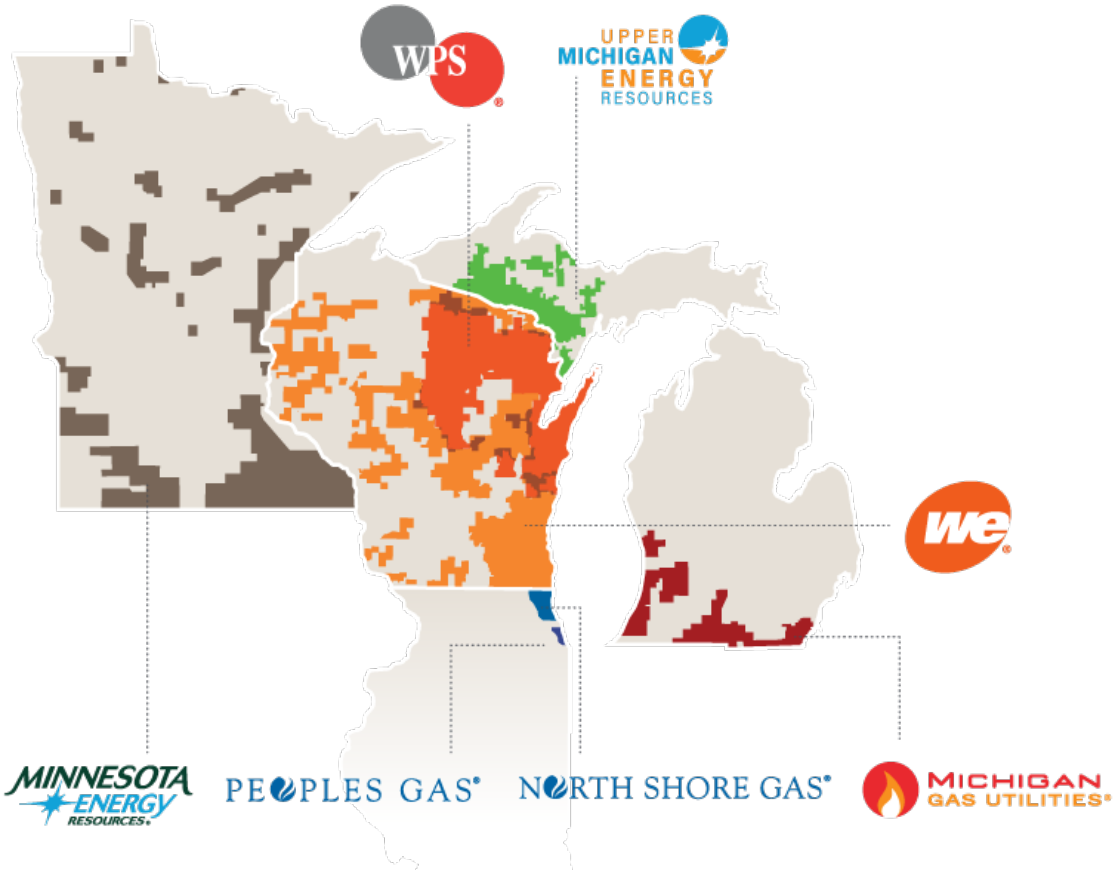

Much of the information contained in this presentation is forward-looking information based upon management's current expectations and projections that involve risks and uncertainties. Forward-looking information includes, among other things, information concerning earnings per share, rate case activity, earnings per share growth, cash flow, sources of revenue, dividend growth and dividend payout ratios, sales volumes, capital plans, construction costs, investment opportunities, corporate initiatives (including the ESG Progress Plan), rate base, and environmental matters (including emission reductions). Readers are cautioned not to place undue reliance on this forward-looking information. Forward-looking information is not a guarantee of future performance and actual results may differ materially from those set forth in the forward-looking information.

Factors that could cause actual results to differ materially from those contemplated in any forward-looking statements include, but are not limited to: general economic conditions, including business and competitive conditions in the company's service territories; timing, resolution and impact of rate cases and other regulatory decisions; the company's ability to continue to successfully integrate the operations of its subsidiaries; availability of the company's generating facilities and/or distribution systems; unanticipated changes in fuel and purchased power costs; key personnel changes; varying and severe weather conditions; continued industry restructuring and consolidation; continued advances in, and adoption of, new technologies that produce power or reduce power consumption; energy and environmental conservation efforts; electrification initiatives, mandates and similar efforts; the company's ability to successfully acquire and/or dispose of assets and projects and to execute on its capital plan; cyber-security threats and data security breaches; construction risks; equity and bond market fluctuations; changes in the company's and its subsidiaries' ability to access the capital markets; changes in tax legislation or our ability to use certain tax benefits and carryforwards; federal, state, and local legislative and regulatory changes, including changes to environmental standards, the enforcement of these laws and regulations and changes in the interpretation of regulations by regulatory agencies; supply chain disruptions; inflation; political or geopolitical developments, including impacts on the global economy, supply chain and fuel prices, generally, from the ongoing conflict between Russia and Ukraine; the impact from any new developments relating to the COVID-19 pandemic or any future health pandemics; current and future litigation and regulatory investigations, proceedings or inquiries; changes in accounting standards; the financial performance of the American Transmission Company as well as projects in which the company's energy infrastructure business invests; the ability of the company to obtain additional generating capacity at competitive prices; goodwill and its possible impairment; and other factors described under the heading "Factors Affecting Results, Liquidity and Capital Resources" in Management's Discussion and Analysis of Financial Condition and Results of Operations and under the headings "Cautionary Statement Regarding Forward-Looking Information" and "Risk Factors" contained in WEC Energy Group's Form 10-K for the year ended December 31, 2021, and in subsequent reports filed with the Securities and Exchange Commission. Except as may be required by law, WEC Energy Group expressly disclaims any obligation to publicly update or revise any forward-looking information.

WEC Energy Group

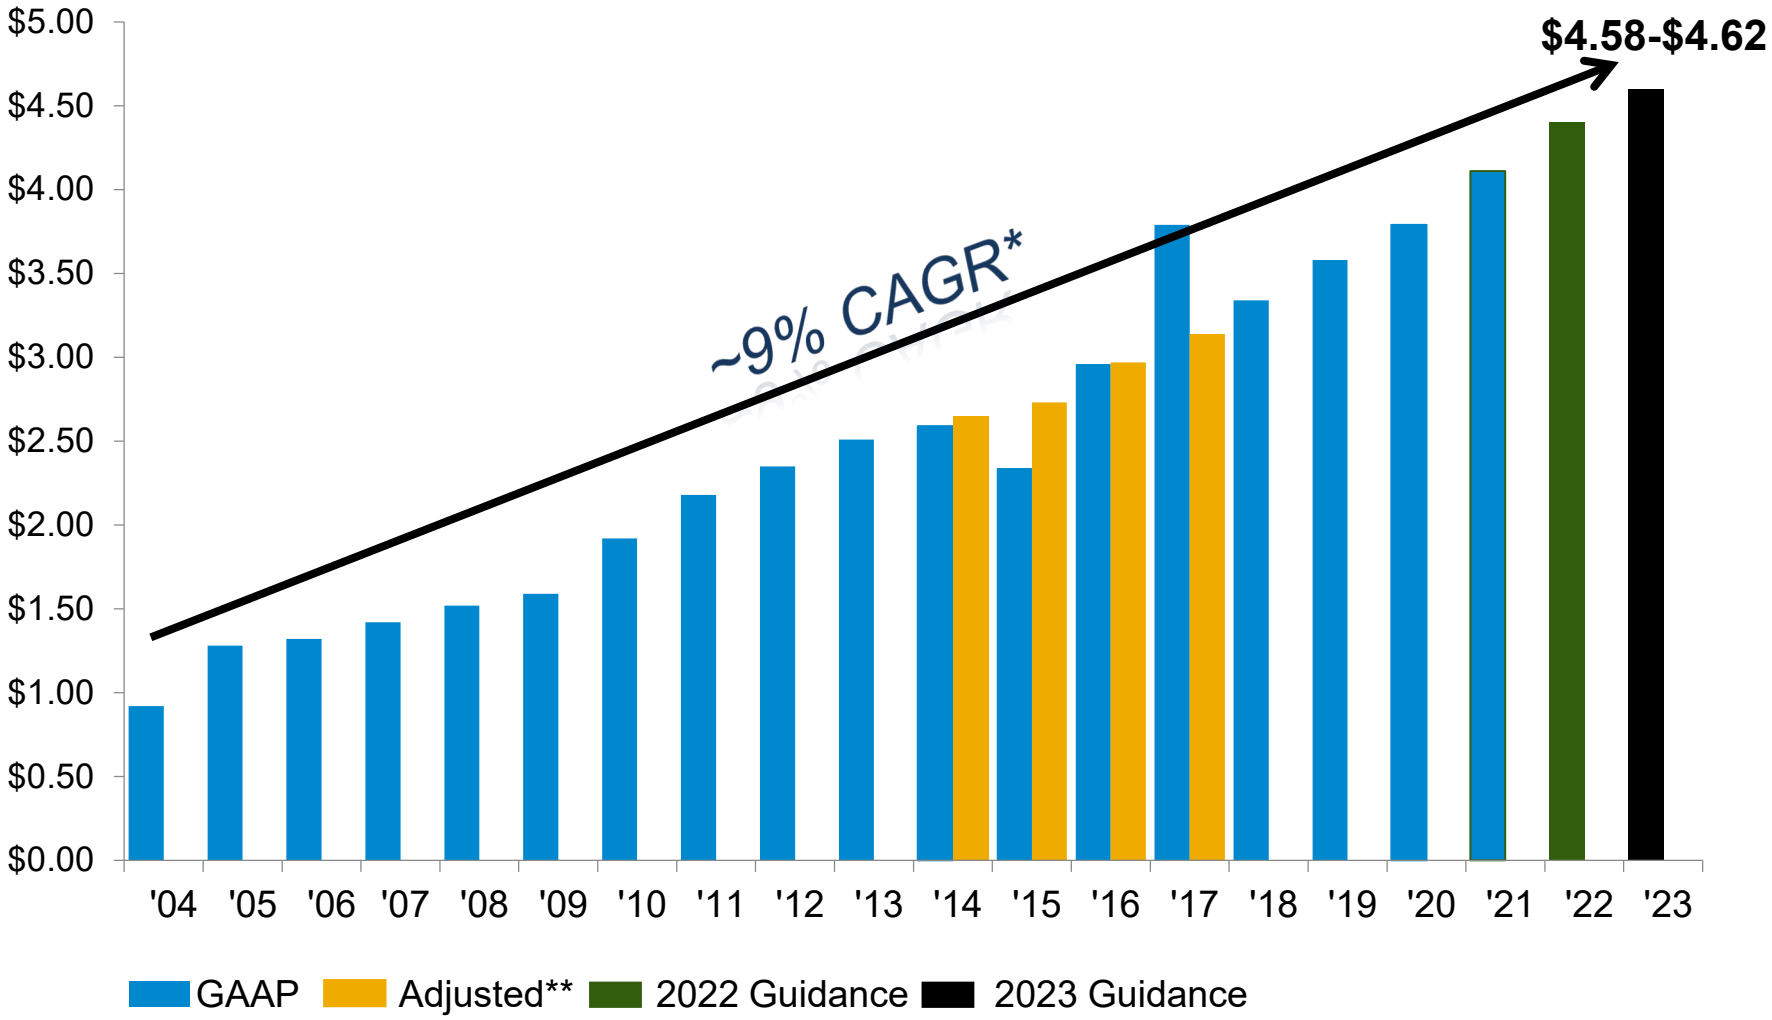

The Premier Energy Company in America's Heartland

- **$29.6** billion market cap*
- **4.6** million retail customers
- **60%** ownership of American Transmission Company
- **$40.8** billion of assets

* As of Dec. 31, 2022

A History of Quality Earnings Growth

* Estimated based on 2023 guidance midpoint of $4.60 per share.

** See Appendix for reconciliation of adjusted amounts to GAAP amounts.

Consistent Performance Over Time

The <u>only</u> utility to beat guidance every year for 18 years running.

Strong Dividend Growth Continues

The board of directors announced its plan to raise the dividend by **7.2%** to a new annual rate of **$3.12** per share*

Top decile dividend growth in industry**

*The board of directors announced Dec. 13, 2022 that it is planning to raise the quarterly dividend on the company's common stock to 78 cents per share for the first quarter of 2023, which would be equivalent to an annual rate of $3.12 per share.

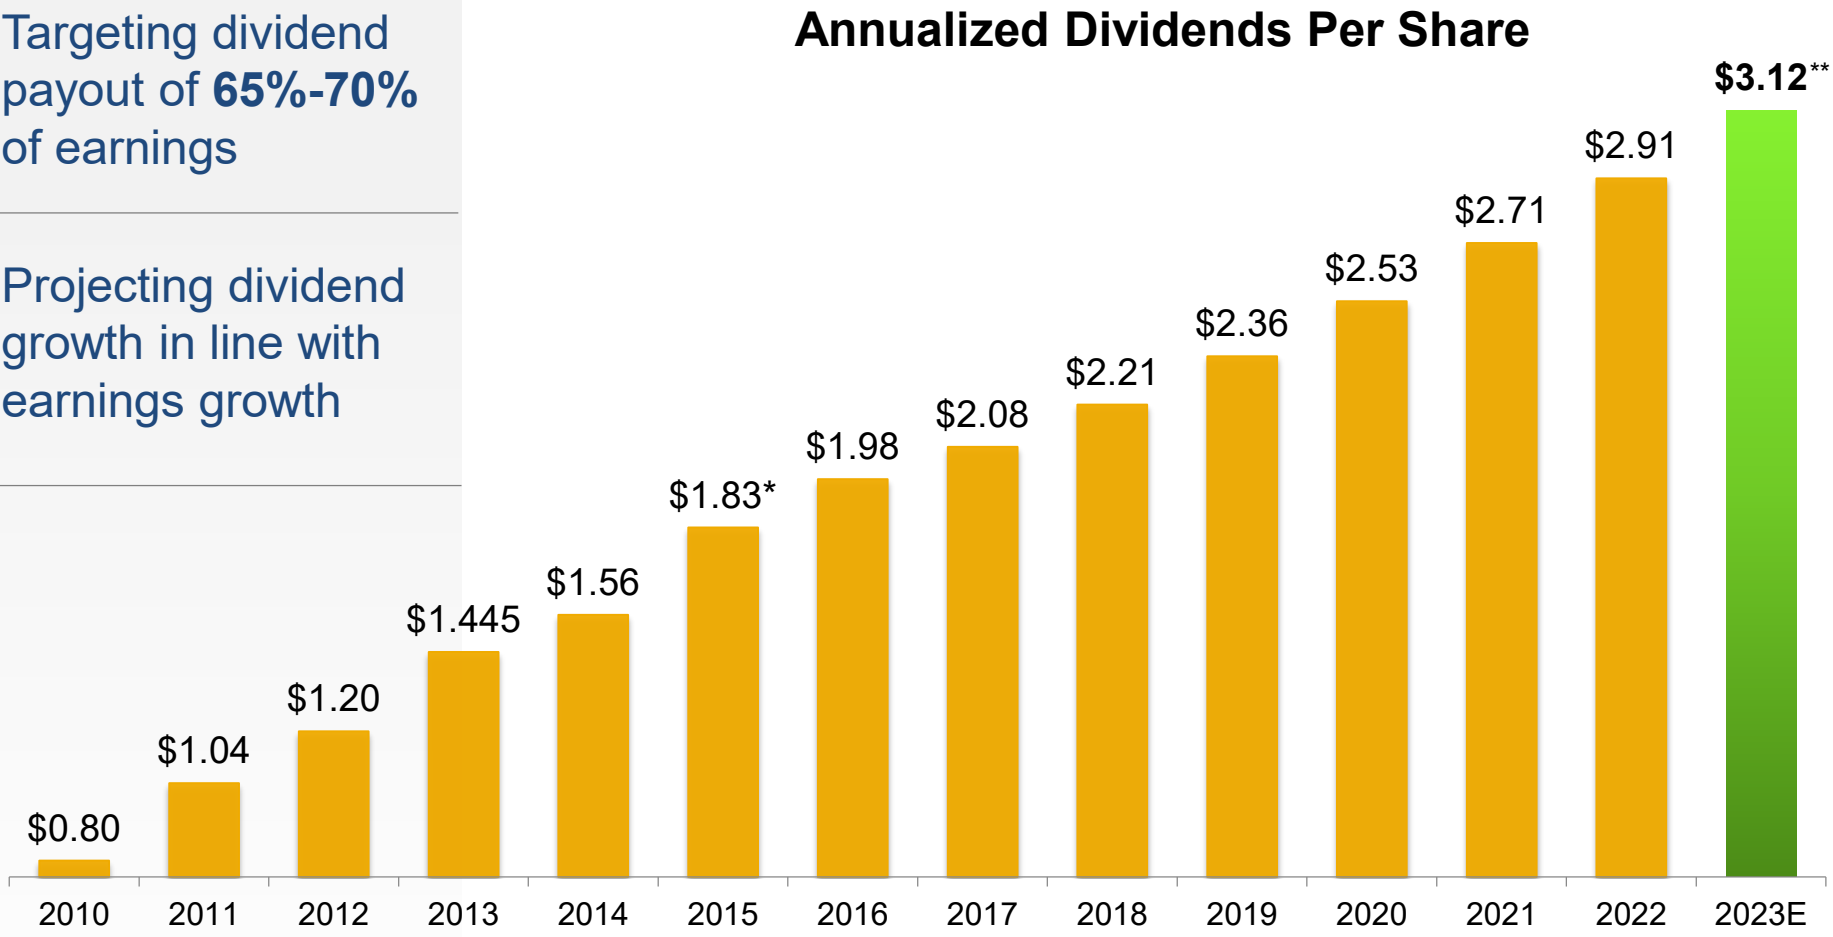

** Reflects dividends declared in 2022

WEC Energy Group

Strong Dividend Growth Continues

Targeting dividend payout of **65%-70%** of earnings

Projecting dividend growth in line with earnings growth

* Annualized based on 4th quarter 2015 dividend of $0.4575.

** The board of directors announced Dec. 13, 2022 that it is planning to raise the quarterly dividend on the company's common stock to 78 cents per share for the first quarter of 2023, which would be equivalent to an annual rate of $3.12 per share.

What's New?

December Final Order

Wisconsin Utilities - Rate Review

- Authorized Return on Equity to 9.80 percent
- Equity component of capital structure rises to 53 percent
- Earnings sharing mechanism:

	Treatment
9.80% – 9.95%	No sharing
>9.95% – 10.55%	50/50 sharing
>10.55%	100% customer

Illinois Rate Reviews

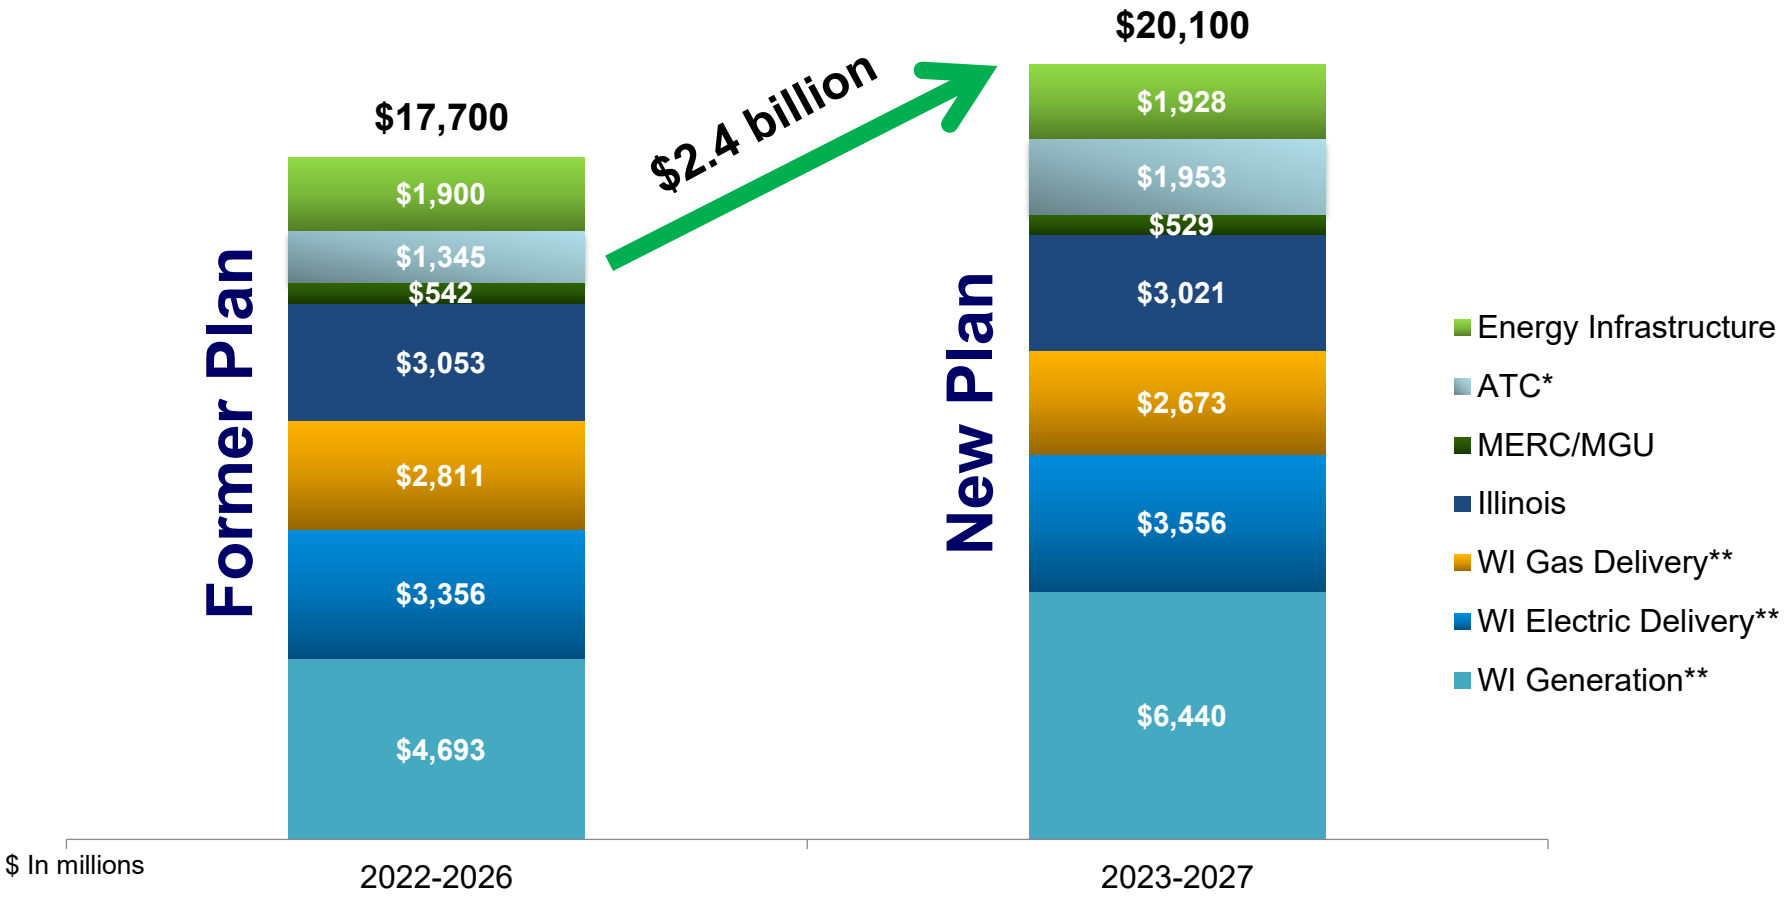

In January, Peoples Gas and North Shore Gas filed applications with the Illinois Commerce Commission:

	Peoples Gas	North Shore Gas
Current ROE	9.05%	9.67%
Current Equity Ratio	50.33%	51.58%
Proposed ROE	9.90%	9.90%
Proposed Equity Ratio	54.0%	54.0%
Forecasted 2024 Rate Base (in millions)	$ 4,782	$ 445
Customer Bill Impacts of the Proposed Adjustments in Base Rates	13.0%	7.8%
Order expected in Q4 2023 for new rates effective January 1, 2024		

- Peoples Gas will not seek an extension of the automatic bill adjustment rider – known as QIP.
- With natural gas prices expected to decline this year and next year, we project customer bills to stay largely flat as new rates take effect in 2024.
- Chicago home heating bills are below other major U.S. cities. That will continue with this filing.

ESG Progress Plan Supports 6.5% to 7.0% EPS Growth

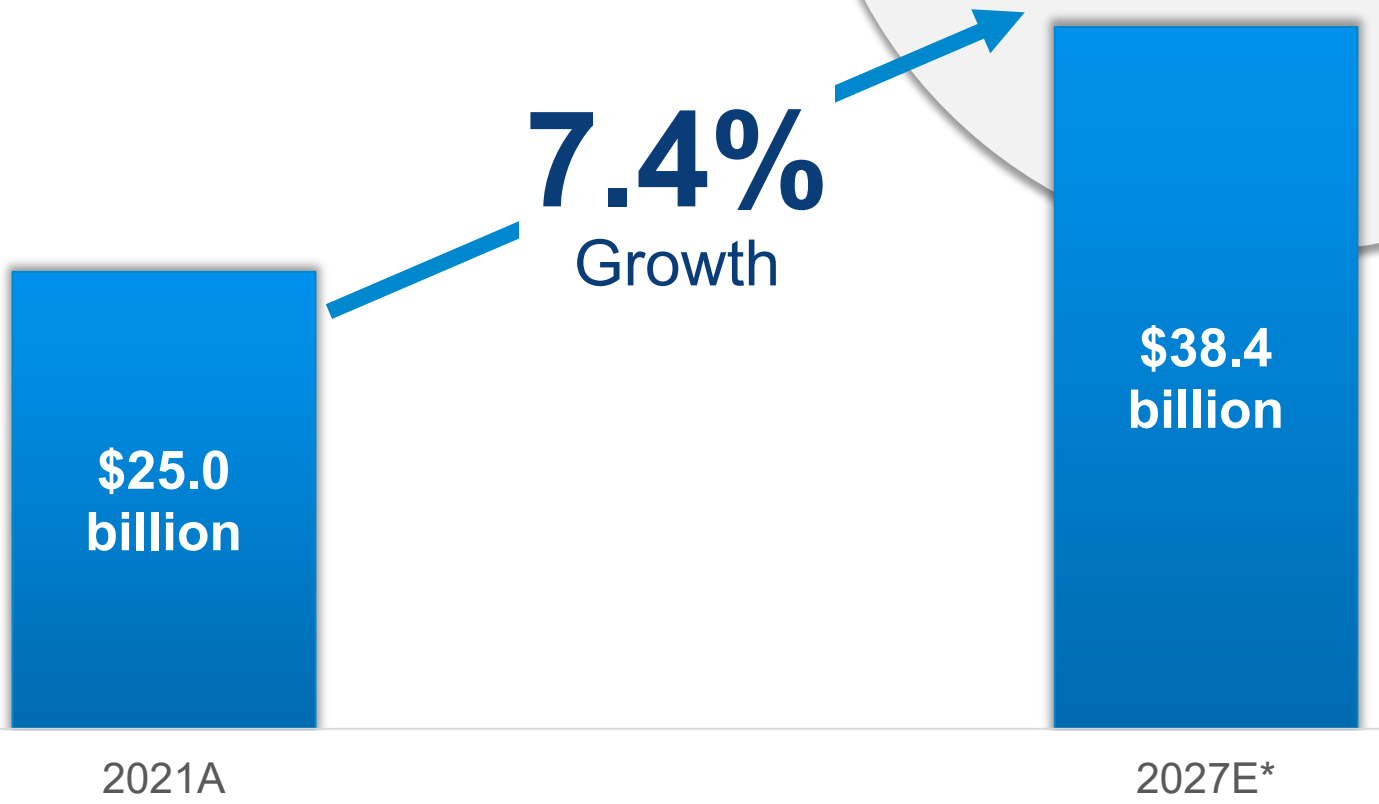

Increasing Five-Year Capital Plan by $2.4 Billion

*ATC is accounted for using the equity method; this represents WEC's portion of the investment
**Includes UMERC

Robust Growth in Asset Base

Expect long-term EPS growth of **6.5% to 7.0%** per year.

*Estimated year-end average asset base

2023-2027 Capital Plan

Investing $5.4 billion in Regulated Renewables

Plan to build and own nearly 3,300 MW – quadrupling our carbon-free generation

Solar

- 505 MW under construction
- 270 MW filed for approval
- Planning for additional 1,135 MW
- Qualifies for Production Tax Credits

Battery

- 167 MW received regulatory approval
- 149 MW filed for approval
- Planning for additional 400 MW
- Qualifies for Investment Tax Credits

Wind

- 82 MW received regulatory approval
- Planning for additional 585 MW
- Qualifies for Production Tax Credits

Plan to invest $1.9 Billion (2023-2027)

WEC Infrastructure Portfolio – Green and Growing

	Total Project Capacity (MW)	Investment (in millions)
Wind		
Upstream	200	$307
Bishop Hill III	132	166
Coyote Ridge	97	145
Blooming Grove	250	389
Tatanka Ridge	155	240
Jayhawk	190	282
Thunderhead	300	381
Sapphire Sky*	250	442E
Solar		
Maple Flats*	250	360E
Subtotal	**1,824**	**$2,712**
Additional Investment		1,126
Total		**$3,838**

*Investment is part of the 2023-2027 capital plan

Modernizing Our Gas-Fueled Generation Fleet

Retiring

- 200 MW of older, less-efficient gas generation expected
- Target: 2024

Building

Weston RICE units

- Received regulatory approval on March 31
- 128 MW
- Expected investment: $170 million
- Target in-service: 2023

Investing

West Riverside Energy Center combined-cycle

First Option: 100 MW*

- Expected investment: $91 million
- Target: 2023

Additional 100 MW option**

- Expected investment: $90 million
- Target: 2024

Whitewater combined-cycle

- Previously under power purchase agreement
- Received regulatory approval on Nov. 10, 2022
- Investment: $75 million
- Transaction closed Jan. 1, 2023

* Filed and pending regulatory approval
** Pending due diligence and regulatory approval

Exiting Coal

- Near-term retirements planned:
  - Oak Creek Units 5-6: 528 MW (May 2024)
  - Oak Creek Units 7-8: 611 MW (late in 2025)
  - Columbia Units 1-2: 300 MW (by June 1, 2026)
- Enhancing fuel flexibility (gas blending) at Oak Creek Power the Future units
- By the end of 2030, we expect to use coal only as a backup fuel
- We plan to eliminate coal as an energy source by the end of 2035

American Transmission Company

WEC portion of investment from 2023-2027: $2.0 billion

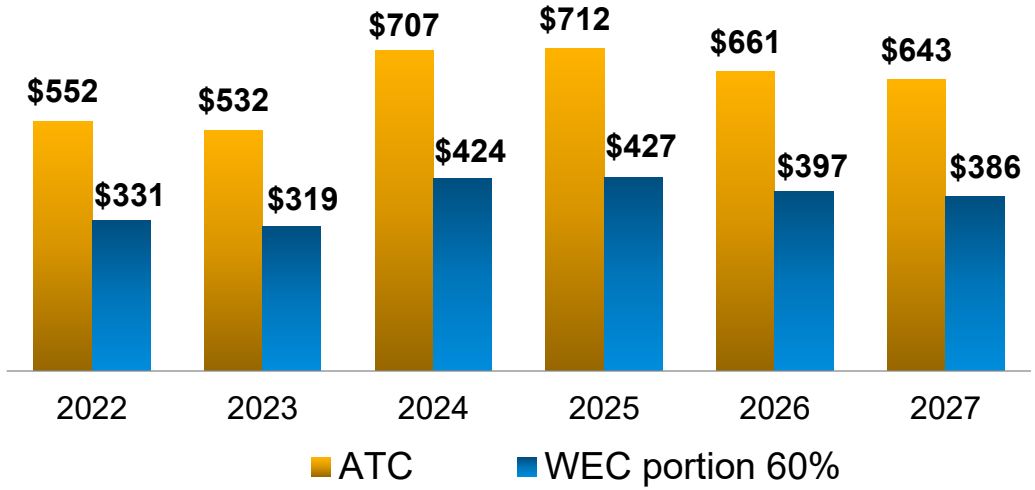

5-year (2023-2027) WEC projected capital investment:

- Ongoing ATC: $1.7 billion
- Tranche 1 (2025-2027): $0.3 billion

Future ATC Opportunity

- ATC's estimated investment in Tranche 1 is approximately $900 million (2022 dollars).
- MISO Tranche 2:
  - Discussions underway

Projected Capital Expenditures *(millions)*

Hydrogen Pilot Program

- Led a pilot program – first of its kind in the world - to test hydrogen as a fuel source for power generation
  - Partnered with the Electric Power Research Institute (EPRI)

  - Blended hydrogen with natural gas at one of our RICE units
- Initial findings indicate that all project measures met or exceeded expectations
  - Units performed efficiently

WEC Energy Group's *industry-leading* efforts could help create another viable option for decarbonizing the economy.

Carbon Reduction Goals – Electric Generation

Achieved and anticipated CO_2 reductions (net mass)*

Reduction goals:

60%
below 2005 levels by the end of 2025

80%
below 2005 levels by the end of 2030

Net carbon neutral
by 2050

We have established ambitious greenhouse gas reduction goals for our electric generating fleet, aligned with or surpassing global emissions pathways aimed at limiting warming to 1.5°C.

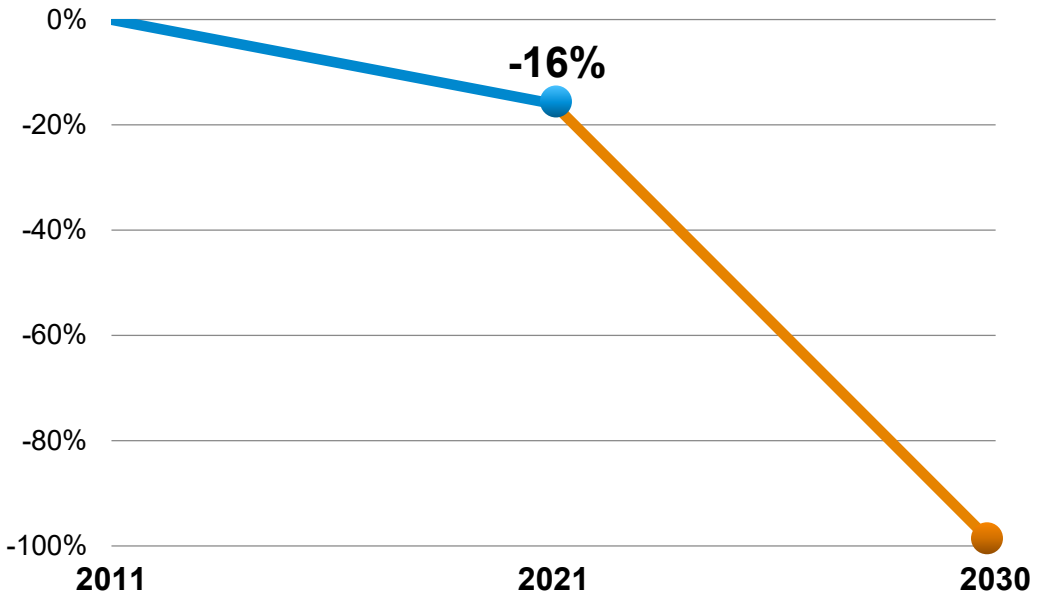

*Includes projection of potential carbon offsets by 2050

Our ESG Progress Plan

Methane Reduction

Achieved* and anticipated methane emission reduction from natural gas distribution. Aligns with the effort to limit warming to 1.5°C.

Goal:

Net zero

by the end of 2030**

Use of Renewable Natural Gas (RNG) will contribute significantly to our goal

* Represents a decrease in the rate of methane emissions, per mile, from the natural gas distribution lines in our network from a 2011 baseline.

** This goal applies to emissions from WEC Energy Group natural gas distribution companies calculated in accordance with EPA's 40 Code of Federal Regulations Part 98, Subpart W reporting rule.

Regional Economy

Powering Industry Leaders in our Region

Wisconsin Segment

Economic Growth Driving Longer-Term Sales Forecast

Sales Growth Forecast

(weather-normalized)

Year-Over-Year

	2025-2027
Electric	0.7%-1.0%
Gas	0.7%-1.0%

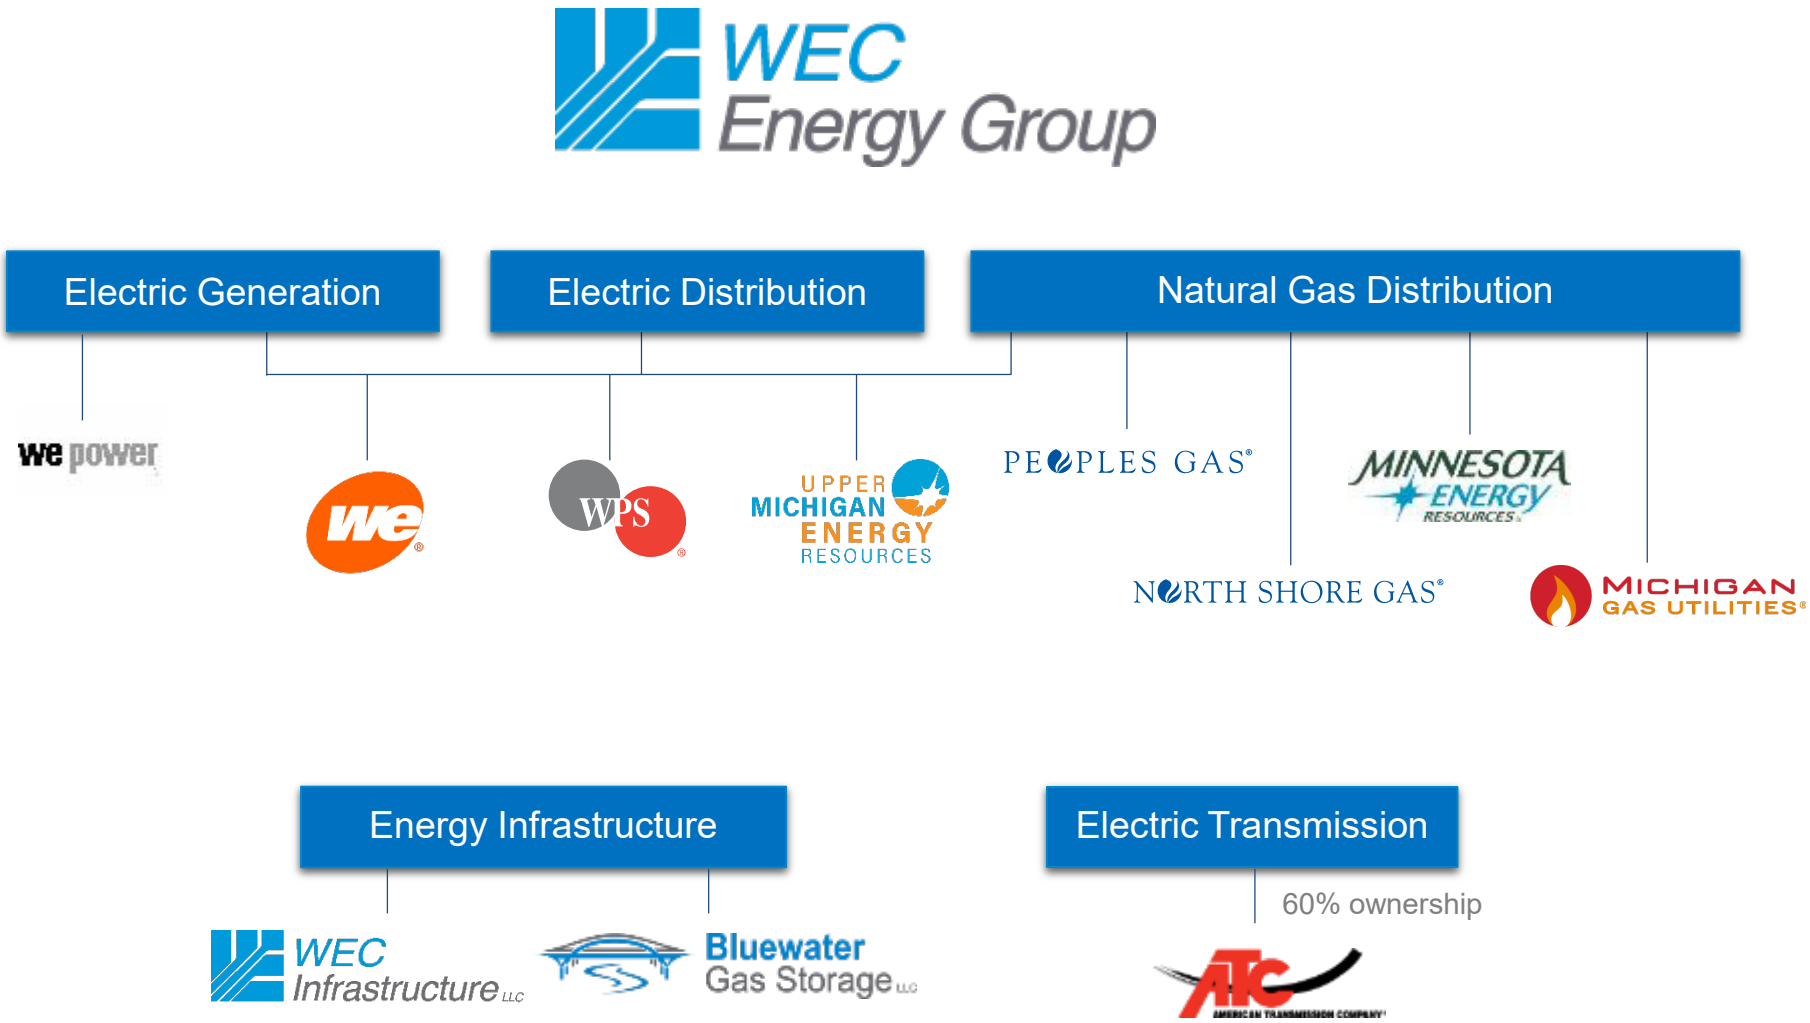

Key Takeaways for WEC Energy Group

- Track record of top decile performance among regulated utilities
- Industry leading earnings quality
- ESG Progress Plan drives premium EPS growth of 6.5% to 7.0%
  - No need to issue equity through forecast period
  - 100% of capital allocated to regulated businesses or contracted renewables
  - Dividend growth projected to be in line with earnings growth
- Aggressive environmental goals in place
  - By the end of 2030, we expect to use coal only as a backup fuel
  - Exit from coal planned by the end of 2035
- Poised to deliver among the best risk-adjusted returns in the industry

Inflation Reduction Act

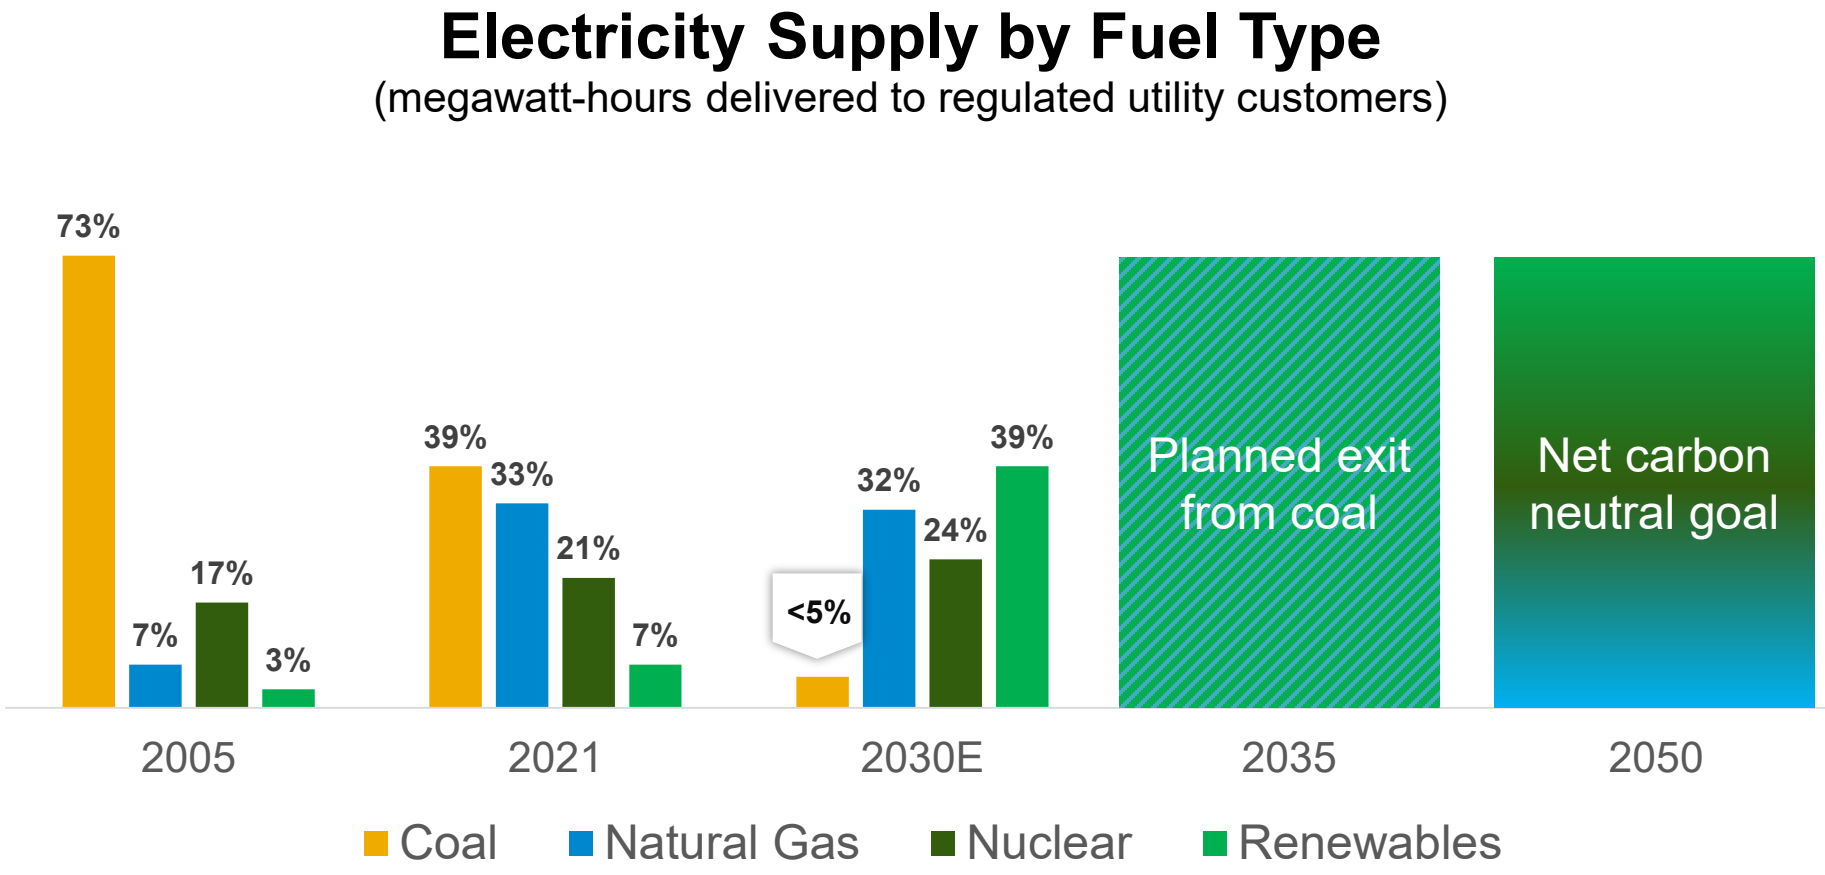

Customer Benefit and Investment Opportunity

- Extension of Production Tax Credits (PTC) and Investment Tax Credits (ITC)
- PTC option for solar projects
  - Potential opportunities at WEC infrastructure segment
- ITC for stand-alone electric storage projects
- Tax Credit “transferability” likely to provide additional options for monetization
- Credit positive
- At WEC, no material impact expected from alternative minimum tax

Commitment to ESG

Carbon Goals	Reduce carbon dioxide emissions from electric generation 60% by the end of 2025 and 80% by the end of 2030 – both from a 2005 baseline. Long-term goal of net-zero carbon emissions from our generating fleet by 2050
Exit from Coal	Planned exit from coal by the end of 2035
Methane Reduction Goal	Targeting net-zero methane emissions from distribution by the end of 2030
$5.4 billion	Planned utility renewable investments (2023-2027)
$1.9 billion	Planned investment in contracted energy infrastructure (2023-2027)
$20 million	Contributed by our companies and foundations to nonprofit organizations in 2021
$270.3 million	Spent with certified minority-, women-, service disabled- and veteran-owned businesses in 2021
$123.4 million	Spent on energy efficiency and conservation in 2021

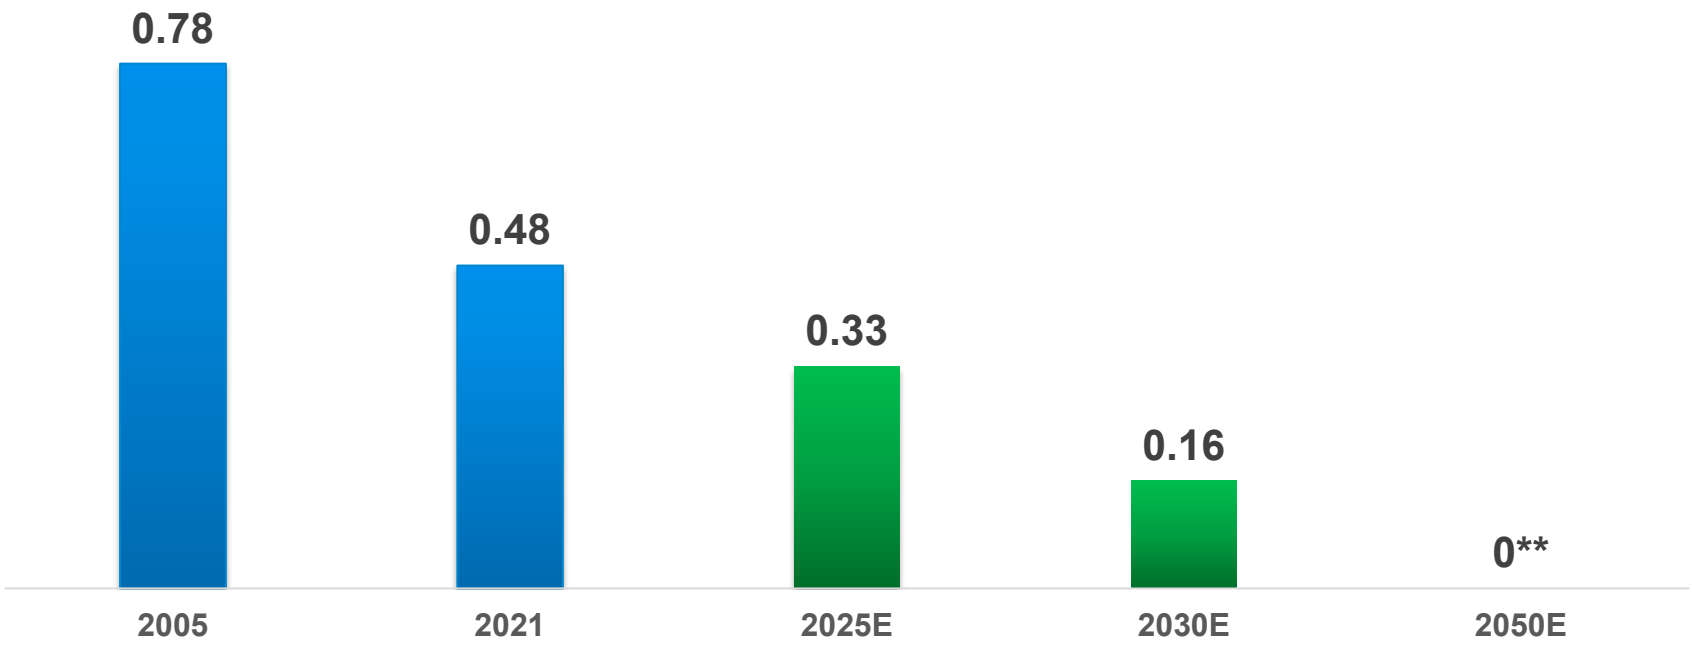

Exiting Coal

Reducing Greenhouse Gas Emissions

Greenhouse gas intensity*

(metric tons CO_2/MWh)

*Includes owned electric generation, purchased power and WEC Infrastructure (WECI). The environmental attributes of the WECI renewable facilities are or may be the property of third parties. As such, these third parties are solely entitled to the reporting rights and ownership of the environmental attributes such as renewable energy credits, offsets, allowances and the avoided emissions of greenhouse gases.

**Includes projection of potential carbon offsets by 2050.

Plan to invest $5.4 Billion (2023-2027)

Investment in Regulated Renewables

Target	Project	Utility	WEC Ownership[1]	Expected WEC Investment ($M)	WEC Capacity (MWs)
In-Service	Two Creeks Solar Project	WPS	66.7%	$130	100
	Badger Hollow I Solar Park			130	100
1st Half 2023	Badger Hollow II Solar Park	WEPCO		151	100
Early 2023	Red Barn Wind Park	WPS	90%	160	82
2023	Paris Solar-Battery Park[3]	WEPCO and WPS		390	279
2024	Darien Solar-Battery Park[3]			400	293
2025	Koshkonong Solar-Battery Park[2,3]			585	419

2023-2027 Plan

Solar Total
1,910 MW

Battery Storage Total
716 MW

Wind Total
667 MW

Grand Total
3,293 MW

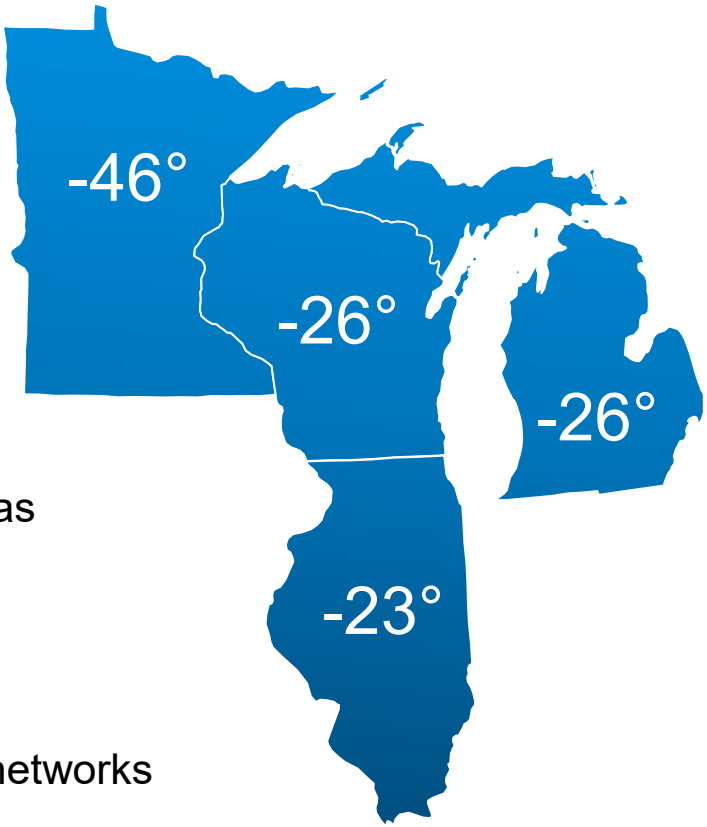

[1] Madison Gas & Electric will own a minority interest at each site
[2] Projects seeking PSCW approval
[3] Battery storage timing to be determined

Infrastructure Investment Summary

Project	Developer	Investment	Offtake Agreement	WEC Commercial Operations	Total Project Capacity
Bishop Hill III Wind Energy Center	Invenergy	$166M for 90% ownership	WPPI Energy 22 years	8/31/18	132 MW
Upstream Wind Energy Center	Invenergy	$307M for 90% ownership	Affiliate of Allianz 10 years	1/10/19	200 MW
Coyote Ridge Wind Farm	Avangrid Renewables	$145M for 80% ownership and 99% of tax benefits	Google Energy LLC 12 years	12/20/19	97 MW
Blooming Grove Wind Farm	Invenergy	$389M for 90% ownership	Verizon and Saint-Gobain North America 12 years	12/8/20	250 MW
Tatanka Ridge Wind Farm	Avangrid Renewables	$240M for 85% ownership and 99% of tax benefits	Google Energy - 12 years Dairyland Power - 10 years	1/5/21	155 MW
Jayhawk Wind Farm	Apex Clean Energy	$282M for 90% ownership and 99% of tax benefits	Meta Platforms Inc. 10 years	12/15/21	190 MW
Thunderhead Wind Energy Center	Invenergy	$381M for 90% ownership	TBA – new PPAs with Fortune 100 companies 12 years	11/16/22	300 MW
Sapphire Sky Wind Energy Center	Invenergy	$442M expected for 90% ownership	Fortune 100 Technology Company	Projected: Early 2023	250 MW
Maple Flats Solar Energy Center	Invenergy	$360M expected for 80% ownership	Fortune 100 Company	Projected: Early 2024	250 MW

Today and Tomorrow

Why Our Natural Gas Distribution Networks Matter

Our Service Area

- 65-78% of homes use natural gas for heating
- Growth continues as customers convert to natural gas

Hydrogen and RNG Opportunities

- Potential to blend
- Investment potential to convert existing distribution networks

Electric Conversion Debate

- Today, electric heat pumps in our region are substantially more costly than natural gas heating*
- Natural hedge in Wisconsin since we serve both electric and natural gas customers
- Currently participating in Low Carbon Resource Initiative and other electrification R&D

Weather in the map reflects (in Fahrenheit) actual temperatures reported by NOAA during the January 2019 polar vortex.

* Based on independent, third-party research for the region we serve.

New Liquefied Natural Gas (LNG) Storage Facilities

Taking Steps to Maintain Reliable and Affordable Service for Our Customers

LNG will provide a solution for Southeastern Wisconsin to meet peak customer demand on the coldest days of the year.

- We Energies received approval for two LNG facilities to address the need for additional natural gas supply in Wisconsin
- Total expected investment: $370 million
- Construction in progress
- Targeted in-service date:
  - Bluff Creek LNG Facility: 2023
  - Ixonia LNG Facility: 2024

Project Highlights

Efficiency, Growth and Sustainability Progress

Taking Steps to Maintain Reliable and Affordable Service for Our Customers

Electric delivery redesign/resilience

- Addressing aging infrastructure and system hardening
- Enhancing efficiencies and reducing operating costs
- Expect to spend $3.6 billion (2023-2027) with continued investment over next decade

Project Highlights

Efficiency, Growth and Sustainability Progress

Taking Steps to Maintain Reliable and Affordable Service for Our Customers

Natural Gas Safety Modernization

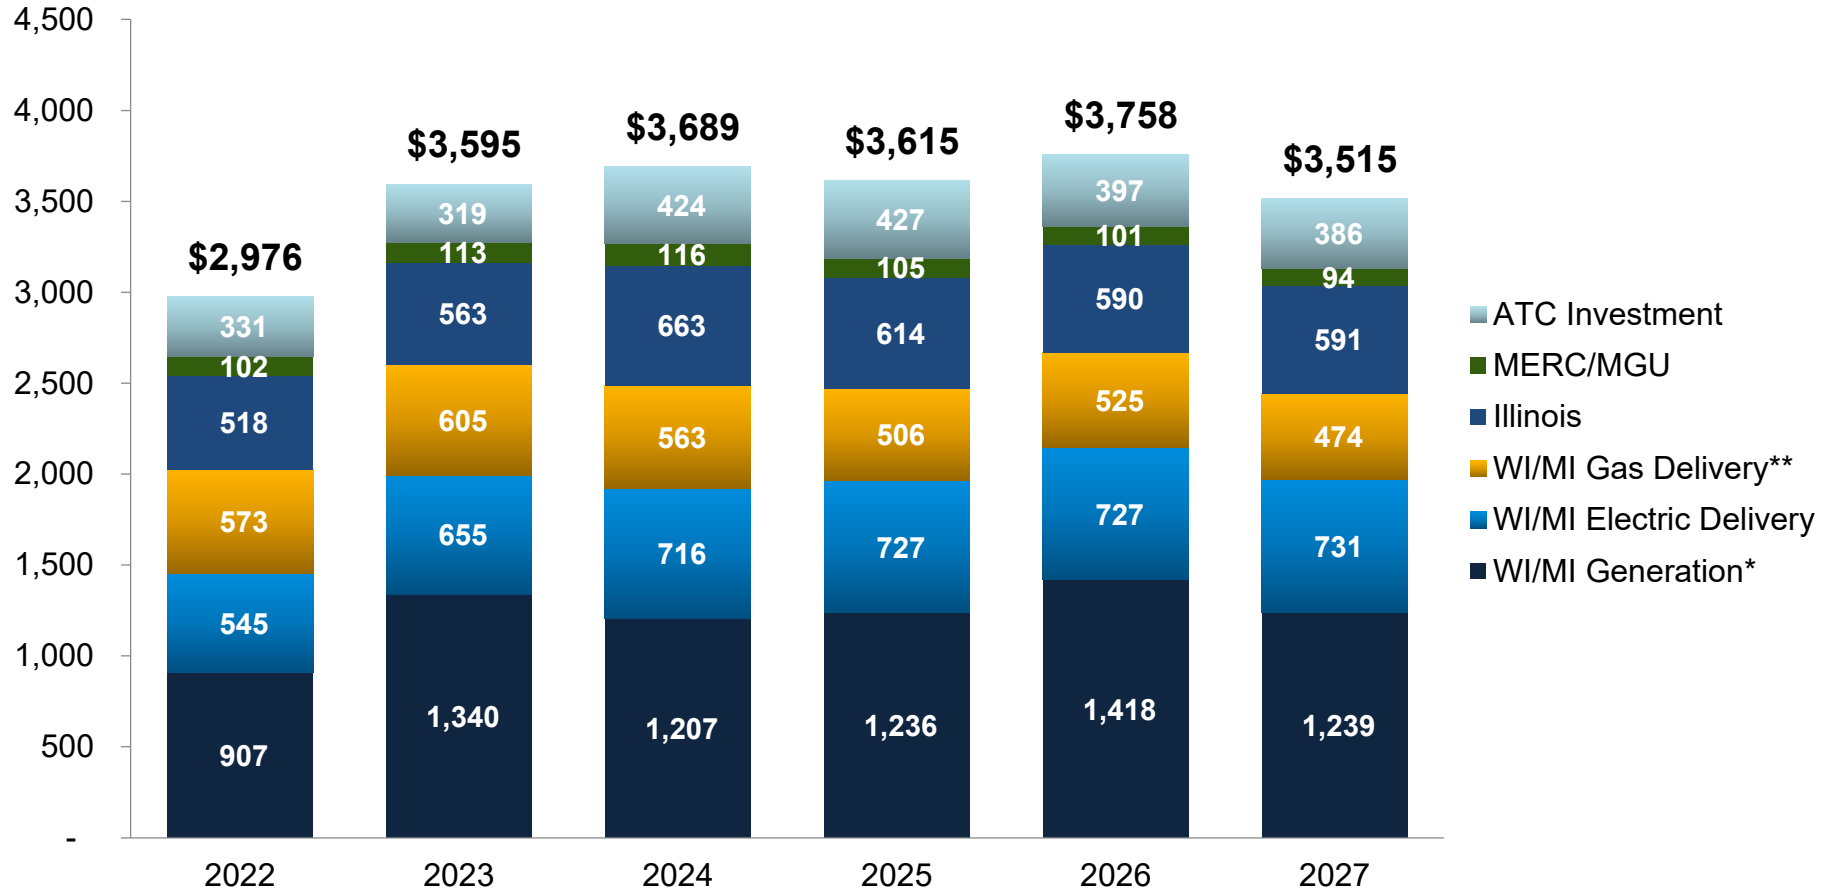

- Increasing capacity and reliability of natural gas service in our territories

Illinois

- Expected replacement of 2,000 miles of piping for safety and reliability in Chicago
- Project $280 million-$300 million annual average investment
- Illinois law authorizes rider through 2023
- Continued investment planned over next decade

$18.2 billion projected capital spend from 2023-2027

Utility Capital Plan Drives EPS Growth

Depreciation at the utilities expected to average $1.3 billion annually, and $150 million at ATC, over the 2023-2027 period

* Generation includes capital spend at We Power
** Delivery includes capital spend at Bluewater

By Company

Capital Plan Projections *($ in millions)*

	2022	2023	2024

American Transmission Company	2.5	10.0
Total	**$25.0**	**100%**

Note: We Power value represents investment book value.

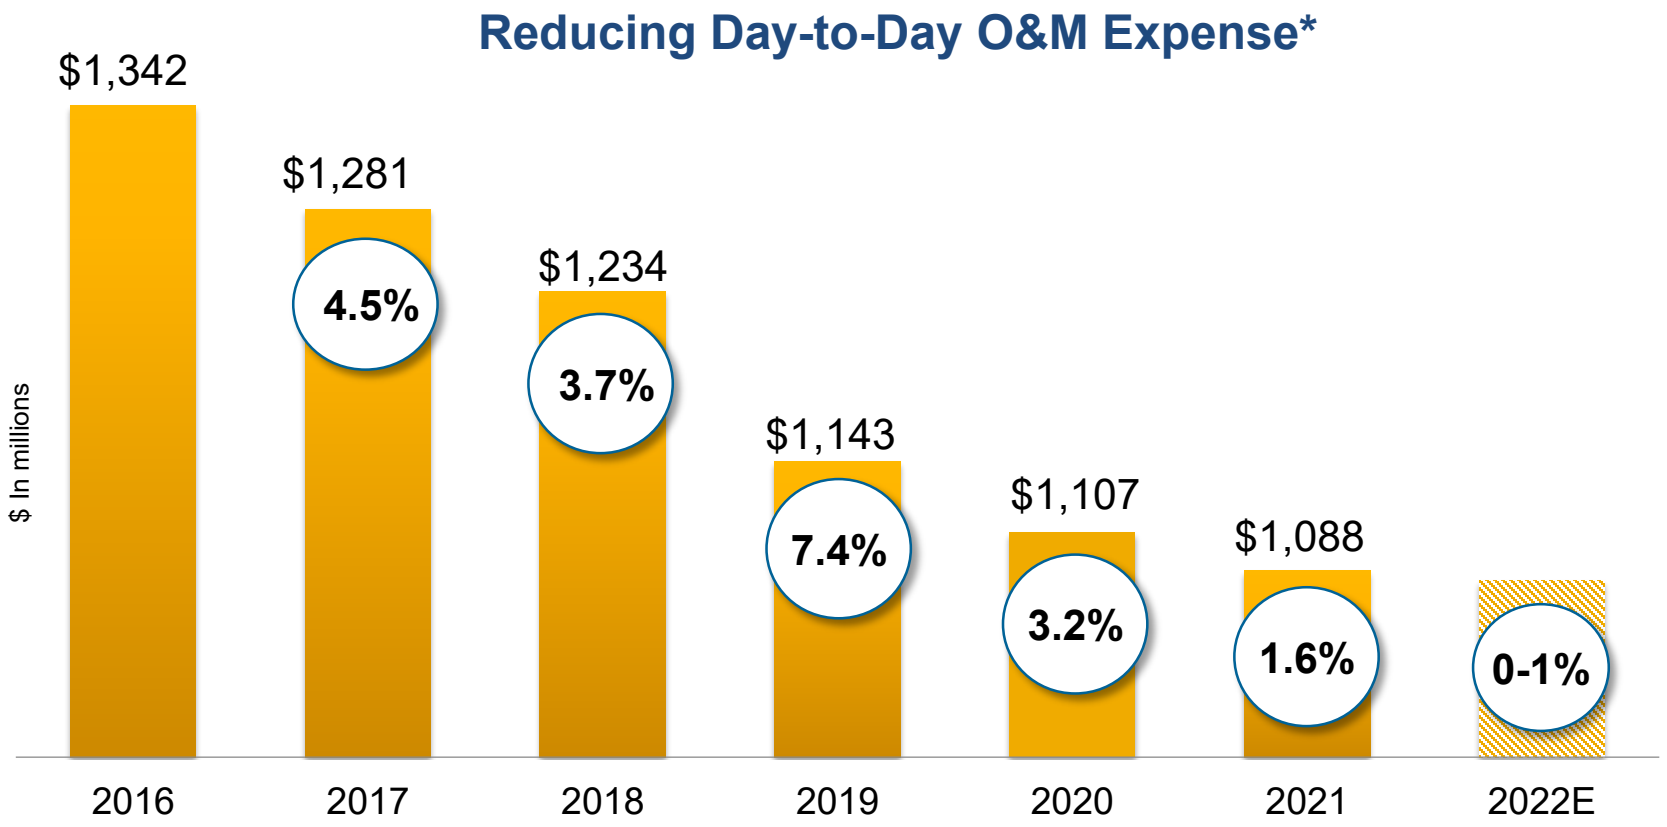

National Leader in Operating Efficiency and Financial Discipline

Source: FERC Form 1 Reports

*For all companies, excluded 1) pensions and other employee benefits, 2) costs reported as “transmission of electricity by others” to neutralize differences in ownership of the transmission utilized by each utility, and 3) costs reported as “rents” within the production section to control for difference in how power plants are owned and financed.

Focused on Efficiency

*Excludes costs that have a revenue offset such as operation and maintenance costs associated with the We Power generation units, transmission expenses that are collected in rates, regulatory amortizations, riders and other pass-through expenses.

Balance Sheet Remains Strong

Tax Benefit Related to Tax Cuts and Jobs Act of 2017	–	–	–	$ (0.65)
Adjusted EPS – Non-GAAP Basis*	**$2.65**	**$2.73**	**$ 2.97**	**$ 3.14**

* WEC Energy Group has provided adjusted earnings per share (non-GAAP earnings per share) as a complement to, and not as an alternative to, reported earnings per share presented in accordance with GAAP. Adjusted earnings per share exclude, as applicable, (1) a one-time reduction in income tax expense related to a revaluation of our deferred taxes as a result of the Tax Cuts and Jobs Act of 2017; (2) costs related to the acquisition of Integrys Energy Group; (3) the results of operations of Integrys and its subsidiaries; and (4) the additional shares of WEC Energy Group common stock that were issued as part of the acquisition. None of these items are indicative of WEC Energy Group's operating performance. Therefore, WEC Energy Group believes that the presentation of adjusted earnings per share is relevant and useful to investors to understand the company's operating performance. Management uses such measures internally to evaluate the company's performance and manage its operations.
