Cautionary Statement Regarding Forward-Looking Information

Much of the information contained in this presentation is forward-looking information based upon management’s current expectations and projections that involve risks and uncertainties. Forward-looking information includes, among other things, information concerning earnings per share, rate case activity, earnings per share growth, cash flow, dividend growth and dividend payout ratios, debt redemptions, construction costs and capital expenditures, investment opportunities, corporate initiatives, rate base, and future electric sales. Readers are cautioned not to place undue reliance on this forward-looking information. Forward-looking information is not a guarantee of future performance and actual results may differ materially from those set forth in the forward-looking information.

In addition to the assumptions and other factors referred to in connection with the forward-looking information, factors that could cause Wisconsin Energy’s actual results to differ materially from those contemplated in any forward-looking information or otherwise affect our future results of operations and financial condition include, among others, the following: general economic conditions, including business and competitive conditions in the company’s service territories; timing, resolution and impact of future rate cases and other regulatory decisions; availability of the company’s generating facilities and/or distribution systems; unanticipated changes in fuel and purchased power costs; key personnel changes; varying weather conditions; continued industry consolidation; our ability to continue to mitigate the impact of Michigan customers switching to an alternative electric supplier; cybersecurity threats; construction risks; equity and bond market fluctuations; the impact of any legislative and regulatory changes; current and future litigation and regulatory investigations; changes in accounting standards; and other factors described under the heading “Factors Affecting Results, Liquidity and Capital Resources” in Management’s Discussion and Analysis of Financial Condition and Results of Operations and under the headings “Cautionary Statement Regarding Forward-Looking Information” and “Risk Factors” contained in Wisconsin Energy’s Form 10-K for the year ended December 31, 2013 and in subsequent reports filed with the Securities and Exchange Commission.

On June 22, 2014, Wisconsin Energy entered into an agreement to acquire Integrys Energy Group for stock and cash consideration valued at $71.47 per share of Integrys stock. The transaction is subject to the receipt of several state and federal regulatory approvals, as well as approvals from the shareholders of both companies. The information contained in this presentation characterizes Wisconsin Energy on a stand-alone basis, and does not reflect any assumptions or expectations with respect to the acquisition or combined company.

Wisconsin Energy expressly disclaims any obligation to publicly update or revise any forward-looking information.
Overview
Retail Electric and Gas Utilities

- Largest electric and gas company in Wisconsin
  - 1.1 million electric customers
  - 1.1 million natural gas customers
Investment Thesis
An “Earn and Return” Company with a Low Risk Profile

- Positive free cash flow

- Targeted EPS growth of 4%-6%

- Best in class dividend growth - targeting a dividend payout ratio of 65%-70% of earnings in 2017
  - Implies 7%-8% dividend growth annually 2015-2017

- Proven management team that has delivered strong financial results and operational excellence

- Balanced regulatory climate
A Track Record of Performance
Consistent Earnings and Dividend Growth

Wisconsin Energy is the **only** company in the
- S&P Electric Index
- S&P Utilities Index
- Philadelphia Utility Index
- Dow Jones Utilities Average

that has grown earnings per share and dividends per share every year since 2003

Summary of our Core Business

Rate Base and Power the Future Investment at 12/31/13

- **Retail Electric and Gas Utilities**
  - Wisconsin, Michigan, and FERC jurisdictions
  - 48.5% to 53.5% equity for Wisconsin Electric
    - 10.4% allowed ROE
  - 45% to 50% equity for Wisconsin Gas
    - 10.5% allowed ROE

- **Power the Future**
  - 53% to 55% equity levels in lease agreements
  - 12.7% ROE fixed in lease agreements

- **Wholesale Electric Transmission**
  - FERC jurisdictional
  - 50% equity level for rates
  - 12.2% ROE with true-up

Note: Value for retail electric and gas utilities represents rate base. Power the Future value is book value of investment. Wholesale electric transmission is 26.2% of ATC’s rate base.

(1) Includes allocation of approximately $375 million of 6.25% rate holding company debt
(2) 26.2% investment in ATC
(3) Includes unallocated holding company debt and other miscellaneous corporate costs
From 2014 through 2018, our plan is to invest $3.2 to $3.5 billion in needed infrastructure projects that will:

- Renew and modernize our grid
- Meet new environmental standards
- Reduce our operating costs for customers

From 2014 through 2023, our plan is to invest $6.5 to $7.1 billion in needed infrastructure
Where We Go From Here

Five-Year Capital Investment in our Retail Utilities
(Projected Investment, In millions)

Depreciation expected to average $375 million annually over the five-year period
Between 2014 and 2018, we plan to:

- Rebuild 2,000 miles of electric distribution lines that are more than 50 years old
- Replace:
  - 18,500 power poles
  - 20,000 transformers
  - Hundreds of substation components
Between 2014 and 2018, we also plan to:

- Replace:
  - 1,100 miles of vintage plastic and steel gas mains
  - 83,000 individual gas distribution lines
  - 233,000 meter sets
Where We Go From Here

Ten-Year Capital Investment in our Retail Utilities
(Projected Investment, In millions)

Depreciation expected to average $425 million annually over the ten-year period
Where We Go From Here
Ten-Year Capital Projection 2014 - 2023

$6.5 to $7.1 billion investment in our core business

Plus Additional Growth Opportunities

- ATC – Traditional Footprint
  - $3.0 to $3.6 billion
  - WEC Ownership 26.2%
- DATC – Outside ATC Traditional Footprint
  - $4.0 billion +
  - WEC Interest 13.1%
- Natural Gas Expansion/Conversion
- State of Wisconsin Energy Assets

Power the Future:
$0.2B

Retail Utilities:
$6.5B to $6.9B
Where We Go From Here

Western Wisconsin Gas Expansion

- Additional natural gas distribution capacity needed to address reliability and to meet growth in customer demand
  - Propane conversion - ten municipalities have passed franchise resolutions to receive natural gas service
  - Frac sand mining - increase from 10 to 115 licensed sand mining operations since 2010
- Received verbal approval from the Wisconsin Commission
- Expected initial investment for the 85-mile lateral: $175 million

Sand Plants – Wisconsin

Wisconsin Energy Corporation
Where We Go From Here

Renewable Energy Investments

- Biomass plant completed
  - 50MW
  - Investment of $269 million
  - Commercial operation began in November of 2013

- Renewable fleet in place
  - Glacier Hills Wind Park (162 MW, in service since 2011)
  - Blue Sky Green Field Wind Park (145 MW, in service since 2008)
  - Montfort Wind Energy Center (30 MW, purchased in 2012)

- We expect to be in compliance with the Wisconsin renewable portfolio standard through 2023
In 2012 announced plans to convert Valley from coal to natural gas

Targeting completion of the conversion for late 2015

Follows completion of a $26 million gas pipeline upgrade with expected completion in 2014

Projected conversion cost for Valley: $65 to $70 million
In 2012 announced plans to build a new powerhouse at Twin Falls
- Existing powerhouse is in need of repair
- Construction began in the fall of 2013 with scheduled completion in 2016
- Expected cost: $60 to $65 million
Wisconsin has biennial rate cycle
- Two year forward looking test years
- Apply in 2014 for 2015 and 2016 rates

Settlement for ROE, capital structure, and base rate changes reached in May
- Wisconsin Electric ROE of 10.2%, Wisconsin Gas ROE of 10.3%
- Wisconsin Electric capital structure unchanged (at 51% equity midpoint), Wisconsin Gas equity component increased to 49.5% (from 47.5%)
- Non-fuel electric rate increase of $41.5 million or 1.4% in 2015

Remainder of the case will focus on rate design and 2015 fuel recovery

Expect final order this fall
Two iron ore mines in Michigan’s Upper Peninsula switched to an alternate energy supplier effective September 1, 2013

Entered into ‘System Support Resource’ agreement with MISO at the end of January for payments to support operation of Presque Isle power plant for one year

RFP process to sell the plant did not produce any bids

Assessing long-term alternatives
Where We Go From Here

Growth at American Transmission Company

Projected Capital Expenditures (Millions of Dollars)

- 2014: $370
- 2015: $411
- 2016: $541

Key Assumptions

- ATC rate base at year end 2014 is projected to be about $2.9 billion
- ATC projects a need for $3.0-$3.6 billion of transmission improvements in its footprint from 2013 to 2022
- Implies average $68 million effective annual rate base growth for WEC from 2014 to 2016
- Excludes potential transmission projects outside ATC’s traditional footprint
Where We Go From Here

DATC

- Joint venture between Duke Energy and ATC (DATC)
  - Ownership is split 50/50 between Duke and ATC

- DATC has identified three distinct investment opportunities
  - California’s Path 15 transmission line (purchased interest on April 30, 2013)
  - Transmission projects in the Midwest
    - Approximately $4 billion of potential investment over ten years
  - Zephyr Power Transmission Project
Where We Go From Here

Industry Leading Dividend Growth

- The board of directors raised the quarterly dividend in January to 39 cents a share – equivalent to an annual rate of $1.56 a share
  - Represents a 30% increase over the rate in effect during 2012

- The board of directors also affirmed a target payout ratio of 65-70 percent of earnings in 2017
  - Supports 7-8 percent dividend increases from 2015-2017
Key Takeaways on Wisconsin Energy
An “Earn and Return” Company with a Low Risk Profile

- Power the Future program now complete
  - Highly visible earnings and strong cash flow
- Well-managed utility franchises with rate base growth
- Investment in American Transmission Company provides an additional regulated growth opportunity
- Positioned to deliver among the best risk-adjusted returns in the industry
  - Positive free cash flow
  - Best in class dividend growth story
